REPORT OF INDEPENDENT AUDITORS

To the Plan Administrator
Ark-La-Tex Financial Services, LLC 401(k) Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Ark-La-Tex Financial Services, LLC 401(k) Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2012, and the related statements of changes in net assets available for benefits for the year ended December 31, 2012, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, as amended (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by Great West Life & Annuity Insurance Company, the Custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the Custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the Custodian as of and for the year ended December 31, that the information provided to the plan administrator by the Custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter – Supplemental Schedule

We were engaged for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Form 5500 – Schedule H Line 4i – Schedule of Assets Held at End of Year as of December 31, 2012, which is the responsibility of plan management, is presented for the purpose of additional analysis and is not a required part of the financial statements but are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedules referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Other Matter – 2011 Financial Statements

The financial statements of the Plan as of December 31, 2011, were audited by other auditors whose report dated August 6, 2012, expressed an unqualified opinion on the financial statements.

Note 1 - Description of the Plan

The following description of the Ark-La-Tex Financial Services, LLC 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement or Summary Plan Description (SPD) for a more complete description of the Plan's provisions.

General

The Plan was established in January 2005 and is a defined contribution profit sharing plan covering all eligible employees of Ark-La-Tex Financial Services, LLC (the Company, Plan Sponsor, or Employer). The Plan is designed to comply with the Employee Retirement Income Security Act of 1974, as amended (ERISA), and the Internal Revenue Code (IRC). In addition, the financial statements have been prepared in compliance with ERISA. The Plan is under the administration of the Company and the Plan's trustees.

Eligibility

All employees of the Company who have attained the age of 18 are eligible to participate in the Plan on the date of hire.

Contributions

Participants may elect to defer from 1% to 100% of their annual compensation, subject to certain limitations, with the contributions and earnings thereon being nontaxable until withdrawn from the Plan. Participants over the age of 18 may also receive Company matching contributions, not to exceed 6% of the participant's contribution for each plan year. In addition, the Company may also make discretionary profit sharing contributions to the Plan as determined by its board of directors. The Company did not make any discretionary profit sharing contributions to the Plan for the year ended December 31, 2012. The Company may also make qualified non-elective contributions (QNEC) to satisfy certain compliance testing in which the participants are fully vested in these contributions. There were no QNEC contributions by the Company during 2012.

Participant accounts

Each participant's account is credited with the participant's contribution, the Company's matching contributions, and an allocation of (a) the Company's discretionary non-matching contributions, if any, and (b) Plan earnings or losses, and (c) charged with an allocation of certain administrative expenses. Allocations are based on participants' compensation or account balances, as defined by the Plan.

Note 1 - Description of the Plan - (Continued)

Vesting

Participants are vested immediately in their voluntary contributions and any QNEC contributions, plus actual earnings or losses thereon. Vesting in any Employer's contributions is based on years of continuous service as follows:

Years of Service	Vested Percentage
Less than two (2) years	0%
Two (2) years	20%
Three (3) years	40%
Four (4) years	60%
Five (5) years	80%
Six (6) or more years	100%

Payment of benefits

The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance. Upon death, disability, or retirement, a participant is entitled to receive from the Plan a single lump-sum payment equal to the value of the participant's account balance. Other payment options are available upon request of the participant or beneficiary and upon approval of the Trustees. Upon termination of service, the Company has the option to require those participants with vested account balances less than $1,000 to take lump-sum distributions unless a direct rollover is elected. If a participant's vested account balance exceeds $5,000, they may elect to receive a lump-sum distribution, receive installments over a specified period of time, or roll over their vested account balance. For all employees who have terminated with a vested account balance between $1,000 and $5,000, the Plan administrator has the right to automatically rollover the balance to an individual retirement account (IRA) designated by the administrator. The participant bears all expenses of the IRA.

Investment options

Upon enrollment in the Plan, a participant may direct contributions into several investment options including several pooled separate accounts and a stable value fund.

