NOTE 1 - PLAN DESCRIPTION:

The following description of the Bay Valve Service, LLC (the "Company") 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General –

The Company established the Plan effective as of January 1, 1990. The Plan is a defined contribution plan covering all employees of the Company who have completed one year of service (or at least 1,000 service hours for part-time, seasonal, and temporary employees) and are age twenty-one or older. Provided an employee is eligible, he/she becomes a participant in the Plan on January 1st of each Plan year and semi-annually thereafter. The Plan is subject to the provisions of the Employment Retirement Income Security Act of 1974 (ERISA).

The Plan is a continuation of the Bay Valve Service, Inc. 401(k) Profit Sharing Plan that was replaced in its entirety by this Plan on April 6, 2012.

The Plan is administered by Paradigm Financial Corp. through a service provider, Nationwide Financial Services, appointed by the Company's Board of Directors.

Contributions and Distributions –

Eligible participants may contribute to the Plan any amount within the limits established by Code sections 401(k), 402(g), 404 and 415. Participants may modify their deferral elections at any time during the Plan year. Rollovers are allowed at any time; however the Plan will not accept rollovers of designated Roth contributions; after tax voluntary contributions are not allowed. The Plan permits catch-up contributions for participants age 50 or older, up to amounts specified each year by the IRS.

The employer may make discretionary matching and/or profit sharing contributions on the last day of the year in amounts not limited to current or accumulated profits. Contributions are also credited to participants for the year in which he/she retires, dies, or becomes disabled. Matching contributions are allocated based on the participant's elective deferrals relative to total elective deferrals for the Plan year. Profit sharing contributions are allocated based on the participant's eligible compensation relative to total eligible compensation.

No distributions from the Plan will be made until a participant retires, dies, or otherwise terminates employment with the Company. In the case of participant death, payment shall be made to his or her beneficiary, or if none, his or her legal representatives. Distributions to the participants are made in cash either in lump sum or in substantially equal installments (no annuities). In-service distributions (after reaching age 59 ½) are permitted from all accounts with no minimum limit.

Vesting –

Participants are immediately vested in their own contributions plus actual earnings thereon. Vesting in the Company's profit sharing portion of their accounts plus actual earnings thereon is based on years of service. Participants become 20 percent vested in employer contributions after two years of service, 40 percent vested after three years of service, 60 percent vested after four years of service, 80 percent vested after five years of service, and 100 percent vested after six years of service.

Participant Accounts -

Each participant's account is credited with the participant's contribution and allocation of the Company's contribution and Plan earnings (losses). Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant Loans -

Participants may borrow from their plan accounts up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a reasonable rate determined by reviewing the interest rates charged for similar types of loans by other lenders. Principal and interest payments are made through withdraws from salary, and loans generally must be repaid within five years. Loan balances become due and payable in their entirety upon the occurrence of a distributable event other than an in-service distribution.

Forfeited Accounts -

Forfeitures are used to reduce employer contributions. At December 31, 2012 and 2011, forfeited non-vested amounts totaled $7,322 and $5,201, respectively. These accounts will be used to reduce future employer contributions. During 2012, forfeited non-vested accounts were not used to reduce employer contributions.

Plan Termination -

The Company reserves the right to terminate the Plan at any time, subject to plan provisions. In the event of a complete termination, each participant employed as of the date of such termination shall be 100 percent vested and have a non-forfeitable interest in all of his or her accounts. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Code. Upon termination of the Plan, the Plan administrator shall direct the service provider to pay all liabilities and expenses of the Plan.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Estimates -

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Basis of Accounting -

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Administrative Expenses –

Substantially all expenses of maintaining the Plan are paid by the Sponsor Company.

Notes Receivable from Participants –

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Investment Valuation and Income Recognition –

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest or dividends declared, but not paid by a mutual fund before the end of the Plan's year-end, are not included in investment income. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 3 - TAX STATUS:

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, that the Plan is qualified and the Trust established under the Plan is tax-exempt, under the appropriate sections of the Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, they believe that the Plan was qualified and the related Trust was tax-exempt as of December 31, 2012.

US GAAP require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. As of December 31, 2012, the Plan does not have any uncertain tax positions.

NOTE 4 - INVESTMENT CONTRACT WITH INSURANCE COMPANY:

The Plan has entered into one benefit-responsive investment contract and one non-benefit responsive investment contract with Nationwide Life Insurance Company ("Nationwide"). Nationwide maintains the contributions in a pooled separate account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contracts are included in the financial statements at contract value as reported to the Plan by Nationwide. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because one guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Nationwide, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The total fair value of the investment contracts at December 31, 2012 and 2011, was $1,502,496 and $1,665,683, respectively, which also represents contract value. The crediting interest rate is based on a formula agreed upon with the issuer. Interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the Plan's ability to transact at contract value with Nationwide. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974 (ERISA). The plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with plan participants are probable of occurring.

The guaranteed investment contracts do not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average Yields:	2012	2011
Based on actual earnings	2.76%	2.79%
Based on interest rate credited to participants	2.76%	2.79%

NOTE 5 - SUBSEQUENT EVENTS:

The Plan has evaluated subsequent events for potential recognition and disclosure through October 9, 2013, the date the financial statements were available to be issued.

During April 2012, the Company's assets were sold to a non-related third party. The Company's ESOP plan was terminated as a result. Participants were given the option to roll their ESOP account balance into the Bay Valve Service, LLC 401(k) Profit Sharing Plan. On January 11, 2013, the balances of 61 ESOP participants were rolled over into this plan, totaling $890,720.

NOTE 6 - FAIR VALUE MEASUREMENTS:

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority. Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. These inputs typically reflect a company's own assumptions about the assumptions a market participant would use in pricing the asset or liability.

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of the investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

The following table sets forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2012:

	Fair Value	Fair Value Measurements at Reporting Date Using: Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2012			
Pooled Separate Accounts:			
Bond Funds	$ 486,578	$ 486,578	$ -
Growth Funds	1,685,598	1,685,598	-
Index Funds	129,604	129,604	-
Money Market	489,016	489,016	-
Target Date	55,455	55,455	-
Value Funds	274,861	274,861	-
Insurance Company Investment Contracts	1,502,496	-	1,502,496
	$ 4,623,608	$ 3,121,112	$ 1,502,496
December 31, 2011			
Pooled Separate Accounts:			
Bond Funds	$ 416,726	$ 416,726	$ -
Growth Funds	1,388,895	1,388,895	
Index Funds	102,254	102,254	
Money Market	472,950	472,950	
Target Date	40,299	40,299	-
Value Funds	215,387	215,387	-
Insurance Company Investment Contracts	1,665,683	-	1,665,683
	$ 4,302,194	$ 2,636,511	$ 1,665,683

Level 2 - Fair Value Measurements:

Pooled separate accounts are stated at fair value as determined by observable Level 1 quoted pricing inputs or by quoted prices for similar assets in active or non-active markets. While some pooled separate accounts may have publicly quoted pricing inputs (Level 1), the account values of separate accounts are not publicly quoted and are therefore classified as Level 2 investments.

Level 3 - Fair Value Measurements:

The guaranteed investment contracts with the insurance company are not actively traded and significant observable inputs are not available. Thus, the fair value of the guaranteed investment contracts is equal to the Book Value of the contracts less any market value adjustment and contingent deferred sales charges. The following table reconciles the beginning and ending balances of fair value measurements using significant unobservable inputs (Level 3) for the investment contract with insurance company for the year ended December 31, 2012:

	Guaranteed Investment Contracts
December 31, 2012

Ending balance	$ 1,665,683
Total gains or losses for the year included in changes in net assets available for benefits attributable to the change in unrealized gains or losses relating to investments still held at the reporting date.	$ 47,720

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 31, 2012, are reported in net appreciation (depreciation) in fair value of investments.

NOTE 7 - EMPLOYER CONTRIBUTIONS:

The Company makes discretionary annual matching contributions to the Plan in cash based on the amount of participants' elective deferrals. During the year ended December 31, 2012, the Company did not make any such contributions.

NOTE 8 - TRANSACTIONS WITH PARTIES-IN-INTEREST:

The Plan's assets are held in interest bearing cash accounts, mutual funds, and bond funds with Nationwide Financial Services, Inc., who also serves as the Plan's record keeper.

NOTE 9 - TERMINATED PARTICIPANTS' ACCOUNTS:

Net assets available for benefits at December 31, 2012, include $314,171 allocated to the persons who as of that day had withdrawn from participating in the earnings and operations of the Plan (terminated participants' accounts). These balances are payable to the former participants upon their request.

NOTE 10 - INVESTMENTS:

The following presents investments that represent 5 percent or more of the Plan's net assets for the year ended December 31, 2012, December 31, 2011, or both:
