1. DESCRIPTION OF THE PLAN

The following brief description of the Retirement Savings Plan for Employees of WestPoint Home LLC (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was adopted as of October 1, 2005 (the "Effective Date") by WestPoint Home, Inc. (the "Predecessor Company") now WestPoint Home LLC (the "Company" or the "Plan Sponsor"). Effective March 1, 2012, the Plan name changed from Retirement Savings Plan for Employees of WestPoint Home, Inc. to Retirement Savings Plan for Employees of WestPoint Home LLC. The purpose of the Plan is to enable eligible employees to save for retirement. In addition to retirement benefits, the Plan provides certain benefits in the event of death, disability, or other termination of employment. The Plan is for the exclusive benefit of eligible employees and their beneficiaries. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Trust Agreement

The assets of the Plan were held for safekeeping and investment by T. Rowe Price Trust Company ("T. Rowe" and collectively "Trustee").

Eligibility and Contributions

Among other requirements as described in the Plan document, employees of the Company are eligible to participate in the Plan if they have completed a period of service of 90 days. Each active Plan participant may make contributions up to a maximum of 50% of his or her compensation on a before-tax basis, and up to a maximum of 50% on an after-tax basis, as long as the sum of the after-tax and before-tax percentages does not exceed 100% of the Plan participant's compensation. Plan participant contributions made on a before-tax basis under Section 401(k) of the Internal Revenue Code ("IRC") could not exceed the elective contribution limit of $17,000 during 2012. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions of up to $5,500 for 2012.

The Plan Sponsor matches 50% of each plan participant's before tax contributions not to exceed 6% of the Plan participant's gross compensation.

Vesting

Participants are immediately vested in their rollovers and participant contributions plus actual earnings thereon at all times. Vesting in the Company's contributions plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after three years of service.

Notes Receivable from Participants

Participants may borrow from their vested balance in the Plan. The minimum loan amount is $1,000. The loan is to be secured by the participant's vested assets in the Plan and the maximum loan amount is the lesser of 50% of the borrower's vested account balance or $50,000 less the amount of the highest outstanding loan balance in the prior 12-month period. The maximum term of a general loan is 5 years and

the maximum term of a residential loan is 15 years. The interest rate is set at the prime rate in effect at the time of the application of the loan and will be fixed for the entire term of the loan. Loans outstanding of $239,841 and $272,848 had interest rates ranging from 3.25% to 9.25% and 3.25% to 9.25% and maturities through 2017 and 2016 as of December 31, 2012 and 2011, respectively.

Forfeitures

An employee may forfeit the non-vested portion of their account if employment ceases and the employee is less than 100% vested in any employer contributions made to their account. Forfeited balances of terminated participants' nonvested accounts are used to reduce future Plan Sponsor contributions. During the year ended December 31, 2012 and 2011, $22,079 and $10,438 of forfeitures were used to reduce Plan Sponsor contributions, respectively. The balance of forfeited nonvested accounts were $2 and $1,291 as of December 31, 2012 and 2011, respectively.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Plan Sponsor's contributions and earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Upon enrollment in the Plan, participants direct their employee contributions and any employer contributions in any of the investment options offered by the Plan. Participants have a number of different investment options from which to choose. Each investment option is intended to provide a different degree of investment risk and expected returns such that the participant can meet their investment objectives.

Payment of Benefits

Upon retirement, disability, death or termination of service, a participant may receive either a lump sum or a rollover amount equal to the value of the vested portion of his or her account. Distributions are subject to the applicable provisions of the Plan document. The Plan allows in-service withdrawals, such as hardship withdrawals, under certain conditions based on participant eligibility and approval by the Plan administrator.

Administrative Expenses

Administrative and operating expenses incurred by the Plan are paid from either plan assets or by the Company. Participants are responsible for administrative expenses paid on loans.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements of the Plan have been prepared in conformity with accounting principles generally accepted in the United States of America ("US GAAP"), as applied to employee benefit plans. A summary of the Plan's significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price).

The Plan's common collective trusts are required to be reported at fair value. However, contract value is the relevant measurement attribute for the portion of net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts. Contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common collective trust. The Statements of Net Assets Available for Benefits presents the fair value of the investment in the common collective trusts as well as the adjustment of the investment in the common collective trust from fair value to contract value relating to the investment contracts. The Statement of Changes in Net assets Available for Benefits is prepared on a contract value basis.

Security transactions are reflected on a trade-date basis. Dividends are recorded on the ex-dividend date. Income earned on investments is recorded on an accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued, but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan Document.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Payment of Benefits

Benefit payments are recorded when paid.

Adoption of New Accounting Standards

In May 2011, the Financial Accounting Standards Board ("FASB") issued amended accounting guidance for fair value measurements and disclosures. The amended guidance changes the fair value measurement principles primarily regarding the application of "highest and best use" concept to be used only in the measurement of nonfinancial instruments. The amended guidance also enhances the disclosure requirements, particularly for Level 3 fair value measurements. The guidance is effective for the first annual reporting period beginning on or after December 15, 2011. The adoption of this guidance on January 1, 2012 did not have a material impact on the Plan's financial statements.

Subsequent Events

In preparing the Plan's financial statements, subsequent events were evaluated through October 4, 2013, the date the financial statements were available to be issued. There were no subsequent events that would require recognition or additional disclosure in the Plan's financial statements.

