Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Pension Plan for Hourly Rate Employees of the Warren Division (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR § 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4 and Note 9, which was certified by State Street Bank & Trust Company, the trustee of the Plan, except for comparing such information to the related information included in the Plan's financial statements. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certification from the trustee as of and for the years ended December 31, 2012 and 2011, that the information provided to the Plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Pension Plan for Hourly Rate Employees of the Warren Division

Notes to Financial Statements

Years Ended December 31, 2012 and 2011

1. Description of the Plan

The Pension Plan for Hourly Rate Employees of the Warren Division (the Plan) is a defined benefit plan covering certain union employees who receive a base rate per hour in the Warren Division, except as described in the following sentence, and effective January 1, 1997, certain employees of the former factory in Beverly, Massachusetts. Effective December 31, 1998, non-union hourly rate employees of the Plan who were actively employed on September 30, 1998, were transferred to The Black & Decker Pension Plan (now known as the Stanley Black & Decker Pension Plan). Effective October 31, 2009, no new employees are eligible to participate in the Plan. The Plan provides for retirement, death, and disability benefits. Black & Decker (U.S.) Inc. (the Company), is the Plan sponsor and Plan administrator. Effective December 31, 2012, in connection with the Plan Merger (described below), Stanley Black & Decker, Inc. became the Plan sponsor and the Plan administrator.

On March 12, 2010, a wholly owned subsidiary of The Stanley Works was merged with and into The Black & Decker Corporation, with the result that The Black & Decker Corporation became a wholly owned subsidiary of The Stanley Works (the Merger). In connection with the Merger, The Stanley Works changed its name to Stanley Black & Decker, Inc.

The Company's funding policy is to contribute amounts sufficient to meet minimum funding requirements as set forth in employee benefit and tax laws plus such additional amounts as the Company may determine to be appropriate. For 2012 and 2011, the minimum required contribution was $0. The Company made contributions to the Plan of $75,000, pertaining to 2012. The Company made no contributions to the Plan, pertaining to 2011. For 2011, the Plan utilized its actuarially determined funding standard carryover balance to meet the minimum required contribution. The Plan has met the ERISA minimum funding requirements.

Information about the Plan, the vesting and benefit provisions, and the Pension Benefit Guaranty Corporation's (PBGC) benefit guarantee is contained in a Summary Plan Description. Copies are available from the Company.

Effective December 31, 2012, all of the assets and liabilities of the Plan were transferred to and merged into the Pension Plan for Hourly Paid Employees of Stanley Black & Decker, Inc. (the Plan Merger). Notwithstanding the foregoing, a separate benefit formula continues to apply to Plan participants, as do certain other Plan provisions pertaining to benefit determinations.

2. Significant Accounting Policies

Basis of Accounting

The Plan's financial statements are prepared on the accrual basis of accounting. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that can affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investments

The assets of the Plan are held by State Street Bank and Trust Company (the BD Trustee) under a trust agreement for The Black & Decker Defined Benefit Plan Master Trust (the BD Master Trust) (Note 9) with the assets of other defined benefit pension plans of The Black & Decker Corporation and certain of its subsidiaries.

At the end of each month, the fair value of the Plan's assets is determined based upon activity in the BD Master Trust during that month. Items specifically identifiable with the Plan, such as contributions, benefit payments, transfers, and expenses directly attributable to the Plan, are first credited or charged to the Plan. Next, allocations are made to the Plan for administrative expenses not specifically identifiable with any plan, investment income, and realized and unrealized gains and losses on investments of the BD Master Trust. Such allocations are based on the relationship of the proportionate share of the Plan at the beginning of the period, after consideration of those specifically identifiable items first credited or charged to the Plan, to the total share of all plans participating in the BD Master Trust during such period.

The Plan, through its investment in the BD Master Trust, utilizes derivative financial instruments to manage market risk. During 2012 and 2011, the BD Master Trust utilized option and futures contracts for trading or hedging purposes. These derivative financial instruments are marked to market and reflected in the Statement of Net Assets Available for Benefits at fair value.

