Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Independent Auditors' Report

The Weston Foods US, Inc. Pension and
Benefits Committee

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Interbake Foods LLC Elizabeth Division Hourly Pension Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Notes 6 and 8, which was certified by The Bank of New York Mellon/BNY Mellon, N.A., the trustee, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of and for the years ended December 31, 2012 and 2011, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Notes to Financial Statements
December 31, 2012 and 2011

(1) Description of Plan

The following brief description of the Interbake Foods LLC Elizabeth Division Hourly Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan document, including plan amendments, for more complete information.

General

The Plan is administered and sponsored by Interbake Foods LLC (the Company). The Plan is a noncontributory defined benefit pension plan covering hourly paid employees represented by the United Bakery, Confectionery, Cannery, Packing and Food Service Workers Union of New Jersey, Local No. 262.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan participates in the Weston Foods US, Inc. Master Trust Fund (the Master Trust).

The Plan is funded entirely from contributions by the Company.

The Plan has been periodically amended to increase the fixed monthly benefit rate. The monthly benefit rate in effect was increased to \$25 per month beginning December 1, 2006.

During 2005, the Company approved a plan to restructure its biscuit operations and close the Elizabeth biscuit facility effective November 22, 2006. As a result, there are no longer active employees at the Elizabeth facility or new participants in the Plan as of November 22, 2006. The Plan was frozen as of November 22, 2006, and all participants became fully vested as of that date.

Plan Administration

The administration of the Plan is overseen by the Pension and Benefits Committee of Weston Foods US, Inc. (the Committee), which is appointed by the George Weston Limited (parent company) Board of Directors. The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Board of Directors.

- *Trustee:* The investment assets of the Plan are maintained by The Bank of New York Mellon/BNY Mellon, N.A. (the Trustee). Among other duties, the Trustee is to safekeep and account for the trust funds and make payments to eligible participants in accordance with the Plan.

(1) Description of Plan, Continued

Plan Administration, Continued

- **Expenses:** Administrative expenses, such as actuarial, trust and other administrative expenses are paid from the assets of the Plan. All other expenses are paid by the Company.

Eligibility for Participation

The Plan was frozen effective November 22, 2006 and no longer accepts new participants.

Pension Benefits

Employees with at least five years of service are eligible for a monthly pension at age 65 based on their years of credited service multiplied by the fixed monthly benefit rate in effect on the date of retirement. The Plan permits early retirement after age 55 with 10 years of service.

Terminated employees with five or more years of service are entitled to annual retirement benefits beginning at normal retirement age (65).

Employees with 15 years or more of service and age 50 or older, or employees with 20 or more years of service who become disabled, are entitled to normal retirement benefits prior to normal retirement age.

Vesting

All participants became fully vested effective November 22, 2006 when the Plan was frozen.

(2) Summary of Significant Accounting Policies

Basis of Accounting

(2) Summary of Significant Accounting Policies, Continued

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of the accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are in funds administered by the Trustee.

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Committee determines the Plan's valuation policies utilizing information provided by investment advisers and the trustee. See Notes 7 and 8 for a discussion of the fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Administrative expenses that are permitted as provided by the plan document are paid from the Master Trust assets. Certain administrative related expenses are included in net appreciation in fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

Subsequent Events

The Plan has evaluated subsequent events through October 1, 2013, the date the financial statements were available to be issued.

(3) Funding Policy

The Company's funding policy is to make annual contributions to the Plan in amounts that are estimated to ensure all employees' benefits will be fully provided for by the time they retire. The Company made contributions of \$2,000,000 and \$5,000,000, for 2012 and 2011, respectively. The Company's contributions for 2012 and 2011 exceeded the minimum funding requirements of ERISA.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

(4) Plan Termination

The Company anticipates and believes that the Plan will continue without interruption. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period, would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect any time during the five years preceding plan termination.
- b) Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations (discussed subsequently).
- c) All other vested benefits (i.e., vested benefits not insured by the PBGC).
- d) All nonvested benefits.

(4) Plan Termination, Continued

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, a statutory ceiling exists, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For Plan terminations occurring during 2013, that ceiling is \$4,790 per month. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

(5) Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) present employees or their beneficiaries, and (c) beneficiaries of employees who have died.

The actuarial present value of accumulated plan benefits is determined by Towers Watson and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

(5) Actuarial Present Value of Accumulated Plan Benefits, Continued

The present value of accumulated plan benefits was computed by Towers Watson as of January 1, 2012 and 2011. The significant assumptions underlying the actuarial computations for 2012 and 2011 are as follows:

Interest rate	5.0% and 5.5%, respectively
Average retirement age	65
Mortality	1994 Uninsured Pensioner Mortality Table (UP94) Projected to 2020

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated benefits is as follows at January 1:

	2012	2011
Vested benefits:		
Participants currently receiving payments	\$ 25,890,392	\$ 26,183,275
Other participants	7,849,933	7,100,857
Actuarial present value of accumulated plan benefits at end of year	<u>\$ 33,740,325</u>	<u>\$ 33,284,132</u>

The changes in the actuarial present value of accumulated plan benefits were as follows for the years ended January 1:

	2012	2011
Actuarial present value of accumulated plan benefits at beginning of year	<u>\$ 33,284,132</u>	<u>\$ 30,933,810</u>
Increase (decrease) attributable to:		
Additional benefits accumulated (including the effect of noninvestment experience)	(387,759)	58,621
Interest due to decrease in discount period	1,760,786	1,925,010
Benefits paid	(2,574,124)	(2,678,716)
Assumption changes	1,657,290	3,045,407
Net increase	<u>456,193</u>	<u>2,350,322</u>
Actuarial present value of accumulated plan benefits at end of year	<u>\$ 33,740,325</u>	<u>\$ 33,284,132</u>

(6) Investments (Unaudited)

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by the Trustee of the Plan, as complete and accurate, except for comparing such information certified by the Trustee to information included in the Plan's financial statements.

