Independent Auditor's Report

To the Participants and Benefits Administrative Committee of the Pension Plan for Eligible Hourly Represented Employees of Equistar Chemicals, LP

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Pension Plan for Eligible Hourly Represented Employees of Equistar Chemicals, LP (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statements of changes in net assets available for benefits for the years then ended and the statement of accumulated plan benefits as of December 31, 2011 and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 8, which was certified by The Bank of New York Mellon, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2012 and 2011 and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on the financial statements.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO THE FINANCIAL STATEMENTS

1. Description of Plan

General – The Pension Plan for Eligible Hourly Represented Employees of Equistar Chemicals, LP (the “Plan”) is a noncontributory defined benefit pension plan for eligible employees covered under certain collective bargaining agreements with Equistar Chemicals, LP (“Equistar” or “Company”), a wholly owned subsidiary of Lyondell Chemical Company (“Lyondell”). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). Participants should refer to the Plan document for a complete description of the Plan provisions.

Pension Benefits – Participants are entitled to monthly pension benefits upon retiring on or after the normal retirement age of 65, as defined in the Plan document. The Plan also permits early retirement at a reduced benefit level for participants who retire after reaching age 55 with ten or more years of membership service. If a participant terminates employment with at least five years of service but prior to eligibility for normal or early retirement, the participant is eligible for a deferred pension benefit commencing as early as age 55 (or at the participant’s termination date if he or she terminated after reaching age 50), subject to reduction for early commencement. Participants receive their accumulated plan benefits as a monthly benefit or in an actuarially equivalent optional form available under the Plan.

Death and Disability Benefits – If a participant dies, death benefits, as described in the Plan document, are paid to the participant’s beneficiary. Certain participants may be eligible for disability benefits upon becoming disabled after satisfying certain service requirements, as described in the Plan document.

Contributions – All contributions are made by the Company and participant contributions are not permitted under the terms of the Plan.

Administration – The Plan is administered by the Benefits Administrative Committee (“BAC”). Mercer is the Plan’s recordkeeper and actuary. Plan assets are maintained in the Lyondell Chemical Company Retirement Master Trust (“Master Trust”) under the custody of The Bank of New York Mellon (“Trustee”). Management of portfolio assets is directed by external investment managers hired and monitored by the Benefits Finance Committee (“BFC”). Both the BAC and BFC consist of individuals appointed by the Lyondell Board of Directors.

2. Summary of Significant Accounting Policies

Basis of Accounting – The financial statements of the Plan are prepared in accordance with generally accepted accounting principles in the United States of America (“U.S. GAAP”).

**PENSION PLAN FOR ELIGIBLE HOURLY REPRESENTED

NOTES TO THE FINANCIAL STATEMENTS—(CONTINUED)

Accounting Guidance Issued But Not Adopted as of December 31, 2012 – In December 2011, the Financial Accounting Standards Board (the “FASB”) issued Accounting Standards Update (“ASU”) 2011-11, *Disclosures About Offsetting Assets and Liabilities*. The standard requires disclosures to provide information to help reconcile differences in the offsetting requirements under U.S. GAAP and International Financial Reporting Standards (“IFRS”). The differences in the offsetting requirements account for a difference in the amounts presents in statements of financial position (balance sheet) prepared in accordance with U.S. GAAP and IFRS. The new disclosure requirements mandate that entities disclose both gross and net information about instruments and transactions eligible for offset in the statement of financial position, as well as instruments similar to a master netting arrangement. In addition, the standard requires disclosure of collateral received and posted in connection with master netting agreements or similar arrangements. The ASU is effective for annual periods beginning on or after January 1, 2013. The adoption of this amendment is not expected to have a material effect on the presentation of the Plan’s financial statements.

Recently Adopted Guidance – In February 2013, the FASB issued ASU 2013-03, *Financial Instruments (Topic 825): Clarifying the Scope and Applicability of a Particular Disclosure to Nonpublic Entities*. ASU 2013-03 is intended to clarify the applicability of a fair value disclosure requirement in Accounting Standards Codification (“ASC”) 825, *Financial Instruments* (as amended by ASU 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS*) for nonpublic entities. Under the ASU, all nonpublic entities are exempt from having to disclose the fair value hierarchy level (i.e. Level 1, 2, or 3) for fair value measurements of financial assets and financial liabilities that are disclosed in the footnotes to the financial statements but are not reported at fair value in the statement of financial position. The ASU does not change any other fair value disclosure requirements in ASC 820, *Fair Value Measurements*, or ASC 825 and is effective immediately. The adoption of this amendment did not have a material effect on the presentation of the Plan’s financial statements.

