Note 1 - Description of Plan

The following description of Nelson & Pope 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

Fidelity Management Trust Company ("Fidelity") is the custodian responsible for all of the Plan's investment assets.

All participants upon entry to the Plan elect the type of investment fund or funds into which they are to contribute. Participants may elect to change the type of investment allocation at any time during the year. Nelson & Pope Engineers & Land Surveyors, PLLC (the "Employer" or "Sponsor" or "Company") has the power to remove and replace the Plan custodian at any time. The employees of Nelson Pope & Voorhis LLC and Port Jefferson Engineering & Surveying PLLC, related companies with common ownership, also are eligible to participate in the Plan.

The Plan, which became effective January 1, 2001, is a defined contribution plan covering all eligible nonunion employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, eligible employees may elect to contribute to the Plan up to the maximum amount permitted by the Internal Revenue Code ("IRC"). Participants' tax-free contributions per Section 402(g) of the IRC for the year ended December 31, 2012 were limited to $17,000. Participants who have attained age 50 before the end of the Plan year, are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

Employer matching contributions are at the discretion of the board of trustees of the Employer. The matching Employer contribution is invested as directed by the participant. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of the Employer's contribution and Plan earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Employer's contribution portion of their accounts is based on years of continuous service. Participants are 100% vested in their Employer contribution accounts after three years of credited service.

Note 1 - Description of Plan (cont'd.)

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participants' accounts and bear interest at 5%, which is commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through bi-weekly payroll deductions.

Payment of Benefits

Participants are eligible to receive benefit payments when they terminate service or reach age 59 ½. On termination of service, a participant may elect to receive an annuity, installment payments or a lump sum amount equal to the participant's account. Benefit payments are also permitted for death, disability and hardship.

Forfeited Accounts

Pursuant to the Plan document, if a participant terminates employment and is less than 100% vested in the Employer account, the participant may forfeit the nonvested portion of his or her Employer account. At December 31, 2012 and 2011, forfeited nonvested accounts totaled $350 and $341, respectively. These accounts will be used to reduce Employer matching contributions for the succeeding Plan year. For the year ended December 31, 2012, there were no forfeitures allocated to participant accounts.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Plan considers all highly liquid investments with original maturities of three months or less when purchased to be cash equivalents.

Note 2 - Summary of Significant Accounting Policies (cont'd.)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Administrative Expenses

Administrative expenses of the Plan are paid by the Employer, except for $2,843 which was paid by the Plan.

Note 3 - Concentration of Credit Risk

The Plan maintains cash balances in a financial institution. Interest-bearing balances are insured by the Federal Deposit Insurance Corporation ("FDIC") for up to $250,000 per institution. In addition, all funds in noninterest-bearing accounts are insured by the FDIC through December 31, 2012. From time to time, the Plan's balances may exceed these limits.

Note 4 - Investments

At December 31, 2012 and 2011, investments that represent 5% or more of the Plan's net assets consisted of the following:

	2012	2011
Mutual Funds:		
Fidelity Freedom 2020	$ 1,376,985	$ 1,162,524
Fidelity Freedom 2030	1,160,893	987,014
Fidelity Freedom 2040	643,970	551,301
Fidelity Freedom 2015	717,167	599,155
Fidelity Freedom 2025	691,696	*
Fidelity Freedom 2035	420,529	358,210
Fidelity Freedom 2045	402,280	*

* Fund was not greater than 5% of net assets at December 31, 2011.

Note 5 - Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements and Disclosures* ("FASB ASC 820"), provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Note 5 - Fair Value Measurements (cont'd.)

Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2012 and 2011.

The Level 1 inputs relate to mutual funds whose underlying assets are valued at the net asset value of shares held by the Plan at year-end.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value at December 31, 2012 and 2011:

	Assets at Fair Value at December 31, 2012			
	Level 1	Level 2	Level 3	Total
Mutual Funds:

Note 6 - Information Prepared and Certified By Custodian

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by Fidelity, the custodian of the Plan, at December 31, 2012 and 2011 and for the year ended December 31, 2012. This information has not been audited by the independent auditors.

	2012	2011
Investments, at fair value:		
Mutual funds	$ 7,542,277	$ 6,177,680
Investment income:		
Interest and dividend income	$ 178,263	
Net appreciation in fair value of investments in:		
Mutual funds	$ 643,169	

Note 7 - Related Party Transactions

Plan investments are shares of mutual funds and money market funds managed by Fidelity. Fidelity is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. For the year ended December 31, 2012, the fees paid to Fidelity amounted to $2,843.

Note 8 - Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 9 - Tax Status

The Internal Revenue Service (“IRS”) has determined and informed the Company by a letter dated March 31, 2008 that the Plan, based on its initial filing as a Prototype Plan, is qualified and the trust established under the Plan is tax-exempt, under the appropriate sections of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. The Plan administrator believes that the Plan was qualified and the related trust was tax-exempt at the financial statement date.

Note 9 - Tax Status (cont'd.)

Accounting principles generally accepted in the United States of America require Plan management to evaluate uncertain tax positions taken by the Plan and recognize a tax benefit only if it is more likely than not that the tax position would be sustained upon examination by the IRS.

The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that at December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Note 10 - Risks and Uncertainties

The Plan invests in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits.

Note 11 - Subsequent Events

The Plan administrator has evaluated all events or transactions that occurred after December 31, 2012 through the date of these financial statements, which is the date that the financial statements were available to be issued. During this period, there were no material subsequent events requiring disclosure.

