Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to information summarized in Note 6, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of and for the period ended December 31, 2012, that the information provided to the Plan administrator by the trustee is complete and accurate.

Bell Supply 401(k) Plan

Notes to Financial Statements

December 31, 2012

Note 1 - Description of Plan

The following description of the Bell Supply 401(k) Plan (the "Plan") provides only general information. Participants should refer to the *Plan Document* for a more complete description of the Plan's provisions.

General

The Plan, established on March 1, 2012, is a defined contribution plan covering all employees of BSC Administration, LLC (the "Company") subject to certain restrictions for participation eligibility as defined in the *Plan Document*. The Company adopted the safe harbor provisions of the Internal Revenue Code ("IRC").

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Plan trustee

Fidelity Management Trust Company (the "Trustee" or "Fidelity") is the trustee of the Plan and holds all Plan assets in a trust account. The duties of the trustees are to receive contributions and to invest and reinvest the trust assets of the Plan.

Eligibility and service

The Plan's eligibility requirement allows participation upon three months of service and employees attaining 21 years of age.

Contributions

The Plan provides for voluntary pre-tax and after-tax participant contributions expressed as a percentage of the participant's eligible compensation, as defined, up to 75% of a participant's compensation. The contributions are not to exceed the limits set by the IRC. Eligible participants may also make catch-up contributions upon attaining 50 years of age, as defined.

The Plan provides for mandatory safe harbor matching contributions to all participants in an amount equal to 100% of the participant's elective deferrals up to a maximum of 4% of the participant's compensation for the Plan Year.

Participant accounts

Each participant's account is credited with the participant's contribution, the Company's contribution, rollover contribution, Plan earnings or losses, and administrative expenses.

Participants direct the investment of their account balances in any of several investment options. Participants can change their investment options among the various investment funds either through direct transfers from one fund to another or by changing the percentage of future contributions allocated among the investment funds.

Note 1 - Description of Plan (Continued)

Vesting

Participants are immediately vested in their voluntary contributions, rollover contributions and the Company's safe harbor contributions made to the Plan and actual earnings thereon.

Benefit payments

Benefits are payable from participant account balances, subject to certain restrictions, upon termination of employment, retirement, reaching the age of 59½ or by incurring a disability or hardship, as defined by the Plan. In the case of death, distributions are made to the participant's beneficiary.

Distributions may be made in a lump-sum payment or in a single sum distribution of a portion of the vested balance. If the value of the participant's account balance is less than $1,000, the payment will be made in cash in a single lump-sum. If the participant's account balance is between $1,000 and $5,000 and the participant does not affirmatively consent to receive a distribution, the balance will be rolled into an individual retirement account established on behalf of the participant. Any taxable distribution paid directly to the participant will be subject to mandatory federal income tax withholding of 20% of the requested distribution.

Notes receivable from participants

Participants are permitted to borrow funds from the Plan subject to a minimum of $500 up to a maximum amount equal to the lesser of 50% of their non-forfeiture account balance or $50,000. Note terms range from one to five years, unless such note is for the purchase of the participant's primary residence, in which case the Plan administrator may permit a longer repayment term. Principal and interest are paid ratably through payroll deductions and not less frequently than quarterly. A participant may have up to three notes outstanding at any time, provided that only one note with an initial term greater than five years may be outstanding at any time and no more than two notes within a calendar year may be outstanding. Participant notes bear terms as deemed appropriate by the Plan administrator subject to certain provisions of the Plan.

Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the net assets would be allocated among the participants of the Plan in accordance with the provisions of the Plan.

Note 2 - Summary of Significant Accounting Policies

Basis of accounting

The financial statements of the Plan are presented on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles ("GAAP"). Participant withdrawals are recorded when paid.

Note 2 - Summary of Significant Accounting Policies (Continued)

Investment valuation and income recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The common/collective trust fund is primarily invested in investment contracts deemed to be fully benefit-responsive and is reported at fair value in the statements of net assets available for benefits. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Unrealized appreciation or depreciation in the fair values of investments held at year-end is determined using the fair value at the beginning of the year or the purchase price if the investment is acquired during the year. The realized gain or loss on the sale of investments is determined using historical cost. Upon the sale of an investment, the current year unrealized appreciation or depreciation is adjusted for unrealized gains and losses recognized in prior years. Unrealized appreciation or depreciation along with realized gains and losses are reported as net appreciation or depreciation in fair value of investments in the statement of changes in net assets available for benefits.

