Because of the matters described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 7, which was certified by Minnesota Life Insurance Company, the trustee of the Plan, except for comparing such information with the related information included in the 2012 financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. Note 1 - Description of Plan

The following description of Lieberman Research 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General - The Plan is a 401(k) salary deferral and profit sharing plan covering eligible employees of Lieberman Research Worldwide, Inc. (the "Company") and is subject to provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Company is the Plan's sponsor and serves as Plan Administrator. Minnesota Life Insurance Company ("Minnesota Life") serves as the trustee of the Plan.

Eligibility - Employees of the Company are eligible to participate in the Plan upon reaching age 21 and after completing 500 hours of service, as defined. An eligible employee shall enter the Plan as an active participant on the earliest quarterly entry date.

Contributions - Participants may elect to contribute up to 100% of eligible compensation to the Plan each year. Participants may also contribute rollover amounts representing distributions from other qualified defined benefit or defined contribution plans. During 2012, the Company made a qualified non-elective contribution of 6% of eligible compensation to all active participants.

Contributions are subject to regulatory limitations.

Participant accounts - Each participant's account is credited with (a) the participant's contributions, (b) the employer's qualified non-elective contribution and (c) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. Participants may direct the investment of their account balances into various investment options offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately fully vested in their salary deferral and rollover contributions plus actual earnings thereon. Participants become fully vested in the Company's matching contributions after three years of continued service.

Loans to participants - Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loans are secured by the balance of the participant's account and bear fixed, reasonable rates of interest, as determined by the Plan Administrator. Generally, the term of a loan may not exceed five years. However, if the loan is for the purchase of a principal residence, the Administrator may permit a longer repayment term. Principal and interest are paid ratably through payroll deductions. As of December 31, 2012, the rates of interest on outstanding loans ranged from 4.25% through 7.08%, with various maturities through March 2042.

Note 1 - Description of Plan (continued)

Payment of benefits - Upon retirement, a participant may elect to receive benefits in a lump sum amount equal to the vested account balance, installments over a period of not more than one's life expectancy or a partial withdrawal. Additionally, a participant may elect to withdraw any portion of their vested account balance in the event of a documented hardship or after attaining 59 1/2 years of age.

Upon termination of service prior to attaining retirement age, participants may maintain their account within the Plan if their vested balance exceeds $5,000 or may request a lump sum distribution or rollover to another qualified plan. If the vested account balance does not exceed $5,000, the vested account balance will automatically be distributed to the participant.

Benefits are recorded when paid.

Note 2 - Summary of Significant Accounting Policies

Basis of accounting - The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that may affect certain reported amounts in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment valuation - Investments are stated at fair value as certified by the Plan's trustee.

Income recognition - Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net appreciation in fair value of investments consists of both the realized gains or losses and unrealized appreciation and depreciation of those investments.

Expenses - Administrative expenses of the Plan may be paid by the Plan as provided in the Plan document. However, the Company may also pay the Plan expenses directly. Transaction charges for loan and benefit payment transactions, if any, are paid by the Plan by reducing the balances of those participants initiating the transaction.

Note 2 - Summary of Significant Accounting Policies (continued)

Recent accounting pronouncements - In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-04, *Fair Value Measurement (Topic 820) - Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*. ASU No. 2011-04 requires disclosure of valuation techniques for Level 2 and Level 3 measurements and for Level 3 measurements requires disclosure of valuation processes used by the reporting entity and quantitative information about significant unobservable inputs. ASU No. 2011-04 removes the requirement for nonpublic companies to disclose information about transfers between Level 1 and Level 2 of the fair value hierarchy. The Plan adopted the new disclosure requirements effective January 1, 2012.

Subsequent events - Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before financial statements are issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before financial statements are issued. The Plan has evaluated subsequent events through October 8, 2013, which is the date the financial statements were available to be issued.

Note 3 - Investments

Investments - Investments representing 5% or more of net assets available for benefits consist of the following as of December 31:

	2012	2011
Intermediate Term Bond Index I A	$ 1,323,530	$ 1,014,609
Large Growth Equity Index I	1,133,357	968,340

Note 3 - Investments (continued)

The net assets relating to self-directed investments as of December 31, 2012 and 2011 consisted of the following:

	2012	2011
Cash and cash equivalents	$ 1,026	$ 1,076
Common Stocks	244,426	251,104
Total self-directed investments	$ 245,452	$ 252,180

As reported by the Plan's trustee, the Plan's investments (including gains and losses on investments purchased, sold, as well as held during the year) appreciated/(depreciated) in fair value during the year ended December 31, 2012 as follows:

Pooled separate accounts	$ 1,477,142
Self-directed brokerage account	(6,677)
Net change in fair value of investments	$ 1,470,465

Note 4 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 4 - Fair Value Measurements (continued)

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

a) *Pooled separate accounts*: Units held in pooled separate accounts are valued using the net asset value (NAV) of the fund as reported by the fund managers. The NAV is based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. The net asset value of a pooled separate account is calculated based on a compilation of primarily observable market information. The number of units of the fund that are outstanding on the calculation date is derived from observable purchase and redemption activity in the fund. Accordingly, the unit value for a pooled separate account is classified within level 2 of the valuation hierarchy. The Pooled separate account can be redeemed on a daily basis and there are no unfunded commitments.
b) *Common Stocks*: Valued at the closing price reported on the active market on which the individual securities are traded.
c) *Interest Bearing Cash*: Valued at cost plus accrued interest, which approximates fair value.

The following table provides additional information for investments in certain entities that calculate net asset value per share (or its equivalent):

Name	Fair Value	Redemption Frequency	Redemption Notice Period	Redemption Restrictions
Lifestrategy	$ 2,251,980	Daily	Daily	None
Growth Equity	2,355,595	Daily	Daily	None
Equity	2,188,894	Daily	Daily	None
Bond	2,421,096	Daily	Daily	None
Value Equity	1,560,837	Daily	Daily	None
Money Market	742,318	Daily	Daily	None
International	923,038	Daily	Daily	None

Natural Resources	257,456	Daily	Daily	None
Emerging Markets	197,148	Daily	Daily	None
	$ 14,003,839			

The valuation methods used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4 - Fair Value Measurements (continued)

The following table discloses by level, the fair value hierarchy, of the Plan's assets at fair value as of December 31, 2012 and 2011:

Note 5 - Tax Status

The Plan document is a prototype non-standardized defined contribution plan that received a favorable opinion letter from the Internal Revenue Service on March 31, 2008, which stated that the prototype plan, as then designed, was in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes (ASC 740-10), management evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Note 6 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities that changes in the near term could materially affect a participant's account balance and the amounts reported in the financial statements.

Note 7 - Information Certified by the Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Minnesota Life Insurance Company, the trustee of the Plan, has certified to the completeness and accuracy of:

- Pooled separate accounts as of December 31, 2012 and 2011, as indicated in the Statement of Net Assets Available for Benefits and Note 3;

- Investment income information for pooled separate accounts, as indicated in the Statement of Changes in Net Assets Available for Benefits and all pooled separate account balances in Note 3 for the year ended December 31, 2012; and
