INCENTIVE SAVINGS AND RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
AS OF DECEMBER 31, 2012 AND 2011 AND
FOR THE YEAR ENDED DECEMBER 31, 2012

1. DESCRIPTION OF PLAN

The following description of the Niscayah, Inc. Incentive Savings and Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

A. General

The Plan is a defined contribution plan covering substantially all eligible full-time employees of Niscayah, Inc. (also referred to as the "Company" or "Employer") who are at least twenty-one years of age and are not a leased employee, employee of an affiliated employer, independent contractor, or included in a bargaining unit covered by a collective bargaining agreement with the Company in the negotiation of which retirement benefits were the subject of good faith bargaining. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

During 2011, Stanley Black & Decker, Inc. completed their acquisition of all the outstanding shares of Niscayah Group AB, the parent of the Company. The Company is wholly owned by Stanley Black & Decker, Inc. ("Stanley").

Effective June 30, 2012, the Plan was amended such that no additional contributions shall be made to the Plan, no new participants shall become eligible for the Plan, and all participant account balances became fully vested as of that date.

B. Contributions

Participants direct the investment of their contributions into various investment options offered by the Plan.

Participants may elect to defer up to the maximum amount of pretax annual compensation, as defined in the Plan, subject to certain limitations under the Internal Revenue Code (IRC). The Company may contribute discretionary amounts as determined by the Company's board of directors. For the years ended December 31, 2012 and 2011, the Company matched 50% of participant contributions up to 6% of the participant's compensation.

C. Participants' Accounts

Each participant's account is credited with their contributions and an allocation of (a) the Company's contributions, and (b) Plan earnings, as defined in the Plan.

1. DESCRIPTION OF PLAN (Continued)

D. Vesting

Participants are immediately vested in their elective contributions and the investment income and losses thereon. Vesting of discretionary matching contributions is based on years of service as follows:

<u>Years of Service</u>	<u>Percentage</u>
1	33%
2	67%
3	100%

E. Payment of Benefits

A participant may withdraw up to the lesser of 100% of the participant's elective account and participant's transfer/rollover account or the amount necessary to satisfy immediate and heavy financial need of the participant as defined in the Plan agreement. If a participant makes a hardship withdrawal, the right to make pretax and after-tax contributions will be suspended for six months.

The plan administrator may be required by law to recognize obligations the participant incurs as a result of a qualified domestic relations order (QDRO). If a QDRO is received by the plan administrator, all or a portion of the participant's account balance may be used to satisfy the obligation.

In service withdrawals of all or a portion of a participant's 100% vested account balance and transfer/rollover account balance may be withdrawn by a participant after reaching age fifty-nine and one-half. However, for all Wornall Electronics, Inc. (a company previously acquired by the Company) employees who were employed on February 1, 2007, the rollover account may be withdrawn at any time.

1. DESCRIPTION OF PLAN (Continued)

E. Payment of Benefits (Continued)

Upon normal retirement, disability or death, a participant or beneficiary may receive the value of the account through a lump sum distribution, or direct rollover to an individual retirement account or annuity, annuity plan, or qualified trust. In general, if a participant's account balance, as defined in the plan agreement, is greater than \$5,000 and employment is terminated other than due to retirement or death, the account may not be distributed before normal retirement age without the participant's consent. Participant's account balance less than \$5,000 will be paid as a single lump sum.

Distributions from the Plan will normally be subject to income taxes and in certain circumstances may also be subject to Internal Revenue Service (IRS) penalties, unless the distribution is transferred to another qualified plan or individual retirement account.

F. Notes Receivable from Participants

Participants may borrow against vested benefits up to a maximum of \$50,000 or 50 percent of their account balance, whichever is less. Loans are repayable over periods up to five years with the exception of loans used to acquire a principal residence of the participant. Loans are repayable immediately upon death, disability, or termination of employment. The loans are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates as determined by the Plan administrator. Loan transactions are treated as a transfer to (from) the investment funds and from (to) the participant loan fund.

G. Forfeitures

When certain terminations of participation in the Plan occur, the non-vested portion of the participant's account, as defined by the Plan, represents a forfeiture. Forfeitures can pay administrative expenses of the Plan or be used to reduce Company contributions and allocated to participants' accounts. As of December 31, 2012 and 2011, forfeited nonvested accounts totaled approximately \$-0- and \$2,000, respectively. Also, in 2012 and 2011, employer contributions were reduced by approximately \$-0- and \$19,000, respectively, from forfeited nonvested accounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

As prescribed by the Financial Accounting Standards Board ("FASB"), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a collective investment trust (Capital Preservation Fund). As required by the FASB, the statements of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

B. Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (U.S. GAAP) requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

C. Investments

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

D. Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Payment of Benefits

Benefit payments are recorded when paid by the Plan.

