We have been informed by the plan administrator that the Trustee holds the Plan's investment assets and executes investment transactions. NOTE 1. PLAN DESCRIPTION

The following description of the Los Angeles Dependency Lawyers, Inc. 401(k) Plan (the "Plan") provides only general information. Participants and other interested parties should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees, as defined by the Plan, who have been employed for at least one month by Los Angeles Dependency Lawyers, Inc. (the "Organization" and the "Plan Sponsor") and are at least 18 years of age. To be eligible for the Organization's matching and profit sharing contributions, employees must complete six months and one year of service, respectively. Effective December 31, 2012, the Plan was amended to change eligibility to six months of service for all contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute up to 100 percent of their pretax compensation as defined by the Plan and subject to Internal Revenue Code ("IRC") limitations. Participants may also contribute amounts representing distributions from other eligible retirement plans, as defined in the Plan.

The Organization made discretionary matching contributions of 100 percent of the first three percent deferred by a participant and 50 percent of any additional deferral up to five percent of compensation. The Organization made matching contributions of $227,656 for the year ended December 31, 2012. The Organization may also make discretionary profit sharing contributions. Participants must complete 1,000 hours of service during the Plan year and be employed on the last day of the Plan year in order to be eligible for Organization discretionary profit sharing contributions. The Organization did not make a discretionary profit sharing contribution for the year ended December 31, 2012. The Organization was also required to make a contribution of $59,495 to correct an operational error as determined by the IRS (see Note 4) which has been accrued as of December 31, 2012.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Organization's contributions portion of their accounts is based on years of service. Participants are vested in Organization contributions at 25 percent after one year of service and an additional 25 percent each year thereafter until 100 percent vested upon four years of service. While still employed by the Organization, if a participant becomes disabled, dies or reaches normal retirement age, the participant becomes 100 percent vested.

Forfeitures

Forfeitures of Organization contributions may first be used to pay Plan administrative expenses and then to reduce Organization contributions. During the year ended December 31, 2012, $6,137 of forfeitures were utilized to pay Plan administrative expenses. As of December 31, 2012, there were $1,427 of forfeitures available for future use.

NOTE 1. PLAN DESCRIPTION (Continued)

Payment of Benefits

On termination of service for any reason, a participant or their beneficiaries, as applicable, may receive a lump-sum amount equal to the value of the participant's vested interest in his or her account in accordance with the Plan.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Organization's contribution and Plan earnings, and charged with any withdrawals or distributions requested by the participant, investment losses and allocation of administrative expenses, if any. Allocations are based on participant earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America, primarily from data provided by Charles Schwab Bank (the "Trustee").

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Administrative Expenses

Administrative expenses incidental to the administration of the Plan, including fees of the Trustee and independent public accountants may be paid by the Plan. Expenses not paid by the Organization are paid by the Plan.

Most investment options have fees which reduce the overall return on assets. The net appreciation of investments is reflected net of these fees.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Accounting principles generally accepted in the United States of America require that the amount representing the difference between the fair value of a fully benefit-responsive investment contract and the contract value be presented on the face of the statements of net assets available for plan benefits. As of December 31, 2012 and 2011, the difference between the contract value and fair value of the Morley Stable Value Fund is immaterial to the financial statements and therefore no adjustments have been made to the accompanying statements of net assets available for plan benefits.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition (Continued)

Investments are valued daily. Interest income is recorded on an accrual basis. Dividend income is included in net appreciation of investments.

Concentration of Risk

The Plan's investments have exposure to risk to the extent that the investments are subject to market and interest rate fluctuations that may materially affect the value of the investment balances.

Benefits Payable to Participants

Benefits are recorded when paid.

Fair Value

The Plan accounts for its financial instruments using a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value measurement hierarchy is based on three levels of inputs, of which the first two are considered observable and the last unobservable. The three levels of the fair value hierarchy are the following:

- Level 1 – Inputs to the valuation methodology that are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 – Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are inactive; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3 – Inputs to the valuation that are unobservable and significant to the fair value measurement.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual Funds and Unit Investment Trusts – This category consists of publicly traded funds of registered investment companies. The net asset value of the fund's shares is quoted on the exchange where the fund is actively traded and therefore classified as Level 1 within the valuation hierarchy.

Cash and Equivalents – Cash and equivalents are at par and valued at fair value and therefore classified as Level 1 within the valuation hierarchy.

