Independent Auditor's Report

To the Trustee and Plan Administrator of the
Action Logistics 401(k) Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Action Logistics 401(k) Plan ("the Plan"), which comprise the statements of net assets available for benefits of as of December 31, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2012 and the related notes to the financial statements and the accompanying supplemental schedules of Schedule H, line 4a , Schedule of Delinquent Participant Contributions and Non-Exempt Prohibited Transactions, Schedule H, line 4i-Schedule of Assets (Held at End of Year) and Schedule H, line 4j-Schedule of Reportable Transactions.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by American United Life Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of the years ended December 31, 2012 and 2011 and for the year ended December 31, 2012 that the information provided to the plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules of Schedule H, line 4a , Schedule of Delinquent Participant Contributions, Schedule H, line 4i-Schedule of Assets (Held at End of Year) and Schedule H, line 4j-Schedule of Reportable Transactions as of or for the year ended December 31, 2012 are required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purposes of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of Action Logistics 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement, as amended, and *Summary Plan Description,* which are available from the plan administrator, for a more complete description of the Plan's provisions.

General

The Plan was formed on January 1, 2009. The Plan is a defined contribution plan whereby eligible employees of Action Logistics Management, Inc., L & R of Georgia, and Action Logistics, LLC. (collectively, the "Company", "Employer" or the "Sponsor") are permitted to make contributions that are tax-deferred under Section 401(k) of the Internal Revenue Code. The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974, as amended ("ERISA") and the Internal Revenue Code ("IRC").

Eligibility

Employees who have attained the age of 18 and are full time employees are eligible to participate in elective and employer matching contributions immediately. All investments are participant-directed.

Contributions

Each year, participant contributions to the Plan on a pretax basis are subject to an annual limitation ($17,000 and $16,500 for the years ended 2012 and 2011, respectively). Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions of $5,500 per year. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the plan. The plan currently offers 19 mutual funds and an insurance investment contract as investment options for participants.

Annually, the Company may match participant contributions at a percentage determined at the discretion of the Company's board of directors. In order to qualify for the employer matching contribution, the participant must be actively employed on the last day of the Plan year and complete at least 1,000 hours of service during the Plan year. The Company may also make discretionary profit sharing contributions. During the year ended December 31, 2012 the Company made no discretionary matching or profit sharing contributions.

Participant Accounts

Each participant's account is credited with the participant's contributions and the Employer's discretionary matching contributions, discretionary profit sharing contributions, and Plan earnings and losses. Each participant's earnings are invested separately according to the individual's investment direction so that each participant's account realizes appreciation or depreciation based on related investment performance. Allocations are based on participant earnings or account balances, as defined. Plan earnings are calculated and credited to each participant's account on daily basis. An allocation of administrative and investment management fees is charged to each participant account based upon participant earnings or account balances as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

NOTE 1 - DESCRIPTION OF THE PLAN, (continued)

Vesting

Participants are immediately vested in their contributions and related earnings thereon. Vesting in the Company's matching and discretionary contributions, if any, and related earnings thereon is based on years of continuous service which occurs at a rate of 20% per year of employment after an initial vesting of 20% at the end of the second year. A participant is 100% vested after six years of credited service.

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a reasonable fixed rate commensurate with local prevailing rates as determined by the Plan trustee at the time the loan is made. Principal and interest is paid ratably through payroll deduction each payroll period. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefits may be paid under the Plan, subject to limitations and conditions imposed by the IRC, upon a participant's termination of employment, retirement, disability, death or hardship due to an immediate and heavy financial need. The Plan specifies lump sum only. Benefits are generally 100% vested upon retirement, death or disability.

Forfeited Accounts

In the event of an employee termination, the non-vested portion of the participant's account, as defined by the Plan, represents a forfeiture. Forfeitures of Employer contributions may be used to supplement employer matching contributions. Forfeitures of Employer discretionary contributions may be used to supplement non-elective contributions. At December 31, 2012 and 2011, forfeited non-vested accounts totaled $0.

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, the contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive contracts.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Sponsor to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This price, known as an exit price, is based upon market quotes of net asset values ("NAV") at year end.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recognized as income on the ex-dividend date and interest is accrued as earned. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued by unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012 and 2011. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Operating Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments. For the year ended December 31, 2012, Plan maintenance fees of $9,250 were paid by the Plan Sponsor.

Fair Value Measurements

In accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820, Fair Value Measurements and Disclosures, fair value is defined as a market-based measurement, not an entity-specific measurement. The objective of a fair value measurement is to estimate the price at which an orderly transaction to sell the asset or to transfer the liability would take place between market participants at the measurement date under current market conditions (that is, an exit price at the measurement date from the perspective of a market participant that holds the assets or owes the liability).

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (continued)

Fair Value Measurements(continued)

A fair value measurement assumes that the transaction to sell the asset or transfer the liability either occurs in the principal market (or in its absence, the most advantageous market) for the asset or liability. For some assets and liabilities, observable market transactions or market information may be available. For other assets and liabilities, observable market transactions and market information might not be available. When a price for an identical asset or liability is not observable, a reporting entity measures fair value using another valuation technique that maximizes the use of relevant observable inputs and minimizes the use of unobservable inputs. Because fair value is a market-based measurement, it is measured using the assumptions that market participants would use when pricing the asset or liability, including assumptions about risk. As a result, a reporting entity's intention to hold an asset or settle or otherwise fulfill a liability is not relevant when measuring fair value.

NOTE 3 - INVESTMENTS

The Plan's investments (including investments bought, sold, as well as those held during the year) appreciated in fair value by $17,211during the year ended December 31, 2012, which was due to the change in value of mutual funds of $17,133 and the change in the guaranteed investment account of $78. Net appreciation by investment fund type is as follows:

	Level 1	Level 2	Level 3
Level 1, Growth Funds	$ 3,102	$ -	$ -
Level 1, Index Funds	3,665	-	-
Level 1, Other Funds	3,390	-	-
Level 3, Fixed Income Funds	-	-	78
Level 2, Targeted Retirement Funds	-	6,976	-
Total	$ 10,157	$ 6,976	$ 78

The fair value of investments that individually represent 5 percent or more of the Plan's net assets at December 31 are as follows:

	2012	2011
Fidelity Adv Freedom 2025 Fund	$ -	$ 6,493
Fidelity Adv Freedom 2030 Fund	10,616	5,314
Fidelity Adv Freedom 2035 Fund	9,240	-
Fidelity Adv Freedom 2040 Fund	15,699	11,459
Fidelity Adv Levco Stock Fund	11,697	7,707
Fidelity Adv Freedom 2045 Fund	5,669	11,899
AmCent Growth Fund	26,126	16,640
SSgA S & P 500 Index Fund	23,268	17,385

NOTE 4 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. of fair value focuses on the price that would be received to sell the asset or paid to transfer the liability regardless of whether an observable liquid market price existed (an exit price). An exit price valuation will include margins for risk even if they are not observable. As the Plan is released from risk, the margins for risk will also be released through net realized capital gains (losses) in net income. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

NOTE 4 – FAIR VALUE MEASUREMENTS, (continued)

The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

(i)Quoted prices for similar assets or liabilities in active markets;

(ii)Quoted prices for identical or similar assets or liabilities in inactive markets;

(iii)Inputs other than quoted prices that are observable for the asset or liability;

(iv)Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement. Level 3 assets and liabilities measured at fair value are based on one or more of three valuation techniques:

Market approach - Prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities (including a business);

Cost approach - Amount that would be required to replace the service capacity of an assets (i.e., current replacement cost);

Income approach: Techniques that convert future amounts to a single present amount based on current market expectations about those future amounts (including present value techniques, option-pricing models, and lattice models).

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Pooled separate accounts: Valued at the quoted market value of the mutual fund shares or bond fund shares held by the Plan at year-end.

