1. DESCRIPTION OF PLAN

The following description of the First Quality Maintenance II, LLC 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

A. The Plan is a defined contribution plan sponsored by First Quality Maintenance II, LLC (the "Sponsor" or the "Company") covering all employees, as defined in the Plan, who are at least 21 years of age, are not subject to a collective bargaining agreement, and are not nonresident aliens who received no earned income within the United States. Employees must complete one year of service (1,000 hours) and be employed on the last day of the Plan year to be eligible for the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

B. Contributions - Participants may contribute an amount equal to a percentage of their compensation from 1% to 100% in increments of 1% limited to the maximum amounts established under Internal Revenue Service ("IRS") regulations. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company can make a discretionary match, which is a percentage of an employee's deferral that the Company determines from year to year. Any matching contribution will be allocated in a non-discriminatory manner. For the year ended December 31, 2012, there was no Company match. Contributions in any calendar year may not exceed the limits under Internal Revenue Code ("IRC") Sections 401(k), 404 and 415.

C. Participant Accounts - Each participant's account is credited with the participant's contribution, the Company's matching contribution, and Plan earnings less, distributions paid. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

D. Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Participants will have a nonforfeitable right to a percentage of the Company's matching contributions and non-elective contributions based upon the following schedule:

Years of Vesting Service	Nonforfeitable Percentage
Less than 1	0%
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

E. Forfeitures - Forfeitures may be applied first to Plan expenses, if any, or utilized to reduce current and future matching contributions, if any.

F. Investment Options - Upon enrollment in the Plan, a participant may direct their contributions into various investment options featuring a money market fund as well as various equity and debt mutual funds.

1. DESCRIPTION OF PLAN (CONTINUED)

G. Payment of Benefits - Upon termination of service, a participant may elect to receive the vested value of their account in a lump sum, partial payments, periodic installments, or annuity contracts as described in the Plan document. In addition, the Plan provides for participant withdrawals in the event of disability, death, and hardship, as defined in the Plan document.

H. Participant Notes Receivable - A participant with a vested account balance may borrow an amount not less than $1,000 and not greater than the lesser of (i) 50% of his/her vested account balance or (ii) $50,000. Loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator.

If a participant fails to make a loan payment when due under the terms of the loan, that participant will be in default. In the event of default, the loan shall become due and payable immediately, and interest will continue to accrue until the entire loan balance is repaid. The Plan will take all reasonable actions to collect the balance owed on the loan. Under certain circumstances, the loan in default could be considered a distribution from the Plan and could be considered income to the participant. In any event, failure to repay a loan will reduce the benefit a participant would otherwise be entitled to from the Plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Recently Adopted Accounting Pronouncements

In May 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs.* ASU 2011-04 amends FASB Accounting Standards Codification ("ASC") 820, *Fair Value Measurement*, providing a consistent definition and measurement of fair value as well as similar disclosure requirements between U.S. GAAP and International Financial Reporting Standards. ASU 2011-04 changes certain fair value measurement principles, clarifies the application of existing fair value measurement, and expands the FASB ASC 820 disclosure requirements, particularly for Level 3 fair value measurements. ASU 2011-04 was effective for the year beginning January 1, 2012. The adoption of ASU 2011-04 did not have a material effect on the Plan's financial statements.

Basis of Accounting

The accompanying financial statements were prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for a discussion of fair value measurements.

Purchases and sales of securities are reflected on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected in the net appreciation (depreciation) in the fair market value of such investments.

Fair Value Measurements

FASB ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Under this standard, fair value is defined as the exit price, or the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date.

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and, inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Other

Certain administrative expenses are paid by the Sponsor.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Subsequent Events

In accordance with FASB ASC 855, *Subsequent Events*, the Plan has evaluated subsequent events through October 2, 2013, the date on which these financial statements were available to be issued. There were no subsequent events that required recognition or additional disclosure in these financial statements.

3. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

4. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company reserves the right to terminate the Plan at any time, subject to the provisions of ERISA. In the event of Plan termination, participants are entitled to the entire amount of their accounts.

5. TAX STATUS

The Plan uses a prototype plan document sponsored by Ascensus, Inc., formerly known as BISYS. Ascensus, Inc. received an opinion letter from the IRS dated December 27, 2011, which states that the prototype document satisfied the applicable provisions of the IRC. The Plan itself has not received a determination letter from the IRS. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2012 and 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

6. RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain administrative expenses are paid directly by the Company.

Certain assets of the Plan are held by OFI Global Trust Company (the "Trustee"), the Trustee of the Plan; as such, these transactions qualify as party-in-interest transactions.

7. FAIR VALUE MEASUREMENTS

Assets and liabilities measured at fair value are based on one or more of three valuation techniques identified in the tables below. The valuation techniques are as follows:

(a) *Market approach.* Prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities;

(b) *Cost approach.* Amount that would be required to replace the service capacity of an asset (replacement cost); and

(c) *Income approach.* Techniques to convert future amounts to a single present amount based on market expectations (including present value techniques, option-pricing and excess earnings models).

The following tables summarize the Plan's assets measured at fair value on a recurring basis, categorized by GAAP's valuation hierarchy as of December 31, 2012 and 2011:

Total investments, at fair value	$ 2,076,310	$ -	$ -	$ 2,076,310	

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual Funds: are valued at quoted market prices, which represent the net asset value of the securities held in such funds.

Money Market Funds: the carrying value approximates fair value because the instruments are liquid in nature.

7. FAIR VALUE MEASUREMENTS (CONTINUED)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

8. EXCESS PARTICIPANT CONTRIBUTIONS PAYABLE

At December 31, 2012 and 2011, substantially all of the contributions payable consist of payments due to certain participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provision of the Plan. Excess contributions amounting to $71,168 and $122,727 are recorded as a liability in the accompanying statements of net assets available for benefits at December 31, 2012 and 2011, respectively. The excess contribution was a deduction of net assets in the statement of changes in net assets available for benefits for the year ended December 31, 2012. The Plan reimbursed these excess contributions to its participants during March 2013.
