ENVIRONMENTAL MATERIALS, LLC 401(K) PLAN

Notes to Financial Statements

Note 1 - Description of the Plan and Significant Accounting Policies

The following description of Environmental Materials, LLC 401(k) Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established October 31, 2004 and restated effective December 22, 2009. The Plan is available to employees age 21 years or older who have completed one year of service and work a minimum of 1,000 hours per year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Environmental Materials, LLC (the "Company") administers the Plan. Fidelity Management Trust Company serves as trustee, manages Plan investments, maintains the Plan's records, serves as the custodian, and offers Plan participants a variety of investment options through various mutual funds and a money market fund. Individual accounts are invested in the various investment options at the direction of the participants.

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Contributions

Participants may make before-tax contributions up to 100% of their annual compensation (90% prior to December 22, 2009), not to exceed the annual contribution limits established by the IRS, which are adjusted annually by the Secretary of the Treasury for inflation. The Plan also permits rollover contributions from other qualified retirement plans. Employee contributions to the Plan are made through regular payroll deductions. The Company contributes up to 100% of the first 3% of an employee's eligible compensation and 50% of the next 2% of an employee's eligible compensation as matching employer contributions on an annual basis. Participants over the age of 50 years may make catch-up contributions. Employees are not required to be employed the last day of the year to be eligible to receive the employer matching contribution and are vested immediately in this contribution.

Participants' Accounts

Each participant's account is credited or charged with the participant's contributions, an allocation of the Company's contributions, Plan earnings and losses, and administrative expenses. Allocations are based upon Plan earnings and losses and account balances as defined in the Plan document. The benefit to which a participant is entitled is the participant's entire account balance because all employees are 100% vested at all times.

ENVIRONMENTAL MATERIALS, LLC 401(K) PLAN

Notes to Financial Statements

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Participant Loans

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum amount equal to the lesser of 50% of their account balances or \$50,000. The loans are secured by the balances in the participants' accounts and bear interest at 5%, which is fixed at the inception of the loan and is commensurate with local prevailing rates as determined quarterly by the Plan administrator. The loans mature at dates ranging through November 2017. Principal and interest are paid ratably through payroll deductions. Loans are to be repaid on a quarterly basis over a five-year period, with the exception of loans for a principal residence, which are to be repaid over a period not to exceed ten years. Participant loans are recorded in the financial statements at an amortized cost plus accrued interest.

Payment of Benefits

Upon death, disability, retirement, or termination of service, a participant, upon election, may receive a lump-sum payment in the amount equal to the participant's account balance within a reasonable period of time after termination of employment. Participants may not make withdrawals from their accounts prior to retirement at age 59½, except in the event of disability, death, termination of employment, or notice of hardship, without being subject to certain restrictions and penalties. Account balances of terminated participants between \$1,000 and \$5,000 will be automatically rolled over into a designated individual retirement account for the participants' benefit. Account balances of terminated participants that are less than \$1,000 may be immediately distributed upon a distribution event. Benefits are recorded when paid.

Upon proof of financial hardship, a participant may withdraw his or her elective contributions from the Plan. A participant who makes a hardship withdrawal may not contribute to the Plan for six months after the date of the withdrawal.

Investment Valuation and Income Recognition

Investments are recorded at fair value as reported to the Plan by the custodian. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statement of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchase and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

ENVIRONMENTAL MATERIALS, LLC 401(K) PLAN

Notes to Financial Statements

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investments in a money market fund and mutual funds. Investments, in general, are exposed to various risks such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Additionally, some investments held by Fidelity Management Trust Company are invested in the securities of foreign companies, which involves special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

Subsequent Events

The Plan has evaluated all subsequent events through the auditors' report date, which is the date the financial statements were available for issuance. No events require disclosure based upon this evaluation.

Note 2 - Assets Certified by Fidelity Management Trust Company

Fidelity Management Trust Company has certified in writing to the Plan administrator that the stated amounts for investments at fair value and participant loans at amortized cost as of December 31, 2012 and 2011, and the income earned thereon for the year ended December 31, 2012, as reflected in the accompanying financial statements and the supplemental schedule of assets (held at end of year), are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the information certified by the trustee, except for comparing the information contained therein to information included in the financial statements and the supplemental schedule of assets (held at end of year).

ENVIRONMENTAL MATERIALS, LLC 401(K) PLAN

Notes to Financial Statements

Note 2 - Assets Certified by Fidelity Management Trust Company (continued)

The fair values of investments greater than 5% of net assets available for benefits were the following:

Fidelity Retire Money Market	\$ 492,780	\$ 271,073
Fidelity Freedom 2030	\$ 302,731	\$ 235,215

Fidelity Freedom 2025	\$ 163,250	* \$ 213,253
Spartan U.S. Bond Index	\$ 119,482	* \$ 198,979

* Indicates investments less than 5% of net assets available for benefits for the specific year noted.

Note 3 - Fair Value Accounting

GAAP requires disclosure about how fair value is determined and establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.
- Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

ENVIRONMENTAL MATERIALS, LLC 401(K) PLAN

Notes to Financial Statements

Note 4 - Income Taxes

The Plan did not obtain a Plan-specific determination letter, as it operates with the trustee's determination letter, which was issued on the basic plan document. The Plan administrator believes that the Plan continues to be operated and administered in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2012 and 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Note 5 - Administration of the Plan

The Company provides, at no cost to the Plan, certain administrative, accounting, and legal services to the Plan and also pays the cost of certain outside services for the Plan.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the case of a Plan termination, a single lump-sum payment will be made to all participants, or their beneficiary, until the trustee has distributed all assets.

Note 7 - Party-in-Interest

Certain Plan investments are mutual funds and a money market fund managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the asset trustee, as defined by the Plan; therefore, these transactions qualify as party-in-interest, which are exempt from prohibited transaction rules. Loans to participants qualify as party-in-interest transactions and these transactions are also exempt from prohibited transaction rules.

Note 8 - Reconciliation to Form 5500