In May 2011, the FASB issued ASU 2011-04. ASU 2011-04 is intended to improve the comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with U.S. GAAP and IFRS. This guidance also enhances disclosure requirements for recurring Level 3 fair value measurements to include quantitative information about unobservable inputs used, a description of the valuation processes used by the Plan, and a qualitative discussion about the sensitivity of the measurements. The amendments are of two types: (i) those that clarify the FASB’s intent about the application of existing fair value measurement and disclosure requirements and (ii) those that change a particular principle or requirement for measuring fair value or for disclosing information about fair value measurements. The update is effective for annual periods beginning after December 15, 2011. The adoption of the amendments in 2012 did not have a material effect on the presentation of the Plan’s financial statements.

Use of Estimates – The preparation of the Plan’s financial statements in conformity with U.S. GAAP requires management to make significant estimates and assumptions that affect the reported amounts of net assets available for benefits and accumulated plan benefits at the date of the financial statements, the changes in net assets available for benefits and changes in accumulated plan benefits during the reporting period, and, when applicable, disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

**PENSION PLAN FOR ELIGIBLE HOURLY REPRESENTED
EMPLOYEES OF EQUISTAR CHEMICALS, LP**

NOTES TO THE FINANCIAL STATEMENTS—(CONTINUED)

Investment Valuation and Income Recognition – A separate account for the Plan is maintained by the Master Trust reflecting the Plan’s share of the Master Trust. Interest in the Master Trust is determined on a monthly basis and is based upon the beginning of the month value of the Plan’s interest in the Master Trust plus actual contributions and allocated investment income (loss), less actual distributions and an allocation of administrative expenses. Investments of the Master Trust are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 9 for discussion of fair value measurements.

From time to time the Master Trust’s investment managers may use derivative financial instruments including forward exchange contracts and future contracts. Derivative instruments are used primarily to mitigate exposure to foreign exchange rate and interest rate fluctuations as well as manage the investment mix in the portfolio. The Master Trust’s interest in funds which utilize such financial instruments is not considered significant to the Plan’s financial statements.

Purchases and sales of securities by the Master Trust are accounted for on a trade date basis (the date the order to buy or sell is originated). Gains or losses on the sale or distribution of securities are computed on a first-in, first-out basis. Dividend income is recorded on the ex-dividend date. Income from other investments is recorded as earned. The net appreciation or depreciation in the fair value of investments, which consist of the realized gains or losses and the unrealized appreciation or depreciation on those investments, is included in “Investment income (loss) from the Lyondell Chemical Company Retirement Master Trust” in the Statements of Changes in Net Assets Available for Benefits.

Interest and dividends earned, net appreciation or depreciation in the fair value of investments, and expenses incurred under the collective investment accounts of the Master Trust are allocated to the Plan based upon the average monthly investment balance in the Master Trust of each plan participating in the trust.

Risks and Uncertainties – The Master Trust invests in a combination of common and preferred stock, fixed income securities, bank common and commingled funds, short-term investments, open ended real estate funds, hedge funds, private equity funds, convertible securities, U.S. government securities, and cash and cash equivalents. Investment securities are exposed to various risks, such as market and credit risks. Changes in the values of investment securities will continue to occur in the near term and such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

The actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Benefits Paid to Participants – Benefits are paid by the Master Trust and are recorded when paid.

Administrative Expenses – Certain administrative expenses are paid by the Plan and Plan sponsor. See Note 10 for discussion of related-party transactions.

NOTES TO THE FINANCIAL STATEMENTS—(CONTINUED)

3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions, which are attributable under the Plan's provisions to the service that employees have rendered, as of the beginning of the plan year. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries; (b) beneficiaries of employees who have died; and (c) present employees or their beneficiaries. Monthly pension benefits earned and accrued under the Plan are generally based upon the greater of (i) the employee's compensation for each year of benefit service (not to exceed 35 years) multiplied by 1¼ percent or (ii) a minimum pension benefit rate multiplied by the total years of benefit service. Benefits payable under all circumstances, including retirement, death, and termination of employment, are included to the extent that the circumstances are deemed attributable to employee services rendered up to the valuation date.

