NOTE A BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General - The Legacy Funeral Group LLC Employee Retirement Savings Plan (the Plan) was adopted effective January 1, 2007 to establish a savings and investment plan for the exclusive benefit of the employees of Legacy Funeral Group, L.L.C. (the Company and Plan Sponsor). The Plan is a defined contribution plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Basis of Presentation - The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with generally accepted accounting principles in the United States (GAAP). Purchases and sales of securities are recorded on a trade-date basis. Interest income is recognized when earned.

Estimates - The preparation of financial statements in conformity with GAAP requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan provides for several investment options which are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.

Valuation of Investments - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In accordance with the policy of stating investments at fair value, net investment gain or loss is included in the carrying value of related investments in the statements of net assets available for plan benefits and the changes in the net investment gain or loss are reflected in the statement of changes in net assets available for plan benefits.

The stable value fund, included in pooled separate accounts, is presented at contract value which approximates fair value on the statement of net assets available for plan benefits. Fully benefit-responsive investments are stated at contract value which is equal to the principal balance plus accrued interest. An investment contract is generally valued at contract value, rather than fair value, to the extent it is fully benefit-responsive. The fair value of fully benefit responsive investment contracts are valued based on the fair value of the underlying investments. At December 31, 2012 and 2011, contract value approximated fair value.

Notes Receivable from Participants - Loans to participants are reported as a receivable from participants at the unpaid principal balance plus any accrued but unpaid interest.

NOTE A BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Benefit-Responsive Fund - The stable value fund invests primarily in asset-backed contracts that are fully benefit-responsive. These asset-backed contracts have two components: (1) a portfolio of securities or underlying assets and (2) a wrap contract. Pursuant to the contract, the issuer of the contract (wrap provider) undertakes to repay the principal amount deposited plus accrued interest less expenses to fund participant-directed withdrawals, transfers and loans. The crediting rate of the asset-backed contract is a function of the relationship between the market value, yield and duration of the underlying assets versus the contract value. If the positive adjustment for the portion of net assets attributable to fully benefit-responsive investment contracts from fair value to contract value increases, the crediting rate at the next reset date will be negatively impacted and vice versa. Interest rate change is a key factor that can influence future crediting rates because it impacts the value, yield and duration of the underlying securities.

All of the asset-backed contracts held by the stable value fund are fully participating contracts. In a fully participating contract, the asset and liability risks may be transferred from the wrap provider to the stable value fund in the event of a termination or non-participant directed withdrawal, transfer or loan. The risk of this event happening is not probable. The wrap provider may terminate a fully benefit-responsive contract and settle at an amount different from the contract value if the wrap provider of the stable value fund is unable to meet the terms of the contract.

Payment of Benefits - Benefits are recorded when paid.

Federal Income Tax - The Company adopted a Prototype Standardized Profit Sharing Plan with a deferral arrangement. The Prototype Standardized Profit Sharing Plan received a favorable opinion letter from the Internal Revenue Service (IRS) on August 7, 2001, which stated that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since the favorable opinion letter was received. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and therefore, believes that the Plan was qualified and the related trust was tax exempt as of the financial statement date.

The Plan believes that all significant tax positions utilized by the Plan will more likely than not be sustained upon examination. As of December 31, 2012, the tax years that remain subject to examination by the major tax jurisdictions under the statute of limitations are from the year 2009 forward (with limited exceptions). Tax penalties and interest, if any, would be accrued as incurred and would be classified as tax expense in the statement of changes in net assets available for plan benefits.

Subsequent Events - The Company has evaluated subsequent events through October 2, 2013, the date the financial statements were available to be issued. No subsequent events occurred which require adjustment or disclosure to the financial statements at December 31, 2012.

NOTE B PLAN DESCRIPTION

The following description of the Plan provides only general information about the Plan. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

Participation - A full-time employee is eligible to become a participant in the Plan after being credited with 90 days of service and having attained the age of 21. Entry dates into the Plan are January 1st and July 1st. Union employees whose employment is governed by a collective bargaining agreement and certain nonresident aliens who have no earned income from sources within the United States are excluded from participation.

Contributions - Participants may elect to make contributions to the Plan in an annual amount up to the maximum percentage allowable not to exceed the limits of the IRC. Contributions are made through authorized payroll reductions. These contributions by individual employees were limited to $17,000 (participants under 50 years of age) and $22,500 (participants 50 years of age or older) in 2012. This limitation is adjusted periodically to reflect cost-of-living increases.