Guaranteed investment contract: Valued at contract amount.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

NOTE 4 – FAIR VALUE MEASUREMENTS, (continued)

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

Investment	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values	Weighted Average
Guaranteed Investment Contract	$2,466	Discounted Cash Flow	Earnings yield Interest Rate yield	1.00% 1.28%	1%

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan invests in various investments securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the Plan's investments and the amounts reported in the statement of net assets available for benefits and statement of changes in net assets available for benefits.

The credit and liquidity crisis in the United States and throughout the global financial systems has resulted in substantial volatility in financial markets and the banking system. These and other economic events may have caused significant volatility to the Plan's investment portfolio subsequent to year-end.

Management reviews for other than temporary decline in accordance with the requirements of fair value measurements. The Plan's investments in mutual funds consist primarily of investments in exchange-traded debt and equity securities. Within the fund balance certain individual investments may have fair values measured below cost. The severity of any impairment and the duration of any impairment correlate with current market conditions. Based upon the near-term prospects of the issuer of any of those securities in relation to the severity and duration of the impairment, and based upon the Plan's ability and intent to hold those investments for a reasonable period of time sufficient for a forecasted recovery of fair value, the Plan does not consider those investments to be other-than-temporary impaired at December 31, 2012.

The accounting and financial reporting principles currently being used by the plan which affect reported amounts, presentations, and disclosures are subject to change from time to time based on new pronouncements and/or rules issued by various standard setting bodies and government regulatory agencies. Recently-adopted pronouncements which have effective dates subsequent to December 31, 2012, are not expected to have a material effect on the plan's future financial statements. For the plan year ended December 31, 2012, the plan adopted FASB ASU 2011-04, *Fair Value Measurements and Disclosures*, and FASB ASU 2012-04, *Technical Corrections*.

Unrealized gains/(losses) from the guaranteed investment contract are not included in the statement of changes in net assets available for benefits as the contract is recorded at contract value for purposes of the net assets available for benefits.

NOTE 4 – FAIR VALUE MEASUREMENTS, (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

	Level 1	Level 2	Level 3	Fair Value

NOTE 5 – GUARANTEED INVESTMENT CONTRACT

The plan participates in a benefit-responsive guaranteed investment contract with American United Life Insurance Company ("AUL"). AUL maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for the participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is represented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the plan by AUL, represents contributions made under the contract plus earnings, less participant withdrawals and administrative expenses. Contract value equaled fair value as of December 31, 2012 and 2011. Participants may ordinarily direct the withdrawal or transfer of all or a portion of the investment at contract value.

There are no reserves for contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2012 and 2011 was $2,470 and $2,030, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 1 percent for 2012. Such interest rates are reviewed on a quarterly basis for resetting.

Funds allocated to the benefit-responsive guaranteed investment contract are placed in the AUL general account where they are invested in accordance with AUL's general account investment policy. The objective of that investment policy is to maximize long-term, risk-adjusted returns. AUL's general account assets are predominately fixed-income investments (bonds, mortgages, and private placements). The average maturity for these assets is nearly 10 years, and the average duration is between 5 and 6 years. The quality of these investments is high.

Following are some features and characteristics of the guaranteed investment contract:

(1) Interest rates are established and declared for new contributions that will be received in a calendar quarter. The rate is based on the return AUL expects on new investments made by it and held within the AUL general account, and it will always equal or exceed the contractually guaranteed rate. All contributions received during the quarter will earn that declared interest rate until the end of the calendar year next following the current year. Each quarter's contributions and the corresponding interest rate are tracked together administratively in a separate quarterly interest rate pocket (Quarterly Pocket). At the end of the calendar year next following the current year, the Quarterly Pockets established in the current year are converted to an annual interest rate pocket (Annual Pocket).

(2) At the beginning of each year, a new interest rate is established and declared for each Annual Pocket. This rate is based on past general account investments, adjusted for portfolio turnover and withdrawals for benefit payments.

(3) All benefit-responsive Plan benefit payments (as outlined in the Contract) made prior to Contract liquidation are made at book value (principal invested plus interest earned).