The 2011 actuarial present value of accumulated plan benefits was determined by the Plan's actuary, Mercer. The actuarial method used to determine the present value of accumulated plan benefits is the projected unit credit actuarial cost method. The more significant assumptions underlying the actuarial valuation are as follow:

	<u>December 31, 2011</u>
Investment return	8.0% per year
Interest rate	8.0% per year
Mortality table	RP-2000 Combined healthy mortality table for males and females with no collar adjustment, projected to 2017
Assumed average retirement age	59 years of age

Plan contributions and the actuarial present value of accumulated plan benefits are prepared based upon certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change.

The foregoing actuarial assumptions are based upon the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

4. Funding Policy

The funding policy of the Company is to satisfy legal minimum funding requirements, as determined under the standard unit credit method, as adopted January 1, 2008, under the Pension Protection Act of 2006 ("PPA"), with the discretion to make additional contributions from time to time. Fluctuations in the return (interest, dividends, and net appreciation or depreciation in fair value) on investments of the Plan from the assumed rate serve to reduce or increase the future contributions required to provide for the benefits defined under the Plan.

**PENSION PLAN FOR ELIGIBLE HOURLY REPRESENTED
EMPLOYEES OF EQUISTAR CHEMICALS, LP**

NOTES TO THE FINANCIAL STATEMENTS—(CONTINUED)

Contributions for the years ended December 31, 2012 and 2011 were \$510,000 and \$900,000, respectively, and, as determined by the Plan's actuaries, met the minimum funding requirements under ERISA and the Internal Revenue Code of 1986 (the "Code"), each as amended by the PPA.

5. Plan Termination

Although it has not expressed any intention to do so, Equistar has the right, under the terms of the Plan document, to discontinue its contributions at any time and to terminate the Plan, subject to applicable provisions of ERISA and the Code.

Participants' retirement allowances under the Plan are insured to the extent required by law through the Pension Benefit Guaranty Corporation ("PBGC"). If the Plan were to be terminated, priorities of payment of benefits would be made in accordance with the requirements of ERISA and the Code.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at the time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

6. Tax Status

U.S. GAAP requires the Plan's management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service ("IRS"). The plan administrator has analyzed the tax positions of the Plan, and has concluded that as of December 31, 2012 and 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The statute of limitations for collecting income taxes from the Plan is closed for the years prior to 2009.

The IRS issued a determination letter dated February 10, 2012, stating that the Plan and related Master Trust are designed in accordance with applicable sections of the Code. The BAC believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code and, therefore, that the related trust is tax-exempt. Accordingly, no provision is made for federal income taxes.

7. Information Certified by the Plan's Trustee

The plan administrator has elected the method of compliance permitted by Section 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following data included in the accompanying financial statements are complete and accurate:

- Plan interest in the Master Trust, at fair value
- Investment income (loss) from the Master Trust
- Investment amounts as shown in Note 8 and Note 9, except for the non-monetary information included in the net asset value per share table as shown in Note 9 which was not certified by the Trustee

**PENSION PLAN FOR ELIGIBLE HOURLY REPRESENTED

NOTES TO THE FINANCIAL STATEMENTS—(CONTINUED)

8. Interest in Lyondell Chemical Company Retirement Master Trust

The Master Trust is a pooled investment trust composed of the beneficial interests of certain participating defined benefit plans (“Master Trust Plans”) of Lyondell and certain of its subsidiaries and affiliates. The Master Trust consists of a portfolio of investments in a combination of common and preferred stock, fixed income securities, bank common and commingled funds, short-term investments, open ended real estate funds, hedge funds, private equity funds, convertible securities, U.S. government securities, and cash and cash equivalents.

Master Trust Plans do not own specific securities or other assets in the Master Trust but have an undivided interest in the Master Trust. The Plan’s undivided interest in the investment holdings of the Master Trust, consisting of total investments, receivables from sales of securities, accrued interest, dividends and payables from purchases of securities, and other payables and receivables, was approximately 1% at both December 31, 2012 and 2011. Investment income (loss) related to the Master Trust is allocated to the Master Trust Plans based upon each plan’s average monthly investment balance in the Master Trust.

