NOTE 1. DESCRIPTION OF THE PLAN

The following is a brief description of the Ganz U.S.A., LLC 401(k) Plan (the Plan) provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan with salary reduction features as permitted under Section 401(k) of the Internal Revenue Code. The Plan is funded by participant contributions and employer contributions, and covers all employees of Ganz U.S.A., LLC, Ganz Enterprises, LLC and Midwest-CBK, LLC (collectively "the Company") who have completed six months of service. All eligible employees enter the Plan on the earlier of January 1 or July 1, following satisfaction of the eligibility requirements. On November 1, 2012 the Company acquired a business, Midwest-CBK, LLC. At that time the plan was amended to allow for any employees of Midwest-CBK, LLC as of November 1, 2012 to immediately participate in the Plan. Employees hired by this division after November 1, 2012 are subject to the eligibility requirements specified previously. The assets of the Plan are maintained in an investment contract held by Great West Life and Annuity Insurance Company (Great West). Broker commissions associated with investment transactions are paid by the Plan and netted against earnings on investments and administrative expenses are paid by the Plan or the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA). The Plan administrator determines the appropriates of the Plan's investment offerings and monitors investment performance.

Contributions: Participants may authorize an elective deferred contribution rate up to the maximum annual limitations as provided by the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company makes a discretionary matching contribution. For participants employed by Ganz U.S.A., LLC, and Ganz Enterprises, LLC the matching contribution for the years ended December 31, 2012 and 2011 is $0.20 for every $1.00 of the participants' contribution, up to the first 15% of salary contributed by the participant with a maximum of $2,400. For participants employed by Midwest-CBK, LLC the matching contribution for the year ended December 31, 2012 is 100% of salary deferrals up to 3% of compensation, plus 50% of salary deferrals over 3% and less than 5% of compensation. Participants direct the investment of their contributions and matching contributions into various investment options offered by the Plan. Participants may change their investment allocation on a daily basis.

Participant Accounts: Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, net of investment and administrative fees. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in their contributions plus actual earnings thereon. Participants are 20% vested in employer contributions after two years of service, as defined by the Plan, with a 20% annual increase in each of the next four years.

Notes Receivable from Participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The notes receivable from participants range from 1-5 years and may exceed five years for the purchase of a primary residence. The notes receivable are secured by the balance in the participant's account and bear interest at the prime rate plus 1%. Principal and interest is paid ratably over the term of the receivable.

Withdrawals and Distributions: Unless a participant elects otherwise, distributions will be made as soon as practicable after a participant's normal retirement date or actual retirement date. The normal retirement date is the date upon which a participant reaches age 59½. The normal form of distribution is a lump sum payment.

Participants may receive their accumulated vested benefits held by the Plan's custodian upon termination of employment or elect to keep their vested balance in the Plan until the earlier of normal retirement age, death or disability if their balance exceeds $1,000. If the participant elects to keep their vested interest in the Plan, the participant's account will continue to receive its share of earnings and losses.

NOTE 1. DESCRIPTION OF THE PLAN (CONTINUED)

Forfeitures: At December 31, 2012 and 2011, forfeited non-vested accounts totaled $36,621 and $27,858, respectively. Employer matching contributions forfeited by participants are used to reduce future employer matching contributions. Employer matching contributions forfeited during the year ended December 31, 2012 amounted to $18,064 ($12,828 - 2011). During the year ended December 31, 2012, employer contributions were reduced by $9,066 from forfeited non-vested accounts ($0 - 2011).

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The Plan prepares its financial statements on the accrual basis of accounting and presents the fair value of net assets available for benefits and changes in those net assets in conformity with accounting principles generally accepted in the United States of America.

Accounting Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by the investment advisers, trustee and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment Contracts with Insurance Company: The Plan currently invests in guaranteed certificate funds with Great West. Great West maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses, which approximates fair market value at December 31, 2012 and 2011. The investment contracts are not considered benefit responsive and therefore are presented at fair value. The average yield and crediting interest rates ranged from 0.15% to 3.55% for 2012 (0.15% to 4.05% - 2011).

Notes Receivable from Participants: Notes receivable from participants are valued at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012 or 2011. If a participant ceases to make loan payments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits: Benefit payments to participants are recorded upon distribution.

