1. Description of Plan

The following description of the Ulster Savings Bank 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of Ulster Savings Bank (the "Bank"). There are no age or service requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan has evaluated subsequent events for recognition or disclosure through October 2, 2013, the date the financial statements were available to be issued.

Contributions

Each year, participants may contribute up to 100% of pre-tax annual compensation, as defined by the Plan document, up to the maximum limits of the Internal Revenue Code ("IRC"). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. As of October 1, 2012, the Bank matches 100% of the first ten percent of a participant's contribution to the Plan. Previously, the Bank matched 100% of the first three percent and 50% of the next three percent of a participant's contribution to the Plan. Participants direct the investment of all contributions into various investment options offered by the Plan. The Bank, at its discretion, may make an annual contribution during any Plan year depending on performance of the Bank. Employees are eligible to receive their full allocation of the discretionary contribution if they are employed on the last day of the Plan year, or upon death, disability, or retirement. The Bank's discretionary contributions are allocated to each eligible participant in the proportion that the participant's compensation bears to the compensation paid to all participants eligible to receive an allocation. The Board of Trustees approved and paid a discretionary contribution in the amount of $-0- for 2012 and $227,038 for 2011.

Participant Accounts

Each participant's account is credited with the participant's contributions and an allocation of (a) the Bank's contributions, (b) Plan earnings, and (c) forfeitures of employer contributions, and charged with an allocation of administrative expenses and Plan losses. Allocations are based on participant earnings, deferrals or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Bank's contribution is based on years of continuous service. A participant's account becomes 20% vested upon completion of two years of service, with an additional 20% vesting each succeeding year, until a participant becomes 100% vested after six years of service. Upon death, retirement, or disability, employees will be 100% vested in Bank contributions.

If a participant terminates employment with the Bank and is subsequently re-employed by the Bank, they are entitled to a credit for vesting purposes for prior years of service, provided that all consecutive one- year breaks in service do not equal or exceed the greater of five years or the number of prior years of service.

Notes Receivable from Participants

Participants may borrow up to a maximum loan amount equal to the lesser of 50% of their vested participant account balance, or $50,000, less the highest outstanding loan balance under the Plan during the preceding year.

The term of the loan may not exceed five years, but may be longer if used to purchase or build a principal residence. The interest rate is the prime rate, rounded to the nearest quarter of 1%, as published in the Wall Street Journal on the first day of the month in which the employee requests the loan.

At December 31, 2012 and 2011, there were loans outstanding of $899,676 and $1,016,132, respectively, at interest rates ranging from 3.25% to 8.50% and payable over one to five years.

Principal and interest is paid ratably through bi-weekly payroll deductions.

Payment of Benefits

On termination of service due to death, disability, retirement or other reasons, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in their account. In addition, the Plan allows for hardship distributions if certain criteria are met.

Forfeitures

At December 31, 2012 and 2011, forfeited non-vested accounts totaled $28,842 and $79,346. In 2012 and 2011, forfeitures of $82,267 and $25,381 were used to reduce the Bank's matching contribution.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a Guaranteed Investment Contract. The Statements of Net Assets Available for Benefits presents the fair value of the Guaranteed Investment Contract as well as the adjustment of the fully benefit-responsive contract from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are recorded as a distribution based upon the terms of the Plan document.

Administration of Plan Assets

The Plan's assets are administered under a contract with Massachusetts Mutual Life Insurance Company, the custodian of the Plan. The custodian invests funds received from contributions, investment sales, interest, and dividend income and makes distribution payments to participants. Certain administrative expenses of maintaining the Plan are paid by the Bank.

Payment of Benefits

Benefits are recorded when paid.

3. Fair Value Measurements

The Plan measures its investments at fair value on a recurring basis in accordance with accounting principles generally accepted in the United States of America. The framework that the authoritative guidance establishes for measuring fair value includes a hierarchy used to classify the inputs used in measuring fair value. The hierarchy prioritizes the inputs used in determining valuations into three levels. The level in the fair value hierarchy within which the fair value measurement falls is determined based on the lowest level input that is significant to the fair value measurement. The levels of the fair value hierarchy are as follows:

Level 1 - Fair value is based on unadjusted quoted prices in active markets that are accessible to the Plan for identical assets. These generally provide the most reliable evidence and are used to measure fair value whenever available.

Level 2 - Fair value is based on significant inputs, other than Level 1 inputs, that are observable either directly or indirectly for substantially the full term of the asset through corroboration with observable market data. Level 2 inputs include quoted market prices in active markets for similar assets or liabilities, quoted market prices in inactive markets for identical or similar assets, and other observable inputs.

