1. DESCRIPTION OF PLAN

The following description of Plas-Pak Industries, Inc. 401(K) Profit Sharing Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

A. General

The Plan is a defined contribution plan covering all employees of the Company whose age is 18 or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

B. Contributions

Each year, participants may contribute the maximum amount of pretax income allowable by law. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company originally made contributions to the Plan based on a matching formula of 50% of the first 6% the employees contributed into the Plan. The Company suspended making voluntary matching contributions February 7, 2009. As of July 1, 2010 the Company resumed making voluntary matching contributions based on a matching formula of 25% of the first 6% the employee contributes into the Plan. As of October 1, 2012 the Company increased the voluntary matching contribution to 50% of the first 6% the employee contributes to the Plan. The matching Company contribution is invested as directed by the participant.

An additional discretionary profit sharing contribution may be contributed by the Company and will be allocated among participants eligible to share in the contribution based on compensation received. There was no additional discretionary contribution made in 2012 or 2011.

C. Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on the participant's compensation or account balance as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

D. Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited services.

1. DESCRIPTION OF PLAN (cont.)

E. Payment of Benefits

On termination of service due to death, disability, retirement or termination of employment, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or annual installments over a period of not more than assumed life expectancy.

F. Forfeitures

Forfeitures of non-vested Company contributions are used to reduce future Company contributions. During 2012 and 2011, \$ -0- and \$ 9,800, respectively, of forfeited participant accounts were used to reduce the Company's contributions. At December 31, 2012 and 2011, forfeited nonvested accounts totaled \$ 724 and \$ 350, respectively.

G. Notes Receivable from Participants

Plas-Pak Industries, Inc. 401k Profit Sharing Plan and Trust permits participants to borrow from their vested account balance with principal and interest being paid over a maximum of a five year period unless the purpose is to acquire a principal residence. The loans are secured by the balance in the participant's account and bear interest at rates determined by the Plan administrator.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Plan's financial statements have been prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on the contract value basis.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Subsequent Events

The Plan Administrator has evaluated subsequent events through October 8, 2013, the date at which the financial statements were available for issuance.

3. INVESTMENTS

Unaudited Information Certified by the Plan Trustee

The December 31, 2012 and 2011 Statements of Net Assets Available for Benefits, the investment activities included on the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2012 and 2011, the supplementary schedule and the accompanying notes to the financial statements were derived, without audit, from information certified to be complete and accurate by the Trustee, John Hancock Life Insurance Company USA, as permitted by the election made by the Plan administrator under 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The information certified includes Total Investments of \$ 2,608,449 and \$ 2,066,404 at December 31, 2012 and 2011, respectively, Total Notes Receivable from Participants of \$ 85,220 and \$ 108,911 at December 31, 2012 and 2011, respectively, and related income (losses) of \$ 306,523 and (\$ 27,046) for the years ended December 31, 2012 and 2011, respectively.

The following presents investments that represent 5 percent or more of the Plan's net assets.

	<u>12/31/12</u>	<u>12/31/11</u>
Global INV - Lifestyle Balanced Fund	\$ 237,294	\$ 213,524

During the years ended December 31, 2012 and 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in net value by \$ 301,688 and (\$32,541), respectively, as follows:

	<u>12/31/12</u>	<u>12/31/11</u>
Mutual Funds	\$ 300,468	\$ (34,991)
Guaranteed Investment Contracts	<u>1,219</u>	<u>2,450</u>

4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1:

Inputs to the value methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2:

Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or by other means.

Level 3:

Inputs to the value methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual Funds: Valued at the quoted net asset value of shares held by the Plan at year end.

Guaranteed Investment Contracts: Valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer (see Note 5). Because the participants transact at contract value, fair value is determined annually for financial reporting purposes only. In determining the reasonableness of the methodology, the Trustees evaluate a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms while others are substantiated utilizing available market data.

4. FAIR VALUE MEASUREMENTS (cont.)

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

4. FAIR VALUE MEASUREMENTS (cont.)

Unrealized gains/(losses) from the guaranteed investment contracts are not included in the Statement of Changes in Net Assets Available for Benefits as the contracts are recorded at contract value for purposes of the Net Assets Available for Benefits.

The Plan's policy is to recognize transfers into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the years ended December 31, 2012 and 2011, there were no significant transfers into or out of Level 3.

5. GUARANTEED INVESTMENT CONTRACTS WITH INSURANCE COMPANY

The Plan's investment options include Guaranteed Investment Contracts with John Hancock with terms of 3, 5, or 10 years. The accounts guarantee the return of principal plus compound interest earned over the defined term provided all contributions remain in the account until the end of the guarantee period. Guaranteed interest rates are based upon the claims paying ability of the issuing company, John Hancock. Interest rates are established on the first day of each calendar month and apply to all regular ongoing contributions made to the account in that month. This is called the "new money" regular rate. At the end of each reporting year, a composite rate of interest is determined based on a dollar-weighted average rate of all contributions to that Guaranteed Interest Account during that reporting year. After the end of each reporting year, contributions made will continue to earn that reporting year's composite interest rate until the end of the guaranteed term.

Withdrawals taken from Guaranteed Interest Accounts prior to the end of the guarantee period may be subject to a market value adjustment based upon the difference between the "new money rate" and the composite rate at the time of an early withdrawal.

Because the Guaranteed Investment Contracts are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contracts. The guaranteed investment contracts are presented on the face of the Statement of Net Assets Available for Benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by John Hancock, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

5. GUARANTEED INVESTMENT CONTRACTS WITH INSURANCE COMPANY
(cont.)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the contracts at December 31, 2012 and 2011, was \$ 151,206 and \$ 146,009, respectively. The crediting interest rate is based on a formula agreed upon with the issuer.

Certain events limit the Plan's ability to transact at contract value with John Hancock. Such events include the following: (a) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the Plan's prohibition on competing investment options, (c) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (d) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan Administrator does not believe that any events that would limit the Plan's ability to transact at contract value with the Plan participants are probable of occurring.

The Guaranteed Investment Contracts do not permit the insurance company to terminate the agreements prior to the scheduled maturity dates.

The average yields for 2012 and 2011 were as follows:

Based on Actual Earnings

	<u>2012</u>	<u>2011</u>
10 Year Term Accounts	0.73 %	1.56 %
5 Year Term Accounts	0.38 %	0.90 %

6. PARTY-IN-INTEREST TRANSACTIONS

Plan assets include investments in funds managed by John Hancock, the Trustee of the Plan, and, as such, transactions with the Trustee qualify as party-in-interest transactions. Administrative fees paid by the Plan to John Hancock totaled \$ 9,328 and \$ 7,931 for the years ended December 31, 2012 and 2011, respectively. In addition, amounts paid to the Independent Auditor, Halloran & Associates LLC qualify as party-in-interest transactions. Professional fees paid to Halloran & Associates LLC totaled \$ 8,400 and \$ 9,800 for the years ended December 31, 2012 and 2011, respectively. Notes receivable from participants (loans) also qualify as party-in-interest transactions. The transactions between these parties-in-interest are exempt under ERISA Section 408. Plas-Pak Industries, Inc. provides the Plan with certain accounting and administrative services for which no fees are charged.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and the Code. In the event of Plan termination, Participants (as defined in the Plan) will become 100 percent vested in the employer contributions allocated to their accounts.

8. TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related Trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2008.

9. RISKS AND UNCERTAINTIES

The Plan's assets are invested, at the discretion of the individual participants, in various investment securities. These investments are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.