NOTE 5 – GUARANTEED INVESTMENT CONTRACT (continued)

(4) Depending on the provisions of your Contract, one of the following restrictions on transfers from the Fixed Option applies:

(a) A participant may transfer any amount from the Fixed Option. However, he/she may transfer funds to the Fixed Option only after 90 days have elapsed since the date of his/her last transfer from the Fixed Option.

(b) No more than 20% of the participant's Fixed Option account value as of the first day of that contract year may be transferred during that contract year (unless such Fixed Option account value is less than $2,500 on the first day of that Contract Year, in which case the participant may transfer any amount from the fixed option during that contract year).

Certain events limit the ability of the plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents, including complete or partial termination or merger with another plan), (2) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, corporate relocation, divestitures or spin-off of a subsidiary) that cause a significant withdrawal from the plan or (4) failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA (5) termination of the contract, (6) retirement incentive programs, and the liberalization of Plan withdrawal or transfer rules. AUL may terminate any contract with 30 days advance written notice to the contract owner for reasonable cause, which includes the contract owner's failure to abide by state or federal law, failure to render performance necessary to comply with the terms of the contract, failure to maintain assets at the contracted amount, Plan disqualification, and failure to adopt the Plan in a reasonable period of time. Upon termination by AUL, a market value adjustment may apply. The guaranteed investment contract does not permit the insurance contract to terminate the agreement prior to the scheduled maturity date. The plan administration does not believe that any events which would limit the plan's ability to transact at contract value with participants are probable of not occurring.

Average yields:

	2012
Based on actual earnings	1.00%
Based on interest rate credited to participants	1.28%

The Indexed Fixed Contract does not have a maturity date. In addition, the Indexed Fixed Contract's provisions do not provide for a distribution at book value at some specified future date. The Indexed Fixed Contract continues in force until all assets have been distributed, or no further payments are due. From a contractual standpoint only, this Indexed Fixed Contract qualifies as benefit sensitive under SOP 94-1-1, insofar as the contract does not restrict the frequency or amount of participant directed exchanges.

NOTE 6 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provision of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 7 - PLAN TAX STATUS

The Company has adopted a prototype defined contribution plan. In a letter dated March 31, 2008, the Internal Revenue Service ("IRS") has determined and informed the Company that the prototype plan and the related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Sponsor and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE 8 – RISKS AND UNCERTAINTIES

The Plan provides for various variable investment options in investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and statement of changes in net assets available for benefits.

NOTE 9 – RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee Plan whose members are covered by the Plan, a person who owns 50 percent or more of such an employer association or relatives of such persons.

Certain Plan investments are in funds managed by the custodian of the Plan; therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services were $2,076 for 2012.

NOTE 10 – SIGNIFICANT ESTIMATES AND CONCENTRATIONS

During and subsequent to the Plan years reported on by these financial statements, financial markets have demonstrated significant instability, which in some cases have resulted in large declines in the fair value of investments. The financial statements have been prepared using values and information currently available to the Plan.

Due to the current and ongoing instability of financial markets, the values of assets recorded in the financial statements could change rapidly, resulting in material future adjustments in investment values that could negatively impact the participant account balances and the amounts reported in the accompanying Statement of Net Assets Available for Benefits.

NOTE 11 – VESTED ACCOUNTS BELONGING TO TERMINATED PARTICIPANTS

At December 31, 2012 there were 13 participants with account balances who were no longer employees of the Plan Sponsor and no longer contributing to the Plan. The vested amount of these participant account balances was $4,410. Of this amount, $- was withdrawn by Plan participants during the first quarter of 2013.

NOTE 12 –SUBSEQUENT EVENTS

Subsequent events were evaluated by management through the date of the auditor's report, which is the date that the financial statements were available to be released. The Plan's financial statements include all events and/or transactions, including estimates, required to be recognized in accordance with accounting principles generally accepted in the United States of America. Plan administration has determined that no events subsequent to December 31, 2012 have occurred which require disclosure in these financial statements in order for the Plan's financial statements not to be misleading.