During 2012, the Company elected to contribute a 401(k) matching contribution equal to 50% of each participant's deferrals up to 6% of eligible compensation. To qualify for the matching contribution, participants must complete a year of service defined as 1,000 hours of service. Maximum annual additions (which include employer contributions) shall not exceed the lesser of $50,000 or 100% of the participant's compensation, or cause the Plan to exceed the maximum amount allowable as a deduction to the employer under provisions of the IRC. The Company may also make additional contributions, in an amount determined solely at the discretion of the managing body of the Company. Such additional discretionary contributions, if any, are allocated pro rata to all eligible participants based upon the proportion of the participant's compensation to the total compensation of all eligible participants. There were no discretionary contributions during the year ended December 31, 2012.

Vesting - Participants are immediately vested in their salary reduction and rollover contributions plus actual earnings thereon. Any Company matching and discretionary contributions and related earnings vest as follows:

Years of Vesting Service	Vested Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Years of service prior to January 1, 2007 and years of service prior to reaching age 18 will not be counted for vesting purposes.

NOTE B PLAN DESCRIPTION (CONTINUED)

Forfeitures of account balances not fully vested will be applied first for the payment of administrative expenses. Any remaining forfeitures will be used to reduce employer contributions. Forfeited balances applied to reduce employer contribution amounted to $13,067 for the year ended December 31, 2012. Unused forfeitures at December 31, 2012 amounted to $8,576.

Forms of Benefits - The normal form of benefit payable under this Plan is a lump sum. If the amount payable is $5,000 or less, the participant may receive a lump sum distribution as soon as feasible following the date of termination. If the amount payable is greater than $5,000, the participant must give written consent before the distribution can be made.

Investments - Each participant directs the investment of their account into any of the investment options designated by the Plan Administrator.

Each participant account is credited with the participant's contribution, the Company's contributions, and a pro rata share of the earnings of each fund in which the participant has invested.

Participant Loans - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer between the investment fund and participant loans receivable. Loan terms range from 1 to 5 years or up to a reasonable period of time exceeding five years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with prevailing rates. Interest rate on loans outstanding at December 31, 2012 was 4.25%. Principal and interest is paid ratably through payroll deductions.

Administration - Two officers of the Company serve as trustees for the Plan. The Company, as the Plan Administrator, may, at its discretion, pay the Plan's administrative expenses. Any Plan expenses not paid by the Company will be paid by the Plan. Substantially all Plan expenses other than each participant's loan fees and distribution fees were paid by the Company for year ended December 31, 2012.

Plan Termination - The Company has the right under the Plan to terminate the Plan subject to provisions set forth in ERISA. Upon termination, all participants would become fully vested in their accrued benefits as of the date of termination.

John Hancock Life Insurance Company (USA) has also certified participant loans receivable balances at December 31, 2012 and 2011 and the information contained in the supplemental schedule of assets (held at end of year).

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule of assets (held at end of year).

NOTE D FAIR VALUE DISCLOSURES

GAAP provides a framework for measuring fair value using a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value based upon whether the inputs to those valuation techniques are observable or unobservable. This hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical financial instruments and the lowest priority to unobservable inputs. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. The financial instrument's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. These inputs are summarized in the three broad levels listed below:

Level 1 – Unadjusted quoted prices for identical financial instruments in active markets that the Plan has the ability to access.

Level 2 – Other significant observable inputs (including quoted prices in active or inactive markets for similar financial instruments), or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the financial instruments.

Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the financial instruments. The fair value of Level 3 financial instruments is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

Following is a description of the valuation technique used for investments measured at fair value. There have been no changes in the technique used during 2012 and 2011.

Pooled separate accounts are valued based on the fair value of the underlying investments.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE D FAIR VALUE DISCLOSURES (CONTINUED)

The fair values of investments are categorized as follows at December 31, 2012 and 2011:

	2012			
	Level 1	Level 2	Level 3	Total

There were no significant transfers in and/or out of the fair value categories during 2012 and 2011.

NOTE E PARTY-IN-INTEREST

The Plan invests in various funds offered by John Hancock Life Insurance Company (USA). These investments are considered party-in-interest transactions, because John Hancock Life Insurance Company (USA) serves as asset custodian of the Plan. The Plan Administrator has approved of these investment options.

NOTE F PROHIBITED TRANSACTION

During 2011, certain employee contributions totaling $739 were not timely remitted by the Company to the Plan as required by ERISA. Because the Company was delinquent in forwarding participant contributions and held them commingled with its general assets, the Company engaged in a nonexempt prohibited transaction under ERISA Section 406. The Company corrected the late contributions on March 9, 2012.