Financial instruments and credit risk

Financial instruments which potentially subject the Plan to credit risk include investments in mutual funds and a common/collective trust. Investments are exposed to various risks, such as interest rate, market volatility and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statement of net assets available for benefits. Plan participants bear the risk of any investment losses.

Administrative expenses

The Company pays certain administrative expenses of the Plan. Any expenses not paid by the Company are paid by the Plan through the reduction of assets.

Use of estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Note 3 - Fair Value Measurements

The Plan uses a three-level hierarchy, in accordance with the fair value standard, that establishes a hierarchy for grouping assets and liabilities, based on the significance of inputs. The hierarchy of fair value measurements is described below:

- Level 1 - quoted prices in active markets for identical assets or liabilities;
- Level 2 - inputs other than level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of these assets or liabilities; or
- Level 3 - unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

- Mutual funds - These investments are valued daily using quoted market prices.
- Common/collective trust - The investment is valued daily at the net asset value of shares or units held by the Plan based on the quoted market value of the underlying assets.

  The Wells Fargo Stable Value Fund - Class M invests in investment contracts issued by financial companies including Guaranteed Investment Contracts ("GICs"), Separate Account GICs, and Security Backed Investment Contracts. GICs are issued by insurance companies which guarantee the return of principal and a stated rate of interest. Separate Account GICs are GICs issued by an insurance company and are maintained within a separate account. GICs are backed by the general account of the insurance company while the Separate Account GICs are backed by a segregated pool of assets. Security Backed Investment Contracts are comprised of two components: investment contracts issued by a financial institution and underlying portfolios of fixed income securities (i.e. bonds) whose market prices fluctuate. The fund objective is to seek safety of principal and consistency of returns while attempting to maintain minimal volatility. The risk is that the issuer will default on its obligation under the contract or the contract will lapse before a replacement contract with favorable terms can be secured. The investment contracts purchased by the fund permit the fund to account for the fixed income securities at book value (principal plus interest accrued to date). Through the use of book value accounting, there is no immediate recognition of investment gains and losses on the fund's securities. Instead, gains and losses are recognized over time by periodically adjusting the interest rate credited to the fund under the contracts. The contracts provide for the payment of certain withdrawals and exchanges at book value during the terms of the contracts. In order to maintain the contract issuers' promise to pay such withdrawals and exchanges at book value, the contracts subject the fund and its participants to certain restrictions.

Note 3 - Fair Value Measurements (Continued)

For example, withdrawals prompted by certain events (e.g., layoffs, early retirement windows, spin-offs, sale of a division, facility closings, plan terminations, partial plan terminations, changes in laws or regulations) may be paid at the market value of the fund's securities, which may be less than the book value balance. Certain investment options offered by the Plan (e.g., short term bond funds and certain asset allocation/lifecycle funds) may be deemed by the contract issuers to "compete" with this fund. The terms of the contracts prohibit fund holders from making a direct exchange from this fund to such competing funds. Instead, fund holders must first exchange to a non-competing fund for 90 days. This investment has no unfunded commitments. The common/collective trust is fully-benefit responsive.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the valuation methods are considered appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's investments measured at fair value are as follows as of December 31, 2012:

	Level 1	Level 2	Level 3	Total

Note 4 - Income Tax Status

The prototype plan adopted by the Company received its latest opinion letter dated March 31, 2008, in which the Internal Revenue Service (the "IRS") stated that the Plan, as then designed, was in compliance with applicable requirements of the IRC. The Plan has not been amended since receiving the opinion letter. The Plan administrator believes that the Plan and related trust are currently designed and being operated in compliance with applicable requirements of the IRC. Therefore, the Plan administrator believes that the Plan was qualified, and the related trust was tax-exempt as of December 31, 2012. Accordingly, no provision for income taxes has been included in the Plan's financial statements.

Note 4 - Income Tax Status (Continued)

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

For the 2012 Plan year, the financial information included in the Plan's financial statements and Schedule H, line 4i, except for contributions, benefits paid to participants, and administrative expenses, has been derived from information certified as complete and accurate by the Trustee, in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 7 - Party-In-Interest Transactions

Certain Plan investments are units in investment funds offered and managed by Fidelity, thus these transactions qualify as party-in-interest transactions.

Note 8 - Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of the net increase in net assets available for benefits per the financial statements to net income per Form 5500 as of December 31, 2012:
