TRINITY PACKAGING CORPORATION 401(k) RETIREMENT BENEFIT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012 AND 2011

1. DESCRIPTION OF PLAN

The following description of the Trinity Packaging Corporation 401(k) Retirement Benefit Plan (the "Plan") provides only general information. Participants should refer to the Plan document or Summary Plan Description ("SPD") for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established on January 1, 1993, available to all full-time employees of Trinity Packaging Corporation (the "Plan Sponsor"). Principal Life Insurance Company ("Principal Life") and Delaware Charter Guarantee and Trust Company (dba Principal Trust Company) ("Principal Trust") (collectively, the "Custodians") serve as the custodians of the Plan. Principal Life certified the pooled separate and guaranteed interest accounts and Principal Trust certified the mutual funds held by the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and the Internal Revenue Code of 1986 ("IRC"), as amended.

Eligibility

Employees who have attained the age of twenty-one or older and completed at least one year of service, as defined in the SPD, are eligible to participate in the Plan.

Contributions

Participants may contribute a minimum of 2% of their salary up to the maximum percentage of compensation or dollar amount permissible under Section 402(g) of the IRC, not to exceed limits of IRC Sections 401(k), 404 and 415, with the contributions and earnings thereon being nontaxable until withdrawn from the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Contributions are invested in various investment options as directed by the participants.

The Plan Sponsor matches 50% of the first 4% of the participants contributions to the Plan. The Plan Sponsor may also contribute an additional discretionary amount to the Plan as its board of directors deems appropriate. Such contributions are credited to the participants' accounts based on their annual pay. The Plan Sponsor's board of directors authorized a discretionary contribution in the amount of \$198,000 for the year ended December 31, 2011.

Participant Accounts

Each participant's account is credited with their contribution, the Plan Sponsor's matching and discretionary contributions, and Plan earnings on such contributions and is charged with an allocation of administrative expenses. The benefit to which a participant is entitled to is represented by the vested balance in the participant's account.

Administrative Expenses

Administrative expenses consist of investment and transaction fees. Investment fees are charged to participant accounts based on the underlying funds that participants are invested in. Transaction fees are assessed and allocated directly to the participants initiating the transaction. For the years ended December 31, 2012 and 2011, such expenses amounted to \$87,884 and \$80,331, respectively.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012 AND 2011

1. DESCRIPTION OF PLAN (CONTINUED)

Vesting

Participants are immediately vested in their contributions, the Plan Sponsor's matching contributions and actual earnings thereon. Participants are not vested in the Plan Sponsor's discretionary contributions or earnings thereon until they have completed three years of service with the Plan Sponsor, at which time they become 100% vested in such amounts. Notwithstanding the foregoing, participants become 100% vested upon attainment of retirement age, as defined in the SPD, or upon death or disability prior to termination of employment.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of a) \$50,000 or b) 50% of the participant's vested account balance. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with market rates for similar loans. Participant loans generally must be fully repaid within five years. Loans for a primary residence may be repaid within a reasonable time based on the discretion of the loan administrator, but no longer than 30 years. Participants can have no more than one loan outstanding at any given time and may only take out one loan in any 12 month period.

If a participant fails to make a payment under the terms of the note, that participant will be considered in default. In the event of default, the note receivable shall become due and payable immediately and interest will continue to accrue until the entire note receivable balance is repaid. The Plan will take all reasonable actions to collect the balance owed. Under certain circumstances, the defaulted note could be considered a distribution from the Plan and could be considered income to the participant. In any event, failure to repay a note will reduce the benefit a participant would otherwise be entitled to receive from the Plan.

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant or participant's beneficiary may elect to receive 100% of the participant's vested interest in his or her account balance in either a lump-sum amount or in annual installments over a period of years in accordance with the Plan document. For termination of service due to other reasons, a participant may choose to have all or any part of their vested account balance distributed to them or leave their account under the Plan if their vested account is more than \$5,000. No amounts were allocated to accounts of persons who have elected to withdraw from the Plan but have not yet been paid as of December 31, 2012 or 2011.

Forfeited Accounts

The portion of a participant's account balance which is not vested upon termination of employment is forfeited and remains in the Plan. Forfeitures of employer contributions can be used to pay administrative expenses or be applied to reduce employer contributions to the Plan. During the years ended December 31, 2012 and 2011, the forfeited balance of \$4,001 and \$8,549, respectively, was used to pay administrative expenses and towards the employer's matching contributions. There was no unapplied balance at December 31, 2012, or 2011.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan were prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Recently Adopted Accounting Pronouncements