The fair value of investments of the Plan's net assets is as follows at December 31:

	2012	2011
Plan interest in the Master Trust	\$ 31,492,682 *	\$ 29,249,919 *

*Represents 5 percent or more of the Plan's net assets at year end.

The Plan's share of investment income was as follows for the years ended December 31:

	2012	2011
Plan interest in the Master Trust income	\$ 2,972,554	\$ 4,107,331

(7) Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include
 - quoted prices for similar assets or liabilities in active markets;
 - quoted prices for identical or similar assets or liabilities in inactive markets;

INTERBAKE FOODS LLC ELIZABETH DIVISION HOURLY PENSION PLAN

Notes to Financial Statements December 31, 2012 and 2011

(7) Fair Value Measurements, Continued

- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Plan's interest in the Master Trust: See Note 8 for valuation methodology.

The methods described in Note 8 may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(8) Interest in the Master Trust (Unaudited)

The Plan's investments are held in the Master Trust, which was established for the investment of assets of the Plan and another Weston Foods US, Inc. sponsored retirement plan. Each participating retirement plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by the Trustee. The administration of the Plan is overseen by the Committee.

Notes to Financial Statements December 31, 2012 and 2011

(8) Interest in the Master Trust (Unaudited), Continued

The value of the Plan's interest in the Master Trust is based on the beginning of the year value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. At December 31, 2012 and 2011, the Plan's interest in the net assets of the Master Trust was approximately 60 percent and 57 percent, respectively. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon average monthly balances invested in each plan.

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by the Trustee of the Master Trust as complete and accurate, except for comparing such information certified by the Trustee to information included in the Plan's financial statements.

The Trustee has certified to the accuracy and completeness of the investment in the net assets of the Master Trust as December 31, 2012 and 2011, and the investment income for the years then ended, as summarized below.

The following table presents the assets, including investments of the Master Trust as of December 31:

	2012	2011
U.S. government securities	\$ 15,836,540	\$ 16,544,822
Common collective trust funds	35,886,280	34,417,151
Foreign bond	352,043	341,206

(8) Interest in the Master Trust (Unaudited), Continued

Investment income for the Master Trust was as follows for the years ended December 31:

	2012	2011
Interest income	\$ 597,442	\$ 657,068
Dividend income	727	172,398
Net appreciation (depreciation) in fair value of investments:		
U.S. government securities	65,203	3,498,213
Common stock	-	(928,996)
Common collective trust funds	4,687,734	3,895,706
Foreign bond	10,837	37,407
	<u>\$ 5,361,943</u>	<u>\$ 7,331,796</u>

Following is a description of the valuation methodologies used for assets measured at fair value held by the Master Trust.

U.S. government securities and common stock: Valued at the closing price reported in the active market in which the individual securities are traded.

Common collective trust: Valued at the net asset value (NAV) of units of a trust company collective trust. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Foreign bond: Valued based on yields currently available on comparable securities of issuers with similar credit ratings.

Total assets at fair value	\$ 16,544,822	\$ 34,758,357	\$ -	\$ 51,303,179

There were no significant transfers among investment levels during the years ended December 31, 2012 and 2011.

(9) Related Party Transactions and Party-In-Interest Transactions

During 2012 and 2011, administrative expenses of \$150,503 and \$113,159, respectively, include fees paid to the Trustee and other service providers, as well as the PBGC expenses. The Trustee is a party-in-interest to the Plan. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of investments.

The Plan does not consider employer contributions to the Plan or benefits paid by the Plan to participants as party-in-interest transactions.

INTERBAKE FOODS LLC ELIZABETH DIVISION HOURLY PENSION PLAN

Notes to Financial Statements December 31, 2012 and 2011

(10) Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated February 1, 2013, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

(11) Risks and Uncertainties

The Plan, through its interest in the Master Trust, invests in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

Percent married	80% of males; 50% of females
Spouse age	Wife three years younger than husband
Covered pay	N/A
Administrative expense	\$85,163 (0.25% of Market Value of Assets at January 1, 2012)

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year
Actuarial value of assets	<p>Average of the market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, expenses and expected earnings. The average asset value must be within 10% of market value, including contributions receivable (discounted using the effective interest rate for the 2011 plan year).</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.</p>
Benefits Not Valued	All benefits described in the Plan Provisions section of this report were valued. Towers Watson has reviewed the plan provisions with Weston Foods US and, based on that review, is not aware of any significant benefits required to be valued that were not.
Change in Assumptions and Methods Since Prior Valuation	The funding interest rate was changed from the segment interest rates as of September 2010 based on 24 month average of corporate yields through August 2010, to the segment interest rates as of September 2011, with no transition, based on 24 month average of corporate yields through August 2011.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

The segment rates used to determine minimum funding requirements and benefit restrictions were revised by applying the corridors of MAP-21, but, as required by MAP-21, such rates have not been reflected in Section 2.5: Calculation of estimated maximum deductible contribution.

The required mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvements.

The expense assumption was updated based on market value as of January 1, 2012.
