Resource Recovery Pension Plan

Notes to Financial Statements

December 31, 2012

1. Description of Plan

The Resource Recovery Pension Plan (“Plan”) became effective as of January 1, 1993 and was amended effective December 31, 2001 to freeze the Plan and discontinue employer contributions and to cease further accrual of benefits. Covanta Energy Services, Inc. (“Covanta Energy” or the “Company”) is the Plan sponsor. The Plan is a defined contribution plan covering all employees of Ogden Resource Recovery Support Services, Inc. who had completed at least 1,000 hours of service. Effective December 31, 2001, no further employees were permitted to participate in the Plan. The Administrative and Investment Committees of the Board of Directors of the Company (“Plan Administrator”) control and manage the operation and administration of the Plan. T. Rowe Price Trust Company is the Trustee for the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). The Plan is periodically amended to comply with applicable laws.

Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

Employer Contributions

Contributions made to the Plan for the benefit of participants or their beneficiaries are to be invested at the election of the participant. Effective December 31, 2001, the Plan was frozen and employer contributions were discontinued.

Payment of Benefits

Upon retirement, death, or disability, the participant is entitled to receive benefits equal to the value of the vested portion of the participant’s account by the distribution method elected by the participant. Benefits under the Plan are payable in various forms of annuities, as well as a lump-sum payment option.

If the value of a participant’s vested account balance is \$1,000 or less at the time of termination of employment, the benefit will be paid as a lump-sum payment. If the value of a participant’s vested account balance is greater than \$1,000, but less than \$5,000, and if the participant does not elect to have the distribution paid to him directly or to an eligible retirement plan in a direct rollover, then the Plan will distribute the participant’s account in a direct rollover to an IRA designated by the Plan Administrator. If the value of the participant’s vested account balance is greater than \$5,000, a distribution shall be made at the election of the participant.

Resource Recovery Pension Plan

Notes to Financial Statements (continued)

1. Description of Plan (continued)

Upon termination for reasons other than normal retirement, death, or disability, the participant is entitled to receive a benefit equal to the value of the participant's vested interest in the contributions made to the participant's account by the distribution method elected by the participant. Any excess of the amount credited to the participant's employer contribution account over the participant's vested interest is forfeited.

Vesting

Eligible employees who were participants on January 31, 1993 were 100% vested in their accounts. Eligible employees who became participants in the Plan after January 31, 1993 and prior to the December 31, 2001 freeze date, vest based on years of service and become fully vested after five years of service. The amount of any forfeitures shall be used to offset administration expenses of the Plan. During 2012 and 2011, the Company utilized forfeited amounts totaling approximately \$0 and \$2,000, respectively, to offset administrative expenses. At both December 31, 2012 and 2011, the balance of unused forfeited amounts available to offset future administrative expenses totaled \$0.

Plan Termination

The Board or the Administrative Committee may amend the Plan at any time. No such amendment, however, may have the effect of diverting to the Company any part of the Plan or of diverting any part of the Plan for any purpose other than for the exclusive benefit of the participants. Likewise, an amendment may not reduce the interest of any participant in the Plan accrued prior to such amendment. The Board or the Administrative Committee may, however, make such amendments to the extent required to conform the Plan to ERISA or to maintain the continued qualified status of the Plan under the Section 401(a) of the Internal Revenue Code (the "Code").

The Company expects to continue the Plan indefinitely, but reserves the right to amend or terminate the Plan at any time. In the event of the Plan's termination, the interest of each participant to benefits accrued to such date, to the extent then funded, is fully vested and nonforfeitable.

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on an accrual basis of accounting.

Investment Valuation

All investments are carried at fair value. Refer to Note 4 for further details related to the Plan's valuation methods.

Income Recognition

Unrealized gains and losses are determined based on the fair value of assets at the beginning and end of the Plan year. Realized gains and losses are determined based on the carrying value and sales price of the assets at the trade date. Purchases and sales of securities are recorded on a trade date basis. Dividend income is accounted for on the ex-dividend date.

Administrative Expenses

Any administrative expenses which are not paid directly from Plan assets are paid by the Plan sponsor.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results may differ from those estimates.