Revenue Sharing Formula:

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

Independent Auditor's Report

To the Trustee and Plan Administrator of the
Action Logistics 401(k) Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Action Logistics 401(k) Plan ("the Plan"), which comprise the statements of net assets available for benefits of as of December 31, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2012 and the related notes to the financial statements and the accompanying supplemental schedules of Schedule H, line 4a , Schedule of Delinquent Participant Contributions and Non-Exempt Prohibited Transactions, Schedule H, line 4i-Schedule of Assets (Held at End of Year) and Schedule H, line 4j-Schedule of Reportable Transactions.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by American United Life Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of the years ended December 31, 2012 and 2011 and for the year ended December 31, 2012 that the information provided to the plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules of Schedule H, line 4a , Schedule of Delinquent Participant Contributions, Schedule H, line 4i-Schedule of Assets (Held at End of Year) and Schedule H, line 4j-Schedule of Reportable Transactions as of or for the year ended December 31, 2012 are required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purposes of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of Action Logistics 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement, as amended, and *Summary Plan Description,* which are available from the plan administrator, for a more complete description of the Plan's provisions.

General

The Plan was formed on January 1, 2009. The Plan is a defined contribution plan whereby eligible employees of Action Logistics Management, Inc., L & R of Georgia, and Action Logistics, LLC. (collectively, the "Company", "Employer" or the "Sponsor") are permitted to make contributions that are tax-deferred under Section 401(k) of the Internal Revenue Code. The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974, as amended ("ERISA") and the Internal Revenue Code ("IRC").

Eligibility

Employees who have attained the age of 18 and are full time employees are eligible to participate in elective and employer matching contributions immediately. All investments are participant-directed.

Contributions

Each year, participant contributions to the Plan on a pretax basis are subject to an annual limitation ($17,000 and $16,500 for the years ended 2012 and 2011, respectively). Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions of $5,500 per year. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the plan. The plan currently offers 19 mutual funds and an insurance investment contract as investment options for participants.

Annually, the Company may match participant contributions at a percentage determined at the discretion of the Company's board of directors. In order to qualify for the employer matching contribution, the participant must be actively employed on the last day of the Plan year and complete at least 1,000 hours of service during the Plan year. The Company may also make discretionary profit sharing contributions. During the year ended December 31, 2012 the Company made no discretionary matching or profit sharing contributions.

Participant Accounts

Each participant's account is credited with the participant's contributions and the Employer's discretionary matching contributions, discretionary profit sharing contributions, and Plan earnings and losses. Each participant's earnings are invested separately according to the individual's investment direction so that each participant's account realizes appreciation or depreciation based on related investment performance. Allocations are based on participant earnings or account balances, as defined. Plan earnings are calculated and credited to each participant's account on daily basis. An allocation of administrative and investment management fees is charged to each participant account based upon participant earnings or account balances as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

NOTE 1 - DESCRIPTION OF THE PLAN, (continued)

Vesting

Participants are immediately vested in their contributions and related earnings thereon. Vesting in the Company's matching and discretionary contributions, if any, and related earnings thereon is based on years of continuous service which occurs at a rate of 20% per year of employment after an initial vesting of 20% at the end of the second year. A participant is 100% vested after six years of credited service.

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a reasonable fixed rate commensurate with local prevailing rates as determined by the Plan trustee at the time the loan is made. Principal and interest is paid ratably through payroll deduction each payroll period. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefits may be paid under the Plan, subject to limitations and conditions imposed by the IRC, upon a participant's termination of employment, retirement, disability, death or hardship due to an immediate and heavy financial need. The Plan specifies lump sum only. Benefits are generally 100% vested upon retirement, death or disability.

Forfeited Accounts

In the event of an employee termination, the non-vested portion of the participant's account, as defined by the Plan, represents a forfeiture. Forfeitures of Employer contributions may be used to supplement employer matching contributions. Forfeitures of Employer discretionary contributions may be used to supplement non-elective contributions. At December 31, 2012 and 2011, forfeited non-vested accounts totaled $0.

