Boelter Industries, Inc. Profit Sharing Retirement Plan

NOTES TO FINANCIAL STATEMENTS

December 31, 2012 and 2011

NOTE 1: DESCRIPTION OF PLAN

The following description of the Boelter Industries, Inc. ("Company") Profit Sharing Retirement Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of the Company who have six months of service and are age twenty-one or older. The Plan excludes employees whose employment is governed by a collective bargaining agreement, leased employees and employees who are non-resident aliens. It is subject to the provisions of the Employee Retirement Income Security Act 1974 (ERISA). In July 2012, the Company was sold and as a result of its sale, on December 28, 2012, the accounts of all Company employees were transferred out of the Plan to WS Packaging Group, Inc. 401k Plan (an existing plan controlled by the acquiring company).

Contributions

Each year, participants may contribute up to 50% of their salary, up to the maximum percentage allowable by current law. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds as investment options for participants. The Company may make matching contributions. Additional profit sharing amounts may also be contributed at the option of the Company's Board of Directors. For 2012, the Company matched 50% of the first 4% of base compensation that a participant contributed to the Plan, and for 2011, the Company did not make any matching contributions. The Company contributed additional profit sharing contributions totaling \$75,000 and \$150,000, respectively. Contributions are subject to certain IRS limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings or losses, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. One year of service is required to be eligible for employer contributions. A participant is 100% vested after six years of credited service. Notwithstanding the above, participants shall, however, become 100% vested in their account upon attaining age 59½, their death, or disability.

Boelter Industries, Inc. Profit Sharing Retirement Plan

NOTES TO FINANCIAL STATEMENTS December 31, 2012 and 2011

NOTE 1: DESCRIPTION OF PLAN (Continued)

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$100 up to a maximum of \$50,000 or 50% of their account balance, whichever is less. Loans generally shall not exceed five years. However, loans used to acquire a principal residence may provide for a period of repayment that exceeds five years. The loans are secured by the balance in the participant's account and bear interest at U.S. Bank prime rate plus one percent, ranging from 4.25% to 6.00% at December 31, 2012. Principal and interest is paid ratably through weekly payroll deductions.

Benefit Payments

On termination of service, whether due to death, disability, retirement or other reasons, a participant may only elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. A participant can choose to receive periodic payments only if they attain age 70½ and are still an active participant. If the vested balance of a participant's account is less than or equal to \$5,000, it will be paid in a single sum. The Plan allows for in-service distributions subject to Plan limitations.

Forfeited Accounts

At December 31, 2012 and 2011, forfeited nonvested accounts totaled \$0 and \$0, respectively. These accounts will be used to first restore any prior year participant forfeitures, and then used to offset any plan expenses. Any excess will be used to reduce employer contributions or reallocated to participant accounts. During 2012 and 2011, forfeited nonvested accounts were used to reduce employer contributions of \$0 and \$505, respectively, reallocated to participant accounts of \$960 and \$3,878, respectively, and pay plan expenses of \$0 and \$0, respectively.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan have been prepared on the liquidation basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis for fully benefit-responsive investment contracts.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable to participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2012 and 2011. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's accounts and are included in notes receivable from participants. Investment related expenses are included in net investment appreciation of fair value of investments.

NOTE 3: FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 3: FAIR VALUE MEASUREMENTS (Continued)

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 - Inputs to the valuation methodology are based upon quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, other than quoted market prices that are observable for the asset or liability, and derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Group annuity contracts: Valued at the NAV of unites of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business transaction.

NOTE 4: CERTIFICATION OF INVESTMENT INFORMATION

The Company has appointed Orchard Trust Company, LLC as their trustee. The trustee is responsible for the Plan's investment assets and investing transactions. Orchard Trust Company, LLC, has supplied the Plan administrator with certification as to the completeness and accuracy of all investment information presented in the accompanying statement of net assets available for benefits as of December 31, 2012 and 2011, statement of changes in net assets available for benefits for the year ended December 31, 2012, and the supplemental schedule of assets (held at end of year) as of December 31, 2012.

NOTE 6: GROUP ANNUITY CONTRACT WITH INSURANCE COMPANY

In 2011, the Plan entered into a benefit-responsive group annuity contract with Great-West Life & Annuity Insurance Company (Great-West). Great-West maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The group annuity contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the group annuity contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the group annuity contract. The group annuity contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Great-West, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the group annuity contract at December 31, 2011 was \$402,075. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting.

NOTE 6: GROUP ANNUITY CONTRACT WITH INSURANCE COMPANY (Continued)

Certain events limit the Plan's ability to transact at contract value with the issuer. Such events include (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

The group annuity contract may be terminated by either party with at least 60 days advance written notice to the other party. The contract termination date shall be any business day on or after the expiration of the 60-day notification period.

The average yields earned by the group annuity contract are as follows:

	<u>2012</u>	<u>2011</u>
Average Yields:		
Based on actual earnings	2.03%	2.03%
Based on interest rate credited to participants	2.03%	2.03%

NOTE 7: PLAN TERMINATION

In July 2012, the Company was sold and as a result of its sale, the Plan was terminated and on December 28, 2012, the assets and accounts of all Plan participants were transferred out of the Plan and merged into the WS Packaging Group, Inc. 401k Plan (an existing plan controlled by the acquiring company).

NOTES TO FINANCIAL STATEMENTS December 31, 2012 and 2011

NOTE 8: TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

NOTE 9: RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 10: SUBSEQUENT EVENTS

The date to which events occurring after December 31, 2012, the date of the most recent balance sheet, have been evaluated for possible adjustment to the financial statements or disclosure is October 7, 2013, which is the date on which the financial statements were available to be issued.
