NOTE 1. DESCRIPTION OF THE PLAN

The following description of the Alpha Thought 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more comprehensive description of the Plan's provisions.

General

The Plan is a defined contribution plan with a 401(k) provision covering all employees of Physician Support Systems, Inc. (the "Company"). The Plan and the Trust of which it is a part are intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (IRC) and similar state tax laws. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

Employees of the Company who have reached 21 years of age and have completed six months of service are eligible to participate in salary deferrals and the discretionary profit sharing contributions of the Company on entrance dates consisting of the first day of each quarter.

Contributions

Each year, participants may contribute pre-tax compensation up to the lesser of the Federal Statutory limit or 100% of the participant's annual compensation, subject to certain limitations, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined-benefit or contribution plans (rollovers).

The Company, through an annual board of directors' resolution, may contribute to the Plan the following amounts: the total amount of the salary reduction a participant elected to defer, a discretionary matching contribution equal to a uniform percentage of the amount of salary reduction a participant elected to defer, which percentage is determined every year and a discretionary profit sharing contribution.

A participant must complete a year of service during the Plan year and be actively employed on the last day of the Plan year to share in the matching and profit sharing contributions, respectively. The Company did not make any matching or profit sharing contributions for the years ended December 31, 2012 and 2011, respectively.

NOTE 1. DESCRIPTION OF THE PLAN (continued)

Participants' Investment Options

Participants must direct their salary deferral contributions to selected investments as made available and determined by the Plan Administrator. Participants may change their investment options at any time.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) Plan earnings or losses, and charged with an allocation of administrative expenses. Allocations are based on compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions, plus actual earnings thereon. Vesting in the Company's discretionary matching contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service. Participants become 100% vested if employment is terminated due to death, disability or retirement.

Forfeitures

Non-vested portions of a terminated participant's account are retained in the Plan and used to reduce administrative expenses. If additional forfeitures remain after reducing administrative expenses, they can be used to reduce future Company contributions. Unallocated forfeitures at December 31, 2012 and 2011 were $1,236 and $0, respectively.

Payment of Benefits

Upon retirement, termination of service, disability or death, a participant or his/her beneficiary will receive a lump-sum payment equal to the value of the vested interest in his/her account. The Plan's provisions also provide for withdrawals in the event of financial hardship, as defined by the Plan.

NOTE 1. DESCRIPTION OF THE PLAN (continued)

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 and a maximum equal to the lesser of $50,000 or 50% of their account balance. Loan transactions are treated as a transfer to or from the investment fund and from or to the participant's loan fund. Loan terms shall not exceed five years unless the loan is used to purchase a principal residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan Administrator. The Plan is charging interest on the loans at rates between 4.25% and 6.50% at December 31, 2012. Principal and interest are paid through bi-weekly payroll deductions. The loans mature at various dates through November 2017.

NOTE 2. SUMMARY OF SIGNIFICANT ACOCUNITNG POLICIES

Basis of Accounting

The plan's financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

NOTE 2. SUMMARY OF SIGNIFICANT ACOCUNITNG POLICIES (continued)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchase and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gain and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012 or 2011. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefit payments are recorded when paid.

Administrative Fees

Substantially all of the expenses incurred in the administration of the Plan are charged to, and paid by, the Plan. The Plan administrator does absorb certain expenses of the Plan.

Date of Management's Review

The Plan has evaluated subsequent events through September 17, 2013, the date the financial statements were available to be issued.

NOTE 3. INCOME TAX STATUS

Application for an Internal Revenue Service Determination Letter for the Plan has not been made by the Company. However, because the Plan is an adoption, albeit a standardized adoption, of a prototype plan that is the subject of a favorable Determination Letter, the Plan Sponsor believes the Plan's design complies with applicable laws and regulations.

NOTE 3. INCOME TAX STATUS (continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability or asset if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 4. INFORMATION CERTIFIED BY THE PLAN CUSTODIAN

Other than the fair value of the guaranteed investment contract and the related adjustment from fair value to contract value for fully benefit-responsive investment contracts, certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2012 and 2011, and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2012, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Capital Bank & Trust Company (the custodian of the Plan). The contract value of the stable value fund was certified by the custodian.

NOTE 6. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, Fair *Value Measurements and Disclosures*, provides framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

NOTE 6. FAIR VALUE MEASUREMENTS (continued)

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the asset or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2012 and 2011.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

NOTE 6. FAIR VALUE MEASUREMENTS (continued)

Collective trust fund: investment in common collective trust fund includes the Stable Value Trust (SVT). It is valued at the net asset value (NAV) of units of a bank collective trust. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011, respectively.

December 31, 2012	Fair Value	Level 1	Level 2	Level 3

NOTE 6. FAIR VALUE MEASUREMENTS (continued)

December 31, 2012	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Invesco Stable Value Fund	$ 234,657	N/A	Daily	30 days

December 31, 2011	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Invesco Stable Value Fund	$ 299,347	N/A	Daily	30 days

The Plan's valuation methodology used to measure the fair values of Company stock and mutual funds were derived from quoted market prices, as these instruments have active markets. The valuation techniques used to measure fair value of common/collective trust funds are included in Note 6 and participant loans are included in Note 2.

NOTE 7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 8. PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in shares of American Funds mutual funds. Capital Bank and Trust Company acts as custodian for those investments as defined by the Plan. In addition, American Funds is considered a party-in-interest as defined by ERISA section 3(14)(G). These investments had total market values of $1,705,892 and $1,537,137 at December 31, 2012 and 2011, respectively. Transactions in such investments qualify as party-in-interest transactions which are allowable under Section 408(b)(8) of ERISA and the regulations promulgated thereunder.

NOTE 9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 10. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2012 and 2011:

	2012	2011
Net assets available for benefits per the financial statements	$ 1,974,326	$ 1,852,377
Adjustment from contract value to fair value for fully benefit - responsive investment contracts	8,275	9,016
Net assets available for benefits per Form 5500	$ 1,982,601	$ 1,861,393

The following is a reconciliation of the net increase in net assets available for benefits per the financial statements to the Form 5500 for the year ended December 31, 2012:

Net increase in net assets available for benefits per the financial statements	$ 121,949
Change in adjustment from contract value to fair value for fully benefit-responsive investment contracts	(741)
Net income per Form 5500	$ 121,208

Fully benefit-responsive investment contracts are valued at contract value on the statement of net assets available for benefits, whereas the Form 5500 requires all investments to be valued at fair value.