NOTE A BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General - The Legacy Funeral Group LLC Employee Retirement Savings Plan (the Plan) was adopted effective January 1, 2007 to establish a savings and investment plan for the exclusive benefit of the employees of Legacy Funeral Group, L.L.C. (the Company and Plan Sponsor). The Plan is a defined contribution plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Basis of Presentation - The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with generally accepted accounting principles in the United States (GAAP). Purchases and sales of securities are recorded on a trade-date basis. Interest income is recognized when earned.

Estimates - The preparation of financial statements in conformity with GAAP requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan provides for several investment options which are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.

Valuation of Investments - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In accordance with the policy of stating investments at fair value, net investment gain or loss is included in the carrying value of related investments in the statements of net assets available for plan benefits and the changes in the net investment gain or loss are reflected in the statement of changes in net assets available for plan benefits.

The stable value fund, included in pooled separate accounts, is presented at contract value which approximates fair value on the statement of net assets available for plan benefits. Fully benefit-responsive investments are stated at contract value which is equal to the principal balance plus accrued interest. An investment contract is generally valued at contract value, rather than fair value, to the extent it is fully benefit-responsive. The fair value of fully benefit responsive investment contracts are valued based on the fair value of the underlying investments. At December 31, 2012 and 2011, contract value approximated fair value.

Notes Receivable from Participants - Loans to participants are reported as a receivable from participants at the unpaid principal balance plus any accrued but unpaid interest.

NOTE A BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Benefit-Responsive Fund - The stable value fund invests primarily in asset-backed contracts that are fully benefit-responsive. These asset-backed contracts have two components: (1) a portfolio of securities or underlying assets and (2) a wrap contract. Pursuant to the contract, the issuer of the contract (wrap provider) undertakes to repay the principal amount deposited plus accrued interest less expenses to fund participant-directed withdrawals, transfers and loans. The crediting rate of the asset-backed contract is a function of the relationship between the market value, yield and duration of the underlying assets versus the contract value. If the positive adjustment for the portion of net assets attributable to fully benefit-responsive investment contracts from fair value to contract value increases, the crediting rate at the next reset date will be negatively impacted and vice versa. Interest rate change is a key factor that can influence future crediting rates because it impacts the value, yield and duration of the underlying securities.

All of the asset-backed contracts held by the stable value fund are fully participating contracts. In a fully participating contract, the asset and liability risks may be transferred from the wrap provider to the stable value fund in the event of a termination or non-participant directed withdrawal, transfer or loan. The risk of this event happening is not probable. The wrap provider may terminate a fully benefit-responsive contract and settle at an amount different from the contract value if the wrap provider of the stable value fund is unable to meet the terms of the contract.

Payment of Benefits - Benefits are recorded when paid.

Federal Income Tax - The Company adopted a Prototype Standardized Profit Sharing Plan with a deferral arrangement. The Prototype Standardized Profit Sharing Plan received a favorable opinion letter from the Internal Revenue Service (IRS) on August 7, 2001, which stated that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since the favorable opinion letter was received. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and therefore, believes that the Plan was qualified and the related trust was tax exempt as of the financial statement date.

The Plan believes that all significant tax positions utilized by the Plan will more likely than not be sustained upon examination. As of December 31, 2012, the tax years that remain subject to examination by the major tax jurisdictions under the statute of limitations are from the year 2009 forward (with limited exceptions). Tax penalties and interest, if any, would be accrued as incurred and would be classified as tax expense in the statement of changes in net assets available for plan benefits.

Subsequent Events - The Company has evaluated subsequent events through October 2, 2013, the date the financial statements were available to be issued. No subsequent events occurred which require adjustment or disclosure to the financial statements at December 31, 2012.

NOTE B PLAN DESCRIPTION

The following description of the Plan provides only general information about the Plan. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

Participation - A full-time employee is eligible to become a participant in the Plan after being credited with 90 days of service and having attained the age of 21. Entry dates into the Plan are January 1st and July 1st. Union employees whose employment is governed by a collective bargaining agreement and certain nonresident aliens who have no earned income from sources within the United States are excluded from participation.

Contributions - Participants may elect to make contributions to the Plan in an annual amount up to the maximum percentage allowable not to exceed the limits of the IRC. Contributions are made through authorized payroll reductions. These contributions by individual employees were limited to $17,000 (participants under 50 years of age) and $22,500 (participants 50 years of age or older) in 2012. This limitation is adjusted periodically to reflect cost-of-living increases.