In May 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*. This update amends FASB Accounting Standards Codification ("ASC") 820, *Fair Value Measurement*, providing a consistent definition and measurement of fair values as well as similar disclosure requirements between U.S. GAAP and International Financial Reporting Standards. ASU 2011-04 changes certain fair value measurement principles, clarifies the application of existing fair value measurements, and expands the FASB ASC 820 disclosure requirements, particularly for Level 3 fair value measurements. ASU 2011-04 was effective for the year beginning January 1, 2012. The adoption of this standard did not have a material effect on the Plan's financial statements.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the SPD. As of December 31, 2012 and 2011, participants defaulted on notes receivable amounting to \$48,160 and \$30,611, respectively. The Custodians have issued 1099s to report the income generated from the defaulted notes receivable balances to the participants.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date. See Note 6 for discussion on fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

The Plan's guaranteed interest accounts require payment of contract value upon the occurrence of a benefit event, such as termination, death, disability or retirement. However, there is a possible market value adjustment for transfers to other investment options from the guaranteed interest accounts. Thus, the guaranteed interest accounts are not considered fully benefit-responsive.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012 AND 2011

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fully Benefit-Responsive Investment Contract

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Fair Value Measurements

FASB ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Under the new standard, fair value is defined as the exit price, or the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date.

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and, inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Payment of Benefits

Benefits are recorded when paid.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012 AND 2011

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Subsequent Events

In accordance with FASB ASC 855, *Subsequent Events*, the Plan has evaluated subsequent events through September 26, 2013, the date on which these financial statements were available to be issued. Except as discussed in Note 12 to the financial statements, there were no material subsequent events that required recognition or additional disclosure in the financial statements.

3. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

4. PLAN TERMINATION

Although it has not expressed any intention to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer discretionary contributions and be entitled to the entire amount of their account balance.

5. TAX STATUS

The Internal Revenue Service ("IRS") has determined and informed the Plan Sponsor by a letter dated January 4, 2012, that the Plan is designed in accordance with applicable sections of the IRC. The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and that, therefore, the Plan qualifies under Section 401(a) of the IRC and is exempt from federal income taxes under Section 501(a) of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

6. FAIR VALUE MEASUREMENTS

Assets measured at fair value are based on one or more of three valuation techniques identified in the tables below. The valuation techniques are as follows:

- (a) *Market approach.* Prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities;
- (b) *Cost approach.* Amount that would be required to replace the service capacity of an asset (replacement cost); and
- (c) *Income approach.* Techniques to convert future amounts to a single present amount based on market expectations (including present value techniques, option-pricing and excess earnings models).

The following tables summarize the Plan's investments measured at fair value on a recurring basis, categorized by GAAP's valuation hierarchy as of December 31, 2012 and 2011:

During the year ended December 31, 2012, there were no transfers between levels of the fair value hierarchy.

During the year ended December 31, 2011, there was a transfer between levels within the fair value hierarchy for one of the pooled separate accounts in the Plan. The pooled separate account, which used net asset value ("NAV") per share to estimate fair value, was previously categorized as a Level 3 fair value measurement due to participants not having the ability to redeem their investment at NAV as of the measurement date. The pooled separate account had a temporary withdrawal limitation placed on it which delayed the processing of withdrawal requests until certain liquidity levels were achieved. The temporary withdrawal limitation relating to this pooled separate account was lifted on March 25, 2011, and it was categorized as a Level 2 fair value measurement as of December 31, 2012 and 2011.

6. FAIR VALUE MEASUREMENTS (CONTINUED)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual funds are valued at quoted market prices, which represent the net asset value of the securities held in such funds.

Pooled separate accounts are made up of a wide variety of underlying investments such as equities, preferred stock, bonds, real estate and mutual funds. The majority of the underlying securities have observable Level 1 quoted pricing inputs; however, the net asset value ("NAV") of a pooled separate account is not publicly quoted.

Common collective trusts are valued using a NAV. The NAV of a collective trust is based on the market values of the underlying securities in an active market. The beneficial interest of each participant is represented in units. Units are issued and redeemed daily at the fund's closing NAV.

Guaranteed interest accounts are stated at fair value. The fair value of the guaranteed interest accounts is calculated based on the value when discontinuing the contract as of the report date.

<u>Investment</u>	<u>Fair Value</u>	<u>Valuation Technique</u>	<u>Unobservable Inputs</u>	<u>Range of Inputs</u>
Guaranteed interest account	\$ 798,338	Discounted cash flow method	Contract value minus withdrawal charges	Below 1%

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

7. EXCESS CONTRIBUTIONS PAYABLE

During the years ended December 31, 2012 and 2011, benefits paid to participants include payments of \$14,244 and \$16,292 made in 2012 and 2011, respectively, to certain active participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. Those amounts are also included in the Plan's statements of net assets available for benefits as "Excess contributions payable" at December 31, 2012 and 2011.

8. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of the net assets available for benefits per the financial statements to the Form 5500 as of December 31:

	<u>2012</u>	<u>2011</u>
Net assets available for benefits per financial statements	\$ 16,645,921	\$ 14,298,431
Excess contributions payable	14,244	16,292
Adjustment from fair value to contract value for certain investments	<u>26,872</u>	<u>(2,380)</u>
Net assets available for benefits per Form 5500	<u>\$ 16,687,037</u>	<u>\$ 14,312,343</u>

The following is a reconciliation of the change in net assets available for benefits per the financial statements to the Form 5500 for the years ended December 31:

	<u>2012</u>	<u>2011</u>
Increase in net assets per financial statements	\$ 2,347,490	\$ 880,167
Excess contributions payable	14,244	16,292
Repayments of excess contributions	(16,292)	(20,001)
Adjustment from fair value to contract value for certain investments	<u>29,252</u>	<u>224</u>
Increase in net assets per Form 5500	<u>\$ 2,374,694</u>	<u>\$ 876,682</u>

For financial statement purposes, excess contributions are included in benefits paid to participants in the year in which the contributions are made. For tax return reporting purposes, such amounts are only reported when repaid to participants. Additionally, the Plan's guaranteed interest accounts and principal stable value funds are initially recorded at cost and adjusted to their fair market value for financial statement purposes. For tax reporting purposes, the adjustment from fair value to contract value is not reported.

9. RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain administrative functions are performed by officers or employees of the Plan Sponsor. No such officer or employee receives compensation from the Plan. Additionally, certain administrative expenses are paid directly by the Plan Sponsor.

Certain Plan investments are invested in pooled separate and guaranteed interest accounts managed by Principal Life. Accordingly, these transactions qualify as party-in-interest transactions. During the years ended December 31, 2012 and 2011, fees were paid to certain service providers as follows:

	<u>2012</u>	<u>2011</u>
Principal Life	\$ <u>87,884</u>	\$ <u>80,331</u>

Fair Value Estimated Using Net Asset Value per Share at December 31, 2011					
<u>Description</u>	<u>Fair Value</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency</u>	<u>Other Redemption Restrictions</u>	<u>Redemption Notice Period</u>
Pooled separate accounts:					
Principal U.S. Property Fund (a)	\$ 91,585	\$ -	Daily	None	None
Others (b)	<u>9,824,843</u>	<u>-</u>	Daily	None	None
Total	<u>\$9,916,428</u>	<u>\$ -</u>			

The fair values of the investments have been estimated using the NAV of the investments.

- (a) The Principal U.S. Property Fund aims to achieve a diversified real estate equity account consisting primarily of commercial real estate and includes mortgage loans which are backed by the associated properties. The fair value of the underlying real estate is estimated using discounted cash flow valuation models that utilize public real estate market data inputs such as transaction prices, market rents, vacancy levels, market cap rates and discount rates. In addition, each property is appraised annually by an independent appraiser.

11. NET ASSET VALUE PER SHARE (CONTINUED)

The Principal U.S. Property Fund had a temporary withdrawal limitation in place in the beginning of 2011. Principal Life implemented the withdrawal limitation as a result of the turmoil in the credit market and slowdown of sales in the real estate market in recent years. Withdrawal requests were subject to the limitation until certain liquidity levels were achieved, mainly via proceeds from sales of underlying properties, rents from tenants, and new investor contributions. Withdrawal requests relating to death, disability, eligible retirements and hardship withdrawals were not subject to the limitation. All withdrawals were being transacted at the NAV price at the date of distribution. Effective March 25, 2011, this restriction was lifted.

- (b) This class includes other pooled separate accounts that are invested in mutual funds, domestic and international stocks, other pooled separate accounts, short-term and fixed securities. The underlying investments have a Level 1 or a Level 2 pricing input. These prices of the underlying investments are used in determining the NAV of each pooled separate account, which estimates the fair value of the pooled separate account.
- (c) The common collective trust's objective is to provide preservation of capital, relatively stable returns consistent with its low risk profile. The common collective trust invests primarily in U.S. bonds as well as various other domestic and international stocks. These prices of the underlying investments are used in determining the NAV of the common collective trust which estimates its fair value.

12. SUBSEQUENT EVENTS

On December 10, 2012, the Plan Sponsor acquired Cello-Pack, Inc. ("Cello"), a company in Buffalo, New York. All of Cello's employees continued to participate under their existing plan through December 31, 2012. Effective January 1, 2013, Cello employees became eligible to participate in the Plan. Assets of the Cello plan were transferred to the Plan on February 15, 2013.

Effective August 1, 2013, the Plan Sponsor sold two of their plants located in Lewistown, Pennsylvania and Pueblo, Colorado to Inteplast Group, Inc. (dba Trinity Plastics, Inc.) ("TPI"). As a result of the sale, approximately 60% of the Plan's participants were terminated effective July 31, 2013, and commenced employment with TPI on August 1, 2013. Since termination of plan participants exceeded 20%, this is considered a partial termination of the Plan. As a result, participants who were affected became fully vested in their accumulated plan benefits as of July 31, 2013.
