Camden Clark Medical Center 403 (b) Plan

NOTES TO FINANCIAL STATEMENTS

December 31, 2012 and 2011

NOTE A - DESCRIPTION OF THE PLAN

The following description of the Camden Clark Medical Center (the "Hospital") 403(b) Plan (the "Plan"), formerly the Camden Clark Medical Center Savings PLUS Plan, provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General – The Hospital established the Plan to provide employees with a systematic means of savings and investing for the future. All permissible employees of the Hospital, as defined in accordance with the universal availability standards and per the plan document, are eligible to enroll on their date of hire. Deferrals begin on the first day of the month subsequent to enrollment. The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions – Each year, participants may contribute compensation, as defined in the plan document, subject to Internal Revenue Code ("IRC") limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans and certain individual retirement accounts. Prior to July 1, 2012, the Hospital contributed 25% of the first 4% of base compensation that a participant contributed to the Plan. Effective July 1, 2012, the Plan was amended and the Hospital matches 100% of participant elective deferrals that do not exceed 2% of base compensation, plus 25% of participant elective deferrals that exceed 2% of base compensation but that do not exceed 6% of base compensation, for a maximum matching contribution of 3% of base compensation. Contributions are subject to certain limitations.

Investment Options – Participants direct the investment of their accounts into various investment options offered by the Plan. The Plan currently offers mutual funds, a stable value fund and a money market fund as investment options for participants.

Participant Accounts – Each participant's account is credited with the participant's contribution, employer matching contribution, and allocation of Plan earnings, and charged with benefit payments, transaction fees related to notes receivable from participants and distributions, and allocations of administrative expenses and Plan losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Hospital's contribution portion of their accounts plus actual earnings thereon is based on years of service. A participant is 100% vested after three years of credited service.

NOTES TO FINANCIAL STATEMENTS *(Continued)*

Notes Receivable From Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the plan administrator. At December 31, 2012, outstanding loans bore interest rates ranging from 4.25% to 9.25%. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits – On termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Amounts contributed on a before-tax basis may be withdrawn only upon demonstration of financial hardship, disability, or after the participant reaches the age of 59 ½ years.

Forfeitures – At December 31, 2012 and 2011 forfeited non-vested accounts totaled $13,856 and $121,717, respectively. These accounts will be used to pay administrative expenses or to reduce employer contributions. During 2012, forfeitures of $177,259 were used to reduce Hospital contributions.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition – The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for discussion of fair value measurements.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attributable for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contract as well as the adjustment to the fully benefit-responsive investment contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

NOTES TO FINANCIAL STATEMENTS *(Continued)*

Purchases and sales of securities are recorded on a trade-date basis. Interest income on notes receivable from participants is recorded when received. Other interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits – Benefit payments to participants are recorded upon distribution.

Administrative Expenses – The Plan's administrative expenses are paid by either the Plan or the Hospital, as provided by the plan document. Certain administrative functions are performed by the employees of the Hospital. No such employee receives compensation from the Plan. Expenses related to specific participant transactions (participant loans and distributions) are charged directly to the participant's account.

Transfers – During 2012, transfers from another 403(b) plan to the Plan were $10,338.

Subsequent Events – The Plan has evaluated subsequent events through September 20, 2013, the date the financial statements were available to be issued.

NOTE C - UNAUDITED INFORMATION CERTIFIED BY TRUSTEE

The accompanying financial statements include the following unaudited information as of December 31, 2012 and 2011, and for the year ended December 31, 2012, that was obtained from data prepared and certified to be complete and accurate by the Plan's trustee:

NOTE D - INVESTMENTS

The following table presents investments that represent more than 5% of the Plan's net assets at December 31:

	2012	2011
Federated Cap Appreciation Class A	**$ 1,460,519**	$ 1,200,654
Federated Total Return Bond Fund	**$ 5,603,351**	$ 4,893,323
American Funds Growth Fund of America R4	**$ 2,518,475**	$ 2,043,990

PIMCO Total Return Fund Institutional Class	**$ 3,212,592**	$ 1,901,686

Thornburg Value Fund	**$ 2,217,061**	**$** 1,952,197

During 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $1,483,498, all of which was attributable to mutual funds.

NOTE E - FAIR VALUE MEASUREMENTS

Fair value is an exit price, representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Assets and liabilities are classified under a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

- Level 1: Observable inputs such as quoted prices in active markets.
- Level 2: Inputs other than quoted prices in active markets that are either directly or indirectly observable.
- Level 3: Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

When quoted prices are available in active markets for identical instruments, investment securities are classified within Level 1 of the fair value hierarchy. Level 1 investments include mutual funds.