9. Fair Value Measurements

ASC 820 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants. ASC 820 also specifies a fair value hierarchy based upon the observability of inputs used in valuation techniques. Observable inputs (highest level) reflect market data obtained from independent sources, while unobservable inputs (lowest level) reflect internally-developed market assumptions. In accordance with ASC 820, fair value measurements are classified using the following hierarchy:

Level 1 – Quoted prices for identical instruments in active markets.

Level 2 – Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs or significant value-drivers are observable in active markets.

Level 3 – Model-derived valuations in which one or more significant inputs or significant value-drivers are unobservable.

**PENSION PLAN FOR ELIGIBLE HOURLY REPRESENTED
EMPLOYEES OF EQUISTAR CHEMICALS, LP**

NOTES TO THE FINANCIAL STATEMENTS—(CONTINUED)

When available, quoted market prices are used to determine fair value and such measurements are classified within Level 1. In some cases where market prices are not available, observable market based inputs are used to calculate fair value, in which case the measurements are classified within Level 2. If quoted or observable market prices are not available, fair value is based upon internally-developed models that use, where possible, current market-based parameters such as interest rates, yield curves and currency rates. These measurements are classified within Level 3.

Fair value measurements are classified according to the lowest level input or value-driver that is significant to the valuation. A measurement may therefore be classified within Level 3 even though there may be significant inputs that are readily observable.

Changes in Fair Value Levels – Management reviews the disclosures regarding fair value measurements annually at year end. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are reclassified as Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is reclassified as Level 3.

Valuation methodologies used for major investment types measured at fair value include:

Common and preferred stock – Valued at the closing price reported on the active market on which the individual securities are traded.

Fixed income securities – Certain securities that are not traded on an exchange are valued at the closing price reported by pricing services. Other securities are valued based on yields currently available on comparable securities of issuers with similar credit ratings.

Commingled funds – Valued based upon the unit values of such collective trust funds held by the Master Trust at year end. Unit values are based on the fair value of the underlying assets of the fund derived from inputs principally from, or corroborated by, observable market data by correlation or other means.

Short-term investments – Valued at the quoted prices for similar assets or liabilities in active markets.

Real estate – Valued on the basis of a discounted cash flow approach, which includes the future rental receipts, expenses, and residual values as the highest and best use of the real estate from a market participant view as rental property.

Hedge funds – Valued based upon the unit values of such alternative investments held by the Master Trust at year end. Unit values are based on the fair value of the underlying assets of the fund.

Private equity – Valued based upon the unit values of such alternative investments held by the Master Trust at year end. Unit values are based on the fair value of the underlying assets of the fund. Certain securities held in the fund are valued at the closing price reported on the exchange or other established quotation service for over-the-counter securities. Other assets held in the fund are valued based on the most recent financial statements prepared by the fund manager.

Convertible securities – Valued at the quoted prices for similar assets or liabilities in active markets.

U.S. government securities – Certain securities are valued at the closing price reported on the active market on which the individual securities are traded. Other securities are valued based on yields currently available on comparable securities of issuers with similar credit ratings.

Cash and cash equivalents – Valued at the quoted prices for similar assets or liabilities in active markets.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Company believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The investments of the Master Trust that are measured at fair value as of December 31, 2012 are summarized below:

10. Related-Party Transactions

The Plan, through its interest in the Master Trust, holds shares of short-term investment and S&P Index funds managed by Mellon Capital, a subsidiary of The Bank of New York Mellon, the Trustee of the Plan. These transactions fall under the definition of a party-in-interest transaction; however, the Company does not believe that they give rise to prohibited transactions under ERISA. Fees paid by the Company on behalf of the Plan for certain administrative costs were approximately \$20,703 and \$19,493 in 2012 and 2011, respectively.

11. Commitments and Contingencies

The Plan is subject to commitments and contingencies arising from the ordinary course of business to which the Plan is a party. It is management's belief that the ultimate resolution of these commitments and contingencies will not have a material adverse impact on the Plan's financial statements.

12. Subsequent Events

The Company has evaluated subsequent events through September 13, 2013, the date the financial statements were available to be issued.

