Century Aluminum of West Virginia, Inc./United Steelworkers of America Savings Plan

Notes to Financial Statements December 31, 2012 and 2011

Note 1 - Plan Description

The following description of Century Aluminum of West Virginia, Inc./United Steelworkers of America Savings Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan established on February 7, 1989. The Plan covers all employees of Century Aluminum of West Virginia, Inc. (the "Company") who are represented by the United Steelworkers of America. Employees are eligible for the Plan after they have completed 90 days of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - The Plan provides for employee salary 401(k) deferral contributions up to a maximum of 100 percent of the annual compensation. Participants who have attained age 50 may make catch-up contributions in addition to their regular deferral contributions. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan. The amount of a participant's contributions for any plan year may not exceed the applicable limit under the Internal Revenue Code.

The Company does not match contributions to the Plan.

Vesting - Participants are vested immediately in their contributions plus actual earnings thereon.

Participant Accounts - Participants may elect to have their contributions invested in one or all of the investments listed in Note 3. Each participant's account is credited with the participant's contribution and allocations of plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances as defined. The benefit to which the participant is entitled is the benefit that can be provided from the participant's vested account.

Effective April 1, 2010, the Plan was amended to eliminate Century Aluminum Company common stock as an investment election option. Any existing investments in Century Aluminum Company common stock will remain unless directed otherwise by the participant.

Participant Notes Receivable - Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance, whichever is less. The notes receivable are secured by the balance in the participant's account and bear interest at a rate in effect on the date of the loan, which is commensurate with local prevailing rates as determined periodically by the plan administrator. Loan terms generally range from one to five years. Loans for the purchase of a principal residence can be repaid over a reasonable period of time, which may exceed five years. Principal and interest are paid ratably through payroll deductions.

Century Aluminum of West Virginia, Inc./United Steelworkers of America Savings Plan

Notes to Financial Statements December 31, 2012 and 2011

Note 1 - Plan Description (Continued)

Benefit Payments - Distributions are payable upon retirement, death, disability, or termination of employment. The Plan provides for normal retirement at age 65. In-service withdrawals are also allowed for employees who have reached the age of 59 1/2. The total vested portion of a participant's account balance is paid in the form of a lump-sum amount.

Hardship Withdrawals - Participants may request that all or a portion of their account be distributed in the case of severe financial hardship, as defined in the plan document. The Company must approve any such hardship withdrawals.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by T. Rowe Price Trust Company or its affiliates. T. Rowe Price Trust Company is the trustee of the Plan and therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines. In addition, the Plan has investments in the common stock of Century Aluminum Company, the plan sponsor. Therefore, any transactions relating to the common stock qualify as exempt party-in-interest transactions.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions set forth in the plan agreement, ERISA, and the collective bargaining agreement. In the event the Plan terminates, the participants remain fully vested in their accounts and all balances will be distributed in the form and manner determined by the plan administrator.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value except for the T. Rowe Price Stable Value Fund, a common collective trust fund, which is stated at fair value with an adjustment to contract value. Contract value represents investments at cost, plus accrued interest income, less amounts withdrawn to pay benefits. The fair value of the common collective trust fund is determined by the issuer based on the fair value of the underlying net assets of the fund at the measurement date. The T. Rowe Price Stable Value Fund primarily holds guaranteed investment contracts and synthetic investment contracts. The issuer determines the fair value of the guaranteed investment contracts based on current yields of similar instruments with comparable durations taking into account the contract terms including interest reset intervals and the credit rating of the issuer. The issuer determines the fair value of the synthetic investment contracts using market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry standard models that consider various assumptions, including time value and yield curve as well as other relevant economic measures.

Century Aluminum of West Virginia, Inc./United Steelworkers of America Savings Plan

Notes to Financial Statements December 31, 2012 and 2011

Note 2 - Summary of Significant Accounting Policies (Continued)

The fair value of a wrapper contract provided by a security-backed contract issuer is based on the replacement cost methodology which is the present value of the difference between the replacement wrapper fee and the contracted wrapper fee. Participants may transfer in and out of the fund on a daily basis without prohibitive restrictions. Were the Plan to initiate a full redemption of its holdings in the fund, the issuer reserves the right to temporarily delay withdrawal in order to ensure such liquidation is carried out in an orderly manner which limits any adverse impact to the fund. There were no unfunded commitments to the fund.

All other investments are valued based on quoted market prices. See Note 3 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Various administrative costs are paid by the Company.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including October 2, 2013, which is the date the financial statements were available to be issued.

Century Aluminum of West Virginia, Inc./United Steelworkers of America Savings Plan

Notes to Financial Statements December 31, 2012 and 2011

Note 3 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2012 and 2011.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.