3. CERTIFICATION BY THE TRUSTEE

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, T. Rowe Price Trust Company, the Plan's Trustee since plan inception, has certified that the following information in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments, notes receivable from participants and adjustment from fair value to contract value for interest in collective trust relating to fully benefit-responsive investment contracts, as shown in the Statements of Net Assets Available for Benefits as of December 31, 2012 and 2011.
- Net investment income and interest from notes receivable from participants, as shown in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2012.
- Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2012.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

4. INVESTMENTS

The following presents investments, at fair value, that represent 5% or more of the Plan's net assets at December 31:

	2012	2011
T. Rowe Price Retirement 2015 Fund	*	$ 1,178,385
T. Rowe Price Retirement 2020 Fund	2,076,209	1,757,784
T. Rowe Price Retirement 2025 Fund	1,365,102	1,191,629
Thornburg International Value Fund	1,495,666	1,484,129
PIMCO Total Return Admin Fund	1,402,987	1,405,432
T. Rowe PriceStable Value Fund **	6,263,542	6,809,168

* Did not represent more than 5% or more of the Plan's net assets at respective date.

** Represents contract value as of December 31, 2012 and 2011. Fair value as of December 31, 2012 and 2011 was $6,532,812 and $7,055,216, respectively.

The Plan invests in the T. Rowe Price Stable Value Fund (the "TRP Value Fund"), which is a common/collective trust. The investment objectives of the TRP Value Fund are to maximize current income consistent with the maintenance of principal and to provide for withdrawals for certain participant-initiated transactions under a retirement plan without penalty or adjustment. The TRP Value Fund will attempt to achieve these objectives by investing principally in guaranteed investment contracts ("GICs") issued by insurance companies; investment contracts issued by banks ("BICs"); structured or synthetic investment contracts ("SICs") issued by banks, insurance companies, and other issuers, as well as the securities supporting such SICs ("underlying assets"); separate account contracts ("SACs"); and other similar instruments that are intended to maintain a constant net asset value while permitting participant-initiated, benefit-responsive withdrawals for certain events (collectively, "investment contracts"). The TRP Value Fund may also invest in third party wrap contracts designed to permit the use of book value accounting to maintain a constant net asset value of $1.00 per unit, although there is no guarantee that the TRP Value Fund will be able to maintain that value. The TRP Value Fund also utilizes the wrap contracts to provide for the payment of participant-directed withdrawals and exchanges at book value under most circumstances. Interest is credited to the TRP Value Fund under the wrap contracts; investment gains and losses are not recognized immediately, but rather recognized over time by adjusting the interest rate credited to the TRP Value Fund. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

The average yields earned by the guaranteed investment contract are as follows:

	2012	2011
Average yields:		
Based on actual earnings	2.36%	2.69%
Based on interest rate credited to participants	2.45%	2.97%

Certain events, such as premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with the Trustee. The Plan administrator believes the occurrence of events that would limit the Plan's ability to transact at contract value with plan participants is not probable.

5. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, "Fair Value Measurements and Disclosures," provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means;

If the asset or liability has a specified contractual term, the Level 2 inputs must be observable for substantially the full term of the asset or liability. Included in Level 2 are investments measured using a net asset value ("NAV") per share, or its equivalent, that may be redeemed at that NAV at the period end date or in the near term, which is generally considered to be 90 days.

Level 3 - Inputs to the valuation methodology are unobservable and involve significant estimates/judgments to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used as of December 31, 2012 and 2011:

Mutual funds - valued by obtaining quoted prices as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded. The Plan's mutual funds are considered to be Level 1 securities.

Common/collective trust - valued based on the fair value of the common/collective trust's underlying investments using information reported by the investment advisor at year end. The Plan's common collective trusts are considered to be Level 2 securities.

The methods described above may produce a fair value measurement that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain investments could result in a different estimate of fair value at the reporting date.

The Plan monitors the availability of observable market data to assess the appropriate classification of investments within the fair value hierarchy and transfer between Level 1, Level 2, and Level 3, accordingly. Observable market data includes, but is not limited to quoted prices and market transactions. Changes in economic conditions or market liquidity generally will drive changes in availability of observable market data. Changes in availability of market data, which also may result in changing the valuation techniques used, are generally the cause of transfers between Level 1, Level 2 and Level 3. There were no transfers between fair value levels in 2012 or 2011.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

In accordance with the fair value measurements and disclosures guidance, the following table presents the category, fair value, redemption frequency, and redemption notice period for plan investments, the fair values of which are estimated using the NAV per share as of December 31, 2012 and 2011:

[(a)] The TRP Stable Value Fund is a common/collective trust that invests primarily in Guaranteed Investment Contracts, Bank Investment Contracts, Synthetic Investment Contracts, and Separate Account Contracts. This category seeks to provide maximum current income while maintaining stability of principal.

6. PLAN TERMINATION

While the Sponsor has not expressed any intent to do so, the Sponsor retains the right to terminate the Plan at any time, subject to the provisions of ERISA. In the event a decision is made by the Sponsor to terminate the Plan, all participants shall receive full distributions of the balances in their accounts or the Sponsor may instruct the Trustee to continue to manage the assets for a set period of time.

7. PARTY-IN-INTEREST TRANSACTIONS

Certain investments are shares of a collective trust fund and mutual funds managed by the trustee, and therefore these transactions qualify as party-in-interest transactions. Participant loans are deemed party-in-interest transactions as defined by ERISA.

8. TAX STATUS

The Internal Revenue Service ("IRS") has determined and informed the Plan Sponsor by issuing a favorable opinion letter dated July 8, 2010, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code.

US GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits as shown in the financial statements to the amount shown on Form 5500 as of December 31, 2012 and 2011:

Net assets available for benefits per Form 5500	$ 21,191,304	$ 20,943,207

The following is a reconciliation of the net increase in net assets available for benefits as shown in the financial statements to the amount shown on Form 5500 for the year ended December 31, 2012:
