NEX PERFORMANCE FILMS, INC. 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2012 and 2011

NOTE 1 - DESCRIPTION OF THE PLAN

The NEX Performance Films, Inc. 401(k) Plan (the Plan) was established on September 15, 2010. The following description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

During 2012, the Plan's trustee was changed from Principal Trust Company to Frontier Trust Company.

Effective December 21, 2012, participants in the Charter Films, Inc. 401(k) Plan were merged into the Plan.

General

The Plan is a defined contribution plan covering all employees of NEX Performance Films, Inc. (the Company) who have attained age 18. Employees are eligible to participate and receive discretionary Company contributions as of the date of hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and amendments.

Contributions

Participants may voluntarily contribute up to 100 percent of their pre-tax annual compensation, not to exceed the maximum deductible limits allowed by the Internal Revenue Code (IRC). A participant may transfer amounts from other qualified plans if the transfer qualifies as a tax-free rollover. The Company may make a matching discretionary contribution. The Company's matching contribution was 50% of the employee's contribution up to the first 6% of eligible compensation for the years ended December 31, 2012 and 2011. The Company may also make an additional discretionary contribution (profit sharing). There were no profit sharing contributions made for the years ended December 31, 2012 and 2011. The Plan currently offers various investment vehicles as investment options for Plan participants.

Participant Accounts

Each participant's account is credited with the participant's voluntary contribution, an allocation of the Company's contribution and Plan earnings and is charged with an allocation of administrative expenses. Allocations are based upon the participants' earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of credited service at the rate of 20% at the end of each year of credited service beginning with the first year of service, so that a participant is 100% vested in the Company's contributions at the end of their fifth year of service.

NOTE 1 - DESCRIPTION OF THE PLAN (CONTINUED)

Notes Receivable from Participants

Participants may borrow up to 50 percent of their vested account balance. Individual loan amounts must be at least \$1,000; however, aggregate loan amounts may not exceed \$50,000. Loan terms may range from one to five years, or longer if for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear a reasonable interest rate as defined by the Plan document and determined by the Plan administrator.

Payment of Benefits

On termination of service, a participant receives the vested portion of his or her account in a lump-sum payment or installment payments. Upon reaching 59-1/2 years of age, a participant with a fully-vested account may receive an in-service distribution prior to separation from service. Subject to certain restrictions, distributions to participants under other circumstances are made in the form of whole or partial lump-sum payments.

If a terminating participant's vested account balance does not exceed \$1,000, the Plan will distribute the benefit in a lump-sum as soon as administratively practicable. Vested account balances exceeding \$1,000 are paid at the participant's discretion, or can be left in the Plan until such time the participant wishes to withdraw it, with the account continuing to share in the trust fund income and losses. Distribution cannot be delayed past April 1 following the year that the participant attains age 70-1/2.

Forfeitures

The Plan provides that forfeitures of terminated participants' nonvested accounts are used to reduce Company contributions. At December 31, 2012 and 2011, there were forfeited nonvested accounts totaling, \$6,207 and \$0-, respectively. Company contributions were reduced by \$6,014 and \$1,415 during the years ended December 31, 2012 and 2011, respectively, from forfeited nonvested accounts.

Plan Expenses

The Company provides certain accounting and administrative services to the Plan for which no fees are charged. Administrative and investment management fees are paid for by the Plan.

Plan Termination

Although it has no plans to do so, the Company has the right to discontinue its contributions or terminate the Plan at any time. In the event of termination, all participants would become fully vested.

NOTE 1 - DESCRIPTION OF THE PLAN (CONTINUED)

Tax Status

The Plan uses a prototype plan sponsored by Ascensus, Inc., which the Internal Revenue Service (IRS) has determined that the form of the Prototype plan is acceptable for use by employers under Section 401 of the IRC. The Plan itself has not requested a determination letter. However, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Transfers

Effective December 21, 2012, the Company amended their Plan document and merged the Charter Films, Inc. 401(k) Plan into the Plan. Total net assets of \$304,721 were transferred into the Plan as of December 31, 2012 and are included in "transfers in" on the accompanying statements of changes in net assets available for benefits.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to net assets and deductions from net assets during the reporting period. Actual results could differ from those estimates.