Plan Termination: Although it has not expressed any intent to do so, the Company has the right under the plan to discontinue its contributions at any time and to terminate the plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their employer contributions.

Subsequent Event: These financial statements have not been updated for subsequent events occurring after October 7, 2013 which is the date these financial statements were available to be issued.

NOTE 3. INVESTMENTS

At December 31, 2012 and 2011 the following investments comprised more than 5% of Plan's net assets:

	December 31, 2012	December 31, 2011
Maxim Money Market Portfolio	**$ 1,207,430**	$ 1,499,886
Maxim Loomis Sayles Bond Portfolio	**$ 913,431**	$ 774,023
Maxim Moderate Profile II	**$ 740,495**	$ 1,087,694
Maxim S&P 500 Index Fund	**$ 716,401**	$ 562,501
American Funds Growth Fund of America	**$ 689,225**	$ 640,227

During the year ended December 31, 2012 the Plan's investments in pooled separate accounts (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $1,152,868 (depreciated in value by $291,286 - 2011).

NOTE 4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Pooled separate accounts: The separate accounts are stated at fair value based on the quoted market prices of the underlying mutual funds. The unit value of the separate accounts is calculated by dividing the total value of the assets of the separate account by the number of units in the separate account. For separate accounts that invest exclusively in mutual funds, the total value of the assets of the separate account is based on the net asset value (NAV), or price per share, of the underlying mutual fund. The mutual fund calculates its NAV by dividing the mutual fund's net assets by the mutual fund's outstanding number of shares. Each pooled separate account provides for redemptions by the Plan at reported net asset values per share, with no advance notice requirement; therefore these funds are classified within Level 2 assets of the valuation hierarchy. As of December 31, 2012 and 2011, there were no unfunded commitments related to any pooled separate account.

NOTE 4. FAIR VALUE MEASUREMENTS (CONTINUED)

Investment contracts with insurance company: Valued at contract value which approximates fair value, based on reported values, reported daily and available on the websites of the issuing financial institutions. The investment contracts with insurance company are classified as level 2 investments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2012 and 2011:

NOTE 5. FINANCIAL CERTIFICATION

The following financial information relating to the Plan's assets at December 31, 2012 and 2011, as well as earnings and investment transactions for the years then ended, have been derived from information provided by Great West Life and Annuity Insurance Company, and have been certified by them as complete and accurate. The incorporation of this financial information in the accompanying financial statements and supplemental schedule of assets (held at year end) is based solely on their certification and the information relating to investments has not been audited by independent accountants.

	2012	2011
Investments at fair value:		
Pooled separate accounts	**$ 10,460,410**	$ 10,281,589
Investment contracts with insurance company	**$ 70,282**	$ 65,614
Transactions for the year ended:		
Net appreciation (depreciation) in the fair value of investments	**$ 1,152,868**	$ (291,186)
Interest and dividend income	**$ 411**	$ 773

NOTE 6. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are maintained in shares of pooled separate accounts and investment contracts with insurance company managed by Great West. Great West is the custodian as defined by the Plan and, therefore, these transactions qualify as party in interest transactions. Fees incurred by the plan for the investment management services are included in net appreciation (depreciation) in fair value of the investments, as they are paid through revenue sharing, rather than direct payment. The Plan Sponsor pays directly any other fees related to the plan's operations. Administrative expenses paid by the Plan for the year ended December 31, 2012 amounted to $5,228 ($3,684 - 2011).

Great West invested a portion of Plan assets in Great West investment products. The earnings on these investments amounted to $591,654 for the year ended December 31, 2012 (losses of $15,255 in 2011). Interest income earned on notes receivable from participants amounted to $10,886 during the year ended December 31, 2012 and qualifies as party-in-interest ($12,086 - 2011).

NOTE 7. INCOME TAXES

The Plan obtained its latest determination letter on September 18, 2001, in which that the Internal Revenue Service stated that the Plan, as then designed, was in compliance with applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and Plan's counsel believe that the Plan is designed and is secretly being operated in compliance with applicable requirements of the IRC. Accordingly, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken uncertain tax positions that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in process. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE 8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amount reported in the statement of net assets available for benefits.

NOTE 9. RECONCILIATION OF THE FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2012 and 2011.
