Pike Community Hospital Employees' Pension Plan

Notes to Financial Statements December 31, 2012 and 2011

Note 1 - Plan Description

The following description of Pike Community Hospital Employees' Pension Plan (the "Plan") is prior to the termination of the Plan (see Note 6) and provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all full-time employees of Pike Community Hospital (the "Hospital") (except employees actively participating in the Public Employee Retirement System) and employees classified as on-call/as-needed who have completed one year of service with 1,000 hours and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Employees may elect to defer a percentage of their eligible compensation on a pretax basis, which is subject to IRS limits. Employees may also make deferral contributions from 1 percent to 100 percent on an employer paid bonus.

The employer may make discretionary contributions to the Plan on behalf of the employees in accordance with a commitment to properly fund the employees' pension. There were no discretionary employer contributions during 2012.

Participant Accounts - Each participant's account is credited with the participant's contribution, allocations of the Hospital's contributions, and plan earnings and is charged with an allocation of administrative expenses. Allocations are based on the participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Vesting - Participants are immediately 100 percent vested in all contributions and any income or loss thereon.

Benefit Payments - Upon termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the entire account balance in his or her account or choose from one of the annuity payment options offered by the Plan. The designated beneficiary is entitled to a death benefit equal to the participant's account balance. Employees may also receive a hardship withdrawal, which must be approved by the plan administrator.

Participant Notes Receivable - Participants may borrow from their accounts a minimum of \$1,000 up to a maximum of 50 percent of their account balance, not to exceed \$50,000. Notes receivable are collateralized by the participant's account balance and bear interest at a market rate.

Note 1 - Plan Description (Continued)

Party-in-interest Transactions - Certain plan assets are in investment funds managed by Fidelity Management Trust Company (Fidelity) or its affiliates. Fidelity is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future Company contributions. At December 31, 2012 and 2011, forfeited account balances totaled \$4,398 and \$4,811, respectively.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value except as noted below. The common collective trust fund investment is valued at contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. The fair value of the common collective trust fund is based on the fair value of the underlying net assets at the measurement date by the issuer of the fund. The Plan's interest in the common collective trust fund is based on its proportionate ownership interest in the fair value of the common collective trust fund. The common collective trust fund primarily holds guaranteed investment contracts. The fair value of the guaranteed investment contracts is based on current yields of similar instruments with comparable durations taking into account the contract terms including interest reset intervals and the credit rating of the issuer.

The money market fund and all other investments are valued based on quoted market prices. See Note 5 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Various administrative costs are paid by the Hospital.

Note 2 - Summary of Significant Accounting Policies (Continued)

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including August 12, 2013, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Fidelity Management Trust Company (the "Trustee") holds the Plan's investments and participant notes receivable and executes all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Trustee.

Significant investments held by the Plan at December 31 are as follows:

	2012	2011
Mutual funds:		
FA Freedom 2015 A	\$ 168,501	\$ 306,134
FA Freedom 2025 A	151,177	658,427
FA Freedom 2035 A	145,418	252,810
FA Freedom 2030 A	144,867	406,965
FA Freedom 2020 A	138,905	495,469
FA Freedom 2010 A	53,783	211,212
FA Freedom 2045 A	7,565	164,686

Note 4 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code. Accordingly, no provision for income taxes has been made in the accompanying financial statements.

Notes to Financial Statements December 31, 2012 and 2011

Note 4 - Tax Status (Continued)

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2009.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2012 and 2011.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no significant transfers between levels.

Note 6 - Termination of Plan

During 2011, the board of directors of Pike Community Hospital, the Plan's sponsor, adopted a resolution to discontinue contributions to the Plan due to their affiliation with Adena Health System. Effective March 2012, all contributions to the Plan ceased and participants were given several options relative to treatment of their account balances. The Plan anticipates remaining plan assets to be distributed in 2013.

Note 7 - Reconciliation to Form 5500

The net assets on the financial statements differ from the net assets on Form 5500 due to a common collective trust fund being recorded at contract value on the financial statements and at fair value on Form 5500 as well as the contribution receivable and other payables not being recorded on Form 5500 as of December 31, 2012 and 2011. The net assets on the financial statements were lower than Form 5500 at December 31, 2012 by \$252; net assets were higher than Form 5500 at December 31, 2011 by \$202,037. The net loss on Form 5500 will be \$202,289 greater than the changes in net assets per the financial statements at December 31, 2012.