NOTES TO FINANCIAL STATEMENTS *(Continued)*

Level 2 investments include a money market fund that is valued using $1 for the Net Asset Value ("NAV").

Level 3 investments include the guaranteed investment contract ("GIC"). These investments are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Since the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. Due to the significant unobservable inputs included in the valuation model for the GIC, the resulting fair value of this security is classified as level 3. Disclosure of unobservable inputs to the fair value measurement has not been included for the GIC because quantitative unobservable inputs are not developed by the Plan when measuring fair value and have not been made available to the Plan by the insurance company.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets accounted for at fair value on a recurring basis as of December 31, 2012 and 2011:

	Fair Value as of December 31, 2012			
	Level 1	**Level 2**	**Level 3**	**Fair Value**
Mutual funds				
Equity funds	**$ 12,688,877**	**$ -**	**$ -**	**$ 12,688,877**
Fixed income funds	**10,953,623**	**-**	**-**	**10,953,623**
Money market funds*	**-**	**1**	**-**	**1**
Guaranteed investment contract**	**-**	**-**	**1,233,358**	**1,233,358**
Total investments	**$ 23,642,500**	**$ 1**	**$ 1,233,358**	**$ 24,875,859**

	Fair Value as of December 31, 2011			
	Level 1	Level 2	Level 3	Fair Value
Mutual funds				
Equity funds	$ 10,202,318	$ -	$ -	$ 10,202,318
Fixed income funds	8,415,890	-	-	8,415,890
Money market funds*	-	566,556	-	566,556
Total investments	$ 18,618,208	$ 566,556	$ -	$ 19,184,764

*Money market funds seek preservation of capital as well as to pay money market interest rates. There are no unfunded commitments, redemption frequency restrictions, or other redemption restrictions.

**Represents a guaranteed investment contract with an investment strategy of maintaining a competitive fixed interest and a minimum guaranteed rate of return. There are no unfunded commitments or redemption frequency restrictions. If the Plan offers a competing fund,

direct transfers between competition funds are not permitted and to amounts transferred, a non-competing fund must stay in the non-competing fund for at least 3 months. See Note F.

The following table illustrates the activity of Level 3 assets measured at fair value on a recurring basis from December 31, 2011 to December 31, 2012:

	Investment Contracts
Fair value at December 31, 2011	$ -
Interest	22,493
Change in adjustment from contract value to fair value	123,411
Purchases	1,756,543
Sales	(669,089)
Fair value at December 31, 2012	$ 1,233,358

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE F - INVESTMENT CONTRACT WITH INSURANCE COMPANY

In 2012, the Plan entered into a fully benefit-responsive GIC with Standard Insurance Company. Standard Insurance Company maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The GIC issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note B, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by the Standard Insurance Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events may limit the ability of the Plan to transact at contract value with the issuer. Such events include termination of the contract, spin-offs, diverstitures, layoffs, corporate relocation, partial or total Plan termination, retirement incentive programs, and the liberalization of Plan withdrawal or transfer rules. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan’s ability to transact at contract value with participants, is probable.

NOTES TO FINANCIAL STATEMENTS *(Continued)*

The GIC does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than one percent. Such interest rates are reviewed on an quarterly basis for resetting.

The average yield and crediting interest rate to the Plan during 2012 was 2.57% and 2.40%, respectively.

NOTE G - EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain investments of the Plan are various funds managed by Schwab Investments, an entity related to the Charles Schwab Trust Company, the trustee of the Plan. Such investment transactions, therefore, qualify as party-in-interest transactions.

The Hospital pays certain administrative expenses on behalf of the Plan, including legal and accounting fees. Other administrative services are provided by the Hospital at no cost to the Plan. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund. Fees paid by the Plan to the trustee or its affiliates for administrative services and investment holding period fees were $149,946 for the year ended December 31, 2012.

NOTE H - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 % vested in their accounts.

NOTE I - INCOME TAX STATUS

The Plan terms has been drafted in reliance on the sample language provided by the Internal Revenue Service in Revenue Procedure 2007-71. The Plan administrator intends to apply for a determination letter on the Plan when the government opens such program. The Plan is required to operate in conformity with the IRC to maintain its tax exemption. Plan management believes the Plan is currently designed and operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income tax has been included in the Plan’s financial statements.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax

periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE J - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.