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, the contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive contracts.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Sponsor to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This price, known as an exit price, is based upon market quotes of net asset values ("NAV") at year end.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recognized as income on the ex-dividend date and interest is accrued as earned. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued by unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012 and 2011. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Operating Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments. For the year ended December 31, 2012, Plan maintenance fees of $9,250 were paid by the Plan Sponsor.

Fair Value Measurements

In accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820, Fair Value Measurements and Disclosures, fair value is defined as a market-based measurement, not an entity-specific measurement. The objective of a fair value measurement is to estimate the price at which an orderly transaction to sell the asset or to transfer the liability would take place between market participants at the measurement date under current market conditions (that is, an exit price at the measurement date from the perspective of a market participant that holds the assets or owes the liability).

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (continued)

Fair Value Measurements(continued)

A fair value measurement assumes that the transaction to sell the asset or transfer the liability either occurs in the principal market (or in its absence, the most advantageous market) for the asset or liability. For some assets and liabilities, observable market transactions or market information may be available. For other assets and liabilities, observable market transactions and market information might not be available. When a price for an identical asset or liability is not observable, a reporting entity measures fair value using another valuation technique that maximizes the use of relevant observable inputs and minimizes the use of unobservable inputs. Because fair value is a market-based measurement, it is measured using the assumptions that market participants would use when pricing the asset or liability, including assumptions about risk. As a result, a reporting entity's intention to hold an asset or settle or otherwise fulfill a liability is not relevant when measuring fair value.

NOTE 3 - INVESTMENTS

The Plan's investments (including investments bought, sold, as well as those held during the year) appreciated in fair value by $17,211during the year ended December 31, 2012, which was due to the change in value of mutual funds of $17,133 and the change in the guaranteed investment account of $78. Net appreciation by investment fund type is as follows:

	Level 1	Level 2	Level 3
Level 1, Growth Funds	$ 3,102	$ -	$ -
Level 1, Index Funds	3,665	-	-
Level 1, Other Funds	3,390	-	-
Level 3, Fixed Income Funds	-	-	78
Level 2, Targeted Retirement Funds	-	6,976	-
Total	$ 10,157	$ 6,976	$ 78

The fair value of investments that individually represent 5 percent or more of the Plan's net assets at December 31 are as follows:

	2012	2011
Fidelity Adv Freedom 2025 Fund	$ -	$ 6,493
Fidelity Adv Freedom 2030 Fund	10,616	5,314
Fidelity Adv Freedom 2035 Fund	9,240	-
Fidelity Adv Freedom 2040 Fund	15,699	11,459
Fidelity Adv Levco Stock Fund	11,697	7,707
Fidelity Adv Freedom 2045 Fund	5,669	11,899
AmCent Growth Fund	26,126	16,640
SSgA S & P 500 Index Fund	23,268	17,385

NOTE 4 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. of fair value focuses on the price that would be received to sell the asset or paid to transfer the liability regardless of whether an observable liquid market price existed (an exit price). An exit price valuation will include margins for risk even if they are not observable. As the Plan is released from risk, the margins for risk will also be released through net realized capital gains (losses) in net income. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

NOTE 4 – FAIR VALUE MEASUREMENTS, (continued)

The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

(i)Quoted prices for similar assets or liabilities in active markets;

(ii)Quoted prices for identical or similar assets or liabilities in inactive markets;

(iii)Inputs other than quoted prices that are observable for the asset or liability;

(iv)Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement. Level 3 assets and liabilities measured at fair value are based on one or more of three valuation techniques:

Market approach - Prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities (including a business);

Cost approach - Amount that would be required to replace the service capacity of an assets (i.e., current replacement cost);

Income approach: Techniques that convert future amounts to a single present amount based on current market expectations about those future amounts (including present value techniques, option-pricing models, and lattice models).

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Pooled separate accounts: Valued at the quoted market value of the mutual fund shares or bond fund shares held by the Plan at year-end.

