S.R. Perrott, Inc. Employee Savings & Protection Plan

Notes to Financial Statements

December 31, 2012

1. Description of Plan

The following description of S.R. Perrott, Inc. Employee Savings & Protection Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of S.R. Perrott, Inc. (the Company) who have six months of service and are age 20 1/2 or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The effective date of participation in the Plan for an eligible employee is the first day of the Plan year next following the date on which eligibility requirements are satisfied.

Contributions

Each year, participants may contribute pretax annual compensation, as defined in the Plan, limited by the provisions of the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to make "catch-up" contributions as allowed by the provisions of the IRC. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of contributions into various investment options offered by the Plan. During the year ended December 31, 2012, the Company matched 50 percent of the first 4 percent of compensation that a participant contributed to the Plan. The matching Company contribution is vested directly into the investment option selected by the Participant. The Company may make annual discretionary matching contributions and/or profit sharing contributions to the Plan to the extent allowable by the Internal Revenue Code (IRC). The Company did not make an additional discretionary matching contribution or profit sharing contribution for the year ended December 31, 2012.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings (losses). Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Description of Plan (continued)

Vesting

Participants are immediately fully vested in their contributions plus the actual earnings thereon. Vesting in the Company's match, discretionary contributions and earnings thereon is based on years of continuous service. A participant becomes 20 percent vested after two years of service, 20 percent more each year thereafter until fully vested after six years of service.

Participant Loans

Participants may borrow from their fund accounts up to value of their account balances. The loans must be a minimum of $1,000 are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

On termination of service, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, substantially equal installments, or monthly annuity payments.

Forfeited Accounts

At December 31, 2012, forfeited nonvested accounts totaled 10,660. These accounts will be used to pay administrative expenses of the Plan and reduce future employer contributions.

2. Summary of Significant Accounting Policies

Date of Management's Review

Subsequent events were evaluated through September 26, 2013, which is the date the financial statements were available to be issued.

Use of Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosure. Accordingly, actual results could differ from those estimates.

2. Summary of Significant Accounting Policies (continued)

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attributed for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

All expenses of maintaining the Plan are paid by the Company.

3. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

3. Fair Value Measurements (continued)

December 31, 2012	Fair Value	Fair Value Measurements Using: Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Unobservable Inputs (Level 3)
Guaranteed interest account	$ 123,292	$ 123,292	$ —
Investments of interest in registered investments companies	2,615,793	2,615,793	—
Participant loans	168,974	—	168,974
Total	$ 2,908,059	$ 2,739,085	$ 168,974
December 31, 2011			
Guaranteed interest account	$ 100,243	$ 100,243	$ —
Investments of interest in registered investments companies	2,394,600	2,394,600	—
Participant loans	225,014	—	225,014
Total	$ 2,719,857	$ 2,494,843	$ 225,014

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assts and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

3. Fair Value Measurements (continued)

Level 1 Fair Value Measurements

The fair value of the guaranteed interest account is based on quotes net asset values of the shares held by the Plan at year-end. The fair values of investments of interest in registered investments companies are based on the closing price reported on the active market where the individual securities are traded.

Level 3 Fair Value Measurements

The fair value of the participant loans approximates the amortized cost of the loans because the loans are secured by each respective participant's account balance. The following table provides further detail of the Level 3 fair value measurements.

Fair Value Measurements Using Significant Unobservable Inputs (Level 3)

December 31, 2012	**Participant Loans**
Beginning balance	$ 225,014
Total gains or losses (realized or unrealized) included in changes in net assets available for benefits	
Purchases, sales, issuances and settlements (net)	(56,040)
Ending balance	$ 168,974

December 31, 2011	
Beginning balance	$ 211,508
Total gains or losses (realized or unrealized) included in changes in net assets available for benefits	
Purchases, sales, issuances and settlements (net)	13,506
Ending balance	$ 225,014

3. Fair Value Measurements (continued)

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 31, 2012 are reported in net appreciation in fair value of investments.

4. Information Prepared and Certified by the Custodian (Unaudited)

Nationwide Trust Company, FSB, the custodian for the Plan, holds the Plan's investment assets and executes transactions therein. The following information as well as the information in the supplemental schedule of assets (held at end of year) was certified by the custodian as complete and accurate and, as directed by the Plan administrator, is unaudited. Such investments and other related information consists of the following at December 31:

	2012
Investments	$ 2,739,085
Net appreciation in fair value of investments	$ 293,115
Interest	$ 8,362

5. Investments

The following presents investments that represent 5 percent or more of the Plan's net assets at December 31:

	2012
Nationwide Life Ins Company:	
AMFDS GR FD AM R3	$ 466,650
AMFDS CAP INC BLDR R3	239,072
NW INV DEST MOD AGGR C	141,441
FIDELITY ADV FREEDM 2010	381,100
FRANKLIN INCOME FD	139,941

6. Related Party Transactions

Certain investments are managed by Nationwide Financial Services, Inc. which is the parent of Nationwide Trust Company, FSB. Nationwide Trust Company, FSB is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Certain plan expenses, such as auditing and accounting, are paid by the Plan's participating employer. These payments are considered related party transactions since the plan received services from the plan sponsor and no accounting recognition is made. However, these transactions are not prohibited transactions under ERISA.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become 100 percent vested in their employer contributions.

8. Tax Status

The Company adopted the Nationwide Financial Prototype Non-standardized Profit Sharing Plan with a cash or deferred arrangement. The prototype plan sponsor obtained a favorable opinion letter from the Internal Revenue Service dated August 7, 2001, which stated that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan administrator has adopted all Plan provisions within the prototype document and believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
