NOTE A - DESCRIPTION OF PLAN

The following description of the Hiley Cars Hurst L.P. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established on January 1, 2006 to provide retirement benefits for the employees of Hiley Cars Hurst L.P. and related entities (the "Company"). The Plan covers all full time employees of the Company who have three months of consecutive service and are age twenty-one or older. Hartford Life Insurance Company ("Hartford") serves as the custodian of the Plan's assets. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute compensation, as defined in the plan document. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company contributed 25% of the first 4% of base compensation that a participant contributed to the Plan as a discretionary matching contribution in 2012. Additional profit sharing amounts may be contributed at the option of the Company's Board of Directors. Contributions are subject to certain limitations.

Investment Options

Participants direct the investment of their accounts into various investment options offered by the Plan. The Plan currently offers pooled separate accounts and a guaranteed interest account as investment options for participants.

Participant Accounts

Each participant account is credited with the participant's contribution, and allocations of the Company's contributions and the Plan's earnings (losses), and charged with benefit payments, transaction fees related to notes receivable from participants and distributions, and allocations of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE A - DESCRIPTION OF PLAN (Continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 and up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the plan administrator. At December 31, 2012, outstanding loans bore interest rates from 3.25% to 4.25%. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or various installment options as provided by the Plan. Hardship distributions are permitted upon demonstration of financial hardship. All fully vested balances are available for distribution after the participant reaches the age of 59.5.

Forfeitures

At December 31, 2012 and 2011, forfeited nonvested accounts totaled $3,788 and $0, respectively. These accounts will be used to reduce employer contributions or pay administrative expenses. During 2012, forfeitures of $1,112 were used to pay plan expenses.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Estimates

The preparation of financial statements in conformity with GAAP requires the plan administrator to make estimates and assumptions that affect certain reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates and assumptions.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

In accordance with GAAP, a guaranteed interest account held by a defined-contribution plan is required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the guaranteed interest fund as well as the adjustment from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Purchase and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded upon distribution.

Administrative Expenses

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the plan document. Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan. Expenses relating to specific participant transactions (notes receivable from participants and distributions) are charged directly to the participant's account.

Subsequent Events

The Plan has evaluated subsequent events through September 30, 2013, the date the financial statements were available to be issued.

NOTE C - INVESTMENTS

The following table presents investments that represent 5% or more of the Plan's net assets at December 31:

	2012	2011
Blackrock Lifepath 2020	$ 79,276	$ 33,149

During 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

Pooled separate accounts	$ 20,919
Guaranteed interest account	333
	$ 21,252

NOTE D - FAIR VALUE MEASUREMENTS

Fair value as defined under GAAP is an exit price, representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

Level 1: Observable inputs such as quoted prices in active markets.
Level 2: Inputs other than quoted prices included within level 1 that are either directly or indirectly observable.
Level 3: Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

NOTE D - FAIR VALUE MEASUREMENTS (Continued)

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

Following is a description of the valuation methodologies use for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Pooled Separate Accounts

These investments are public investment vehicles valued using the Net Asset Value ("NAV") provided by the administrator of the accounts. The NAV is based on the value of the underlying assets owned by the account, minus its liabilities, and then divided by the number of units outstanding. Pooled separate accounts are classified within level 2 of the valuation hierarchy because the NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

Guaranteed Interest Account

The guaranteed interest account is valued at fair value by the administrator of the account by applying a market value adjustment, which is based on an actuarial formula as defined under terms of the contract. Because the participants transact at contract value, fair value is determined annually for financial reporting purposes only. The fair value is based on unobservable inputs, such as the interest rates and expected maturity date of the accounts; therefore, the contract is classified within level 3 of the valuation hierarchy (See Note F). Disclosure of unobservable inputs to fair value measurement has not been included for this account because quantitative unobservable inputs are not developed by the Plan when measuring fair value and have not been made available to the Plan by the insurance company.

