Report On The Financial Statements

We were engaged to audit the accompanying financial statements of the Detroit Tool & Engineering 401(k) Retirement Plan (the Plan), which comprise the statement of net assets available for benefits as of December 31, 2012 and 2011, and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility For The Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis For Disclaimer Of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis For Disclaimer Of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Principal Trust Company, the Trustee, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan Administrator that the Trustee holds Detroit Tool & Engineering 401(k) Retirement Plan's investment assets and executes investment transactions. The Plan Administrator has obtained certifications from the Trustee as of December 31, 2012 and 2011, and for the years then ended, that the information provided to the Plan Administrator by the Trustee is complete and accurate.

Disclaimer Of Opinion

Because of the significance of the matter described in the Basis For Disclaimer Of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets held at end of year as of December 31, 2012 is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis For Disclaimer Of Opinion paragraph, we do not express an opinion on this supplemental schedule.

Report On Form And Content In Compliance With DOL Rules And Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

DETROIT TOOL & ENGINEERING 401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS December 31, 2012 And 2011

1. Description Of The Plan

The following brief description of the Detroit Tool & Engineering 401(k) Retirement Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan sponsored by DTE, Inc. d/b/a Detroit Tool and Engineering (the Company or Plan Administrator). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Eligibility

The Plan covers all employees of the Company who have completed 45 days of service and have attained age 21 to participate.

Contributions

Participants can contribute up to 100% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Contributions are subject to certain Internal Revenue Code (IRC) limitations.

The Plan provides for a discretionary Company matching contribution for employees who were active participants at any time during the Plan year.

The Company may also make a discretionary contribution to active participants on the last day of the Plan year that worked at least 1,000 hours of service during the Plan year.

There were no discretionary contributions made by the Company for the years ended December 31, 2012 and 2011.

Plan Administration

Principal Trust Company (Principal) is the Plan's recordkeeper and Trustee.

DETROIT TOOL & ENGINEERING

401(k) RETIREMENT PLAN

Notes To Consolidated Financial Statements (*Continued*)

Vesting

Participants are 100% vested in their deferral contributions plus actual earnings thereon. Vesting in Company contributions is based on years of service. Participants vested 25% after two years of service, becoming fully vested after five years of service. Participants also become 100% vested upon reaching normal retirement age (age 65), becoming disabled or death.

Forfeitures

Forfeited balances of terminated participants' non-vested accounts are reallocated to participants as a discretionary contribution. There were no reallocated forfeitures for the years ended December 31, 2012 and 2011. There were no unallocated forfeitures at December 31, 2012 or 2011.

Participant Accounts

Each participant's account is credited with the participant's deferral contributions, Company contributions and an allocation of Plan earnings. The allocation of earnings is determined by the earnings of the participant's investment selection based on each participant's account balance, as defined in the Plan Document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Payment Of Benefits

Participants are entitled to receive the balance of their accounts upon death, total disability, retirement, or termination of employment in the form of a lump-sum or annuity. The Plan Administrator may elect to automatically distribute to terminated participants, in a lump-sum payment, balances of \$1,000 or less. In addition, participants may receive distributions of the employee deferral amount for qualified financial hardships.

In-Service Withdrawals

Participants who attain the age of 59-1/2 may withdrawal any portion of their vested account balance. In certain circumstances, a participant may elect a hardship distribution, as defined in the Plan Document.

DETROIT TOOL & ENGINEERING 401(k) RETIREMENT PLAN

Notes To Consolidated Financial Statements (*Continued*)

Notes Receivable From Participants

A participant may borrow a minimum of \$1,000 from their account with a maximum of one loan outstanding at any given time. In no event can the participant borrow more than \$50,000 or 50% of their vested account balance, whichever is less. Loans are for a period not to exceed five years, unless used to acquire a personal residence, and bear interest at a reasonable fixed rate of interest based on prevailing market rates. All loans are secured by the participant's vested account balance, bear interest at rates ranging from 5.25% to 7%, are payable in installments by payroll deductions and are due at various dates through May 2017.

Administrative Expenses

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. A portion of the administrative expenses of the Plan are paid by the Company as provided in the Plan Document. The Plan pays expenses related to transaction and recordkeeping fees.

Investment Options

Upon enrollment in the Plan, a participant may direct contributions in any of a variety of investment options available.

2. Summary Of Significant Accounting Policies

Basis Of Accounting

The financial statements of the Plan are maintained on an accrual basis of accounting.