NEX PERFORMANCE FILMS, INC. 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2012 and 2011

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investments Valuation and Income Recognition

Investments are reported at fair value. Fair value is defined as the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required, the statements of net assets available for benefits presents the fair value of the investment in the guaranteed investment contract as well as the adjustment of the investment in the guaranteed investment contract from fair value to contract value. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Risks and Uncertainties

The Plan provides for various investment options in various combinations of investment funds. Investment funds are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in their values will occur in the near term and that such changes could materially affect participants' balances and the amounts reported in the statements of net assets available for benefits.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Benefit Payments

Participant withdrawals are recorded when paid.

NOTE 3 - INVESTMENTS

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustees have certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- a. Total investments as shown in the accompanying statements of net assets available for benefits of \$3,867,077 and \$2,810,608 as of December 31, 2012 and 2011, respectively.
- b. Notes receivable from participants as shown in the accompanying statements of net assets available for benefits of \$447,192 and \$133,867 as of December 31, 2012 and 2011, respectively.
- c. Investment income (loss) as shown in the accompanying statements of changes in net assets available for benefits of \$364,751 and \$(44,978) for the years ended December 31, 2012 and 2011, respectively.
- d. Interest income from notes receivable from participants as shown in the accompanying statements of changes in net assets available for benefits of \$6,688 and \$4,711 for the years ended December 31, 2012 and 2011, respectively.

NOTE 3 - INVESTMENTS (CONTINUED)

During the year ended December 31, the Plan's investments (including gains and losses on investments purchased and sold, as well as held during the year) appreciated (depreciated) as follows:

	<u>2012</u>	<u>2011</u>
Mutual funds	\$ 60,119	\$ (29,873)
Collective investment trust fund	<u>224,816</u>	<u>(22,919)</u>
Net appreciation (depreciation) in fair value of investments	<u>\$ 284,935</u>	<u>\$ (52,792)</u>

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE 4 - GUARANTEED INVESTMENT CONTRACT

The Plan invests in a fully benefit-responsive investment contract, the Principal Fixed Income Guaranteed Option. The contract provides that participants execute Plan transactions at contract value. Contract value represents contributions made to the funds, plus earnings, less participant withdrawals. The interest rates are reset on a semi-annual basis based on the current yield of the underlying investments and the spread between the market value and contract value, but the rate cannot be less than a guaranteed minimum interest rate.

Certain events, such as Plan termination, which result in a material and adverse effect on the investment contract, may limit the ability of the Plan to transact at contract value or may allow for the termination of the investment contract at less than contract value. At this time, the Company believes that any events that may limit the ability of the Plan to transact at contract value are remote.

The methodology used to calculate performance is based on the annualized earnings of all fully benefit-responsive investment contracts divided by the fair value of all fully benefit-responsive investment contracts. The average yield is as follows:

	<u>2012</u>	<u>2011</u>
Based on annualized earnings	2.48%	2.83%

NEX PERFORMANCE FILMS, INC. 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 5 - FAIR VALUE MEASUREMENTS

Generally accepted accounting principles establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds are valued at the net asset value of shares held by the Plan at year-end.

The collective investment trust fund invests in a collective trust of investments and mutual funds. Collective trusts use policies and procedures similar to mutual funds to assign fair value to shares held. The estimated fair value of the collective investment trust fund is net asset value (NAV). The use of NAV as fair value is deemed appropriate as the collective investment trust fund does not have a finite life, unfunded commitments relating to these types of investments or significant restrictions on redemptions. The fund is to provide investors with a total return consisting of long-term growth of capital, current income, and returns relative to the respective benchmarks.

The guaranteed investment contract is valued by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

NOTES TO FINANCIAL STATEMENTS
December 31, 2012 and 2011

NOTE 5 - FAIR VALUE MEASUREMENTS (CONTINUED)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