Guaranteed investment contract: Valued at contract amount.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

NOTE 4 – FAIR VALUE MEASUREMENTS, (continued)

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

Investment	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values	Weighted Average
Guaranteed Investment Contract	$2,466	Discounted Cash Flow	Earnings yield Interest Rate yield	1.00% 1.28%	1%

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan invests in various investments securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the Plan's investments and the amounts reported in the statement of net assets available for benefits and statement of changes in net assets available for benefits.

The credit and liquidity crisis in the United States and throughout the global financial systems has resulted in substantial volatility in financial markets and the banking system. These and other economic events may have caused significant volatility to the Plan's investment portfolio subsequent to year-end.

Management reviews for other than temporary decline in accordance with the requirements of fair value measurements. The Plan's investments in mutual funds consist primarily of investments in exchange-traded debt and equity securities. Within the fund balance certain individual investments may have fair values measured below cost. The severity of any impairment and the duration of any impairment correlate with current market conditions. Based upon the near-term prospects of the issuer of any of those securities in relation to the severity and duration of the impairment, and based upon the Plan's ability and intent to hold those investments for a reasonable period of time sufficient for a forecasted recovery of fair value, the Plan does not consider those investments to be other-than-temporary impaired at December 31, 2012.

The accounting and financial reporting principles currently being used by the plan which affect reported amounts, presentations, and disclosures are subject to change from time to time based on new pronouncements and/or rules issued by various standard setting bodies and government regulatory agencies. Recently-adopted pronouncements which have effective dates subsequent to December 31, 2012, are not expected to have a material effect on the plan's future financial statements. For the plan year ended December 31, 2012, the plan adopted FASB ASU 2011-04, *Fair Value Measurements and Disclosures*, and FASB ASU 2012-04, *Technical Corrections*.

Unrealized gains/(losses) from the guaranteed investment contract are not included in the statement of changes in net assets available for benefits as the contract is recorded at contract value for purposes of the net assets available for benefits.

NOTE 4 – FAIR VALUE MEASUREMENTS, (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

	Level 1	Level 2	Level 3	Fair Value
Index funds	$ 23,268	$ -	$ -	$ 23,268

NOTE 5 – GUARANTEED INVESTMENT CONTRACT

The plan participates in a benefit-responsive guaranteed investment contract with American United Life Insurance Company ("AUL"). AUL maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for the participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is represented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the plan by AUL, represents contributions made under the contract plus earnings, less participant withdrawals and administrative expenses. Contract value equaled fair value as of December 31, 2012 and 2011. Participants may ordinarily direct the withdrawal or transfer of all or a portion of the investment at contract value.

There are no reserves for contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2012 and 2011 was $2,470 and $2,030, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 1 percent for 2012. Such interest rates are reviewed on a quarterly basis for resetting.

Funds allocated to the benefit-responsive guaranteed investment contract are placed in the AUL general account where they are invested in accordance with AUL's general account investment policy. The objective of that investment policy is to maximize long-term, risk-adjusted returns. AUL's general account assets are predominately fixed-income investments (bonds, mortgages, and private placements). The average maturity for these assets is nearly 10 years, and the average duration is between 5 and 6 years. The quality of these investments is high.

Following are some features and characteristics of the guaranteed investment contract:

(1) Interest rates are established and declared for new contributions that will be received in a calendar quarter. The rate is based on the return AUL expects on new investments made by it and held within the AUL general account, and it will always equal or exceed the contractually guaranteed rate. All contributions received during the quarter will earn that declared interest rate until the end of the calendar year next following the current year. Each quarter's contributions and the corresponding interest rate are tracked together administratively in a separate quarterly interest rate pocket (Quarterly Pocket). At the end of the calendar year next following the current year, the Quarterly Pockets established in the current year are converted to an annual interest rate pocket (Annual Pocket).

(2) At the beginning of each year, a new interest rate is established and declared for each Annual Pocket. This rate is based on past general account investments, adjusted for portfolio turnover and withdrawals for benefit payments.

(3) All benefit-responsive Plan benefit payments (as outlined in the Contract) made prior to Contract liquidation are made at book value (principal invested plus interest earned).