-------------------------------------	--

417(e) lump sums

Liabilities are determined based on the underlying annuity used by the plan to determine the lump sum amount, rather than valuing the lump sum payment. This annuity is valued based on funding interest rates rather than 417(e) rates and current year 417(e) unisex mortality.

Other economic assumptions

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods***Asset Methods – Effective January 1, 2009***

The asset valuation method is an average of the adjusted market value for each year during the last 2 years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods – effective January 1, 2008

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum funding methods – effective January 1, 2010

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

- This plan provides disability benefits that are only partially based on a participant's accrued benefit or years of service. This benefit is allocated to funding target based on the accrued benefit on the valuation date plus a portion of the excess of the benefit over the accrued benefit multiplied by the ratio of the participant's service at the beginning of the plan year to their service at each decrement age. This benefit is allocated to target normal cost based on the proportionate benefit attributable to the increase in the participant's service and compensation during the plan year.
- The plan's **target normal cost** is the sum of the individual target normal costs and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, Part V – Summary of Plan Provisions

Effective date and plan year	Effective January 1, 1962, reflecting amendments effective through January 31, 2011. Provisions include all collective bargaining increases adopted through December 31, 2008. The plan year is the calendar year.
Status of the plan	The plan has ongoing benefit accruals and new employees are eligible to participate in the plan once they satisfy the participation requirements.
Significant events that occurred during the year	None
Covered employees	All represented employees of the company working at the Newark, Tuscola, Fairport Harbor, or Port Arthur plants.
Participation date	Participation prior to April 1, 1988 is governed by plan provisions in effect at date of participation. After March 31, 1988, participation is immediate upon becoming a represented employee of the Newark, Tuscola, Fairport Harbor, or Port Arthur plant.

Schedule SB, Part V – Summary of Plan Provisions

Disability retirement pension for Tuscola and Port Arthur		
• Eligibility	5 years of service and eligible for LTD benefit. (Effective December 1, 1990 for the Tuscola plant, and effective May 1, 1994 for the Port Arthur plant).	
• Pension	Pension at date payments begin, equal to accrued pension at time of disability plus a benefit based on the dollar minimum in effect at the time of disability multiplied by the years of benefit service earned while disabled. A member will receive credit for pension purposes while receiving benefits under the Company's LTD Plan, from date of disability until normal retirement. Payment is deferred until member ceases to receive benefits under Company's LTD Plan.	
Deferred vested pension		
• Eligibility	5 years of service.	
• Pension	Accrued pension deferred to normal retirement date or an actuarially reduced pension commencing (i) immediately, if age 50 or over at termination or (ii) at age 55.	
Regular death benefit		
• Eligibility	Death in active service and not in a group covered by other plan providing death benefits to which the Company makes payments. (This benefit is no longer provided for the Tuscola plant, effective December 1, 1990, or for the Port Arthur plant, effective May 1, 1994.)	

Schedule SB, Part V – Summary of Plan Provisions

• Benefit	<p>Lump sum equal to 150% of annual rate of compensation at date of death plus return of member's accumulated contributions, if any.</p> <p>This benefit is reduced by compensation under Worker's Compensation affecting Company due to death of member and any death benefit (employer provided) payable under any other retirement or pension plan maintained by the Company.</p>
Death benefit after age 55	
• Eligibility	Death in active service after age 55 and covered by the regular death benefit. (This benefit is no longer provided for the Tuscola plant, effective December 1, 1990, or for the Port Arthur plant, effective May 1, 1994).
• Benefit	<p>Lump sum, in lieu of regular death benefit, equal to the greater of (i) or (ii):</p> <p>(i) 85% of the member's retirement pension reserve at time of death. This benefit is reduced by compensation under Worker's Compensation affecting Company due to death of member.</p> <p>(ii) Regular death benefit.</p> <p>May elect to convert lump sum to a life annuity with or without 10 or 20 years guaranteed.</p>
Death after retirement benefit	
• Eligibility	Death after normal, early or disability retirement. (For members at the Tuscola plant retiring on or after December 1, 1990, and members at the Port Arthur plant retiring on or after May 1, 1994, this benefit is no longer provided.)
• Benefit	Lump sum of \$2,000 for members at the Newark and Fairport Harbor plants.
Return of contributions	
• Upon termination	Return of the accumulated contributions at the date of termination if elected. If participant ceased making contributions prior to January 1, 1962, service prior to January 1, 1962 is forfeited in calculating benefits.
• Upon death before commencement of benefits	If no other benefit, other than death after retirement benefit, is payable, accumulated contributions are paid as a lump sum to the designated beneficiary or estate.
Spouse pension	
• Eligibility	Death of married member who has been married one year and one of the following requirements is met:

Schedule SB, Part V – Summary of Plan Provisions

Active service	In active service after completion of 5 years of service and not eligible for or does not elect regular death benefit. (Effective December 1, 1990, for all members at the Tuscola plant, and effective February 1, 1995 for all members at the Port Arthur plant – in active service or while receiving LTD benefits after completion of 5 years of service.)
After termination	After termination with entitlement to deferred vested pension (10 years of service required if termination occurred between January 1, 1976 and August 23, 1984).
• Pension	
Active service	
Age 50 and older	Amount equal to 50% of the pension which would have been payable to the member if he retired with an immediate pension on his date of death under normal form of payment.
Under age 50	Deferred pension commencing when member would have been age 55 equal to 50% of the pension which would have been payable to the member if he had terminated with a vested pension on his date of death, survived to age 55 and elected to retire with an immediate pension under the normal form of payment.
After termination but before payments commence	<p>If former member was eligible for immediate payment at the time of death, immediate pension equal to 50% of the pension which would have been payable to the member if he had retired on his date of death under normal form of payment.</p> <p>If former member was not eligible for immediate payment at the time of death, a pension commencing when former member would have been age 55 equal to 50% of the pension which would have been payable to the member if he had survived to age 55 and retired under normal form of payment.</p>

Schedule SB, Part V – Summary of Plan Provisions

Form of benefits														
• Normal form of payment	Death and disability benefits are payable only as described above. Monthly pension benefits are paid in the form of a life annuity if the member has no spouse as of the date payments begin, or if the participant so elects. Otherwise, reduced benefits are paid under the 50% joint and survivor option.													
• Optional forms of payment	Single life annuity. Joint and survivor annuity (100%, 75% and 50%). 120 or 240 months certain and life annuity. Lump sum payment in lieu of annuity (Tuscola and Port Arthur plants only).													
• Actuarial equivalence	See table of sample factors for a 75% joint & survivor annuity based on the assumption male spouses are 3 years older than female spouses: <table> <tr> <th><u>Age</u></th><th><u>Male</u></th><th><u>Female</u></th></tr> <tr> <td>55</td><td>0.9035</td><td>0.9228</td></tr> <tr> <td>60</td><td>0.8810</td><td>0.9070</td></tr> <tr> <td>65</td><td>0.8565</td><td>0.8905</td></tr> </table>		<u>Age</u>	<u>Male</u>	<u>Female</u>	55	0.9035	0.9228	60	0.8810	0.9070	65	0.8565	0.8905

Miscellaneous														
• Maximum compensation	Compensation for any 12-month period used to determine accrued benefits may not exceed the limits in IRC Section 401(a)(17) for the calendar year in which the 12-month period begins. This limit is indexed annually. For 2012, the limit is \$250,000.													
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2012, the limit is \$200,000.													

Benefits Included or Excluded

Unless noted below, all benefits provided by the plan, as restated and amended through Instrument Amending the Pension Plan for Eligible Hourly Employees of Equistar Chemicals LP, signed on December 22, 2009, are included in this valuation.

- **Most recent plan amendments included:** The Instrument Amending the Pension Plan of Eligible Hourly Represented Employees of Equistar Chemicals LP, signed on December 22, 2009, is included because it was adopted by the valuation date and is effective by the end of the plan year.
- **Plan amendments excluded:** No amendments were excluded from this valuation.

Schedule SB, Part V – Summary of Plan Provisions

- **Late retirement increases:**
 - Active participants: The plan provides benefit suspension notices to participants who work beyond normal retirement. The Plan distributes benefits to active participants who work beyond age 70 ½.
 - Deferred vested participants: Current deferred vested participants over normal retirement age are not valued including the late retirement actuarial increases. The Plan distributes benefits to all deferred vested participants upon attaining age 65.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60 percent of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy accruals.
- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See beginning of Section 5.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Scheduled benefit increases:** Scheduled benefit increases effective after the end of the current plan year are excluded from minimum funding requirements.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

• Healthy and disabled participants	Section 430(h)(3) prescribed separate static annuitant and nonannuitant mortality tables. These tables are based on the RP-2000 mortality tables projected with mortality improvement to the valuation year plus 7 and 15 years based on Scale AA.
-------------------------------------	--

417(e) lump sums

Liabilities are determined based on the underlying annuity used by the plan to determine the lump sum amount, rather than valuing the lump sum payment. This annuity is valued based on funding interest rates rather than 417(e) rates and current year 417(e) unisex mortality.

