NOTE A – PLAN DESCRIPTION

The following brief description of the Feather Petroleum Company 401(k) Plan is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the plan's provisions.

1. Organization and Administration

The Plan was adopted by Feather Petroleum Company (Employer) on January 1, 2002 and is a restatement of an existing retirement plan originally established January 1, 1998. The Plan is a single-employer, defined contribution plan covering all non-excluded employees of the company (excluded employees are union employees and non-resident alien employees) who have at least one year of service and are age twenty-one or older. The plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

2. Contributions

Employees may begin participating in the Plan on the earlier of either January 1st or July 1st coinciding with or following the satisfaction of the eligibility requirements of one year of service and having attained age 21. Each year, a participant may elect to defer not less than $1 per paycheck or 1% of Plan Year compensation nor more than 100% of Plan Year compensation subject to the annual dollar limit allowed by law. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants direct the investment of their contributions into various investment options offered by the plan. The plan currently offers various mutual funds and one collective trust as investment options for participants.

The Employer may make a discretionary matching contribution equal to a uniform percentage or dollar amount of each eligible participants elective deferral each Plan Year. Each year, the Employer determines if such a payment is to be made and will determine the formula for the discretionary matching contribution. In order to receive an Employer matching contribution the participant must have been employed on the last day of the Plan Year and must have completed at least 1,000 Hours of Service during the Plan Year. The Employer may also make a discretionary non-elective contribution to the Plan. In order to receive an Employer non-elective contribution the participant must have been employed on the last day of the Plan Year and must have completed at least 1,000 Hours of Service during the Plan Year. The participant's share of the non-elective contribution is determined by multiplying the total Employer non-elective contribution by the participant's compensation for the year divided by total compensation of all participants eligible to share in the non-elective contribution. The Company did not make a matching or non-elective contribution for the Plan Year 2012 or 2011.

NOTE A – PLAN DESCRIPTION – CONTINUED

3. Plan Benefits and Termination Policies

On termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount, or in annual installments over a specified period. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution.

4. Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the company's contributions and (b) plan earnings. Each participant's account is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

5. Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the company's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

6. Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. Loan terms are 1 to 5 years for a general purpose loan and 6 to 15 years for a principal residence loan. The loans are secured by the balance in the participant's account. Interest on the loans are based on the prime rate published in the Wall Street Journal on the first business day of each month, plus 1% with such rate fixed for the life of the loan. Principal and interest is paid ratably through payroll deductions.

7. Forfeited Accounts

At December 31, 2012 and 2011 forfeited non-vested accounts totaled $670 and $4,735, respectively. These accounts will be used to reduce future employer match contributions. In 2012, $4,449 of the forfeiture account balance was allocated and transferred to qualifying participant accounts.

8. Refund of Excess Contributions

At December 31, 2012 and 2011 excess employee contributions totaled $17,553 and $12,664, respectively. In 2012 and 2011, $12,892 and $8,527 were refunded to the qualifying participants, respectively.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

2. Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement dates. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

3. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

4. Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

5. Payment of Benefits

Benefits are recorded when paid.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

6. Operating Expenses

Operating expenses of the plan are minimal. The plan sponsor pays the quarterly administrative fee for the plan. Other operating expenses including loads charged by mutual funds, if any, are allocated to participants. A quarterly loan fee is charged to each participant with a loan balance.

7. Subsequent Events

The Plan has evaluated subsequent events through October 3, 2013, the date the financial statements were available to be issued.

NOTE D – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1

- Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2

- Inputs to the valuation methodology include:
  - Quoted prices for similar assets or liabilities in active markets;
  - Quoted prices for identical or similar assets or liabilities in inactive markets;
  - Inputs other than quoted prices that are observable for the asset or liability;
  - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

- Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual Funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Common Collective Trust Fund: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE D – FAIR VALUE MEASUREMENTS – CONTINUED

NOTE E – RELATED-PARTY TRANSACTIONS

Certain plan investments are shares of mutual funds managed by Wells Fargo Bank, N.A. Wells Fargo Bank, N.A. is the trustee as defined by the plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the plan for the investment management services and administration amounted to $7,881 and $6,569 for the years ended December 31, 2012 and 2011, respectively. Fees paid directly by Feather Petroleum Company for administration amounted to $4,760 and $5,758 for the years ended December 31, 2012 and 2011, respectively.

NOTE F – PLAN TERMINATION

Although it has not expressed any intent to do so, the company has the right under the plan to discontinue its contributions at any time and to terminate the plan subject to the provisions of ERISA. In the event of plan termination participants would become 100 percent vested in their employer contributions.

NOTE G – TAX STATUS

The Plan has adopted a prototype non-standardized defined contribution plan offered by the trustee. The Internal Revenue Service has determined and informed the trustee by letter dated March 31, 2008, that the prototype non-standardized 401(k) plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the plan has been amended since receiving the determination letter, the plan administrator and the plan's trustee believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service or Department of Labor. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

NOTE H – RISKS AND UNCERTAINTIES

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE I – INFORMATION CERTIFIED BY THE TRUSTEE (UNAUDITED)

At December 31, 2012, the Plan's investments were held by the Trustee. The investment information at December 31, 2012 included in Note C is based on information certified by the Trustee as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE K – FULLY BENEFIT-RESPONSIVE CONTRACTS

The Plan does not invest directly in fully benefit-responsive contracts; however, the Wells Fargo Stable Return Fund N6 (the Fund), in which the Plan invests, is 100% invested in such a fund, the Wells Fargo Stable Return Fund G. Although the Plan is not required to include in its financial statements the disclosure requirements for stable value investment funds, the following information is provided to assist in understanding its investments. The fair value to contract value ratios for the Fund as of December 31, 2012 and 2011 were:
