EAS/JMEG 401(K) RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS

1. PLAN DESCRIPTION

The following description of the EAS/JMEG ("Companies") 401(k) Retirement Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all employees of the Companies who have a minimum of 1,000 hours of service and are twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers twenty-two pooled separate accounts as investment options for participants. The Companies may, at the option of their general partners, make matching contributions. Additional profit sharing amounts may also be contributed at the option of the Companies' general partners. Contributions are subject to certain limitations.

Participant accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Companies' contribution and, (b) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Companies' contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after five years of credited service.

Loans to participants - Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest is paid ratably through monthly payroll deductions.

Payment of benefits - On termination of service, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited accounts - At December 31, 2012 and 2011, forfeited nonvested accounts totaled \$12,360 and \$14,783, respectively. These accounts may be used to reduce future employer contributions. In 2012, employer contributions were reduced by \$15,840 from forfeited nonvested accounts.

NOTES TO FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Date of management's review - Subsequent events were evaluated through October 4, 2013, which is the date the financial statements were available to be issued.

Basis of presentation - The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment valuation and income recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants - Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

Payment of benefits - Benefits are recorded when paid.

Operating expenses - Substantially all expenses of maintaining the Plan are paid by the Companies.

Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statement and the reported amount of revenues and expenses for the year then ended. Actual results could differ from those estimates.

3. INVESTMENTS

The December 31, 2012 and 2011 Statements of Net Assets Available for Benefits, the investment activities included on the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2012, and the accompanying notes to the financial statements were prepared in part or entirely from information certified by the trustee in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The information certified includes total investments of \$9,253,373 and \$7,502,399 at December 31, 2012 and 2011, respectively, and related income of \$1,046,085 for the year ended December 31, 2012.

4. FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTES TO FINANCIAL STATEMENTS

4. FAIR VALUE MEASUREMENTS - continued

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Registered Investment Company - Valued at the net asset value (NAV) of shares held by the Plan at year-end.

Pooled Separate Accounts - Valued at the net asset value (NAV) of shares held by the Plan at year-end.

Insurance Company General Accounts - Valued at contract value, which approximates fair value.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

Assets at Fair Value as of December 31, 2012

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

4. FAIR VALUE MEASUREMENTS - continued

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2012.

Level 3 Assets <u>Year Ended December 31, 2012</u>	
	Insurance company general account
Balance, beginning of year	\$ 968,171
Reinvested interest	14,889
Purchases, sales, issuances, and settlements (net)	<u>(212,917)</u>
Balance, end of year	<u><u>\$ 770,143</u></u>

5. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan holds a benefit-responsive guaranteed investment contract with Principal Life Insurance Company (Principal). Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at contract value, which approximates fair value under ordinary circumstances. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the investment contract at December 31, 2012 and 2011, was \$770,143 and \$968,171, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a semiannual basis for resetting.

5. INVESTMENT CONTRACT WITH INSURANCE COMPANY - continued

Certain events limit the Plan's ability to transact at contract value with Principal. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974, or (e) a Plan level liquidation of the contract. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

The average yield for the general account for the year ended December 31, 2012, was approximately 1.45%, based on the actual earnings and the interest rates credited to participants.

6. TAX STATUS

The Plan received a determination dated January 12, 2009, in which the Internal Revenue Service stated that the Plan, as designed, was in compliance with the applicable requirements of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Companies have the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

8. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following schedule reconciles net assets available for benefits as presented in Form 5500 and the financial statements as of December 31, 2012 and 2011:

Net assets available for benefits - Form 5500	<u>\$ 9,726,823</u>	<u>\$ 8,459,502</u>

The following schedule reconciles contributions and distributions reflected in the financial statements to Form 5500 for the year ended December 31, 2012:

Increase in net assets available for benefits - financial statements	\$ 1,725,603
Accruals, beginning of year	
Less excess deferrals refundable to participants	(49,239)
Accruals, end of year	
Less employer contributions receivable	(429,818)
Plus excess deferrals refundable to participants	<u>20,774</u>
	<u>\$ 1,267,320</u>

9. RELATED PARTY TRANSACTIONS

The Plan invests in pooled separate accounts and the insurance company general account sponsored by the trustee, Principal Life Insurance Company.

10. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
