Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

H.H. BROWN SHOE COMPANY, INC. 401(k) PLAN FOR RETAIL EMPLOYEES

NOTES TO FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2012 AND 2011

NOTE 1 – DESCRIPTION OF THE PLAN

GENERAL INFORMATION

The H. H. Brown Shoe Company, Inc. 401(K) Plan for Retail Employees (Plan), established November 1, 1987 and amended as of January 1, 2012, is a defined contribution plan. The Plan covers all full time non-union, retail employees of H. H. Brown Shoe Company, Inc. and affiliated companies (Company) who have at least three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

CONTRIBUTIONS

All eligible employees who do not affirmatively elect not to contribute or have a specific amount contributed to the Plan, will automatically have their compensation reduced by three percent as a contribution to the Plan invested in a predetermined account under the Qualified Automatic Contribution Arrangement (QACA). The automatic contribution increases by one percent annually unless chosen not to, subject to a maximum of six percent of the eligible employees' compensation.

Participants may also make contributions to the Plan by means of a salary deferral agreement. Participants may elect to defer up to 50 percent of their compensation. The Company makes matching contributions of 100 percent of salary deferrals up to the first one percent of a participant's compensation, and then 50 percent on the additional salary deferrals up to the next five percent of the participant's compensation. Additionally, participants may elect one of several available options of investing in a group annuity contract or separate pooled accounts. Contributions are subject to certain limitations.

PARTICIPANTS' ACCOUNTS

Each participant's account is credited with the participant's contribution, the Company's matching contribution and actual earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit which a participant is entitled to is the benefit that can be provided from the participant's vested account.

The Company's Retirement Plan Committee is responsible for the oversight of the Plan. The Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance. Participants are allowed self-directed investment options, in which case the directed investment account is charged with or credited with the net earnings, gains or losses, as well as any appreciation or depreciation in market value attributable to such account. There is no non-participant directed investment in the Plan.

NOTES TO FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2012 AND 2011

NOTE 1 – DESCRIPTION OF THE PLAN (CONTINUED)

VESTING

Participants are immediately vested in their elective contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of credited service. A participant is 100 percent vested after six years of credited service. However, all matching contributions made by the Company subject to the QACA after January 1, 2012 become fully vested after two full years of credited service.

PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

NOTES RECEIVABLE FROM PARTICIPANTS

The Company may, at its discretion, make loans to participants on a reasonably equivalent basis that shall bear a reasonable rate of interest and shall provide for repayment over a reasonable period of time. Interest rate on new participant loans provided to participants during the year ended December 31, 2012 and 2011 was 4.25%. Loans shall be limited to the lesser of \$50,000 or one-half of the vested interests of the participant. Each participant is limited to two loans outstanding at one time. All repayment on loan principal and interest are paid ratably throughout the term of the participant loans by payroll deductions.

FORFEITED ACCOUNTS

At December 31, 2012 and 2011 forfeited non-vested accounts totaled \$13,994 and \$5,091 respectively. These accounts will be used to reduce plan expenses and future employer contributions. Also, in 2012 plan expenses were reduced by \$2,986 from non-vested accounts and employer contributions were reduced by \$248 from forfeited non-vested accounts.

PAYMENT OF BENEFITS AND WITHDRAWALS

On termination of service due to death, disability, retirement or other reasons, a participant (or a participant's beneficiary, in event of death) may elect to receive the balance in his or her account either in the form of a lump sum equal to the value of the participant's vested interest in his or her account, or installments over a designated period not to exceed the life expectancy of the participant or the participant and his or her designated beneficiary.

PAYMENT OF BENEFITS AND WITHDRAWALS (CONTINUED)

The Plan also allows for hardship withdrawals of part or all of a participant's vested balance limited to the participant's accounts of elective deferral and rollover.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

BASIS OF ACCOUNTING

The financial statements of the Plan are prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America, except for benefit payments.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Plan Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Plan Benefits is prepared on a contract value basis for fully benefit-responsive investment contracts.

INVESTMENT VALUATION AND INCOME RECOGNITION

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company's Retirement Plan Committee determines the Plan's valuation policies utilizing information provided by the investment advisors, custodians and insurance company. See Note 3 for discussion of fair value measurement. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan presents in the statement of changes in net assets available for plan benefits, the net appreciation in the fair value of its investments, which consist of the realized gains or losses on investments sold and unrealized gains or losses on investments held during the year.

NOTES RECEIVABLE FROM PARTICIPANTS

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan documents.

NOTES TO FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2012 AND 2011

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES (CONTINUED)

ADMINISTRATIVE EXPENSES

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

PAYMENT OF BENEFITS

Benefits are recorded when paid.

RISKS AND UNCERTAINTIES

The Plan invests in various investment securities and funds. These securities and funds are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risks associated with certain investment securities and funds, it is at least reasonably possible that changes in values of the investment securities and funds will occur in the near term and that such changes could materially affect the plan account balances and the amounts reported in the statement of net assets available for plan benefits.

USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts included in the Statement of Changes in Net Assets Available for Plan Benefits during the reporting period. Actual results could differ from those estimates.

NOTE 3 – FAIR VALUE MEASUREMENTS ON INVESTMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurement, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

H.H. BROWN SHOE COMPANY, INC. 401(k) PLAN FOR RETAIL EMPLOYEES

NOTES TO FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2012 AND 2011

NOTE 3 – FAIR VALUE MEASUREMENTS ON INVESTMENTS (CONTINUED)

Level 2: Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of assets or liabilities.

Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3: Unobservable inputs for the asset or liability (supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011:

Pooled Separate Accounts

Pooled separate accounts are valued at the net asset value (NAV) of shares held by the Plan at year end as reported by the fund managers (Level 2 inputs). Each of the pooled separate accounts invests either in multiple securities or in single mutual funds which are generally identified in the name of the pooled separate account. Value funds, such as asset allocation and international funds, emphasize buying equity securities that appear to be undervalued. Large, mid and small cap funds invest in a mix of value and growth equity securities, with growth equity securities primarily goal being capital appreciation, with little or no dividend payout. Real estate funds invest in equity securities of companies engaged in the real estate industry. Bond funds mainly invest in fixed income securities that reflect either a more conservative orientation. Investments in these funds can be redeemed daily upon request and have redemption prices that are determined by the fund's net asset value per unit.

NOTES TO FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2012 AND 2011

NOTE 3 – FAIR VALUE MEASUREMENTS ON INVESTMENTS (CONTINUED)

Guaranteed Investment Contract

Guaranteed investment contract is presented and valued at fair value by the insurance company using a market value approach, which is determined to be the estimated liquidation value of the contract. The liquidation value is derived considering factors such as:

- a) the observable interest rate being earned by investments underlying the contract
- b) the unobservable “assumed interest rate” obtainable by MassMutual on new investments where a proxy is the Barclays Capital U.S. Aggregate Index with an adjustment made to duration; and
- c) the unobservable comparison between investments supporting the contract and current market rates where historic investments are either at a premium or discount to current market rates, i.e. the experience rate.

Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the Company’s Retirement Plan Committee evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate).

Contract value represents contributions and reinvested income, less any withdrawals, plus accrued interest, because these investments have fully benefit-responsive features. Under certain conditions, participants may receive less than the contract value of their accounts invested in the investment contracts, as determined by MassMutual. As of December 31, 2012, there were no reserves against contract values for credit risk of contract issuers or otherwise. The guaranteed interest rate was 3.15% and 3.25% as of December 31, 2012 and 2011, respectively.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTES TO FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2012 AND 2011

NOTE 5 – CONTRACT WITH INSURANCE COMPANY

The Plan entered into a fully benefit-responsive guaranteed investment contract with MassMutual which is maintained in the guaranteed investment account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the plan by MassMutual, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the contract at December 31, 2012 and 2011 was \$950,669 and \$856,802, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but such interest rates are reviewed on a semi-annual basis for resetting. The minimum guaranteed interest rate under the contract was 3.15% and 3.25% at December 31, 2012 and 2011, respectively.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the plan's ability to transact at contract value with participants are probable of occurring.

Average Yields	2012	2011
Based on actual earnings	2.76%	2.99%
Based on interest rate credited to participants	2.76%	2.99%

NOTES TO FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2012 AND 2011

NOTE 6 – PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of funds managed by MassMutual. MassMutual is the custodian, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included in net depreciation in fair value of investments.

NOTE 7 – REPORTABLE TRANSACTIONS

There were no material lease or other commitments, no contingent liabilities and no prohibited transactions. There were no reportable party-in-interest transactions that were not covered by an exemption under Section 408 of ERISA.

NOTE 8 – INCOME TAX STATUS

The Plan is a prototype plan designed to be qualified under applicable provision of the Internal Revenue Code and is not subject to federal and state taxes. Participants are not subject to federal and state income taxes on their elective deferrals, matching contributions or other contributions, or on income accruing to their accounts, until they receive distributions from the Plan.

The prototype plan obtained an opinion letter on May 11, 2009, in which the Internal Revenue Service stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code.

The plan administrator and the Plan's tax counsel believe that the Plan, as it is currently designed and being operated, is in compliance with the applicable requirements of the Internal Revenue Code and therefore believe that the Plan is qualified and tax-exempt. As a result, no provision for income taxes has been included in the Plan's financial statements. The Plan administrator and Custodian intend to amend and have amended the Plan since receiving its opinion letter which complies with all applicable, recently adopted tax laws and regulations.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more-likely-than not would not be sustained upon examination by the applicable taxing authorities. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012 and 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements.

The Plan is subject to routine audits by taxing jurisdictions. However, currently no audits for any tax periods are in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to December 31, 2009.