Fair Value of Investments

The Plan follows Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurement and Disclosures* (ASC 820), for all financial assets and liabilities and nonfinancial assets and liabilities that are recognized or disclosed at fair value in the financial statements on a recurring basis. ASC 820 defines fair value, establishes a fair value hierarchy, and expands disclosures about fair value measurements.

ASC 820 defines fair value as the price that would be received upon sale of an asset or paid upon the transfer of a liability in an orderly transaction between market participants at the measurement date and in the principal or most advantageous market for that asset or liability.

2. Significant Accounting Policies (continued)

Fair Value of Investments (continued)

The fair value is calculated based on assumptions that market participants would use in pricing the asset or liability, not on assumptions specific to the entity. In addition, the fair value of liabilities includes consideration of non-performance risk including the Plan's own credit risk.

In addition to defining fair value, ASC 820 expands the disclosure requirements around fair value and establishes a fair value hierarchy for valuation inputs. The hierarchy prioritizes the inputs into three levels based on the extent to which inputs used in measuring fair value are observable in the market. Each fair value measurement is reported in one of three levels which is determined by the lowest level input that is significant to the fair value measurement.

These levels are:

Level 1 – Inputs are based upon unadjusted quoted prices for identical instruments traded in active markets.

Level 2 - Inputs are based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Inputs are generally unobservable and typically reflect management's estimates of assumptions that market participants would use in pricing the asset or liability. The fair values are therefore determined using model-based techniques that include option pricing models, discounted cash flow models, and similar techniques.
Following is a description of the valuation methodologies used for assets measured at fair value within the BD Master Trust at December 31, 2012 and 2011.

Short-term investments – valued based on quoted prices for identical or similar assets or liabilities in non-active markets or pricing models for which inputs are observable.

Bonds – Level 1 securities are valued at the closing price reported on the active market on which the individual securities are traded. Level 2 securities are valued at the closing price of similar assets in active markets.

Common stocks – Level 1 securities are valued at the closing price reported on the active market on which the individual securities are traded. Level 2 securities are valued at the closing price of similar assets in active markets. Level 3 securities consist mainly of limited partnership funds valued based on third party valuations for which significant unobservable inputs are not reasonably available.

2. Significant Accounting Policies (continued)

Fair Value of Investments (continued)

There have been no changes in the valuation methodologies used to determine fair value at December 31, 2012 and 2011. See Note 10 for further discussion of fair value measurements.

Benefits

Benefit claims are recorded as deductions when they have been approved for payment and paid by the Plan.

Administrative Expenses

Certain administrative services are provided by the Company without cost to the Plan; however, Plan, actuarial and investment advisory fees, Pension Benefit Guaranty Corporation premiums, and some other direct expenses are paid by the Plan from the BD Master Trust assets.

Adoption of New Accounting Pronouncements

In May 2011, the FASB issued Accounting Standards Update (ASU) 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards*. ASU 2011-04 was issued to provide a consistent definition of fair value and ensure that the fair value measurement and disclosure requirements are similar between U.S. GAAP and International Financial Reporting Standards. ASU 2011-04 changes certain fair value measurement principles and enhances the disclosure requirements particularly for Level 3 fair value measurements. This pronouncement is effective for reporting periods beginning on or after December 15, 2011. The new guidance requires prospective application. The adoption of ASU 2011-04 did not have a material impact on the Plan's financial statements.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments that are attributable under the Plan's provisions to services rendered by employees. These include benefits expected to be paid to:

1) Retired or terminated employees or their beneficiaries,

2) Beneficiaries of employees who have died, and

3) Present employees or their beneficiaries.

2. Significant Accounting Policies (continued)

Actuarial Present Value of Accumulated Plan Benefits (continued)

Benefits payable under all circumstances - retirement, death, and disability - are included, to the extent attributable to service rendered to the valuation date.

3. Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits is determined by an actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and the probability of payment between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuation of the Plan are:

Mortality basis	Static tables under Section 430(h)(3)(A) of the IRC for 2012 and 2011
Retirement age	Assumed average retirement age of 65
Present value of accumulated plan benefits	Discount rate of 6.25% for 2012 and 7.00% for 2011

The foregoing assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable to determine the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits is as follows:

	January 1, 2012	January 1, 2011
Vested benefits:		
Participants currently receiving payments	**$ 6,102,801**	$ 5,725,624
Participants with deferred benefits	**2,112,841**	1,788,658
Other participants	**3,511,034**	3,404,770
Total vested benefits	**11,726,676**	10,919,052
Nonvested benefits	**184,393**	174,251
	$ 11,911,069	$ 11,093,303

3. Accumulated Plan Benefits (continued)

The statement of changes in the actuarial present value of accumulated plan benefits as of January 1, 2012 is as follows:

Present value of accumulated benefits as of January 1, 2011	**$**	**11,093,303***
Changes during the year due to:		
Benefits paid		**(861,008)**
Decrease in the discount period		**754,056**
Changes in actuarial assumptions		**862,028**
Benefits accumulated		**109,429**
Actuarial gains		**(46,739)**
Net increase		**817,766**
Present value of accumulated benefits as of January 1, 2012	**$**	**11,911,069**

*****Subsequent to the year ended December 31, 2011 financial statement report date, the actuary determined a revised January 1, 2011 present value of accumulated benefits was necessary, as a result of a plan related expense assumption change and a change in retirement decrements for vesting service to reflect anticipated future experience. The revision did not have a material impact to the Plan.

4. Investments

The Company maintains The Black & Decker Defined Benefit Plan Master Trust Agreement for the BD Master Trust. Pursuant to the trust agreement, the assets of the BD Master Trust are held and administered by the BD Trustee as of December 31, 2012 and 2011. The BD Trustee holds cash, short-term investments, mutual funds, bonds, common stocks, and option and futures contracts, which are stated at fair market value. In accordance with the trust agreement, the BD Trustee holds the Plan's assets and executes investment transactions. All investment information related to the BD Master Trust disclosed in the accompanying financial statements, including investments held at December 31, 2012 and 2011, net appreciation of assets, interest income and expenses for the years then ended, were obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the BD Trustee.

The change in the difference between fair value and the cost of investments is reflected as unrealized appreciation or (depreciation) in the aggregate fair value of investments. The realized gain or (loss) on investments is the difference between the proceeds received and the average cost of investments sold. The total unrealized appreciation or (depreciation) and the realized gain or (loss) is reflected as net appreciation or (depreciation) of Plan assets within the operating results of the BD Master Trust.

4. Investments (continued)

The fair values of individual investments that represent 5% or more of the Plan's assets available for benefits are as follows (Note 9):

	December 31, 2012	December 31, 2011
Plan's interest in BD Master Trust	**$** -	$ 13,958,052

5. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated October 19, 2009, stating that the form of the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, is not subject to tax under the present income tax law. Since the form of the Plan is qualified, the Plan is required to operate in accordance with its terms in order to maintain its qualification. The Plan administrator is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status. The Plan has been amended subsequent to the receipt of the determination letter. The Plan administrator, which consults regularly with legal counsel regarding Plan matters, believes that the Plan is currently being operated in accordance with its terms. Therefore, no provision for income taxes has been included in the Plan's financial statements.

6. Risks and Uncertainties

The Plan, through its participation in the BD Master Trust, invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

7. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated.

a. That portion of a participant's benefit derived from his or her own contributions.

b. Benefits that former employees or their beneficiaries have been receiving for at least three years as of the date of the Plan termination, or that employees who were eligible to retire at least three years prior to the date of the Plan termination would have been receiving if they had retired and received benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest amount that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under the Plan provisions in effect at any time during the five years preceding Plan termination.

c. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) up to the applicable limitations (discussed below).

d. All other vested benefits not insured by the PBGC.

e. All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2012 and 2011, the monthly ceiling was $4,653 and $4,500, respectively. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination, whichever comes later. For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceiling is actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations, the financial condition of the Company and the level of benefits guaranteed by the PBGC.

7. Plan Termination (continued)

If participants receive all of their benefits pursuant to the termination of the Plan, any assets remaining after the benefits are provided will be returned to the Company.

8. Party-in-Interest Transactions

Plan assets include investment in funds managed by State Street Bank and Trust Company, which also serves as the Plan's Trustee. The Plan's Trustee performs certain administrative services for the Plan and as such, these transactions qualify as party-in-interest transactions under ERISA. These party-in-interest transactions are deemed not to be prohibited because they are covered by statutory and administrative exemptions pursuant to the IRC and the rules under ERISA regarding prohibited transactions.

