Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by The Bank of New York Mellon, the Trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the Trustee as of December 31, 2012 and 2011, and for the years then ended, that the information provided to the Plan administrator by the Trustee is complete and accurate.

ROCK-TENN COMPANY PENSION PLAN
FOR CERTAIN SALARIED EMPLOYEES (SSCC)
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2012 AND 2011

1. DESCRIPTION OF PLAN

The following description of the Rock-Tenn Company Pension Plan for Certain Salaried Employees (SSCC) (the “Plan”) provides only general information. Participants should refer to the Summary Plan Description for a complete description of the Plan’s provisions.

A. General

The Plan is a non-contributory, defined benefit pension plan covering eligible salaried employees of the former Smurfit-Stone Container Corporation which on May 27, 2011, merged with and into a subsidiary of Rock-Tenn Company who assumed sponsorship of the Plan. Rock-Tenn Company (the “Company”) continues to be the sponsor and administrator of the Plan.

Effective January 1, 2012, the Plan was amended and restated to change its name from Smurfit-Stone Container Corporation Pension Plan for Salaried Employees to Rock-Tenn Company Pension Plan for Certain Salaried Employees (SSCC). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

B. Benefits and Vesting

Benefits are generally based on the participant’s final average earnings and credited service under the Plan and are paid at either the participant’s early or normal retirement date. A participant becomes fully vested in his benefit after completing five (5) years of service with the Company.

As of December 31, 2008, the benefits under the Plan were frozen and no new participants were allowed into the Plan subsequent to that date. As a result, salaried employees have not accrued additional benefits under the Plan after December 31, 2008.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles (“GAAP”).

NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2012 AND 2011

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Investments

For the years ended December 31, 2012 and 2011, substantially all of the Plan's assets are held in the Smurfit-Stone Container Corporation Master Trust ("Master Trust"). The Master Trust held assets on behalf of both the Rock-Tenn Company Pension Plan for Certain Salaried Employees (SSCC) and the Rock-Tenn Company Pension Plan for Certain Hourly Employees (SSCC).

Investments held by the Master Trust are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company's Treasury Department determines the Plan's valuation policies utilizing information provided by its investment advisers and the Plan's Trustee. See Note 4 for a discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes gains and losses on investments bought and sold as well as held during the year.

C. Contributions

Contributions to the Plan by the Company are based on what is needed to provide definitely determinable benefits to Plan participants. Actuarial assumptions and computations are required to determine such contributions. Employer contributions receivable represent those contributions remitted to the Plan after its December 31st year-end and typically consist of a) the Company's quarterly contribution due each January after its year-end, b) the Company's final contributions generally made in September following its year-end and prior to the Company's September 15th funding deadline to meet applicable funding targets.

D. Administrative Expenses

Certain expenses incurred in administration or operation of the Master Trust are paid from the assets of the Master Trust and allocated to each participating plan. Such expenses are allocated monthly either specifically to the plan they relate to or to each participating plan based on their relative beginning of year net asset balances.

E. Payment of Benefits

Benefit payments are recorded when distributed.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

F. Risks and Uncertainties

The Plan invests in various investment securities primarily through the Master Trust. Investment securities, in general, are exposed to various risks such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that, such changes could materially affect the amounts reported in the financial statements.

G. Actuarial Present Value of Accumulated Plan Benefits Obligation

The accumulated plan benefits obligation (see Note 8) represents estimated future periodic payments, including lump-sum distributions, to be made in accordance with the Plan's provisions with respect to service which employees have rendered to the valuation date. It includes benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are based on employees' compensation during their last five years of credited service prior to December 31, 2008. The accumulated plan benefits for active employees are based on their average compensation during the five years preceding December 31, 2008. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date. The effect of plan amendments on accumulated plan benefits is recognized in the year in which such amendments become effective.

The actuarial present value of the accumulated plan benefits obligation is determined by an independent actuary and represents the amount which results from applying actuarial assumptions to adjust the accumulated plan benefits obligation to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

H. Use of Estimates

The preparation of financial statements in conformity with GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

I. Reclassifications

Certain reclassifications have been made to the 2011 financial statements to conform to the 2012 presentation. As discussed in Note 4, certain investments held in the Master Trust were reclassified from Level 1 to Level 2 of the fair value hierarchy. These reclassifications had no effect on previously reported investments at fair value, net assets available for benefits, or increases in net assets available for benefits.