Note 1 - Description of the Plan - (Continued)

Notes receivable from participants

Under provisions of the Plan, participants are allowed to borrow from their plan accounts. The maximum amount that a participant may borrow is the lessor of (i) 50% of their total vested account balance or (ii) $50,000. The minimum amount of a note is $1,000. Participants may have no more than 2 notes outstanding at any one time. The notes are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates as determined by the Plan administrator.

Forfeitures

Forfeitures of terminated participants' non-vested account balances are to be used to reduce the Employer matching contributions and non-elective contributions for the Plan year immediately following the Plan year in which the forfeiture occurs. At December 31, 2012, approximately $3,200 was available to reduce future employer matching contributions.

Administrative expenses

Certain administrative expenses of the Plan are paid directly by the Company. Administrative expenses included in the statement of changes in net assets available for benefits consist of annual asset charges for broker related commissions, participant notes recordkeeping fees for each outstanding note issued, and charges for any participant who wished to receive a detailed quarterly statement.

Note 2 - Summary of Significant Accounting Policies

Basis of accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of estimates

The preparation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets available for benefits during the reporting period. Accordingly, actual results could differ from those estimates. See Note 3 for discussion of significant estimates used to measure the fair value of investments.

Note 2 - Summary of Significant Accounting Policies - (Continued)

Investment valuation and income recognition

The Plan's investments are stated at fair value. See Note 3. The Key Guaranteed Portfolio Fund is fully benefit-responsive and is stated at contract value, which is equal to principal plus accrued interest. An investment contract is generally valued at contract value, rather than at fair value, to the extent it is fully benefit-responsive. See Note 5.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes receivable from participants

Notes receivable from participants are recorded at their unpaid principal balance. An allowance for credit losses is not necessary as the notes are collateralized by the participants' account balance. Delinquent notes from participants are reclassified as distributions based upon provisions of the Plan document.

Payment of benefits

Benefits paid to participants are recorded as a reduction of net assets available for benefits when paid.

Risks and uncertainties

The Plan and its participants invest in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities, it is possible that changes in the value of investment securities will occur at any given time, and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 2 - Summary of Significant Accounting Policies - (Continued)

Recent accounting pronouncements

In May 2011, the FASB issued guidance which amends Accounting Standards Codification (ASC) 820. This guidance requires the categorization by level for items that are only required to be disclosed at fair value and information about transfers between Level 1 and Level 2. In addition, it provides guidance on measuring the fair value of financial instruments managed within a portfolio and the application of premiums and discounts on fair value measurements. The guidance requires additional disclosure for Level 3 measurements regarding the sensitivity of fair value to changes in unobservable inputs and any interrelationships between those inputs. The new guidance is effective for the Plan year ended December 31, 2012. The adoption of the provisions of this guidance had no effect on the financial statements.

Subsequent events

Management of the Plan evaluated events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the notes to the financial statements. The accompanying financial statements consider events through October 2, 2013, the date which the financial statements were available to be issued.

Note 3 - Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. This framework for measuring fair value provides a fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

The three levels of the fair value hierarchy are described below:

Level 1: Quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or that can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Note 3 - Fair Value Measurements - (Continued)

An asset or liability's classification within the fair value hierarchy is based on the lowest level of significant input to its valuation.

Following is a description of the valuation methodologies used for assets measured at fair value.

Pooled separate accounts: The units of the pooled separate accounts are determined at the close of each business day and are directly related to the net asset value of the underlying investment adjusted for dividends or distributions received by the Custodian and the daily equivalent of any fees charged.

Guaranteed portfolio fund: Valued at the amount plan participants or plan sponsors would receive currently if they were to withdraw or transfer funds within the Plan prior to their maturity, as reported by the Custodian.

There were no changes in the Plan's valuation methodologies for its investments during the year ended December 31, 2012. The valuation methods described above may produce a fair value measurement that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes the valuation methods are appropriate and consistent with other market participants, the use of differing methodologies or assumptions to determine the fair values of the Plan's investments could result in different fair value measurements at the reporting dates.