3. Fully Benefit-Responsive Investment Contracts

The Plan's Common Collective Trust consists of the T. Rowe Price Stable Value Fund (the "Fund"), which invests primarily in Guaranteed Investment Contracts, Bank Investment Contracts, and Structured Investment Contracts. These are investment contracts in which the Fund owns the underlying assets and purchases fully benefit-responsive wrapper contracts from independent third parties that provide market value and cash flow risk protection. The Fund is designed to deliver safety and stability by preserving principal and accumulating earnings. There are currently no redemption restrictions for investments in the Fund.

Resource Recovery Pension Plan

Notes to Financial Statements (continued)

3. Fully Benefit-Responsive Investment Contracts (continued)

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the Plan's investment in the Fund as well as the difference between the Plan's investment at fair value and the Plan's investment at contract value.

The fair value of the Fund's underlying assets are generally determined by discounting the scheduled future payments required under the contract based on current yields of similar instruments with comparable duration. The fair values of the wrapper contracts are based upon their estimated replacement cost based on issuer quotes. The contract values of the Fund's investment contracts' represent the sum of participants' contributions, gains and losses on the underlying assets, participants' withdrawals and administrative expenses.

4. Fair Value Measurements

Fair value is the exit price associated with the sale of an asset or transfer of a liability in an orderly transaction between market participants at the measurement date. The following sets forth the types of assets measured at fair value and a brief description of the evaluation technique for each asset type:

Position Description	Types of Investments	Valuation Technique
Mutual Funds	Funds that invest in a diversified portfolio consisting of stocks, bonds, short-term money market instruments and/or other securities.	Priced at fund Net Asset Value (NAV) per share. Each fund's NAV is based on quoted current market prices.
Common Collective Trust Fund	Guaranteed Investment Contracts, Bank Investment Contracts, and Structured Investment Contracts.	The fair value of the Stable Value Fund is based on the fair value of the underlying investments. Refer to Note 3.

Assets recorded at fair value are categorized using defined hierarchical levels directly related to the amount of subjectivity associated with the inputs to valuation of an asset: Level 1 (unadjusted quoted prices in active markets); Level 2 (observable inputs available at the measurement date, other than quoted prices included in Level 1); and Level 3 (unobservable inputs that cannot be corroborated by observable market data).

Resource Recovery Pension Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

Fair Value Measurements as of December 31, 2012

5. Investments

The fair value of the individual investments that represent 5% or more of the Plan's net assets available for benefits are as follows:

	December 31	
	2012	2011
Science & Technology Fund	\$ 1,548,893	\$ 1,597,790
Equity Income Fund	*	1,060,969
Spectrum Income Fund	1,073,456	1,069,265
Blue Chip Growth Fund	985,088	878,613
Vanguard Prime Money Market Institutional Fund	644,436	725,143
Vanguard Equity Income Fund	1,123,156	*

* This fund balance did not exceed 5% of net assets at the respective year-end.

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held and the adjustment from fair value to contract value for fully benefit-responsive investment contracts at December 31, 2012 and 2011, and net realized and unrealized appreciation in fair value of investments, other income, and dividend income for the year ended December 31, 2012, were obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the Trustee.

6. Tax Status

The Plan received a determination letter from the IRS dated September 27, 2010 stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. The Plan is required to operate in conformity with the Code to maintain its qualification. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States require Plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

8. Reconciliation to the Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 as of December 31, 2012 and 2011:

	<u>2012</u>	<u>2011</u>
Net assets available for benefits per the financial statements	\$ 7,263,694	\$ 6,998,722
Adjustment from contract value to fair value for fully benefit-responsive investment contracts	12,557	9,922
Net assets available for benefits per the Form 5500	<u>\$ 7,276,251</u>	<u>\$ 7,008,644</u>

9. Related-Party Transactions

The Plan's investments in certain mutual funds and the common collective trust managed by the Trustee are considered to be party-in-interest transactions. However, they are exempt from the prohibited transaction rules under ERISA.

11. Subsequent Events

The Company has evaluated all significant activities through August 28, 2013 (the date these financial statements were available to be issued) and concluded that no additional subsequent events occurred that would require recognition in the financial statements or disclosure in the notes to financial statements.
