Note 1 - Plan Description

The following description of the Bernstein Litowitz Berger & Grossmann LLP Employees 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

a) General

The Plan is a defined contribution plan established for the benefit of all full-time employees of Bernstein Litowitz Berger & Grossmann LLP (the "Company" or "Plan Sponsor") who have completed one year of service and are at least twenty-one years of age as of their entry date (January 1, April 1, July 1 and October 1) following their hire date. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan sponsor determines the appropriateness of the Plan's investment offerings, monitors investment performance and is responsible for oversight of the Plan.

b) Contributions

Participants may elect to contribute an amount limited to their annual compensation, subject to certain limitations (Note 12). Additionally, participants that have reached the age of 50 before the close of the Plan year are eligible for a catch-up contribution. Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions).

Participants direct the investment of their contributions into investment options (Note 4) offered by the Plan. Various investment fund options are being offered to the participants, who may change their investment direction at any time throughout the year.

c) Participant Accounts

Each participant's account is credited/charged with the participant's contribution, benefits paid, and an allocation of Plan earnings (losses) and administrative expenses. Earnings (by investment option) and administrative expenses are allocated based on relative participant account balances. A participant is entitled to the benefit that can be provided from the participant's account.

d) Vesting

Participants are immediately vested in the value of their accounts.

Note 1 - Plan Description (Continued)

e) Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.75% to 8.25% and mature through April 2030. The interest rate on loans issued subsequent to 2009 is fixed (at 1½% above the prime rate at date of issue) over the loan term. Principal and interest is paid ratably through payroll deductions.

f) Payment of Benefits

Distributions are permitted upon termination of service. In service distributions are permitted upon attaining age 59 ½ or for reasons of hardship. Benefits up to the amount of the participant's account value can be taken as a lump-sum distribution (or in installments in the event of a participant's death).

Note 2 - Summary of Significant Accounting Policies

a) Subsequent Events

Subsequent events were evaluated through October 3, 2013, which is the date the financial statements were available to be issued (Note 12).

b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan sponsor to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

c) Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

d) Notes Receivable from Participants

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Delinquent participant loans are reclassified as benefit payments based on the terms of the Plan document.

Note 2 - Summary of Significant Accounting Policies (Continued)

e) Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (Note 5). Plan management determines the Plan's valuation policies utilizing information provided by the custodian.

Interest income is recorded on the accrual basis. Net appreciation in fair value of investments includes the Plan's gains and losses on investments sold as well as held during the year.

f) Payment of Benefits

Benefits are recorded when paid.

g) Administrative Expenses

Administrative expenses are primarily paid by the Plan Sponsor which reserves the right to charge such future expenses to the Plan. Those expenses are excluded from these financial statements.

h) Reclassifications

The presentation of certain amounts in the 2011 statement of net assets available for benefits have been reclassified to conform to the current year presentation. This reclassification has no effect on the reported amount of net assets available for benefits.

Note 3 - Unaudited Information Prepared and Certified by the Plan Custodian

The custodian, The ING Life Insurance and Annuity Company, holds the Plan's investments and executes transactions therein. Financial information relating to investments and changes therein included in the financial statements (including the notes) and supplemental schedule are based entirely on information provided and certified as complete and accurate by the custodian in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information has not been audited by the independent auditors.

Note 4 - Investments

Investments that represent 5% or more of the Plan's net assets are as follows:

	December 31	
	2012	2011
ING Index Solution 2045 Portfolio - Adviser Class	**$1,610,248**	$1,157,378
ING Index Solution 2025 Portfolio - Adviser Class	**$1,227,446**	$1,013,510
ING Index Solution 2035 Portfolio - Adviser Class	**$1,120,191**	$ 919,987
ING Index Solution 2015 Portfolio - Adviser Class	**$ 794,644**	$ 767,867
ING Index Solution Income Portfolio - Adviser Class	**$ 381,449**	$ 347,625

Investment options consist of:

a) Lifecycle Funds

The ING Solution Portfolios are a suite of target date institutional fund of funds that are designed to meet the needs of retirement plan investors who prefer a single diversified investment option.

b) Growth and Value Stock Funds

These categories normally invest in common stocks of companies included in the Russell and S&P Indexes, ranging from large to small capitalized companies.

c) Global Equity Fund

The fund's strategy typically is to invest in emerging and developing market stocks.

d) Investment Contract with Insurance Company

The ING Fixed Account is intended to be a long-term investment for participants seeking stability of principal. The assets supporting it are invested by The ING Life Insurance and Annuity Company, the custodian, and provides stable credited interest rates.

e) Blended and Bond Funds

The funds primarily invest in income producing bonds and equity securities of large capitalized companies.

Note 4 - Investments (Continued)

f) Money Market Funds

This category seeks current income consistent with maintaining liquidity and preserving capital. The funds invest in high quality, short term investments.

g) Other Funds

This category consists of funds investing in small to mid capitalized U.S and foreign stocks and a fund that invests primarily in companies that own, operate, develop or manage real estate.

