Notes to Financial Statements

Note 1. Description of the Plan

The following description of the Da-Lite Screen Company, Inc. 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all full-time employees of the Da-Lite Screen Company, Inc. (the Employer) who have completed certain eligibility requirements. For purposes of salary deferral and Employer matching contributions, eligibility occurs for all employees who have completed 90 days of service and are age 21 or older. For purposes of the Employer profit sharing contributions, eligibility occurs on the January 1 or July 1 immediately following completion of 12 consecutive months during which the employee has at least 1,000 hours of service, is age 21 or older, and is employed on the last day of the plan year. Charles Schwab Trust Company (Charles Schwab) (Trustee) serves as the trustee of the Plan's assets. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan Administrator determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Plan's Board of Trustees.

Contributions: Eligible participants are permitted to elect to have a percentage of their compensation contributed as pretax 401(k) or Roth contributions to the Plan up to the maximum as permitted by the Internal Revenue Service (IRS). The Plan also allows participants age 50 and older to make catch-up contributions. Participants direct these contributions into various investment options offered by the Plan.

The Employer may make a discretionary matching contribution equal to a uniform percentage of salary deferrals. The Employer may also make a discretionary profit sharing contribution. For the year ended December 31, 2012, the Employer elected to continue to match 50 percent of the first 6 percent of compensation that an employee contributes. Employer contributions are invested in a manner similar to participant contributions. There was no Employer profit sharing contributions made for the year ended December 31, 2012. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's contribution and an allocation of plan earnings or losses and administrative expenses. Allocations of plan earnings or losses and administrative expenses are based on participant account balances. Employer matching contributions are allocated to a participant based on a percentage of the participant's salary deferral contributions, subject to certain limitations. Employer uniform discretionary profit sharing contributions are allocated on a uniform basis as defined in the Plan. Income or loss is allocated daily based on the participant's investment in each asset. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Employee contributions are immediately vested. Employer contributions are subject to a vesting schedule based on years of continuous service. A participant will be 100 percent vested after six years of credited service. Notwithstanding the above, participants become 100 percent vested upon normal retirement age (65), death, permanent disability or plan termination.

Benefit payments: Upon termination, retirement, death or becoming permanently disabled, a participant with an account balance of \$1,000 will be paid in the form of a lump-sum distribution. If a participant terminates employment and the participant's account balance does not exceed \$1,000, the Plan Administrator will authorize the benefit payment in a single lump sum without the participant's consent. The Plan also allows hardship distributions and in-service distributions, subject to certain restrictions.

Note 1. Description of the Plan (Continued)

Forfeited accounts: At December 31, 2012 and 2011, forfeited nonvested accounts totaled approximately \$2,000. These accounts will be used to first reduce future Employer contributions and then to reduce administrative expenses. Also, in 2012, Employer contributions were reduced by approximately \$9,000 from forfeited nonvested accounts.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statements of net assets available for benefits present the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis for the fully benefit-responsive investment contract.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's investments are reported at fair value. Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by investment advisors, the Trustee and other third parties. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Excess contributions payable: Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2012 excess contributions to the applicable participants prior to March 15, 2013.

Benefits paid to participants: Benefits paid to participants are recorded when paid.

Administrative expenses: Certain expenses of maintaining the Plan are paid directly by the Employer and are excluded from these financial statements. Investment-related expenses are included in net appreciation of fair value of investments.

Subsequent events: The Plan Administrator has evaluated subsequent events through October 1, 2013, the date the financial statements were available to be issued.

Note 3. Information Certified by the Plan Trustee (Continued)

During 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$868,015 as follows:

Common/collective trust	\$ 4,366
Mutual funds	863,649
	<u>\$ 868,015</u>

Note 4. Fair Value Measurements

Accounting standards established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Common/collective trust: The common/collective trust is valued at the unit value as reported by the investment manager at year-end.

Money market fund: The money market fund is valued using the amortized cost method, which is cost plus accretion of discount or minus amortization of premium over the period ending at maturity of the underlying investments, which approximates fair value determined from or corroborated by observable market data by correlation or other means.

Mutual funds: Mutual funds are valued at the net asset value (NAV) of shares, based on active market prices, held by the Plan at year-end.

Note 4. Fair Value Measurements (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

Assets at Fair Value as of December 31, 2012

Note 4. Fair Value Measurements (Continued)

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2012 and 2011.

	Fair Value as of December 31		Redemption Frequency	Redemption Notice Period
	2012	2011		
Investments:				
Common/collective trust (1)	\$ 425,563	\$ 251,603	Daily	None
Money market fund (2)	197,968	617,175	Daily	None

- (1) The fund provides a vehicle for collective investment and reinvestment in a portfolio of securities and other financial instruments having fixed-income characteristics, including, but not limited to, guaranteed investment contracts, security-backed contracts, certificates of deposit, obligations fully guaranteed by the United States as to principal and interest, and money market funds, with the objectives of preserving capital and maintaining a stable level of return with low volatility. There are no unfunded commitments related to the categories of investments where NAV is available as a practical expedient.
- (2) The fund invests with the objective to invest in high-quality short-term money market investments issued by the U.S. and foreign issuers. Such investments include commercial paper, including asset-backed commercial paper, promissory notes, certificates of deposit and time deposits, variable- and floating-rate debt securities, bank notes and bankers' acceptances, and repurchase agreements. The fund also invests in obligations that are issued by the U.S. government, its agencies or instrumentalities, including obligations that are not guaranteed by the U.S. Treasury.

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Employer has the right to terminate the Plan at any time by action of its Board of Directors. In the event of plan termination or upon complete discontinuance of contributions, participants will become 100 percent vested in their accounts.

Note 6. Income Tax Status

The Plan was adopted under the Baden Volume Submitter Profit Sharing Plan. The IRS has issued an opinion letter dated March 31, 2008, stating the Baden Volume Submitter Profit Sharing Plan is acceptable under Section 401 of the Internal Revenue Code (the Code). The volume submitter plan has been amended since receiving the opinion letter. However, the Plan Administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2009.

Note 7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that change in the values of investment securities will occur in the near term and that those changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 8. Party-in-Interest Transactions

Certain plan investments are shares of registered investment companies and a common/collective trust managed by Charles Schwab, the trustee of the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to Charles Schwab were approximately \$53,000 for the year ended December 31, 2012.