9. Investment in Master Trust

The Plan's investment consists of an interest in the BD Master Trust. The BD Master Trust was created and is maintained for certain employee pension benefit plans sponsored by the Company, including the Plan. The Plan's interest in the net assets of the BD Master Trust at December 31, 2012 was zero, as, effective December 31, 2012, all of the assets and liabilities of the Plan were transferred to and merged into the Pension Plan for Hourly Paid Employees of Stanley Black & Decker, Inc. (Note 1). The Plan's interest in the assets of the BD Master Trust was 1.4%, amounting to $13,958,052 as of December 31, 2011.

9. Investment in Master Trust (continued)

The following is a summary of the financial information and data for the BD Master Trust certified by the BD Trustee as complete and accurate in accordance with Section 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA:

	$ 268,046,776	$ 650,347,801	$ 30,853,955	$ 949,248,532

At December 31, 2012 and 2011, the BD Master Trust held approximately 63% and 60%, respectively, of its assets in government and corporate debt securities with the remainder allocated among various equity investments as well as a small allocation to alternative investments. The debt securities have been split between levels 1 and 2 based on their liquidity, with U.S. Treasury securities being assigned to Level 1 and corporate debt securities assigned to Level 2. The Trust's equity holdings have been split between levels 1 and 2 based on the type of investment, with publically quoted equities held in a separately managed account placed in Level 1 and investments held in commingled funds and similar vehicles placed in Level 2.

10. Fair Value of Investments in Master Trust (continued)

The following table sets forth a summary of changes in the fair value of the BD Master Trust's Level 3 assets for the year ended December 31, 2012 and 2011, respectively:

	Years Ended December 31, 2012	2011
Balance, beginning of year	**$ 30,853,955**	$ 34,879,071
Purchases	**4,807,500**	3,980,000
Sales	**(2,100,487)**	(10,013,400)
Net realized and unrealized (depreciation) appreciation	**(941,556)**	2,008,284
Balance, end of year	**$ 32,619,412**	$ 30,853,955

The BD Master Trust's investments include limited partnership interests, which had an aggregate fair value of $32,619,412 and $30,853,955 at December 31, 2012 and 2011, respectively. The fair value of these limited partnership interests is determined by the general partners based upon the BD Master Trust's pro rata ownership in the investments held by the partnerships. Investments in limited partnerships are recorded at market value using external pricing sources or, when such sources are not readily available or deemed inappropriate, at fair values determined in good faith by the general partners. The determination by the general partners of estimated fair values of certain illiquid investments includes, among other methods such as the use of external pricing models, obtaining valuation-related information from third-party investment firms and pricing services, and performing other research activities. Such determinations involve subjective judgment as the value of these limited partnership investments is generally ultimately determined by negotiation between parties in a sales transaction. The carrying value recorded in the financial statements of the BD Master Trust's investments in these limited partnership interests may differ materially from the amounts ultimately realized from these limited partnership interests and from the values that would have been reported in the financial statements had a ready market for these partnership interests existed.

10. Fair Value of Investments in Master Trust (continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the BD Master Trust believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table summarizes the contractual amounts and fair values of the BD Master Trust's derivative financial instruments as of December 31, 2012 and 2011:

	Contractual Amount	Fair Value
December 31, 2012		
Futures contracts *:		
Long (purchased)	**$ 24,500,000**	**$ 32,470**
Short (written)	-	-

Option contracts:		
Purchased	$ -	$ -
Written	-	-
Futures contracts *:		
Long (purchased)	8,500,000	23,198
Short (written)	-	-

All of the derivative contracts are short-term and mature within one year.

*Contractual amount represents the notional value of the futures.

