A. DESCRIPTION OF PLAN

The following description of Lusardi Construction Co. (the "Company") 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Amendment

Since January 1, 1997, the Company has maintained the Lusardi 401(k) Plan for the benefit of its employees. Effective October 1, 2010, the Company amended the Plan by adopting a 401(k) prototype Plan sponsored by Principal Financial Group. The Plan has been amended to comply with new retirement Plan regulations.

General

The Plan is a prototype defined contribution plan covering all full-time employees of the Company who gave 500 hours of service and are eighteen or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year participants may contribute up to 50% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution Plans. The Company did not match any contributions for 2012 and 2011. Contributions are subject to certain limitations. Participants direct the investment of all contributions into various investment options offered by the Plan.

Participant Accounts

Each participant's account is credited with the participant's contributions and Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credit services.

Investment Options

Upon enrollment in the Plan, a participant directs the investment of their employee contributions and their employer matching contribution into one or more selected registered investment companies. The investments were held by Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company, a member of the Principal Financial Group, the trustee of the Plan. Participants may change their investment options at anytime by telephone or internet.

A. DESCRIPTION OF PLAN (CONTINUED)

Participant Notes Receivable

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund and from (to) the participant notes fund. Loan terms range to a maximum of ten (10) years. The loans are secured by the balance in the participant's account and bear interest at prime rate. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability or attaining normal retirement, a participant will receive a lump-sum amount equal to the value of the participant's account. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. A participant may elect to have their benefits paid directly to them or have the benefits directly rolled over to another qualified retirement plan or an individual retirement account.

Forfeited Accounts

At December 31, 2012 and 2011, forfeited non-vested accounts totaled $1,264 and $0, respectively. These accounts will be used to reduce future employer contributions.

B. SUMMARY OF SIGNIFICANT POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attributed for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Management's Review

Subsequent events have been evaluated through October 3, 2013, which is the date the financial statements were available to be issued.

B. SUMMARY OF SIGNIFICANT POLICIES (CONTINUED)

Investment Valuations and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note I for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Except for loan origination fees and loan recordkeeping expenses associated with notes receivable from participants, all administrative expenses to maintain the plan are paid by the company.

C. INVESTMENTS

The following presents investments that represent five percent or more of the Plan's net assets at December 31:

	2012	2011
Prin LGCAP S&P 500 Idx R5 Fund	$ -	$ 895,362
MFS Value R2 Fund	$ 1,143,686	$ 994,530
PIMCO Total Return a Fund	$ 2,077,759	$ 1,379,572
Janus Forty S Fund	$ 1,660,545	$ 1,230,900
American Funds Growth FD of AM R3 Fund	$ 1,867,428	$ 1,713,077
Prin Fixed Inc Guar Option	$ 2,119,907	$ 1,985,755
Prin Lifetime 2020 R% Fund	$ -	$ 817,129

During 2012 and 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) increased by $1,843,847 and declined in value by $660,348 from mutual funds, respectively.

D. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

E. INVESTMENT INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The following information included in the attached financial statements and supplemental schedule was obtained from the data that has been obtained and certified to as complete and accurate by the Plan trustee:

	2012	2011
Investments at fair value	$ 16,930,479	$ 14,857,931
Participants notes receivable	$ 508,882	$ 523,063
Investment gain	$ 2,038,957	$ (403,613)
Participants' contribution	$ 458,569	$ 564,184
Benefits paid to participants	$ 422,489	$ 1,358,642

F. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

G. TAX STATUS

The IRS has determined and informed the Company by a letter dated March 26, 1999, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

U.S. GAAP require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS, The plan is subject to routine audits by taxing jurisdiction; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examination for years prior to 2008.

H. RELATED PARTY TRANSACTION

Certain plan investments are shares of mutual funds managed by Principal Financial Group. Principal Financial Group is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $2,919 and $2,361 for the years ended, December 31, 2012 and 2011, respectively.

I. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provide the framework for measuring the fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets
- quoted prices for identical or similar assets or liabilities in inactive markets
- inputs other than quoted prices that are observable for the asset or liability
- inputs that are derived principally from or corroborated by observable market data by correlation or other means
- If the asset or liability has specified (contractual) term, the level 2 input must be observable for substantially the full term of the assets or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level with the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Common stocks, corporate bonds and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (see Note J).

I. FAIR VALUE MEASUREMENTS (CONTINUED)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011.

Assets at fair value as of December 31, 2012:

	Level 1	Level 2	Level 3	Total
Mutual Funds:

I. FAIR VALUE MEASUREMENTS (CONTINUED)

Level 3 Gains and Losses:

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31.

Guaranteed Investment Contract

	2012	2011
Balance, beginning of year	$ 1,886,467	$ 2,610,877
Realized gain/(losses)	30,810	-
Unrealized gain/(losses) relating to instruments still held at the reporting date	(6,707)	38,126
Purchases, sales, issuances and settlements (net)	103,342	(762,535)
Balance, end of year	$ 2,013,912	$ 1,886,468
The amount of total gain or losses for the period included in changes in net assets attributable to the change in unrealized gains or losses relating to assets still held at the reporting date	$ 24,103	$ 38,126

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation in fair value of investments in the Statements of Changes in Net Assets Available for Benefits.

J. GUARANTEED INVESTMENT CONTRACT WITH PRINCIPAL LIFE INSURANCE COMPANY

In 2009, the Plan entered into a benefit responsive guaranteed investment contract with Principal Life Insurance Company. Principal maintains the contributions in the general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Principal, represents contributions made under contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

J. GUARANTEED INVESTMENT CONTRACT WITH PRINCIPAL LIFE INSURANCE COMPANY (CONTINUED)

There are no reserves against the contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at, December 31, 2012 and 2011was $2,013,912 and $1,886,467, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 2.45%. Such interest rates are reviewed on a six months basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following:

1. Amendments to the plan documents (including complete or partial plan termination or merger with another plan)
2. Changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions
3. Bankruptcy of the Plan sponsor or other Plan sponsor events that cause a significant withdrawal from the Plan
4. Failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA.

The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average yields:	2012	2011
Based on actual earnings	2.53%	2.31%
Based on interest rate credited to participants	2.53%	2.31%