Fair value estimates are made at a specific point in time, based on available market information and judgments about the financial asset, including estimates of timing, amount of expected future cash flows, and the credit standing of the issuer. In some cases, the fair value estimates cannot be substantiated by comparison to independent markets. The disclosed fair value may not be realized in the immediate settlement of the financial asset. In addition, the disclosed fair values do not reflect any premium or discount that could result from offering for sale at one time an entire holding of a particular financial asset. Potential taxes and other expenses that would be incurred in an actual sale or settlement are not reflected in amounts disclosed.

Note 3 - Fair Value Measurements - (Continued)

The Plan's fair value hierarchy for those assets measured at fair value is as follows:

Note 4 - Investments

The following presents investments, at fair value, representing 5% or more of net assets available for benefits were comprised of the following:

	December 31,	
	2012	**2011**
Great-West Lifetime 2035 Fund II T1	**$ 289,321**	$ 180,271
Great-West Lifetime 2025 Fund II T1	**253,064**	160,690
Great-West Lifetime 2045 Fund II T1	**150,980**	81,642
Fidelity Advisor Leveraged Co Stk – T	**127,300**	50,783
Oppenheimer Gold & Special Minerals A	*	58,805

* Represents less than 5% of net assets available as of the date reported.

Note 5 - Investments in Insurance Contracts

The Plan maintains one GIC related investment option, the Key Guaranteed Portfolio Fund. The underlying investment options of these contracts are considered to be fully benefit-responsive as described in Financial Accountings Standards Board (FASB) Accounting Standards Codification (ASC) 946, Plan-Accounting-Defined Contribution Pension Plans. As of December 31, 2012, the contract value of the investment, $55,359, approximated the fair value.

The average yields for the contract for the year ended December 31, 2012 were 1.45%. The crediting interest rates for the contract as of December 31, 2012 were 1.45%.

The determination of credited interest rates, as determined by the service providers, reflects a number of factors, including mortality and expense risks, interest rate guarantees, the investment income earned on invested assets and the amortization of any capital gains and/or losses realized on the sale of invested assets. A market value adjustment may apply to amounts withdrawn at the request of the contract holder.

The underlying contract has no restrictions on the use of Plan assets and there are no valuation reserves recorded to adjust contract amounts.

Note 5 - Investments in Insurance Contracts – (Continued)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (i) amendments to the Plan documents (including complete or partial plan termination or merger with another plan) (ii) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; or (iii) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The Guaranteed Portfolio Fund does not permit Great West to terminate the agreement prior to the scheduled maturity date.

Note 6 - Information Prepared and Certified by the Custodians (Unaudited)

The plan administrator has elected the method of annual reporting permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by the Custodians, except for comparing such information certified by the Custodians to information included in the Plan's financial statements and supplemental schedule.

The Custodian has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate at December 31:

		2012
Pooled separate accounts	$	**1,827,296**
Stable value account		**55,359**
Notes receivable from participants		**37,908**
	$	**1,920,563**

The Custodian also certified to the completeness and accuracy of $121,991 of net appreciation in fair value of investments, $5,655 of interest and dividends and $2,207 of interest on notes receivable for the year ended December 31, 2012.

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 8 - Income Tax Status

The Plan has obtained its latest determination letter dated March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The plan administrator believes that the Plan is designed and operated in compliance with the applicable requirements and therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years 2008 and prior.

Note 9 - Parties-in-Interest

Parties-in-interest are defined under Department of Labor Regulations as any fiduciary of the Plan, any party rendering services to the Plan, the Employer, and certain others. Certain plan investments are investments managed by the Custodian, and therefore, these transactions qualify as party-in-interest transactions. The Plan also allows participants to receive notes; therefore, these transactions qualify as party-in-interest transactions.