NOTE D - FAIR VALUE MEASUREMENTS (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

	Assets at Fair Value as of December 31, 2012			
	Level 1	Level 2	Level 3	Fair Value
Pooled separate accounts				
Equity funds (a)	$ -	$ 135,935	$ -	$ 135,935
Balanced funds (b)	-	144,316	-	144,316
Fixed income funds (c)	-	20,905	-	20,905
Guaranteed interest account	-	-	-	-
	$ -	$ 301,156	$ -	$ 301,156

	Assets at Fair Value as of December 31, 2011			
	Level 1	Level 2	Level 3	Fair Value
Pooled separate accounts				
Equity funds (a)	$ -	$ 85,750	$ -	$ 85,750
Balanced funds (b)	-	53,762	-	53,762
Fixed income funds (c)	-	21,316	-	21,316
Guaranteed interest account	-	-	76,504	76,504
	$ -	$ 160,828	$ 76,504	$ 237,332

(a) Equity fund strategies seek capital appreciation by investing in equity securities. Pooled separate accounts can be redeemed on a daily basis. There is no redemption notice period. There are no unfunded commitments.

(b) Balanced fund strategies seek to invest in a combination of proven stocks and bonds in order to provide reasonable returns while mitigating the risks associated with both the stock and bond markets. Pooled separate accounts can be redeemed on a daily basis. There is no redemption notice period. There are no unfunded commitments.

(c) These investments are invested in a mix of fixed income securities to reflect the broad fixed income market. Pooled separate accounts can be redeemed on a daily basis. There is no redemption notice period. There are no unfunded commitments.

NOTE D - FAIR VALUE MEASUREMENTS (Continued)

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2012:

	Guaranteed Interest Account
Balance, beginning of year	$ 76,504
Interest credited	333
Unrealized losses relating to investments still held at reporting date	(3,919)
Purchases	7,592
Sales	(69,314)
Balance, end of year	$ 11,196
Amount of total gains and losses for the period attributable to the change in net unrealized gains and losses relating to assets still held at the reporting date	$ (3,919)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE E - UNAUDITED INFORMATION CERTIFIED BY CUSTODIAN

The accompanying financial statements include the following unaudited information as of December 31, 2012 and 2011 and for the year ended December 31, 2012 that was obtained from data prepared and certified to be complete and accurate by the Plan's custodian.

	2012	2011
Investments*	$ 311,468	$ 232,529
Notes receivable from participants	$ 4,142	$ 1,965
Net appreciation in value of investments	$ 21,252	
Interest income from notes receivable from participants	$ 142	

* All investments are certified at fair value with the exception of the guaranteed interest account, which is certified at contract value.

The certification mentioned above includes all investment information discussed in the notes C and D.

NOTE F - GUARANTEED INTEREST ACCOUNT

The Plan has a fully benefit-responsive guaranteed interest account with Hartford. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. Interest rate guarantees are backed by assets held in Hartford's general account.

The guaranteed interest account is included in the financial statements at fair value and then adjusted to contract value. As described in Note B, because the fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the fund. Contract value, as reported to the Plan by Hartford, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value; however, there are transfer restrictions regarding competing funds.

NOTE F - GUARANTEED INTEREST ACCOUNT (Continued)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan document (including complete or partial plan termination or merger with another plan), (2) changes to competing investment options, (3) Plan sponsor events (for example, merger, sale of a subsidiary or removal from the Plan of one or more groups of participants) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The fund permits the insurance company to terminate the agreement for the reasons listed in the preceding paragraph.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 3%. Such interest rates are reviewed on a semi-annual basis for resetting. The average yields earned by the guaranteed interest account are as follows:

	December 31, 2012	December 31, 2011
Average yields:		
Based on actual earnings	3.00%	1.20%
Based on interest rate credited to participants	3.00%	3.00%

NOTE G - EXCESS CONTRIBUTIONS PAYABLE

Contributions received from participants for 2012 are net of payments of $8,575, made in March 2013, to certain active participants to return excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. That amount is also included in the Plan's statement of net assets available for benefits as excess contributions payable as of December 31, 2012.

NOTE H - EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of pooled separate accounts managed by Hartford, which serves as the custodian as defined by the Plan, and, therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund. Fees paid by the Plan for administrative services amounted to $1,112 for the year ended December 31, 2012.

NOTE I - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE J - TAX STATUS

The Plan has not obtained a determination letter from the Internal Revenue Service (“IRS”) stating that the Plan was in compliance with the applicable requirement of the Internal Revenue Code ("IRC"). The Plan is relying on the IRS approval of the standardized prototype plan that it is utilizing. The IRS has determined and informed the document sponsor by a letter dated October 29, 2008, that the prototype plan document was designed in accordance with applicable sections of the IRC. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE K - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statement of net assets available for benefits.