3. INVESTMENT IN THE SMURFIT-STONE CONTAINER CORPORATION MASTER TRUST

The Plan assets are held in the Master Trust under the terms of a trust agreement. The Bank of New York Mellon is the Trustee of the Plan for the years ended December 31, 2012 and 2011. The value of the Plan's share of assets is presented as a single asset and the net investment experience of the Master Trust is presented as a single addition to or deduction from net assets in the accompanying financial statements. Each participating plan has an undivided interest in the Master Trust. The Master Trust assets are allocated among the participating plans by assigning to each plan those transactions (primarily contributions, benefit payments, and plan-specific expenses) that can be specifically identified and by allocating monthly among all plans, in proportion to each plan's beneficial interest in the Master Trust, income (loss) and expenses resulting from the collective investment of the assets of the Master Trust. At December 31, 2012 and 2011, the Plan's pro rata share of the net assets available for benefits under the Master Trust was approximately 52% and 53%, respectively. The condensed statements of net assets and statements of changes in net assets of the Master Trust are presented in Note 11.

4. FAIR VALUE MEASUREMENTS

The FASB has established a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. There have been no changes in the valuation methodologies used at December 31, 2012 and 2011.

4. FAIR VALUE MEASUREMENTS (Continued)

¹ The Plan's investments in certain U.S. government securities were reclassified from Level 1 to Level 2, which decreased the previously reported Level 1 investment total by \$62,272,018. The amounts presented reflect this reclassification and conform to the presentation for the year ended December 31, 2012.

- (a) Equity securities are comprised of the following investment types: (i) common stock; (ii) preferred stock; (iii) equity exchange traded funds; (iv) hedged equity investments; and (v) commingled equity funds. Investments in common and preferred stocks are valued using quoted market prices multiplied by the number of shares owned. The investment in exchange traded funds are valued at the net asset value per share multiplied by the number of shares held as of the measurement date. The hedged equity investment is a commingled fund that consists primarily of equity indexed investments which are hedged by options and also holds collateral in the form of short-term treasury securities. The commingled funds investments are valued at the net asset value per share multiplied by the number of shares held. The determination of net asset value for the commingled funds includes market pricing of the underlying assets as well as broker quotes and other valuation techniques.
- (b) U.S. government securities include treasury and agency debt. These investments are valued using a broker quote in an active market.
- (c) These investments are valued utilizing a market approach that includes various valuation techniques and sources such as value generation models, broker quotes in active and non-active markets, benchmark yields and securities, reported trades, issuer spreads, and/or other applicable reference data. The U.S. corporate bonds category is primarily comprised of U.S. dollar denominated investment grade securities. Commingled debt funds are valued at their net asset value per share multiplied by the number of shares held. The determination of net asset value for the commingled funds includes market pricing of the underlying assets as well as broker quotes and other valuation techniques.
- (d) Other fixed income is comprised of municipal and asset-backed securities. Investments are valued utilizing a market approach that includes various valuation techniques and sources such as, broker quotes in active and non-active markets, benchmark yields and securities, reported trades, issuer spreads, and/or other applicable reference data.
- (e) Short-term investments are valued at \$1.00/unit, which approximates fair value. Amounts are generally invested in interest-bearing accounts.
- (f) The alternative investments are diversified across multiple asset managers and several types of asset classes including hedge funds (level 2) and a private equity partnerships (level 3). The hedge funds are valued at net asset value. Fair value of the private equity partnerships is determined based on discounted cash flow analysis that utilizes unobservable inputs such as weighted average cost of capital ranging from 7.3% to 20.0%, residual growth rate assumptions ranging from 1.5% to 4.0%, revenue growth rates ranging from 1.6% to 9.1% and EBITDA of market comparable companies with multiples ranging from 4.8 to 14.5. Future funding commitments related to the private equity partnerships approximated \$14,000,000 at December 31, 2012.

4. FAIR VALUE MEASUREMENTS (Continued)

In estimating fair value of investments in level 3, the Company's Treasury Department may use information provided by its investment advisors and the Plan's Trustee. In substantiating the reasonableness of the data provided by third parties, the Treasury Department evaluates a variety of factors including review of methods and assumptions used by the trustee as well as industry and market developments.

Transfers Between Levels

The availability of observable market data is monitored to assess the appropriate classification of investments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

Changes in Fair Value of Level 3 Assets and Related Gains and Losses

The following tables set forth a summary of changes in the fair value of the Master Trust's level 3 assets for the years ended December 31, 2012 and 2011.

6. FUNDING POLICY

The Company's funding policy is to make contributions to the Plan in amounts sufficient to provide for the participants' benefits and to satisfy the minimum funding standards of ERISA. The Plan has met the minimum funding requirements of ERISA for the years ended December 31, 2012 and 2011.

7. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. Should the Plan terminate at some future time, its net assets generally may not be available to provide full benefits to all participants. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation ("PBGC") at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty, while other benefits may not be provided for at all. For further description regarding the priority of participants' claims to the assets of the Plan upon Plan termination and benefits guaranteed by the PBGC, reference is made to the information included in the Summary Plan Description provided to all participants.