Other economic assumptions

• Salary increases	4.00% per year
• Flat-dollar benefit increases	0.00% per year
• Social Security wage base	Not applicable
• Inflation	3.00% per year
• Expected investment return	8.00% per year for years 2010 through 2012
• Expenses	Expected administrative expenses (assumed to equal prior year administrative expenses but adjusted for PBGC premium, with current year PBGC premiums replacing prior year) discounted to beginning of year are included in normal cost.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods***Asset Methods – Effective January 1, 2009***

The asset valuation method is an average of the adjusted market value for each year during the last 2 years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods – effective January 1, 2008

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum funding methods – effective January 1, 2010

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

- This plan provides disability benefits that are only partially based on a participant's accrued benefit or years of service. This benefit is allocated to funding target based on the accrued benefit on the valuation date plus a portion of the excess of the benefit over the accrued benefit multiplied by the ratio of the participant's service at the beginning of the plan year to their service at each decrement age. This benefit is allocated to target normal cost based on the proportionate benefit attributable to the increase in the participant's service and compensation during the plan year.
- The plan's **target normal cost** is the sum of the individual target normal costs and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, Part V – Summary of Plan Provisions

Disability retirement pension for Tuscola and Port Arthur	
• Eligibility	5 years of service and eligible for LTD benefit. (Effective December 1, 1990 for the Tuscola plant, and effective May 1, 1994 for the Port Arthur plant).
• Pension	Pension at date payments begin, equal to accrued pension at time of disability plus a benefit based on the dollar minimum in effect at the time of disability multiplied by the years of benefit service earned while disabled. A member will receive credit for pension purposes while receiving benefits under the Company's LTD Plan, from date of disability until normal retirement. Payment is deferred until member ceases to receive benefits under Company's LTD Plan.

Deferred vested pension	
• Eligibility	5 years of service.
• Pension	Accrued pension deferred to normal retirement date or an actuarially reduced pension commencing (i) immediately, if age 50 or over at termination or (ii) at age 55.

Regular death benefit	
• Eligibility	Death in active service and not in a group covered by other plan providing death benefits to which the Company makes payments. (This benefit is no longer provided for the Tuscola plant, effective December 1, 1990, or for the Port Arthur plant, effective May 1, 1994.)

Schedule SB, Part V – Summary of Plan Provisions

• Benefit	<p>Lump sum equal to 150% of annual rate of compensation at date of death plus return of member's accumulated contributions, if any.</p> <p>This benefit is reduced by compensation under Worker's Compensation affecting Company due to death of member and any death benefit (employer provided) payable under any other retirement or pension plan maintained by the Company.</p>
Death benefit after age 55	
• Eligibility	<p>Death in active service after age 55 and covered by the regular death benefit. (This benefit is no longer provided for the Tuscola plant, effective December 1, 1990, or for the Port Arthur plant, effective May 1, 1994).</p>
• Benefit	<p>Lump sum, in lieu of regular death benefit, equal to the greater of (i) or (ii):</p> <p>(ii) 85% of the member's retirement pension reserve at time of death. This benefit is reduced by compensation under Worker's Compensation affecting Company due to death of member.</p> <p>(ii) Regular death benefit.</p> <p>May elect to convert lump sum to a life annuity with or without 10 or 20 years guaranteed.</p>
Death after retirement benefit	
• Eligibility	<p>Death after normal, early or disability retirement. (For members at the Tuscola plant retiring on or after December 1, 1990, and members at the Port Arthur plant retiring on or after May 1, 1994, this benefit is no longer provided.)</p>
• Benefit	<p>Lump sum of \$2,000 for members at the Newark and Fairport Harbor plants.</p>
Return of contributions	
• Upon termination	<p>Return of the accumulated contributions at the date of termination if elected. If participant ceased making contributions prior to January 1, 1962, service prior to January 1, 1962 is forfeited in calculating benefits.</p>
• Upon death before commencement of benefits	<p>If no other benefit, other than death after retirement benefit, is payable, accumulated contributions are paid as a lump sum to the designated beneficiary or estate.</p>
Spouse pension	
• Eligibility	<p>Death of married member who has been married one year and one of the following requirements is met:</p>