F. Administrative Expenses

Substantially all administrative expenses of the Plan, including legal, accounting and plan administration, are paid by the Company.

G. Risk and Uncertainties

The Plan's invested assets ultimately consist of various types of investment securities. Investment securities are exposed to various risks, such as interest rate risk, market risk and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participant account balances and the amounts reported in the accompanying statement of net assets available for benefits.

H. Subsequent Events

The Company has evaluated subsequent events through October 9, 2013, the date which the financial statements were available to be issued.

3. INVESTMENTS

Investments that represent 5 percent or more of the Plan's net assets were comprised of the following:

	2012	2011
Capital Preservation Fund (at contract value)	\$ 4,489,008	\$ 4,931,378
American Funds Growth Fund of America	1,862,181	1,734,737
John Hancock II Lifestyle Conservative	1,672,336	1,721,049
Mutual Global Discovery Fund	1,552,419	1,717,908
American Funds 2025 Target Date Fund R3	1,155,258	888,561*
Fidelity Advisor Small Cap Fund	1,010,429*	1,127,067

* Represents less than 5% of the Plan's net assets available for benefits.

For the year ended December 31, 2012, net appreciation in fair value related to mutual funds totaled \$1,405,307.

4. COLLECTIVE INVESTMENT TRUST

In 2011, the Plan purchased units in the Capital Preservation Fund ("Fund"), which is a collective investment trust. The investments objective of the Fund is stability of principal and high current income. The Fund invests primarily in stable value products, such as Guaranteed Investment Contracts (GICs) (also known as traditional GICs), separate account GICs and synthetic GICs. A traditional GIC is a contract with an insurance company pursuant to which the Fund agrees to deposit money with the insurance company and the insurance company is contractually obligated to pay interest at a guaranteed rate for the life of the contract and return principal at maturity. A separate account GIC is a contract with an insurance company that is backed by the assets of a separate account of the insurance company. The interest rate on a separate account GIC resets periodically based upon the earnings of the separate account assets. The securities held in the separate account are owned by the insurance company but are held for the exclusive benefit of investors in the separate account. In a synthetic GIC, the Fund purchases one or more fixed-income securities, including mutual funds comprised of fixed-income securities, which are held and owned by the Fund on behalf of the Participants. For both separate account and synthetic GICs, the Fund then contracts with a high-quality financial institution such as an insurance company or bank to provide a minimum guaranteed rate of return on the fixed-income securities and payments for withdrawals at contract value. The interest rate (also known as the crediting rate) is initially based on the yield of the underlying securities and changes based on the experience of the cash flow and market value of the underlying fixed-income securities.

Participants may purchase units of the Fund daily based on the established value of \$10. As described in Note 2, because the collective investment trust is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Certain events could limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974.

4. COLLECTIVE INVESTMENT TRUST (Continued)

The average yields of the Fund are as follows:

	2012	2011
Average yields:		
Based on actual earnings	1.59%	2.09%
Based on interest rate credited to participants	1.95%	2.33%

5. FAIR VALUE MEASUREMENTS

The FASB has established a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011:

Mutual funds: Valued at the net asset value ("NAV") of shares held by the plan at year end.

5. FAIR VALUE MEASUREMENTS (Continued)

Collective investment trust: Valued at unit value established for the fund at each valuation date. The unit value is calculated by dividing such funds NAV on the calculation date by the number of units that are outstanding on the calculation date.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012:

	Level 1	Level 2	Level 3	Total
Mutual funds:				
Fixed income funds	\$ 1,094,741	\$ -	\$ -	\$ 1,094,741

6. TAX STATUS

The Plan sponsor has entered into a volume submitter profit sharing 401(k) Plan. This type of Plan received a favorable opinion letter from the IRS on March 31, 2008 which stated that the Plan was designed in accordance with applicable sections of the Internal Revenue Code. The Plan has been amended since receiving the opinion letter and has not obtained an updated opinion letter. However, the Plan administrator believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC and that the Plan was qualified and tax exempt as of December 31, 2012, and has no income subject to unrelated business income tax. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Company has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Company believes the Plan is no longer subject to income tax examinations by tax authorities for years prior to December 31, 2009.

7. PLAN TERMINATION

Although it has expressed no intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

8. RELATED-PARTY TRANSACTIONS

Certain Plan investments are mutual funds managed by Great West Retirement Services and its affiliates. Great West Retirement Services is an affiliate of Orchard Trust Company, LLC, the Plan's custodian; therefore, these transactions qualify as party-in-interest transactions. Party-in-interest transactions also include loans made to participants.

Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.