8. ACCUMULATED BENEFITS OBLIGATION

The present value of accumulated benefits obligation as determined by the actuary as of January 1, 2012 and 2011 is as follows:

	January 1,	
	2012	2011
Vested benefits:		
Active participants	\$ 150,722,084	\$ 167,476,415
Inactive participants with deferred benefits	312,252,277	285,317,522
Inactive participants receiving benefits	<u>778,369,658</u>	<u>743,417,989</u>

8. ACCUMULATED BENEFITS OBLIGATION (Continued)

Changes in the actuarial present value of accumulated benefits obligation are as follows:

Assumption changes (primarily discount rate change)	27,615,598
Interest due as a result of the decrease in the discount period	89,337,264
Benefits paid	(86,946,068)
Benefits accumulated and (gains) losses	<u>15,125,299</u>
Actuarial present value of accumulated benefits obligation at January 1, 2012	<u>\$ 1,241,344,019</u>

9. INCOME TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service dated January 22, 2009, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and, therefore, the related trust is exempt from taxation. The Plan has been amended and restated since receiving the determination letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and has no income subject to business income tax and, therefore, believes that the Plan, as amended and restated, is qualified and the related trust is tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations by tax authorities for years prior to December 31, 2009.

12. SUBSEQUENT EVENTS

Effective January 1, 2013, the assets of the Rock-Tenn Company Pension Plan for Certain Salaried Employees (SSCC) and the Rock-Tenn Company Pension Plan for Certain Hourly Employees (SSCC), which were held in the Smurfit-Stone Container Corporation Master Trust, were transferred into the Rock-Tenn Company Master Retirement Trust. As a result, the Plan's Trustee changed from the Bank of New York Mellon to The Northern Trust Company.

In September 2013, the Plan's actuaries certified that the Plan's Adjusted Funding Target Attainment Percentage ("AFTAP") exceeded 82.69% at January 1, 2013. As a result, benefit restrictions and restrictions on certain accelerated forms of payments that the Plan was previously subject to under Section 436 of the Code will be removed effective January 1, 2014, subject to certain conditions.

The Plan has evaluated subsequent events through October 1, 2013, the date which the financial statements were available to be issued, and there are no additional disclosable events.

Plan Provisions

Benefits Included or Excluded:

Unless noted below, all benefits provided by the plan are included in this valuation.

- **Most recent plan amendments included:** The plan was last amended and restated effective January 1, 2012.
- **Plan amendments excluded:** Amendments adopted after the valuation date and effective after the current plan year are excluded.
- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* Not applicable.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals.
- **Scheduled benefit increases:** Not applicable.
- **Late retirement increases:**
 - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½.
 - *Deferred vested participants:* Current terminated vested participants over normal retirement age are valued the late retirement increase.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

- **Eligibility** Latta (benefit accrued after 2006), Salaried and Wyommising: Total and permanent disability prior to December 31, 2008 at any age after completion of 10 years of Credited Service.

Latta (benefit accrued before 2007): Total and permanent disability at any age after completion of 4 years of Credited Service.

- **Benefit** Latta (benefit accrued after 2006), Salaried and Wyommising: A benefit shall commence at Normal Retirement Date with Credited Service computed to the earlier of Normal Retirement Date or December 31, 2008, and Final Average Compensation and Covered Compensation computed as of the Disability Retirement Date.

Latta (benefit accrued before 2007): A benefit shall commence immediately equal to the accrued benefit as of the Disability Retirement Date, reduced 3% for each of the first 2 years, 6% for each of the next 5 years, 3% for each of the next 15 years, and 1% for each additional year that the Disability Retirement Date precedes age 62. Upon attainment of Early or Normal Retirement, the participant shall receive a benefit according to the provisions of Early or Normal Retirement.

All benefit accruals cease effective December 31, 2008.

Pre-retirement death

- **Eligibility** A married participant who dies with 5 or more years of Vesting Service shall be eligible for a death benefit.

- **Benefit** The spouse receives 50% of the benefit the participant has accrued on the date of death, reduced for payment under the Joint and Survivor Annuity and further reduced for early payment, if applicable. The spouse can elect to have benefits commence on the participant's Normal Retirement Date, or the later of the date of death or the participant's earliest Early Retirement Date.

For a participant in the prior Salaried Plan who dies before termination and after becoming eligible for Early or Normal Retirement, the spouse receives a survivor annuity under the 100% Contingent Annuitant Option for the portion of the benefit attributable to Credited Service prior to January 1, 2007.

All benefit accruals cease effective December 31, 2008.

