NAS EMPLOYEE SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE A - Description of the plan

The following brief description of the NAS Employee Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established effective January 1, 2012. The Plan covers all eligible employees of the NAS Recruitment Communications, LLC (the Company). The Plan is subject to the provisions of the Internal Revenue Code (IRC) and the Employee Retirement Income Security Act of 1974 (ERISA).

The Company established the Plan in connection with the sale of the Company by Interpublic Group of Companies, Inc. Assets attributable to account balances of eligible employees who were previously participants in the Interpublic Group of Companies, Inc. Savings Plan rolled account balances to the Plan on January 1, 2012. Employees also became eligible to participate in the Plan on January 1, 2012.

Eligibility

Employees are eligible to become participants in the Plan on their date of hire.

Contributions

Participants may elect to contribute from 1% to 25% of their pre-tax and after-tax annual compensation as defined in the Plan or the legal limitation for the applicable year. In addition, as permitted by law, the Plan allowed participants who have attained age 50 to make additional "catch-up" contributions not to exceed \$5,500. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. For employees who have been employed fewer than 10 years, as defined, the Company makes a matching contribution equal to 50% of the first 6% of base and after-tax compensation on behalf of each participant that a participant contributes to the Plan. For employees who have been employed 10 or more years, as defined, the Company makes a matching contribution equal to 75% of the first 6% of base and after-tax compensation on behalf of each participant that a participant contributes to the Plan.

Participant accounts

Participant and Company contributions are transferred to an independent trustee who deposits the funds to each participant's individual account. Participants direct the investment of contributions to their accounts. Investments available to participants include money market, fixed income, and equity funds. Participants can change investment options daily.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of service. A participant is 100% vested after three years of service.

NAS EMPLOYEE SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE A - Description of the plan, continued

Forfeitures

Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan. The forfeited amounts may be used by the Plan for various purposes, such as payment of Plan expenses and reducing employer contributions. There were no significant forfeited amounts in 2012.

Notes receivable from participants

Participants may borrow from their accounts in amounts ranging from a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from one month to five years or up to 10 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account. The loans bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan administrator, as defined, and are 4.25% at December 31, 2012. Principal and interest is paid ratably through semi-monthly payroll deductions.

Payment of benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the vested portion of his or her account, or installment payments as defined in the Plan. Any participant with \$5,000 or less in his account may elect a lump-sum distribution or a rollover to an IRA maintained by a provider selected by the Company. Any participant with \$1,000 or less in his account will automatically receive a lump-sum distribution.

Plan administration

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. In 2012, certain administrative expenses related to trustee and recordkeeping services were paid by the Plan and a portion of the expenses were absorbed by the Company.

NOTE B - Summary of significant accounting policies

Basis of presentation

The financial statements of the Plan have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to defined contribution plans, and in accordance with the Plan agreement. A summary of the significant accounting policies applied in the preparation of the accompanying financial statements follows.

Valuation of investments

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at a measurement date. See Note D for discussion of fair value measurements.

NOTES TO FINANCIAL STATEMENTS

NOTE B - Summary of significant accounting policies, continued

Valuation of investments, continued

The *Accounting Standards Codification* (ASC) Topic on *Defined Contribution Pension Plans* requires that investment contracts held by a defined-contribution plan be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits presents the fair value of the common/collective trust as well as the adjustment from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and those such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Income recognition

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of benefits

Benefits are recorded when paid.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of plan assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported increases and decreases of net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Subsequent events

NOTE C - Certified information

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. NOTE D - Fair value measurements

The ASC *Fair Value Measurements and Disclosure* defines fair value and provides guidance for measuring fair value and expands disclosures about fair value measurements in accordance with accounting principles generally accepted in the United States of America. *Fair Value Measurements and Disclosure* does not require any new fair value measurements, but rather applies to all other accounting pronouncements that require or permit fair value measurements.

NOTES TO FINANCIAL STATEMENTS

NOTE D - Fair value measurements, continued

Fair Value Measurements and Disclosure establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobserved inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 inputs must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NAS EMPLOYEE SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE D - Fair value measurements, continued

Following is a description of the valuation methodologies used for assets measured at fair value.

Registered investment companies- mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trust - Fixed income: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. The funds objective is to maintain stability of principal through underlying assets which maintain an average S&P credit quality. Participant transactions (purchased and sales) may occur daily. All other withdrawals of assets may be delayed for up to twelve months in the sole discretion of the trustee.

The methods described on the previous page may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012:

NOTES TO FINANCIAL STATEMENTS

NOTE E - Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

NOTE F - Federal income tax status

The Plan uses a prototype plan document sponsored by JPMorgan Chase Bank N.A. obtained a blanket opinion letter from the Internal Revenue Service (IRS) dated March 31, 2008, which states that the prototype document satisfies the applicable requirements of the Internal Revenue Code (IRC). The Plan itself has not received a determination letter from the IRS. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for Federal income tax has been made in the financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the tax authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for the tax period in progress.

NOTES TO FINANCIAL STATEMENTS

NOTE G - Reconciliation of Financial Statements to Form 5500

Differences exist between the accompanying financial statements and the amounts reported in the fiscal year 2012 Form 5500 as a result of contributions recognized on the accrual basis of accounting for financial statement purposes and the cash basis used for Form 5500 purposes.

As discussed in the valuation of investments section of Note B, the financial statements report the value of the Plan's stable value trust investment at contract value whereas the Form 5500 reports at fair value.

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2012:

Net assets available for benefits per the financial statements	\$ 6,897,329
Adjustment from contract value to fair value for fully benefit-responsive investment contracts	<u>27,708</u>
Net assets available for benefits per Form 5500	<u>\$ 6,925,037</u>

The following is a reconciliation of income per the financial statements to the Form 5500 for the year ended December 31, 2012:

Income per the financial statements	\$ 1,030,653
Change in adjustment from contract value to fair value for fully benefit-responsive investment contracts	<u>27,708</u>
Income per Form 5500	<u>\$ 1,058,361</u>

NOTE H - Party-in-interest transaction

During the year ended December 31, 2012 administrative fees of \$1,940 were paid by the Plan to the trustee and recordkeepers. These fees qualify as party-in-interest.

NOTE I - Subsequent events

On January 1, 2013, the Company had amended the Plan. The Plan added an automatic deferral provision whereby the employer will automatically withhold 3% of compensation for all qualified employees.