Schedule SB, Part V – Summary of Plan Provisions

Active service	In active service after completion of 5 years of service and not eligible for or does not elect regular death benefit. (Effective December 1, 1990, for all members at the Tuscola plant, and effective February 1, 1995 for all members at the Port Arthur plant – in active service or while receiving LTD benefits after completion of 5 years of service.)
After termination	After termination with entitlement to deferred vested pension (10 years of service required if termination occurred between January 1, 1976 and August 23, 1984).
• Pension	
Active service	
Age 50 and older	Amount equal to 50% of the pension which would have been payable to the member if he retired with an immediate pension on his date of death under normal form of payment.
Under age 50	Deferred pension commencing when member would have been age 55 equal to 50% of the pension which would have been payable to the member if he had terminated with a vested pension on his date of death, survived to age 55 and elected to retire with an immediate pension under the normal form of payment.
After termination but before payments commence	<p>If former member was eligible for immediate payment at the time of death, immediate pension equal to 50% of the pension which would have been payable to the member if he had retired on his date of death under normal form of payment.</p> <p>If former member was not eligible for immediate payment at the time of death, a pension commencing when former member would have been age 55 equal to 50% of the pension which would have been payable to the member if he had survived to age 55 and retired under normal form of payment.</p>

Schedule SB, Part V – Summary of Plan Provisions

Form of benefits

- **Normal form of payment** Death and disability benefits are payable only as described above. Monthly pension benefits are paid in the form of a life annuity if the member has no spouse as of the date payments begin, or if the participant so elects. Otherwise, reduced benefits are paid under the 50% joint and survivor option.
- **Optional forms of payment** Single life annuity.
Joint and survivor annuity (100%, 75% and 50%).
120 or 240 months certain and life annuity.
Lump sum payment in lieu of annuity (Tuscola and Port Arthur plants only).
- **Actuarial equivalence** See table of sample factors for a 75% joint & survivor annuity based on the assumption male spouses are 3 years older than female spouses:

<u>Age</u>	<u>Male</u>	<u>Female</u>
55	0.9035	0.9228
60	0.8810	0.9070
65	0.8565	0.8905

For actual factors used see the plan document.

Miscellaneous

- **Maximum compensation** Compensation for any 12-month period used to determine accrued benefits may not exceed the limits in IRC Section 401(a)(17) for the calendar year in which the 12-month period begins. This limit is indexed annually. For 2012, the limit is \$250,000.
- **Maximum benefits** Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2012, the limit is \$200,000.

Benefits Included or Excluded

Unless noted below, all benefits provided by the plan, as restated and amended through Instrument Amending the Pension Plan for Eligible Hourly Employees of Equistar Chemicals LP, signed on December 22, 2009, are included in this valuation.

- **Most recent plan amendments included:** The Instrument Amending the Pension Plan of Eligible Hourly Represented Employees of Equistar Chemicals LP, signed on December 22, 2009, is included because it was adopted by the valuation date and is effective by the end of the plan year.
- **Plan amendments excluded:** No amendments were excluded from this valuation.

Schedule SB, Part V – Summary of Plan Provisions

- **Late retirement increases:**
 - Active participants: The plan provides benefit suspension notices to participants who work beyond normal retirement. The Plan distributes benefits to active participants who work beyond age 70 ½.
 - Deferred vested participants: Current deferred vested participants over normal retirement age are not valued including the late retirement actuarial increases. The Plan distributes benefits to all deferred vested participants upon attaining age 65.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60 percent of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy accruals.
- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See beginning of Section 5.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Scheduled benefit increases:** Scheduled benefit increases effective after the end of the current plan year are excluded from minimum funding requirements.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Schedule SB, line 25 – Change in Method

Mercer changed to a new liability valuation system this year. This change did not materially affect liability amounts and qualifies for automatic IRS approval under Announcement 2010-3.
