Independent Auditor's Report

To the Plan Administrator
TUG Technologies Corporation 401(k) Savings Plan
Atlanta, Georgia

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the TUG Technologies Corporation 401(k) Savings Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2012, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Standard Insurance Company ("Standard"), except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that Standard holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from Standard as of December 31, 2012 and 2011, and for the year ended December 31, 2012, that the information provided to the plan administrator by Standard is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental (1) Schedule H, line 4a-Schedule of Delinquent Contributions and (2) Schedule H, line 4i-Schedule of Assets (Held at End of Year) as of or for the year ended December 31, 2012, are required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on the supplemental schedules.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by Standard, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements

1. Description of the Plan

The following description of the TUG Technologies Corporation 401(k) Savings Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan covering substantially all employees of TUG Technologies Corporation (the “Company”) who have completed one month of service and are age eighteen or older except for union employees, leased employees, and nonresident aliens. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). The Plan Committee is responsible for oversight of the Plan. The Investment Policy and Plan Committee determines the appropriateness of the Plan’s investment offerings and monitors investment performance.

Contributions

Each year, participants may contribute up to 100 percent of pretax annual compensation, as defined in the Plan, up to the maximum allowable under the Internal Revenue Code (“IRC”). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled at one percent of eligible compensation unless they affirmatively elect not to participate in the Plan. The Plan may make a discretionary matching or profit sharing contribution. For the plan year 2012, no discretionary matching and profit sharing contributions were made by the Company to the Plan. Contributions are subject to certain Internal Revenue Service (“IRS”) limitations.

Participant Accounts

Each participant’s account is credited with the participant’s contributions as well as allocations of the Company’s discretionary contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting

Participants are vested immediately in their contributions and the Company’s prior safe harbor matching contributions plus actual earnings thereon. Vesting in the Company’s discretionary matching and profit-sharing portion of their accounts is based on years of continuous service. A participant vests 20 percent per year and is 100 percent vested after five years of credited service.

TUG Technologies Corporation 401(k) Savings Plan

Notes to Financial Statements

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability, retirement, or age 59½, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or in substantially equal installments. Withdrawals from the Plan may also be made upon circumstances of financial hardship, in accordance with provisions specified in the Plan. All vested balances less than \$1,000 may be automatically distributed as a lump-sum at the discretion of the Company. Balances between \$1,000 and \$5,000 can be rolled over at the discretion of the Company to a qualified individual retirement account.

Forfeited Accounts

At December 31, 2012 and 2011, there was a zero balance in the forfeiture account. Forfeitures will be used to reduce future employer contributions or will be used to pay for plan expenses. No forfeitures were utilized during 2012.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

New Accounting Pronouncement

In May 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2011-04, *Fair Value Measurement (Topic 820) - Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs* ("ASU 2011-04"), which clarifies the wording and disclosures required in ASC Topic 820, *Fair Value Measurement* ("ASC 820"), to converge with those used (to be used) in International Financial Reporting Standards. The update explains how to measure and disclose fair value under ASC 820. While many of the amendments to US GAAP clarify existing guidance, others represent changes to a principle or requirement for measuring fair value. The effects of the amendments will likely vary by entity, and for some they could be significant. The Plan adopted ASU 2011-04 on January 1,

TUG Technologies Corporation 401(k) Savings Plan

Notes to Financial Statements

2012. The provisions of ASU 2011-04 did not have a material effect on the Plan's Net Assets Available for Benefits or its Changes in Net Assets Available for Benefits.

Accounting Pronouncement to be Adopted

In October 2012, the FASB issued ASU No. 2012-04, Technical Corrections and Improvements ("ASU 2012-04"), which amends a wide variety of Topics in the FASB Accounting Standards Codification ("Codification" or "ASC"). The amendments in ASU No. 2012-04 represent changes to clarify the Codification, correct unintended application of guidance, or make minor improvements to the Codification that are not expected to have a significant effect on current accounting practice. Additionally, the amendments make the Codification easier to understand and the fair value measurement guidance easier to apply by eliminating inconsistencies and providing needed clarifications. Amendments in ASU 2012-04 that do not provide transition guidance were effective upon issuance for both public and nonpublic entities. Amendments that are subject to the transition guidance are effective for fiscal periods beginning after December 15, 2012. The Plan is currently reviewing the provisions of ASU 2012-04, but does not expect it to have a material effect on the Plan's Net Assets Available for Benefits or its Changes in Net Assets Available for Benefits.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivables from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. The Plan classifies notes receivable as in default where no repayments have been made by the last day of the calendar quarter after the calendar quarter in which the repayment is due. No allowance for credit losses has been recorded as of December 31, 2012 and 2011. Defaulted notes receivable from participants are deemed distributed and recorded as benefits paid to participants in the Statement of Changes in Net Assets Available for Benefits. There were no deemed distributions during 2012.