Deferred vested

- **Eligibility**

A participant whose employment terminates other than by reason of death, disability or retirement, and who has completed 5 or more years of Vesting Service is entitled to a Deferred Vested Benefit.
- **Deferred vested benefit**

The benefit is calculated based on Benefit Service and Final Average Earnings at the earlier of termination or December 31, 2008 in accordance with the Normal Retirement Benefit provisions.

The monthly benefit payable shall commence on the earlier of

 1. Normal Retirement Date
 2. Elected Early Retirement Date

The amount of such monthly benefit under (2) above shall be reduced in accordance with the Early Retirement Benefit provisions.

All benefit accruals cease effective December 31, 2008.

Disability

- **Eligibility**

A participant is eligible for disability retirement in the event of total and permanent disability prior to December 31, 2008 at any age after the completion of 10 years of Vesting Service.
 - **Benefit**

The amount of a disability pension is determined as if the employee had continued to work to the earlier of age 65 or December 31, 2008 and is payable at age 65. Earnings are credited at the last regular pay rate prior to disability and Covered Compensation is determined at the disability date.

All benefit accruals cease effective December 31, 2008.

Mortality sponsor elections

▪ Healthy participants and disabilities before 2002 and after 2008	Section 430(h)(3) prescribed separate static annuitant and nonannuitant mortality tables. These tables are based on the RP-2000 mortality tables projected with mortality improvement to the valuation year plus 7 and 15 years based on Scale AA.
▪ Disabled participants between 2002 and 2008	Revenue Ruling 96-7 table for participants who became disabled after 1994 and are eligible for Social Security disability benefits.

417(e) lump sums

Liabilities are determined based on the underlying annuity used by the plan to determine the lump sum amount, rather than valuing the lump sum payment. This annuity is valued based on funding interest rates rather than 417(e) rates and current year 417(e) unisex mortality.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

Actuarial Methods

Asset Methods

The market value is the plan amount provided by the plan sponsor less the fourth quarter expenses for the plan year plus discounted contributions.

The asset valuation method is an average of the adjusted market value for each year during the last 2 years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan administrator provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does have insurance contracts. The assets and liabilities of the Equitable and Aetna contracts are included in the valuation of the plan.

Minimum Funding Method

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.

- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, Line 32 — Schedule of Amortization Bases

The total shortfall amortization charge is the sum of the shortfall base amortizations for each plan year covered under PPA. Although a shortfall base can be negative, the combined shortfall amortization charge cannot be negative.

Shortfall bases				
Year established		Outstanding balance	Years remaining	2012 Installment
2008	\$	62,465,203	3	\$ 21,953,974
2009		43,023,146	4	11,640,682
2010		117,079,695	8.83	25,658,792 ¹
2011		129,093,382	6	24,730,912
2012		(108,778,204)	7	(18,462,362)
Total	\$	242,883,222		\$ 65,521,998

¹ Consists of the original 15-year amortization installment for the 2010 plan year (\$15,209,532) plus the additional \$10,449,260 installment acceleration amount (IAA). Years remaining have been adjusted to account for this IAA, as well as IAAs previously reflected for 2010 and 2011, which were \$3,713,902 and \$17,184,618, respectively.

Schedule SB, Line 24 – Change in Actuarial Assumptions

- The expense component of normal cost decreased from \$6,715,324 to \$5,909,118 to reflect our expectations for the current plan year.
- Interest discounts and mortality rates were updated from 2011 to 2012 in accordance with PPA.

Schedule SB, Line 15 – Reconciliation of differences between valuation results and amounts used to calculate AFTAP

For the 2012 AFTAP of 70.04%:

- The assets were adjusted to include a Code Section 436(c)(2) contribution of \$43,200 made on January 3, 2012 for amendments impacting the 2012 plan year and reflected in the funding target liability. This contribution was discounted to January 1, 2012 using the 2012 plan year effective interest rate of 6.95% for funding purposes, resulting in an asset addition of \$43,184.
- The funding target was adjusted for interest rates of 2.06% for the first five years, 5.25% for the next fifteen years, and 6.32% thereafter. These rates reflect Rock-Tenn Company's election not to apply the MAP-21 interest rates for AFTAP purposes.

Schedule SB, Line 43 – Explanation of Excess Installment Acceleration Amount

2012 excess compensation has not yet been determined. However, the excess installment acceleration amount from the 2011 plan year already exceeds the potential acceleration adjustment for the 2012 and 2013 plan years. As such, the amount shown only includes the excess amount of \$24,189,313 to be carried forward from 2011 excess compensation payments. Since immaterial to the current reporting year, the excess compensation for 2012 and later years will be collected and reflected in subsequent years' Schedules SB.

Schedule SB, Line 22 — Description of Weighted Average Retirement Age

Each employee is assumed to retire in accordance with the table of retirement rates. The proportion of employees expected to retire at each potential retirement age is shown below. The average retirement age is 61.