10. Fair Value of Investments in Master Trust (continued)

The following table summarizes the realized and unrealized gain (loss) associated with the BD Master Trust's derivative financial instruments during the years ended December 31, 2012 and 2011. These amounts are included in net realized and unrealized appreciation in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

	Realized Gain (Loss)	Unrealized Appreciation (Depreciation)	Net Realized and Unrealized Appreciation (Depreciation)
December 31, 2012

The BD Master Trust is exposed to credit-related losses in the event of nonperformance by counterparties to its option and futures contracts. The BD Master Trust, through its investment managers, monitors creditworthiness of the counterparties and presently does not expect default by any of the counterparties. The BD Master Trust does not obtain collateral in connection with its derivative financial instruments.

11. Subsequent Events

The Plan has evaluated events occurring between December 31, 2012 and October 1, 2013, the date the financial statements were available to be issued.

11. Subsequent Events (continued)

Effective January 1, 2013, in connection with the Plan Merger (Note 1), The Bank of New York Mellon is appointed successor trustee with respect to the Plan and certain other tax-qualified defined benefit pension plans that were merged, effective December 31, 2012, into the Pension Plan for Hourly Paid Employees of Stanley Black & Decker, Inc., and all of the assets held by State Street Bank and Trust Company under The Black & Decker Defined Benefit Plan Master Trust Agreement are transferred to and held under The Stanley Works Pension Plan Master Trust (SW Master Trust).

Effective January 1, 2013, the SW Master Trust is amended and renamed the "Stanley Black & Decker, Inc. Pension Master Trust" (SBD Pension Master Trust). The SBD Pension Master Trust, as effective January 1, 2013, maintains the assets of the following defined benefit pension plans: Pension Plan for Hourly Paid Employees of Stanley Black & Decker, Inc., Stanley Black & Decker Pension Plan (formerly known as The Black & Decker Pension Plan), and HSM Electronic Protection Services, Inc. Pension Plan.

SCHEDULE SB ATTACHMENTS

Death Prior to Retirement

a.	Eligibility	Five years of Vesting Service Credit but less than Age 65.
b.	Benefit	For an employee who dies after attaining age 55 (or 60 prior to October 14, 2005), the pension is calculated as if the employee had retired on first of the month in which he died with the automatic form of pension in effect. For an employee who dies prior to attaining age 55 (or 60 prior to October 14, 2005), the pension commences when the deceased employee would have attained age 55 (or 60 prior to October 14, 2005) and is calculated as if the employee had terminated employment on his date of death, commenced receiving a reduced deferred benefit at age 55 (or 60 prior to October 14, 2005) with the automatic form of pension in effect. For participants who terminated prior to January 1, 1992, pensions of the employees and their surviving spouses are reduced to reflect the cost of the coverage during the period it is in effect.
c.	Commencement Date	Payments commence on the date that the member would have been eligible to receive benefits or date of death, if later.
d.	Form of Payment	The surviving spouse's benefit is paid monthly for the life of the surviving spouse.

Termination of Employment

a.	Eligibility	Age 65 or 5 years of Vesting Service Credit
b.	Benefit	The participant's accrued benefit as of the termination date under normal retirement benefit formula and payable at age 65. If the former employee has at least 10 years of Vesting Service Credit at termination, an actuarially reduced benefit is payable at age 60 (same factor as early retirement).
c.	Commencement Date	Normal retirement date or age 60 if the former employee has at least 10 years of Vesting Service Credit at termination.
d.	Form of Payment	Same as for normal retirement.

Maximum on Benefits and Pay

All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

Form of Payment

Participants are assumed to elect the single life annuity.

Marriage

For purposes of valuing the pre-retirement surviving spouse's benefit, 85% of males and 50% of females are assumed to be married and male spouses are assumed to be 4 years older than female spouses.

Employees

It was assumed there will be no new or rehired employees.

Valuation Date

First day of plan year.

Funding Target

Present value of accrued benefits.

SCHEDULE SB ATTACHMENTS

Target Normal Cost

Present value of benefits expected to accrue during plan year plus plan-related expenses.

Benefits Not Included in Valuation

All benefits described in the Plan Provisions section of this report were valued based on discussions with Stanley Black & Decker, Inc. regarding the likelihood that these benefits will be paid. Towers Watson has reviewed the plan provisions with Stanley Black & Decker, Inc. and, based on that review, is not aware of any significant benefits required to be valued that were not.

Asset Method

Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2011 plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Employee data, data on persons receive benefits, and data on other participants was supplied by T Rowe Price.