Payment of Benefits

Benefits are recorded when paid.

TUG Technologies Corporation 401(k) Savings Plan

Notes to Financial Statements

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

3. Investments

The following presents investments that represent 5 percent or more of the Plan's net assets.

<i>December 31,</i>	2012	2011
Pooled separate account A	\$ 2,306,232	\$ 1,922,841
Stable asset fund	\$ 1,099,893	\$ 942,122

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used for the assets measured at fair value as of December 31, 2012 and 2011.

TUG Technologies Corporation 401(k) Savings Plan

Notes to Financial Statements

Stable Asset Fund: The stable asset fund is a deposit administration contract with Standard, an insurance company. The fund is valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. See Note 6 for further description of this contract.

The Plan records the stable asset fund at fair value amount provided by Standard without adjustment. The fair value and quantitative unobservable inputs at December 31, 2012 was provided by Standard and were not developed by the Company or the Plan when measuring fair value.

The Standard calculates the fair value to book value ratio in aggregate for all contract-holders of funds backed by The Standard's General Account. The ratio is the aggregate estimated fair value of liabilities divided by the book value of liabilities at the measurement date. In order to determine the aggregate fair value of liabilities, The Standard utilizes the "indirect" method. In this method, the value of liabilities is calculated as the difference between the fair value of assets backing the liability and fair value of capital, which is the accounting balance equation $L = A - C$. Proprietary actuarial models are used to evaluate the fair value of assets and capital. These models take into account the characteristics of the bonds and mortgages in the Retirement Plans (RP) portfolio, current market rates and expected cash flows of contract-holders of funds backed by The Standard's General Account.

Pooled separate account: The Plan's investment in the pooled separate account is stated at fair value and represents the number of participation units owned by the Plan. Quoted market prices of the underlying investments are used to value each fund and are based on the net asset value of the shares held by the Plan at the end of the year.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes to Financial Statements

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

	Assets at fair value as of December 31, 2012

Total assets at fair value	\$ -	\$ 1,922,841	\$ 942,122	\$ 2,864,963

The fair values of the pooled separate account have been calculated using the net asset value per share of the underlying investments. There are no unfunded commitments as of December 31, 2012 and 2011. The following are descriptions of the underlying investments of the pooled separate account:

- (a) **Growth** - The investments seek long-term capital appreciation or increasing dividend income.
- (b) **Blend** - This category seeks long-term appreciation of capital. Certain underlying investments in the fund seek to track the performance of a benchmark index that measures the investment return of mid-capitalization or large-capitalization stocks.
- (c) **Value** - Investments in the fund seek a high and stable rate of current income, long-term capital appreciation or track the performance of a benchmark index that measures the investment return of mid-capitalization value stocks.

TUG Technologies Corporation 401(k) Savings Plan

Notes to Financial Statements

(d) **Moderate allocation/income** - The investment seeks to provide long-term capital appreciation and reasonable current income.

(e) **Specialty-health** - The investments seek long-term capital appreciation.

(f) **Intermediate-term bond** - The investments seek total return.

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2012:

	2012
Stable asset fund	
Balance, beginning of year	\$ 942,122
Interest income	22,241
Unrealized gain	67,849
Purchases	247,763
Sales	(180,082)
Balance, end of year	\$ 1,099,893

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Plan management evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2012, there were no significant transfers in or out of levels 1, 2 or 3.

5. Information Certified by Standard Insurance Company

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Standard Insurance Company has certified that the following data included in the accompanying financial statements and supplemental schedules are complete and accurate.

