1. Description of Plan

The following brief description of Mirabito Holdings, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Mirabito Holdings, Inc. and subsidiaries and Miragas, Inc. (collectively, the "Company") who have one year of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan has evaluated subsequent events for recognition or disclosure through September 25, 2013, the date the financial statements were available to be issued.

Contributions

Each year, participants may contribute a percentage of their pretax annual compensation, as defined by the Plan up to the maximum limits of the Internal Revenue Code ("IRC"). Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of all contributions into various investment options offered by the Plan. The Company may contribute a discretionary matching contribution, which was 50% of the first 6% of compensation that a participant contributed to the Plan during 2012 and 2011. Additional profit sharing amounts may be contributed at the option of the Company's Board of Directors. Any such contributions would be allocated based on the percentage of each participant's compensation to total compensation of the eligible participants for the profit sharing contribution. There were no profit sharing contributions made during 2012 or 2011. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and plan earnings and charged with an allocation of certain administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's matching and profit sharing contribution portion of their accounts is based on years of continuous service. A participant is 100% vested in their employer matching contributions and related earnings after two years of credited service, and is 100% vested in their employer profit sharing contribution and related earnings after five years of credited service. A participant becomes fully vested upon death or total and permanent disability.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account and bear interest at rates that range from 5.25% to 8.00%, which are commensurate with local prevailing rates as determined by the plan administrator. Principal and interest are paid ratably through payroll deductions. Terms range from one to five years or greater for the purchase of a primary residence.

Payment of Benefits

All distributions from the Plan will be made in a lump sum payment equal to the value of the participant's vested account balance except for required minimum distributions and in service distributions after age 59 1/2. On termination of service, participants with balances that exceed $1,000 may defer receiving the lump sum payment until a distribution is required to be made. In addition, the Plan allows for hardship distributions if certain criteria are met.

Forfeited Accounts

At December 31, 2012 and 2011, forfeited non-vested accounts totaled $295 and $640, respectively. These accounts will be used to reduce future employer contributions. Employer contributions were reduced by $640 in 2012 and $8,758 in 2011 from forfeited non-vested accounts.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance. Delinquent notes receivable are recorded as distributions based upon the terms of the plan document.

Administration of Plan Assets

The Plan's assets are administered under a contract with The Guardian Insurance and Annuity Company, Inc. ("Guardian"), the custodian of the Plan. The custodian invests funds received from contributions, investment sales, interest, and dividend income and makes distribution payments to participants. Certain administrative expenses of maintaining the Plan are paid by the Company.

Payment of Benefits

Benefits are recorded when paid.

3. Fair Value Measurements

The Plan measures its investments at fair value on a recurring basis in accordance with accounting principles generally accepted in the United States of America. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The framework that the authoritative guidance establishes for measuring fair value includes a hierarchy used to classify the inputs used in measuring fair value. The hierarchy prioritizes the inputs used in determining valuations into three levels. The level in the fair value hierarchy within which the fair value measurement falls is determined based on the lowest level input that is significant to the fair value measurement. The levels of the fair value hierarchy are as follows:

Level 1 - Fair value is based on unadjusted quoted prices in active markets that are accessible to the Plan for identical assets. These generally provide the most reliable evidence and are used to measure fair value whenever available.

Level 2 - Fair value is based on significant inputs, other than Level 1 inputs, that are observable either directly or indirectly for substantially the full term of the asset through corroboration with observable market data. Level 2 inputs include quoted market prices in active markets for similar assets or liabilities, quoted market prices in inactive markets for identical or similar assets, and other observable inputs.

Level 3 - Fair value would be based on significant unobservable inputs. Examples of valuation methodologies that would result in Level 3 classification include option pricing models, discounted cash flows, and similar techniques.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2012 and 2011.

Pooled separate accounts are valued based upon the units of pooled separate accounts held by the Plan at year end multiplied by the respective unit value. The unit value of the pooled separate accounts is based upon significant observable inputs, although it is not based upon quoted market prices in an active market. The underlying investments of the pooled separate accounts consist solely of mutual funds, each of which follows a separate investment strategy as described below. Due to the nature of these securities, there are no unfunded commitments or redemption restrictions.

- Balanced funds - Seek to provide long-term growth capital by investing primarily in equity securities and in some cases fixed-income securities.
- Fixed income funds – Seek total return and normally invests preferred stocks or other types of debt securities.
- International equity funds – Seek capital appreciation through investing in a combination of U.S and Foreign stocks.
- Domestic equity funds – Seek long-term growth of capital by investing primarily in U.S. equity securities.
- Real estate fund – Seeks to provide current income and long-term capital growth through real estate holdings and equity securities of real estate investment trusts.
- Money market fund - Seeks the maximum current income that is consistent with maintaining liquidity and preserving capital.

The preceding method may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

	Assets at Fair Value as of December 31, 2012

4. Investments

The following presents investments that represent 5% or more of the Plan's net assets available for benefits at December 31, 2012 and 2011:

	2012	2011
Benefit Stadion Moderate ETF Trust	$ 3,021,733	$ 2,520,516
SSgA S&P 500 Index Securities Lending Fund	2,940,185	2,624,851
SSgA U.S. Bond Index Securities Lending Fund	1,399,238	1,379,492
Benefit Stadion Growth ETF Trust	1,158,105	1,120,532
SSgA International Index Securities Lending Fund	886,892	745,560

The Plan's investments, consisting of pooled separate accounts (including gains and losses on investments bought, sold, as well as held during the year) appreciated (depreciated) in value by $1,250,516 in 2012 and ($496,904) in 2011.

5. Related Party Transactions

Certain plan investments are units of pooled separate accounts managed by the custodian, and therefore, these transactions qualify as party-in-interest transactions. Additionally, the Plan issues loans to participants, which are secured by the participant's account balances. These transactions qualify as party-in-interest transactions.

Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

7. Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated December 9, 2004, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2012, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

9. Information Certified by Custodian

The plan administrator has elected the method of compliance as permitted by 29 CFR 2502.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2012 and 2011. Accordingly, Guardian, the custodian of the Plan, has certified to the completeness and accuracy of all investments reported in the accompanying Statement of Net Assets Available for Benefits as of December 31, 2012 and 2011 and the supplemental Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) as of December 31, 2012, and the related investment activity reported in the Statement of Changes in Net Assets Available for Benefits for the years ended December 31, 2012 and 2011.