During 2012, the Company elected to contribute a 401(k) matching contribution equal to 50% of each participant's deferrals up to 6% of eligible compensation. To qualify for the matching contribution, participants must complete a year of service defined as 1,000 hours of service. Maximum annual additions (which include employer contributions) shall not exceed the lesser of $50,000 or 100% of the participant's compensation, or cause the Plan to exceed the maximum amount allowable as a deduction to the employer under provisions of the IRC. The Company may also make additional contributions, in an amount determined solely at the discretion of the managing body of the Company. Such additional discretionary contributions, if any, are allocated pro rata to all eligible participants based upon the proportion of the participant's compensation to the total compensation of all eligible participants. There were no discretionary contributions during the year ended December 31, 2012.

Vesting - Participants are immediately vested in their salary reduction and rollover contributions plus actual earnings thereon. Any Company matching and discretionary contributions and related earnings vest as follows:

Years of Vesting Service	Vested Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Years of service prior to January 1, 2007 and years of service prior to reaching age 18 will not be counted for vesting purposes.

NOTE B PLAN DESCRIPTION (CONTINUED)

Forfeitures of account balances not fully vested will be applied first for the payment of administrative expenses. Any remaining forfeitures will be used to reduce employer contributions. Forfeited balances applied to reduce employer contribution amounted to $13,067 for the year ended December 31, 2012. Unused forfeitures at December 31, 2012 amounted to $8,576.

Forms of Benefits - The normal form of benefit payable under this Plan is a lump sum. If the amount payable is $5,000 or less, the participant may receive a lump sum distribution as soon as feasible following the date of termination. If the amount payable is greater than $5,000, the participant must give written consent before the distribution can be made.

Investments - Each participant directs the investment of their account into any of the investment options designated by the Plan Administrator.

Each participant account is credited with the participant's contribution, the Company's contributions, and a pro rata share of the earnings of each fund in which the participant has invested.

Participant Loans - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer between the investment fund and participant loans receivable. Loan terms range from 1 to 5 years or up to a reasonable period of time exceeding five years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with prevailing rates. Interest rate on loans outstanding at December 31, 2012 was 4.25%. Principal and interest is paid ratably through payroll deductions.

Administration - Two officers of the Company serve as trustees for the Plan. The Company, as the Plan Administrator, may, at its discretion, pay the Plan's administrative expenses. Any Plan expenses not paid by the Company will be paid by the Plan. Substantially all Plan expenses other than each participant's loan fees and distribution fees were paid by the Company for year ended December 31, 2012.

Plan Termination - The Company has the right under the Plan to terminate the Plan subject to provisions set forth in ERISA. Upon termination, all participants would become fully vested in their accrued benefits as of the date of termination.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule of assets (held at end of year).

NOTE D FAIR VALUE DISCLOSURES

GAAP provides a framework for measuring fair value using a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value based upon whether the inputs to those valuation techniques are observable or unobservable. This hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical financial instruments and the lowest priority to unobservable inputs. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. The financial instrument's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. These inputs are summarized in the three broad levels listed below:

Level 1 – Unadjusted quoted prices for identical financial instruments in active markets that the Plan has the ability to access.

Level 2 – Other significant observable inputs (including quoted prices in active or inactive markets for similar financial instruments), or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the financial instruments.

Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the financial instruments. The fair value of Level 3 financial instruments is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

Following is a description of the valuation technique used for investments measured at fair value. There have been no changes in the technique used during 2012 and 2011.

Pooled separate accounts are valued based on the fair value of the underlying investments.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE D FAIR VALUE DISCLOSURES (CONTINUED)

The fair values of investments are categorized as follows at December 31, 2012 and 2011:

	2012

NOTE E PARTY-IN-INTEREST

The Plan invests in various funds offered by John Hancock Life Insurance Company (USA). These investments are considered party-in-interest transactions, because John Hancock Life Insurance Company (USA) serves as asset custodian of the Plan. The Plan Administrator has approved of these investment options.

NOTE F PROHIBITED TRANSACTION

During 2011, certain employee contributions totaling $739 were not timely remitted by the Company to the Plan as required by ERISA. Because the Company was delinquent in forwarding participant contributions and held them commingled with its general assets, the Company engaged in a nonexempt prohibited transaction under ERISA Section 406. The Company corrected the late contributions on March 9, 2012.
