1. **Summary of Accounting Policies**

The financial statements of the Camcraft, Inc. 401(k) Plan and Trust have been prepared under the accrual method of accounting.

Investments and Income Recognition

The Plan's investments are stated at fair value. Shares of mutual funds are valued at quoted market price, which represent the net asset value of shares held by the Plan at year end. Common collective trust funds are stated at fair value as determined by the issuer of the common collective trust funds based on the fair market value of the underlying investments. Common collective trust funds with underlying investments in investment contracts are valued at fair market value of the underlying investments and then adjusted by the issuer to contract value. Participant loans are valued at the outstanding loan balances, plus accrued interest.

The T. Rowe Price Stable Value Common Trust Fund ("Fund") is a collective trust fund sponsored by T. Rowe Price Company. The interest of each participant is represented by units. Units are issued and redeemed daily at the Fund's constant net asset value of $1 per unit. Distributions to the Fund's unit holders are declared daily from the net investment income and automatically reinvested in the Fund on a monthly basis, when paid. It is the policy of the Fund to use its best efforts to maintain a stable net asset value of $1 per unit; although there is no guarantee that the Fund will be able to maintain this value.

Participants ordinarily may direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the Fund, plus earnings, less participant withdrawals and administrative expenses. The Fund imposes certain restrictions on the Plan, and the Fund itself may be subject to circumstances that impact its ability to transact at contract value. Plan management believes that the occurrence of events that would cause the Fund to transact at less than contract value is not probable.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measure attributed for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for plan benefits present the fair value of investment contracts as well as the adjustments of fully benefits-responsive contracts from fair value to contract value. The statement of changes in net assets available for plan benefits is presented on a contract value basis.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

1. **Summary of Accounting Policies (Continued)**

Management fees and operating expenses charged to mutual fund investments are deducted from income earned on a daily basis and are not separately reflected. Management fees and operating expenses charged to the Plan for investments in the common collective trust funds are accrued daily and charged to the Plan at the end of each month. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Estimates

The preparation of financial statements in conformity with United States of America generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect the reported amounts and disclosure. Actual results could differ from those estimates.

Administrative Expenses

The costs incurred in the administration are paid by Camcraft, Inc. (Plan Administrator and Sponsor) ("the Company").

Subsequent Events

We monitor significant events occurring after the balance sheet date and prior to the issuance of the financial statements to determine the impacts, if any, of events on the financial statements to be issued. The Plan has evaluated subsequent events through the date which the financial statements are issued.

2. **Plan Description**

The following description of the Camcraft, Inc. 401(k) Plan and Trust provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was adopted by the Company on January 2, 1992. The Plan Administrator maintains all necessary employment records and determines participant eligibility.

Participation and Vesting

Full-time employees of the Company immediately become eligible to participate in the Plan after attainment of the age of eighteen. Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their account is based on years of continuous service. Vesting is as follows:

Years of Service	Vesting %
0-2	0.00%

Payments of Benefits

Upon termination of services due to death, disability or retirement, a participant may elect to take a lump-sum distribution, a series of equal installments over a period not exceeding ten years, or the purchase of an annuity contract.

2. **Plan Description (Continued)**

Participants' Accounts — Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, (b) plan earnings, and (c) forfeitures of terminated participants' non-vested accounts. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Company Contribution — The Company may make a discretionary profit sharing contribution to the Plan determined each year by the Board of Directors. Also, the Company made a discretionary matching contribution of 75% of the first 6% of base compensation that a participant contributed to the Plan.

Participant Contributions — No contributions are required by participants. However, under the terms of the Plan, a participant may elect to defer between 2% and 80% of pre-tax annual compensation as defined by the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contribution into various investment options offered by the Plan. The Plan currently offers 29 mutual and an investment contract as investment options for participants.

Forfeitures — At December 31, 2012 and 2011, forfeited non-vested accounts totaled $9,610 and $3,158, respectively. These accounts will be used to reduce future employer contributions.

Notes Receivable from Participants — The Plan allows participants to take out loans secured by their vested account balances. Participants may borrow a maximum equal to the lesser of $50,000 or 75% of their vested account balance. Loans must be repaid within five years except for loans used to purchase the participant's principle residence. Interest is charged at a rate similar to that charged by a lending institution for a similar loan. Principal and interest are paid ratably through payroll deductions.

4. **Fair Value Measurements (Continued)**

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quotes and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

Level 2 Fair Value Measurements

The fair value of the common trust funds (T. Rowe Price Stable Value Common Trust Fund) is based on information provided by the issuer of the common trust fund, by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer of the specific instruments held by the fund at year-end.

5. **Plan Termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

6. **Income Tax Status**

The Plan is a non-standard prototype plan sponsored by AccuDraft, Inc. that has been adopted by the Company on June 26, 2006. The prototype plan obtained it latest opinion letter on March 31, 2008 in which the Internal Revenue Service ("IRS") states that the prototype plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has not requested its own determination letter from the IRS. The prototype plan has been amended since receiving the determination letter, however, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan Administrator believes that the Plan was qualified and the related trust was tax exempt as of the financial statement dates.

In line with generally accepted accounting principles in the United States of America, the Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2007.

7. **Risk and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rates, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such change could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

11. Prohibited Transaction

During the Plan year ended December 31, 2012, there were deemed loans made to the Company when employee 401(k) contributions were not remitted to the Plan on a timely basis. Failure to remit participant contributions to the Plan in a timely manner results in prohibited transactions which must be separately reported to the DOL and may result in lost earnings for the Plan and penalties to the Plan Sponsor. As of March 2, 2012, the Company remitted the contributions to the Plan.