Note 1 - Description of Plan

The following description of Nelson & Pope 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

Fidelity Management Trust Company ("Fidelity") is the custodian responsible for all of the Plan's investment assets.

All participants upon entry to the Plan elect the type of investment fund or funds into which they are to contribute. Participants may elect to change the type of investment allocation at any time during the year. Nelson & Pope Engineers & Land Surveyors, PLLC (the "Employer" or "Sponsor" or "Company") has the power to remove and replace the Plan custodian at any time. The employees of Nelson Pope & Voorhis LLC and Port Jefferson Engineering & Surveying PLLC, related companies with common ownership, also are eligible to participate in the Plan.

The Plan, which became effective January 1, 2001, is a defined contribution plan covering all eligible nonunion employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, eligible employees may elect to contribute to the Plan up to the maximum amount permitted by the Internal Revenue Code ("IRC"). Participants' tax-free contributions per Section 402(g) of the IRC for the year ended December 31, 2012 were limited to $17,000. Participants who have attained age 50 before the end of the Plan year, are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

Employer matching contributions are at the discretion of the board of trustees of the Employer. The matching Employer contribution is invested as directed by the participant. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of the Employer's contribution and Plan earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Employer's contribution portion of their accounts is based on years of continuous service. Participants are 100% vested in their Employer contribution accounts after three years of credited service.

Note 1 - Description of Plan (cont'd.)

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participants' accounts and bear interest at 5%, which is commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through bi-weekly payroll deductions.

Payment of Benefits

Participants are eligible to receive benefit payments when they terminate service or reach age 59 ½. On termination of service, a participant may elect to receive an annuity, installment payments or a lump sum amount equal to the participant's account. Benefit payments are also permitted for death, disability and hardship.

Forfeited Accounts

Pursuant to the Plan document, if a participant terminates employment and is less than 100% vested in the Employer account, the participant may forfeit the nonvested portion of his or her Employer account. At December 31, 2012 and 2011, forfeited nonvested accounts totaled $350 and $341, respectively. These accounts will be used to reduce Employer matching contributions for the succeeding Plan year. For the year ended December 31, 2012, there were no forfeitures allocated to participant accounts.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Plan considers all highly liquid investments with original maturities of three months or less when purchased to be cash equivalents.

Note 2 - Summary of Significant Accounting Policies (cont'd.)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Administrative Expenses

Administrative expenses of the Plan are paid by the Employer, except for $2,843 which was paid by the Plan.

Note 3 - Concentration of Credit Risk

The Plan maintains cash balances in a financial institution. Interest-bearing balances are insured by the Federal Deposit Insurance Corporation ("FDIC") for up to $250,000 per institution. In addition, all funds in noninterest-bearing accounts are insured by the FDIC through December 31, 2012. From time to time, the Plan's balances may exceed these limits.

Note 4 - Investments

At December 31, 2012 and 2011, investments that represent 5% or more of the Plan's net assets consisted of the following:

	2012	2011
Mutual Funds:		
Fidelity Freedom 2020	$ 1,376,985	$ 1,162,524
Fidelity Freedom 2030	1,160,893	987,014
Fidelity Freedom 2040	643,970	551,301
Fidelity Freedom 2015	717,167	599,155
Fidelity Freedom 2025	691,696	*
Fidelity Freedom 2035	420,529	358,210
Fidelity Freedom 2045	402,280	*

* Fund was not greater than 5% of net assets at December 31, 2011.

Note 5 - Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements and Disclosures* ("FASB ASC 820"), provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Note 5 - Fair Value Measurements (cont'd.)

Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2012 and 2011.

The Level 1 inputs relate to mutual funds whose underlying assets are valued at the net asset value of shares held by the Plan at year-end.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value at December 31, 2012 and 2011:

	Assets at Fair Value at December 31, 2012			
	Level 1	Level 2	Level 3	Total

Note 6 - Information Prepared and Certified By Custodian

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by Fidelity, the custodian of the Plan, at December 31, 2012 and 2011 and for the year ended December 31, 2012. This information has not been audited by the independent auditors.

	2012	2011
Investments, at fair value:

Investment income:		
Interest and dividend income	$ 178,263	
Net appreciation in fair value of investments in:

Note 7 - Related Party Transactions

Plan investments are shares of mutual funds and money market funds managed by Fidelity. Fidelity is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. For the year ended December 31, 2012, the fees paid to Fidelity amounted to $2,843.

Note 8 - Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 9 - Tax Status

The Internal Revenue Service (“IRS”) has determined and informed the Company by a letter dated March 31, 2008 that the Plan, based on its initial filing as a Prototype Plan, is qualified and the trust established under the Plan is tax-exempt, under the appropriate sections of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. The Plan administrator believes that the Plan was qualified and the related trust was tax-exempt at the financial statement date.

Note 9 - Tax Status (cont'd.)

Accounting principles generally accepted in the United States of America require Plan management to evaluate uncertain tax positions taken by the Plan and recognize a tax benefit only if it is more likely than not that the tax position would be sustained upon examination by the IRS.

The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that at December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Note 10 - Risks and Uncertainties

The Plan invests in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits.

Note 11 - Subsequent Events

The Plan administrator has evaluated all events or transactions that occurred after December 31, 2012 through the date of these financial statements, which is the date that the financial statements were available to be issued. During this period, there were no material subsequent events requiring disclosure.