Level 3 - Fair value would be based on significant unobservable inputs. Examples of valuation methodologies that would result in Level 3 classification include option pricing models discounted cash flows, and similar techniques.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011:

Mutual funds are valued at the quoted net asset value ("NAV") of shares held by the Plan at year end, and are considered Level 1 inputs.

The fair values of participation units held in collective trusts are based on their NAV, as reported by the managers of the collective trusts and as supported by the unit prices of actual purchase and sale transactions occurring as of or close to the financial statement date. These are considered Level 2 inputs. Each collective trust provides for daily redemptions by the Plan with no advance notice requirements, and has redemption prices that are determined by the fund's net asset value per unit.

The fair value of the Plan's investment contract is estimated based upon the liquidation value of the contract, under the contract's withdrawal provisions, since the contract, by its terms is not transferable. These are considered Level 3 inputs.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

4. Investments

The following presents investments that represent 5% or more of the Plan's net assets available for benefits as of December 31, 2012 and 2011:

	2012	2011
Mass Mutual Guaranteed Investment Contract (Contract values: 2012 $11,268,349; 2011 $11,456,782)	**$ 13,364,262**	$ 13,163,155

Total Return Fund (PIMCO)	**4,066,839**	3,530,999
Eaton Vance Large Cap Growth Fund	**2,044,224**	1,780,654

During 2012 and 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

	2012	2011
Mutual funds	**$ 1,464,769**	$ (741,375)
Common collective trusts	**167,701**	(13,660)
	$ 1,632,470	$ (755,035)

5. Related Party Transactions

Certain of the Plan's investments are managed by the custodian, and therefore, these transactions qualify as party-in-interest transactions. Additionally, the Plan issues loans to participants, which are secured by the participant's account balances. These transactions qualify as party-in-interest transactions.

Certain administrative functions of the Plan are performed by officers or employees of the Bank. No such officer or employee receives compensation from the Plan.

6. Plan Termination

Although it has not expressed any intent to do so, the Bank has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their Bank contributions.

7. Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Bank by a letter dated May 11, 2009, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is exempt.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2012, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2009.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the fair values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

9. Investment Contract with Insurance Company

The Plan holds a fully benefit-responsive investment contract with Massachusetts Mutual Life Insurance Company ("Issuer"). The Issuer maintains the contributions in its general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. There are no reserves against contract value for credit risk of the Issuer or otherwise.

The Plan's investment contract specifies certain conditions under which distributions from the contract would be payable at amounts below contract value. Such circumstances include Plan termination, Plan merger, premature contract termination initiated by the Bank, and certain other Bank-initiated events that result in distributions exceeding a set amount. The contract limits the circumstances under which the Issuer may terminate the contract.

The crediting interest rate of the contract is based on an agreed-upon formula with the Issuer, as defined in the contract agreement, but cannot be less than 2.85%. Such interest rates are reviewed on a semi- annual basis for resetting. The key factors that influence future interest crediting rates could include the following: the level of market interest rates; the amount and timing of participant contributions, transfers and withdrawals into/out of the contract; and the duration of the underlying investments backing the contract. The resulting gain or loss in the fair value of the investment contract relative to its contract value, if any, is reflected in the Statements of Net Assets Available for Benefits as an adjustment from fair value to contract value for fully benefit-responsive investment contracts.

	2012	2011
Average yields:		
Based on annualized earnings [1]	2.53 %	2.55 %
Based on interest rate credited to participants [2]	2.53 %	2.55 %

[1] Computed by dividing the annualized one-day actual earnings of the contract on the last day of the Plan year by the fair value of the contract investments on the same date.

[2] Computed by dividing the annualized one-day earnings credited to participants on the last day of the Plan year by the fair value of the contract investments on the same date.

10. Information Certified by Custodian

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2012 and 2011. Accordingly, Massachusetts Mutual Life Insurance Company, the custodian of the Plan, has certified to the completeness and accuracy of all investments reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2012 and 2011 and the supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2012, and the related investment activity reported in the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2012 and 2011. This information has not been audited by independent auditors.

11. Reconciliation of Financial Statements to Form 5500

12. Delinquent Participant Contributions

For the year ended December 31, 2012, the Bank did not remit certain participant contributions to the Plan on a timely basis as defined by the Department of Labor's Rules and Regulations for Reporting and Delinquent Participant Contributions Disclosure under ERISA. Untimely remittances are identified on the Schedule of Delinquent Participant Contributions, which totaled $2,724 for the year ended December 31, 2012. The Bank has compensated participants for lost earnings resulting from the delay in contributions.
