INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator of
Ruge's Automotive, Inc. 401(k) Profit Sharing Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Ruge's Automotive, Inc. 401(k) Profit Sharing Plan, which comprise the statements of net assets available for benefits of as December 31, 2012 and 2011 and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by ING Life Insurance and Annuity Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the years ended December 31, 2012 and 2011, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion
Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter
We were engaged for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets held at end of year, which is the responsibility of plan management, is presented for the purpose of additional analysis and is not a required part of the financial statements but are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedules referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations
The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Ruge's Automotive, Inc., 401(k) Profit Sharing Plan

Notes to the Financial Statements
For the Years Ended December 31, 2012 and 2011

Note 1 – Plan Description

The Ruge's Automotive, Inc. 401(k) Profit Sharing Plan ("the Plan") was established by the Board of Directors of Ruge's Automotive, Inc. on January 1, 1980. The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a Cash or Deferred Profit Sharing Plan covering all full-time employees of the Company who are twenty one or older and have completed one year of service. One Year of Service is completed on the last day of the Eligibility Computation Period (the twelve month period that begins with the date hired) in which an employee is credited with 1,000 hours of service. The plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions. Each year, participants may contribute up to the maximum in percentage allowable not to exceed the limits of code sections 401(a), 401(k), 402(g), 401(m) and 501(a) of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company will make Matching Contributions, if any, only on the first 5.00% of compensation as elective contributions. Amounts deferred over 5.00% are not matched. The Matching Contribution made by the Employer will be allocated to Employee Matching Contribution Account at the end of each pay period. In order to receive an allocation of Discretionary Employer Contributions an employee must complete 1,000 hours of service and be employed on the last day of the Plan Year. The salary deduction is up to the participant's discretion. The matching Company contribution is invested directly in ING managed funds. Additional profit sharing amounts may be contributed at the option of the Company's board of directors and are invested in a portfolio of investments as directed by the Company. Contributions are subject to certain limitations.

Participant Accounts. Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses, and (c) forfeitures of terminated participants' non-vested account. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting. Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service. Deceased and disabled participants are immediately 100% vested in all sources.

Note 1 – Plan Description (continued)

Participant Loans. Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of the vested interest of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates commensurate with the interest rates charged by persons in the business of lending money for loans which would be made under similar circumstances. Principal and interest is paid ratably through weekly payroll deductions.

Payment of Benefits. On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a certain number of years selected by the participant, or an annuity. Effective June 1, 2011, there is a mandatory cash-out provision for terminated participants with vested account balances between $1,000 and $5,000. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts. At December 31, 2012 and 2011, forfeited non-vested accounts totaled $2,426 and $5,146, respectively. These accounts will be used to reduce future employer contributions. Also, employer contributions were reduced by the forfeitures for both years.

Note 2 – Summary of Significant Accounting Policies

Date of Management's Review

Subsequent events were evaluated through September 16, 2013, which is the date the financial statements were available to be issued.

Basis of Accounting

The financial statements of the plan are prepared on the accrual basis of accounting.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain of the reported amounts of assets,

Note 2 – Summary of Significant Accounting Policies (continued)

liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Notes Receivable from Participants

Loans to participants are reported at their unpaid principal balance plus any accrued but unpaid interest.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Pooled separate accounts are valued using the net asset value of shares of pooled separate accounts as provided by the issuer. The net asset value of shares of pooled separate accounts is determined by the issuer based on the underlying securities held by the pooled separate account.

GAAP requires that investment contracts held by a defined contribution plan be reported at fair value. The Plans holds a Fixed Account with ING Life Insurance and Annuity Company ("ING") that is deemed to be fully benefit-responsive as of December 31, 2012 and 2011. Although GAAP requires the Fixed Account to be reported at fair value, contract value is the relevant measurement attribute because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by GAAP, the statements of net assets available for plan benefits presents the fair value of the Fixed Account as well as the amount necessary to adjust this fair value to contract value. As permitted by GAAP, the statement of changes in net assets available for plan benefits is prepared on a contract value basis.

The Fixed Account is a general account which consists principally of investments in fixed-income securities, including U.S. Government agency and corporate issues, and is fully benefit- responsive. These investments are presented at the fair value of units held by the Plan as of December 31 in the statement of net assets available for plan benefits plus separate disclosure of the adjustment to contract value, which is equal to principal balance plus accrued interest. An investment contract is generally valued at contract value, rather than fair value, to the extent it is fully benefit-responsive. The fair value of fully benefit-responsive investment contracts is calculated by applying a liquidation factor to the contract value. The liquidation factor is calculated using interest rate assumptions and contract experience.

Purchases and sales of investments are recorded on a trade-date basis. Realized gain or loss on securities is based on average cost. Interest income is recorded on the accrual basis.

Note 2 – Summary of Significant Accounting Policies (continued)

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

Certain expenses of maintaining the Plan are paid by the Plan and others are paid by the Company. Participant loan setup fees and distribution fees are deducted from the proceeds to the participants.

Note 3 – Information Certified by the Investment Custodian

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-5(c) of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by ING, the custodian of the Plan, as complete and accurate, except for comparing such information certified by ING to information included in the Plan's financial statements as of and for the years ended December 31, 2012 and 2011:

Investments as shown in the accompanying statements of net assets available for plan benefits are $2,800,135 and $2,563,596 as of December 31, 2012 and 2011, respectively.

Net investment earnings as shown in the accompanying statements of changes in net assets available for plan benefits are $170,780 and $26,113 for the years ended December 31, 2012 and 2011, respectively.

Adjustments from fair value to contract value for fully benefit responsive investment contracts of $32,878 and $0 have also been certified by ING as of December 31, 2012 and 2011, respectively.

The Fixed Account described in Note 4 represents more than 5% of the Plan's net assets as of December 31, 2012 and 2011. There were individual pooled separate accounts representing 5% or more of the Plan's net assets as of December 31, 2012 and 2011.

Note 4 – Fixed Account

The Plan invests in a general account through the ING Fixed Account ("the account"), which consists principally of investments in fixed-income securities, including U.S. Government agency and corporate issues, and is fully benefit-responsive.

The Plan's interest in the account is calculated by applying the Plan's ownership percentage in the account to the total fair value of the account.

Note 5 – Fair Value Measurements

GAAP establishes a framework for measuring fair value and provides a fair value hierarchy that prioritizes the inputs to the valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and lowest priority to unobservable inputs (level 3 measurements). The three levels of the hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

a. Quoted priced for similar assets or liabilities in active markets;
b. Quoted prices for identical or similar assets or liabilities in inactive markets;
c. Inputs other than quoted prices that are observable for the asset or liability;
d. Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Note 5 – Fair Value Measurements (continued)

Pooled Separate Funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end.

ING Fixed Account: Valued at fair value by applying a liquidation factor to the contract value. The liquidation factor is calculated using interest rate assumptions and contract experience. (See Note 4)

The methods described above may produce a fair value calculation that may not be indicative of the net realizable value or reflective of the future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

2012				
	Level 1	Level 2	Level 3	Total
Pooled Separate Accounts	$1,181,151	-	-	1,181,151

Approximate Current Value	$1,181,152		918,419	

Note 7 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 8 – Tax Status

The Internal Revenue Service has issued an opinion letter on the prototype standardized profit sharing plan of Datair Employee Benefit Systems, Inc. dated September 18, 2001, that the prototype plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Ruge's Automotive, Inc. 401(k) Profit Sharing Plan has adopted that prototype plan.

Note 9 – Risks and Uncertainties

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