Estimates And Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

DETROIT TOOL & ENGINEERING

401(k) RETIREMENT PLAN

Notes To Consolidated Financial Statements (*Continued*)

Investment Valuation And Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the guaranteed investment contract, as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Interest income is recorded as earned on the accrual basis. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. The net appreciation (depreciation) in fair value of investments in the accompanying statement of changes in net assets available for benefits includes realized gains (losses), and unrealized appreciation (depreciation).

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan Document.

Payment Of Benefits

Benefit payments are recorded when paid.

Subsequent Events

Management has evaluated subsequent events through October 9, 2013, the date through which the financial statements were available for issue.

DETROIT TOOL & ENGINEERING
401(k) RETIREMENT PLAN

Notes To Consolidated Financial Statements (*Continued*)

3. Investments

Financial information related to the Plan's investments and related earnings thereon are included in the accompanying financial statements and supplemental schedule and are based on information provided by the Trustee. This information, which has not been audited by the Plan's independent auditors, has been certified to as complete and accurate by the Trustee.

The following investments represent 5% or more of net assets available for benefits are as follows:

	December 31,	
	2012	2011
Fixed Income Guaranteed Option - at contract value	\$ 5,146,980	\$ 5,803,515
Principal Large Cap S&P 500 Index Separate Account	1,657,049	1,673,789
Principal Bond and Mortgage Separate Account	1,675,613	1,652,828

The Plan invests in a benefit-responsive annuity contract (the Contract) with Principal Life Insurance Company, which maintains the contributions in a guaranteed interest account.

As described in Note 2, because the contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the Contract. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Interest income on the Contract is calculated and credited daily based on fixed interest rates. Interest rates are reset on a semiannual basis. The Contract had an average yield and crediting interest rate of 2.43% and 2.73% for the years ended December 31, 2012 and 2011, respectively.

The Contract permits the Company or Principal to terminate the Contract within 12 months of receiving notification. Principal may make the termination payment immediately in lieu of a 5% surrender charge.

DETROIT TOOL & ENGINEERING

401(k) RETIREMENT PLAN

Notes To Consolidated Financial Statements (*Continued*)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) the decision by the Plan Sponsor to withdraw all assets from the fund and reinvest in another investment vehicle, (3) the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, (4) the delivery of any communication to Plan participants designed to influence the participant not to invest in the fund, (5) any change in law, regulation, ruling, administrative or judicial position, or accounting requirement applicable to the Plan. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

4. Fair Value Measurements

The Plan follows accounting rules which establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include: <ul style="list-style-type: none">• Quoted prices for similar assets or liabilities in active markets;• Quoted prices for identical or similar assets or liabilities in inactive markets;• Inputs other than quoted prices that are observable for the asset or liability;• Inputs that are derived principally from or corroborated by observable market data by correlation or other means. |

DETROIT TOOL & ENGINEERING

401(k) RETIREMENT PLAN

Notes To Consolidated Financial Statements (*Continued*)

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

Guaranteed Investment Contract

Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

Mutual Funds

Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end investment companies that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled Separate Accounts

Valued at the NAV of units held by the Plan at year end. The NAV is determined by dividing the net assets, at fair value, of the fund by the number of units outstanding on the day of valuation. The NAV, as provided by Principal Life Insurance Company, is used as a practical expedient to estimate fair value. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily.

DETROIT TOOL & ENGINEERING
401(k) RETIREMENT PLAN

Notes To Consolidated Financial Statements (*Continued*)

Collective Investment Trusts

Valued at NAV based on the market value of the underlying investment assets divided by the number of units outstanding at the end of the Plan year. The NAV, as provided by Principal Trust Company, is used as a practical expedient to estimate fair value. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily.

The methods described above may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of:

Notes To Consolidated Financial Statements (*Continued*)

5. Income Tax Status

The Company has adopted the Principal prototype standardized plan, for which a favorable opinion letter was issued to Principal by the Internal Revenue Service on March 31, 2008. The Plan itself has not received a determination letter. The Plan has not been amended since the date of the opinion letter. The Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. The Plan's federal tax returns for tax years 2009 and later remain subject to examination by taxing authorities.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

7. Risks And Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

8. Party-In-Interest Transactions

Certain Plan investments are managed by the Trustee, therefore, these transactions with the Trustee are considered party-in-interest transactions allowable under ERISA.