Note 5 - Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices for identical assets in active markets that the Plan has the ability to access and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets and Level 3 inputs are unobservable and significant to the fair value measurement and have the lowest priority. The Plan uses appropriate valuation techniques based on available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. No Level 1 inputs were available to the Plan, and Level 3 inputs were only used when Level 2 inputs were not available.

The Plan's policy is to recognize transfers into and out of the various levels as of the date the event or change in circumstances that caused the transfer. For the year ended December 31, 2012, there were no transfers between the levels.

Note 5 - Fair Value Measurements (Continued)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2012 and 2011.

a) Level 2 Fair Value Measurements

The pooled separate accounts invest in domestic and foreign stocks, bonds and mutual funds (Note 4), and are valued at net asset value (NAV). The NAV is based on the fair value of the underlying investments held by the accounts (less its liabilities). The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. Participant transactions (purchases and sales) may occur daily.

b) Level 3 Fair Value Measurements

The Fixed Account is an investment contract issued by an insurance company (the custodian). The Fixed Account is not traded, and significant other observable inputs are not available. Amounts invested are held in the custodian's general account. The Fixed Account is valued based on the terms of the contract.

The following table sets forth a summary of changes in the fair value of the Plan's investment contract with insurance company for the year ended December 31, 2012:

Balance - January 1, 2012	$ 139,688
Net gains included in changes in net assets available for benefits	10,651
Purchases	128,557
Sales	(275)
Balance - December 31, 2012	$ 278,621

Note 5 - Fair Value Measurements (Continued)

b) Level 3 Fair Value Measurements (Continued)

Approximately $7,500 of the 2012 net gain, included in changes in net assets available for benefits, pertains to units of the investment contract held as of December 31, 2012.

For those assets with fair value measured using Level 3 inputs, the plan sponsor determines the fair value measurement policies and procedures in consultation with its managing director. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted as necessary, based on current market conditions and other third party information.

Note 5 - Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value in the accompanying statements of net assets available for benefits:

	Totals		Fair Value Measurements as of December 31 Using Significant Other Observable Inputs (Level 2)		Significant Unobservable Inputs (Level 3)	
	2012	2011	2012	2011	2012	2011
Pooled separate accounts	**$ 7,196,576**	$ 5,524,182	**$ 7,196,576**	$ 5,524,182		
Investment contract with insurance company	**278,621**	139,688			**$ 278,621**	$ 139,688
	$ 7,475,197	$ 5,663,870	**$ 7,196,576**	$ 5,524,182	**$ 278,621**	$ 139,688

Note 6 - Related Party Transactions

Certain investments are managed by the custodian and/or affiliates and, therefore, qualify as party-in-interest transactions. All administrative expenses were paid to the custodian and/or affiliates. These transactions are exempt from the prohibited transaction rules of ERISA.

Note 7 - Tax Status

The Plan was formed based on a prototype plan offered by a consultant, which received an opinion letter dated March 31, 2008 from the Internal Revenue Service (IRS) which stated the prototype Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code and thus exempt from income taxes. While Plan management did not elect to obtain an individual determination letter from IRS, and has amended the Plan since the consultant's receipt of the opinion letter, it believes the Plan, as currently designed and operated, is in compliance. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan has determined all benefits associated with positions taken for tax purposes would, more likely than not, be sustained upon review by the taxing authorities and therefore has not recognized a liability for unrecognized tax benefits. Tax returns (Form 5500) are filed in the U.S. Federal jurisdiction. The Plan sponsor believes the Plan is no longer subject to tax examinations for years prior to 2009, and there are currently no audits in progress for any tax periods.

Note 8 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, participants would become 100% vested in any employer contributions in addition to their own contributions and earnings thereon.

Note 9 - Risks and Uncertainties

The Plan invests in various investment securities which are exposed to risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 10 - Excess Contributions Payable

To comply with the relevant nondiscrimination provisions of the IRC, contributions received from participants for 2012 are net of repayments of $87,094 returned to participants in 2013. That amount is also reflected on the Plan's statement of net assets available for benefits as excess contributions payable (Note 11).

Note 11 - Reconciliation of Financial Statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits reported in the financial statements to Schedule H of Form 5500 as of December 31, 2012:

Net assets available for benefits reported on the financial statements	$ 7,581,632
Add: excess contributions payable - December 31, 2012	87,094
Less: Market value adjustment of investment contract with insurance company - December 31, 2012 **	(7,569)
Net assets available for benefits reported on Schedule H to Form 5500	$ 7,661,157

** Investment contract reported at contract value on Form 5500.

The following is a reconciliation of the net increase in net assets reported on the financial statements for the year ended December 31, 2012 to Schedule H of Form 5500:

Net increase in net assets reported on the financial statements	$ 1,721,439
Add: Excessive contributions payable – December 31, 2012	87,094
Less: Market value adjustment of investment contract with insurance company - December 31, 2012	(7,569)
Net increase in net assets reported on Schedule H to Form 5500	$ 1,800,964

Note 12 - Subsequent Events

The Plan was amended effective May 1, 2013, principally to provide for a maximum elective deferral contribution of 15% of compensation (Note 1(b)).