<i>December 31,</i>	2012	2011
Pooled separate account	\$ 2,306,232	\$ 1,922,841
Stable asset fund, at fair value	\$ 1,099,893	\$ 942,122
Notes receivable from participants	\$ 247,207	\$ 218,456
Adjustment from fair value to contract value for fully benefit-responsive investment contracts	\$ (107,747)	\$ (39,898)

TUG Technologies Corporation 401(k) Savings Plan

Notes to Financial Statements

<i>Year Ended December 31,</i>	2012
Interest income from stable asset fund	\$ 22,241
Interest income on notes receivable from participants	\$ 7,518
Net appreciation in fair value of pooled separate account	\$ 292,356

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information with the related information included in the financial statements and supplemental schedules.

6. Deposit Administration Contract with Standard

The Stable Asset Fund II represents a deposit administration contract ("Contract") entered into by the Plan with Standard. Standard maintains the contributions in an unallocated fund, whose assets are invested with other assets in the general account of Standard. The account is credited with earnings on the underlying investments and charged for Plan withdrawals and administrative expenses by Standard. Participants may direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made under the Contract, plus earnings, less withdrawals and administrative expenses.

Because the deposit administration contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The deposit administration contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Standard, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for the credit risk of contract issuer or otherwise. The fair value of the deposit administration contract at December 31, 2012 and 2011 was \$1,099,893 and \$942,122, respectively.

The contract crediting rate is established at the end of each quarter and is guaranteed for five years. Because the contract crediting rate is subject to reset at the end of each quarter at the current portfolio rate basis, the appropriate discount rate used in the calculation of the fair value equals the contract crediting rate. The effective annual crediting rate and yield for the Contract was approximately 2.20% and 2.40% respectively, for the year ended December 31, 2012 and 2.92% and 2.80%, respectively, for the year ended December 31, 2011.

Certain events may limit the ability of the plan to transact at contract value with The Standard. Such events include termination of the contract, spin-offs, divestitures, layoffs, corporate relocation, partial or total plan termination, retirement incentive programs, and the liberalization of plan withdrawal or transfer rules. The Plan administrator does not believe that any events that could limit the ability of the Plan to transact at contract value are probable of occurring.

The Standard may terminate the contract with 30 days advance written notice to the contract owner for reasonable cause.

TUG Technologies Corporation 401(k) Savings Plan

Notes to Financial Statements

7. Related Party Transactions

Certain Plan investments are units of a pooled separate account and a deposit administration contract managed by Standard Insurance Company. Therefore, these transactions qualify as party in interest transactions. The Plan paid administrative fees of \$4,835 to Standard during 2012. Fees paid by the Plan for investment management services are included in net appreciation of fair value of investments.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of the Plan termination, participants would become 100 percent vested in their employer contributions.

9. Tax Status

The Plan is a non-standardized prototype plan and has received an opinion letter from the IRS dated March 31, 2008, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related Trust is exempt from taxation. In accordance with Revenue Procedure 2002-6 and Announcement 2001-77, the Plan Sponsor has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan Administrator believes that the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related Trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012 and 2011, there are no uncertain positions taken or expected to be taken that would require recognition of the liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

TUG Technologies Corporation 401(k) Savings Plan

Notes to Financial Statements

11. Non-Exempt Transactions

During the Plan year ended December 31, 2012, employee withholdings and loan repayments totaling \$14,386 were not remitted within the appropriate time period by the Company. These transactions constitute prohibited transactions as defined by ERISA. The Company remitted the withholdings in 2012 and remitted lost earnings to the Plan in December 31, 2012.

12. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2012 and 2011, to Form 5500:

<i>December 31,</i>	2012	2011
Net assets available for benefits per the financial statements	\$ 3,545,585	\$ 3,043,521
Adjustment from fair value to contract value for fully benefit-responsive investment contracts	107,747	39,898
Net assets available for benefits per the Form 5500	\$ 3,653,332	\$ 3,083,419

The following is a reconciliation of net increase in net assets available for benefits per the financial statements for the year ended December 31, 2012, to the Form 5500:

<i>Year Ended December 31,</i>	2012
Net increase per the financial statements	\$ 502,064
Adjustment from fair value to contract value for fully benefit-responsive investment contracts:	
2012	107,747
2011	(39,898)
Net increase per the Form 5500	\$ 569,913

13. Subsequent Events

The Plan has evaluated subsequent events from the date of the Statement of Net Assets Available for Benefits through October 7, 2013, the date the financial statements were available to be issued. During this period, no material recognizable subsequent events were identified.