NOTE 5 – GUARANTEED INVESTMENT CONTRACT (continued)

(4) Depending on the provisions of your Contract, one of the following restrictions on transfers from the Fixed Option applies:

(a) A participant may transfer any amount from the Fixed Option. However, he/she may transfer funds to the Fixed Option only after 90 days have elapsed since the date of his/her last transfer from the Fixed Option.

(b) No more than 20% of the participant's Fixed Option account value as of the first day of that contract year may be transferred during that contract year (unless such Fixed Option account value is less than $2,500 on the first day of that Contract Year, in which case the participant may transfer any amount from the fixed option during that contract year).

Certain events limit the ability of the plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents, including complete or partial termination or merger with another plan), (2) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, corporate relocation, divestitures or spin-off of a subsidiary) that cause a significant withdrawal from the plan or (4) failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA (5) termination of the contract, (6) retirement incentive programs, and the liberalization of Plan withdrawal or transfer rules. AUL may terminate any contract with 30 days advance written notice to the contract owner for reasonable cause, which includes the contract owner's failure to abide by state or federal law, failure to render performance necessary to comply with the terms of the contract, failure to maintain assets at the contracted amount, Plan disqualification, and failure to adopt the Plan in a reasonable period of time. Upon termination by AUL, a market value adjustment may apply. The guaranteed investment contract does not permit the insurance contract to terminate the agreement prior to the scheduled maturity date. The plan administration does not believe that any events which would limit the plan's ability to transact at contract value with participants are probable of not occurring.

Average yields:

	2012
Based on actual earnings	1.00%
Based on interest rate credited to participants	1.28%

The Indexed Fixed Contract does not have a maturity date. In addition, the Indexed Fixed Contract's provisions do not provide for a distribution at book value at some specified future date. The Indexed Fixed Contract continues in force until all assets have been distributed, or no further payments are due. From a contractual standpoint only, this Indexed Fixed Contract qualifies as benefit sensitive under SOP 94-1-1, insofar as the contract does not restrict the frequency or amount of participant directed exchanges.

NOTE 6 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provision of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 7 - PLAN TAX STATUS

The Company has adopted a prototype defined contribution plan. In a letter dated March 31, 2008, the Internal Revenue Service ("IRS") has determined and informed the Company that the prototype plan and the related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Sponsor and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE 8 – RISKS AND UNCERTAINTIES

The Plan provides for various variable investment options in investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and statement of changes in net assets available for benefits.

NOTE 9 – RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee Plan whose members are covered by the Plan, a person who owns 50 percent or more of such an employer association or relatives of such persons.

Certain Plan investments are in funds managed by the custodian of the Plan; therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services were $2,076 for 2012.

NOTE 10 – SIGNIFICANT ESTIMATES AND CONCENTRATIONS

During and subsequent to the Plan years reported on by these financial statements, financial markets have demonstrated significant instability, which in some cases have resulted in large declines in the fair value of investments. The financial statements have been prepared using values and information currently available to the Plan.

Due to the current and ongoing instability of financial markets, the values of assets recorded in the financial statements could change rapidly, resulting in material future adjustments in investment values that could negatively impact the participant account balances and the amounts reported in the accompanying Statement of Net Assets Available for Benefits.

NOTE 11 – VESTED ACCOUNTS BELONGING TO TERMINATED PARTICIPANTS

At December 31, 2012 there were 13 participants with account balances who were no longer employees of the Plan Sponsor and no longer contributing to the Plan. The vested amount of these participant account balances was $4,410. Of this amount, $- was withdrawn by Plan participants during the first quarter of 2013.

NOTE 12 –SUBSEQUENT EVENTS

Subsequent events were evaluated by management through the date of the auditor's report, which is the date that the financial statements were available to be released. The Plan's financial statements include all events and/or transactions, including estimates, required to be recognized in accordance with accounting principles generally accepted in the United States of America. Plan administration has determined that no events subsequent to December 31, 2012 have occurred which require disclosure in these financial statements in order for the Plan's financial statements not to be misleading.
