The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and Internal Revenue Code ("IRC") rules and regulations .

Administration

The Company serves as the Plan administrator. TD Ameritrade Trust Company (the "Trustee") serves as the Plan trustee and Retirement Horizons Inc. (the "Recordkeeper") serves as the recordkeeper of the Plan.

Contributions

Participants may contribute up to 100% of their pre-tax or after-tax Roth annual compensation not to exceed the limitation set forth in Section 402(g) of the IRC ($17,000 in 2012). Participant Accounts

Each participant's account is credited with the participant's contributions, earnings, the Company's matching contributions and allocations of any discretionary and/or qualified non-elective contributions. Upon the occurrence of a distribution event, the benefit to which a participant is entitled is the benefit that can be provided from the participant's vested interest in his or her account.

Vesting

Participants are immediately vested in their contributions, plus actual earnings thereon. A participant's account will be 100% vested upon death, disability, or reaching the normal retirement age, prior to termination of employment, and upon his or her early retirement, as defined in the Plan document. When a participant's employment is terminated for any other reason, a participant's interest in Company discretionary matching contributions vests in accordance with the following schedule:

Years of Service	Percent Vested
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Participant Notes Receivable

Each participant is allowed only one outstanding loan at a time. Loan terms may not exceed five years unless the loan is for the purchase of a participant's primary residence, in which case the repayment period may not exceed thirty years. During the year ended December 31, 2012 all outstanding loans carried interest rates between 4.25% and 6.00%. Principal and interest are paid ratably through monthly payroll deductions. The entire unpaid principal plus accrued interest become due and payable immediately upon the participant's termination of employment.

Payment of Benefits

Upon termination of employment for any reason, a participant is entitled to receive a distribution of the total vested balance of his or her account. If the total vested account balance exceeds $1,000, the participant can elect to have his or her account balance distributed as follows: 1) lump sum payment; or 2) equal installments over a period that does not extend beyond the life of the participant and a designated beneficiary.

Participants electing to take a hardship withdrawal are suspended from making contributions to the Plan for a six month period.

Forfeitures

All employer contributions credited to a participant's account, but not vested, are forfeited by the participant upon termination. Forfeitures may be used to pay administration expenses of the Plan, restore previously forfeited account balances, and/or reduce Company contributions as provided for in the Plan document. At December 31, 2012 and 2011, forfeited nonvested accounts totaled $14,397 and $10,286, respectively. During 2012, no forfeitures were used by the Plan.

Administrative Expenses

The Plan is responsible for trustee and administrative expenses. However, the Company may pay certain administrative expenses. For the year ended December 31, 2012, the Company paid administrative expenses of $11,822 on behalf of the Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

As described in Financial Accounting Standards Board's ("FASB") Accounting Standards Codification ("ASC") Topic 962, *Defined Contribution Pension Plans*, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Investments in the accompanying Statements of Net Assets Available for Benefits include an investment contract, the Union Bond & Trust Company Morley Stable Value Fund, which is a fully benefit-responsive investment contract. As required, the Statements of Net Assets Available for Benefits present the fair value of the investment contract, as well as the adjustment of the fully benefit-responsive investment contracts, from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from these estimates.

Risks and Uncertainties

The Plan provides for various investment options. These investment options are exposed to market risk, which generally means the risk of loss in the value of certain investment securities due to changes in interest rates, commodity prices and general market conditions. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term and such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

Investment Valuation and Income Recognition

Investments are reported at fair value. Investments in registered investment companies (mutual funds) are valued based on quoted market prices, which represent the net asset value ("NAV") of shares held by the Plan at year-end. The Plan's interests in money market funds are valued at amortized cost, which approximates fair value. The Plan's interest in the common collective trust is based on the fair value of the collective trust's underlying investments, as based on the information reported by the Trustee using the audited financial statements of the collective trust at year-end.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded as earned, and dividends are recorded on the ex-dividend date. The Plan presents in the Statement of Changes in Net Assets Available for Benefits the net appreciation in fair value of investments, which includes realized gains and losses on investments sold during the year and unrealized appreciation and depreciation of the investments held at the end of the year.

Participant Notes Receivable

Participant notes receivable are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income on participant notes receivable is accrued as earned. Delinquent notes receivable are reclassified as distributions based upon the terms of the Plan document.

Benefit Payments

Benefit payments are recorded when paid.

Recent Accounting Pronouncements

In May 2011, the FASB issued Accounting Standards Update ("ASU") 2011-04, *Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*. This ASU requires for Level 3 fair value measurements, to disclose quantitative information about unobservable inputs used, a description of the valuation processes used, and a qualitative discussion about the sensitivities of the measurements. The guidance is effective for interim and annual periods beginning after December 15, 2011. The adoption of ASU 2011-04 did not have a significant impact on the Plan's financial statements.

3. Investments

The following investments each represent 5% or more of the Plan's net assets at December 31, 2012 and 2011:

	2012	2011
T Rowe Price Retirement 2020 Fund	$ 970,491	$ 930,736

Total Investments	$ 7,939,707	$ 6,568,374

During the year ended December 31, 2012, the Plan's investments (including gains and losses on investments sold, as well as held during the year) appreciated in value as follows

Mutual funds	$ 812,172
Common collective trust	6,619
Net appreciation in fair value of investments	$ 818,791

4. Fair Value Measurements

FASB ASC Topic 820 ("ASC 820"), *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

In determining fair value, the Plan uses three different approaches (the market approach, the cost approach, and the income approach) depending on the nature of the assets and liabilities. The market approach uses prices and other relevant data based on market transactions involving identical or comparable assets and liabilities. The cost approach is the amount that would be currently required to replace an asset and indicates the cost to the Plan to acquire a substitute asset. The income approach uses valuation techniques to convert future amounts such as cash flows or earnings to a single present amount, with the measurement based on the value indicated by current market expectations about those future amounts.

4. Fair Value Measurements, continued

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used between December 31, 2012 and 2011.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded. (Market approach)

Money market fund: Valued at amortized cost, which approximates fair value. (Cost approach)

Common collective trust: Valued at the NAV of units of a stable value common collective trust. The NAV, as provided by the manager of the common collective trust, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. (A combination of income and market approaches)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2012 and 2011:

8. Party-In-Interest Transactions

The Plan invests in participant loans and a money market fund, which is managed by the Trustee. These transactions qualify as party-in-interest transactions, as defined by ERISA. However, such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA.