Common Stocks – Common stock is valued at the closing price reported on the active market on which the individual securities are traded and therefore classified as Level 1 within the valuation hierarchy.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fair Value (Continued)

Collective Investment Trust – The fair value of conventional investment contracts in the Morley Stable Value Fund, held in a collective investment trust, is determined using a discounted cash flow methodology where the individual contract cash flows are discounted at the prevailing interpolated yield curve rate as of year-end. Individual assets of the synthetic investment contract are generally valued at representative quoted market prices. Short-term securities, if any, are stated at amortized cost, which approximates market value. Debt securities are valued on the basis of valuations furnished by a pricing service which determines valuations using methods based on market transactions for comparable securities and various relationships between securities which are generally recognized by institutional traders. The collective investment trust is not a publicly-quoted price in an active market and therefore is classified as Level 2 within the valuation hierarchy.

The primary investment objective of the Morley Stable Value Fund is to seek the preservation of capital, relatively stable returns consistent with its comparatively low risk profile, and liquidity for benefit-responsive payments. The Morley Stable Value Fund, held in a collective investment trust, does not have any unfunded commitments relating to its investments, or any significant restrictions on redemptions. Participant-directed redemptions can be made on any business day and do not have a redemption notice period.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31:

The Plan permits participants to utilize a self-directed brokerage feature. As of December 31, 2012, the earnings and losses by type of investments in this account are immaterial to the accompanying financial statements taken as a whole.

NOTE 4. FEDERAL INCOME TAX STATUS

The Organization adopted a volume submitter plan which is the subject of a favorable tax opinion letter from the IRS dated March 31, 2008. The Organization believes that the Plan currently is being operated in compliance with the applicable requirements of the IRC and, therefore, believes the Plan is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions. The 2010 Plan year was audited by the IRS and it was determined that the initial Plan effective January 1, 2007 was not adopted timely and that Organization matching contributions were not correctly calculated for the Plan years 2009, 2010, and 2011 and therefore was not in compliance with Code section 401(a)(1). On March 18, 2013, the Organization and the IRS entered into a signed closing agreement in which the IRS concluded that it will treat the Plan as if it had been adopted timely and was in compliance with Code section 401(a)(1). As part of the agreement, the Organization funded an additional Organization contribution of $53,917 with lost earnings of $5,578 which has been accrued as of December 31, 2012.

NOTE 5. PARTY-IN-INTEREST TRANSACTIONS

The Trustee of the Plan holds the Plan's investments. Transactions with the Trustee qualify as party-in-interest transactions for which exemptions exist. In addition, the Plan utilizes a recordkeeper that received direct and indirect compensation of $3,573 and $3,098, respectively, and an investment advisor, Central Pacific Bank, that received direct compensation of $11,865.

NOTE 6. PLAN TERMINATION

The Organization has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their Organization contributions.

NOTE 7. FINANCIAL DATA CERTIFIED BY THE TRUSTEE

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information was certified by the Trustee and was not subjected to any auditing procedures performed by the independent public accountants:

a. Participant-directed investments as shown in the accompanying statements of net assets available for plan benefits of $3,484,093 as of December 31, 2012 and $2,592,918 as of December 31, 2011.

b. Net appreciation of investments of $338,007 and interest income on investments of $731 as shown in the accompanying statement of changes in net assets available for plan benefits for the year ended December 31, 2012.

c. Participant-directed investments as of December 31, 2012 as shown in the accompanying Schedule of Assets (Held at End of Year).

NOTE 8. PARTICIPANT LOANS

Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 reduced by the highest outstanding loan balance during the previous 12 months, or 50 percent of their vested account balance. The loans are stated at the unpaid principal amount, secured by the balance in the participant's account and bear interest at rates that range from 4.25 percent to 5.25 percent. Principal and interest are paid ratably through payroll deductions.

NOTE 9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for plan benefits per the financial statements to the Form 5500 as of December 31, 2012:

Net assets available for plan benefits per the financial statements	$ 3,656,078

Participants' contributions receivable	(34,808)
Corrective distributions	11,850
Net assets available for plan benefits per the Form 5500	$ 3,555,610

NOTE 10. SUBSEQUENT EVENTS

The Organization has evaluated subsequent events through October 9, 2013, which is the date that the financial statements were available to be issued, and determined that there were no subsequent events or transactions that required recognition or disclosure in the financial statements, except as noted below.

Effective January 1, 2013, the Plan was amended to permit participants to make Roth deferrals and to include a Company safe harbor matching contribution of 100 percent of the first three percent deferred by a participant and 50 percent of any additional deferral up to five percent of compensation.
