(1) Description of the Plan

The following description of the Mosaic Pension Plan for Salaried and Non-Union Hourly Employees (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

Effective January 1, 1998, the Plan was amended to allow participants to freeze their service accruals under the Plan and begin participating in the Mosaic Investment Plan. For participants who chose this option, their benefit at retirement is based on credited service through December 31, 1997, and the participant's age and final average pay at retirement. Employees hired on or after January 1, 1998 are not eligible to participate in the Plan.

Effective March 31, 2003, the Plan was amended to provide that no participant will accrue any further benefits under the Plan after March 31, 2003. All participants who elected or were deemed to have elected prior to January 1, 1998 to remain in the Plan had their credited service and pay frozen as of March 31, 2003. All participants who elected prior to January 1, 1998 to participate in the Mosaic Investment Plan had their pay frozen as of March 31, 2003 (their credited service was frozen as of December 31, 1997). Vesting service for purposes of eligibility for the terminated vested benefit and early retirement benefit will continue to accrue until the participant's termination or retirement, as required by law. The age of each participant as of the date he or she elects to commence his or her pension benefit will continue to be used to determine the applicable early commencement factors for both terminated vested and early retirement benefits and lump-sum factors, also required by law.

(a) General

The Plan is a noncontributory, defined-benefit pension plan covering substantially all salaried and nonunion hourly employees of Mosaic Global Holdings Inc. and Mosaic Fertilizer LLC (collectively, the Company) who were hired prior to January 1, 1998. The Plan was established to provide retirement income for the benefit of salaried and nonunion hourly employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Effective January 1, 2006, the Plan was renamed the Mosaic Pension Plan for Salaried and Non-Union Hourly Employees.

(b) Pension Benefits

Eligible employees became participants in the Plan on the date of hire. A participant's pension rights become vested when the participant completes 5 years of service or reaches age 65. Normal retirement age under the Plan is age 65. Participants become eligible for early retirement at or after age 55 with 10 or more years of service. Early retirement benefits for salaried employees are reduced 4% per year for commencement of pension benefits before age 62.

The retirement benefits for employees are calculated using a formula based upon the participant's final average salary (average salary during the highest paid 5 consecutive calendar years out of the participant's last 10 years of service), years of credited service, and the final average salary in excess

of "covered compensation" (the 35-year average of the Social Security wage base). The normal form of pension is a life annuity for an unmarried participant and a 50% joint and survivor annuity for a married participant. Other forms of pension available include a 10-year term certain annuity, a 75% joint and survivor annuity, and a 100% joint and survivor annuity. Employees may elect to receive their benefits in a lump-sum distribution.

Former participants of the FMI Employee Retirement Plan (merged into the Plan on January 1, 1999); the Retirement Plan for Non-Union Hourly Employees of IMC Global Operations, Inc. (merged into the Plan on January 1, 1999); and the Retirement Plan for Hourly Employees of IMC Fertilizer, Inc. represented by Local No. 4-786 Oil, Chemical, and Atomic Workers International Union (merged into the Plan on April 16, 1992) are eligible for benefits as detailed in the applicable plan documents in effect prior to the respective mergers.

(c) Funding Policy

Contributions to the Plan by the Company for the funding of current and past service cost of benefits are determined by the Plan's actuary and are within the funding standards of ERISA. The Company has met the minimum funding requirements in 2012 and 2011.

While the Company has not expressed any intent to discontinue its contributions, it is free to do so at any time, subject to the provisions of ERISA. Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

(2) Summary of Significant Accounting Policies

(a) Investment Valuation and Income Recognition

The Plan's beneficial interest in The Mosaic Company Defined Benefit Plan Master Trust (Master Trust) is stated at fair value as described in note 4.

Purchases and sales of securities are accounted for on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest from investments is recorded on the accrual basis.

Net income or loss from the Master Trust is allocated monthly to each participating plan based on the ratio of each plan's equity to the total equity of all participating plans prior to the allocations.

(b) Recent Accounting Pronouncements

In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update No. 2011-04, *Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS*, which is intended to

create consistency between U.S. GAAP and International Financial Reporting (IFRS). The amendments include clarification on the application of certain existing fair value measurement guidance and expanded disclosures for fair value measurements that are estimated using significant unobservable (Level 3) inputs. The Plan adopted the provisions of the standard for the year ended December 31, 2012. The adoption of this standard did not have a material effect on the Plan's financial statements.

(c) Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

(d) Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are the estimated future payments that are attributable under the Plan's provisions for service rendered by the participants to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants or their beneficiaries, (b) beneficiaries of participants who have died, and (c) present participants or their beneficiaries.

(e) Benefits

Benefit payments are recorded when paid.

(f) Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

(g) Administrative Expenses

The Company pays certain administrative expenses of the Plan.

(3) Interest in Master Trust and Trustees Certifications

The plan administrator has obtained a certification from Russell Trust Company, the trustee of the Plan, as of and for the years ended December 31, 2012 and 2011, respectively, that the information provided below to the plan administrator by the trustee is complete and accurate.

The Plan's investments are held in the Master Trust. The Plan's investments in the Master Trust are stated at the Plan's equity in the net assets of the Master Trust at December 31, 2012 and 2011. The Plan held a 52.9% and 53.6% interest in the Master Trust at December 31, 2012 and 2011, respectively. Administrative and investment expenses relating to the Master Trust are allocated to the individual plans based upon the ratio invested by each plan at the time the expense is paid.

The net assets of the Master Trust for the years ended December 31 are as follows:

		2012	2011

(4) Fair Value Measurements

FASB Accounting Standards Codification Topic 820, *Fair Value Measurements* (ASC Topic 820), defines fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities required to be recorded at fair value, the Plan considers the principal or most advantageous market in which it would transact and considers assumptions that market participants would use when pricing the asset or liability, such as inherent risk, transfer restrictions, and risk of nonperformance.

ASC Topic 820 also establishes a fair value hierarchy that requires the Plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. ASC Topic 820 established three levels of inputs that may be used to measure fair value:

- Level 1: quoted prices in active markets for identical assets or liabilities;
- Level 2: inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or
- Level 3: unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Investments are stated at fair value. The common/collective trust funds are stated at net asset value (NAV), as determined by the fund managers, and generally have daily liquidity. NAV is based on the fair value of the underlying investments held by the fund, less liabilities, and divided by the units outstanding. Partnership and limited liability company interests are stated primarily at the independently audited NAV of the underlying fund, which approximates fair value. These interests have liquidity restrictions based on the nature of the underlying investments.

Investments Measured at Fair Value on a Recurring Basis

Master Trust investments measured at fair value on a recurring basis consisted of the following as of December 31, 2012 and 2011 (Levels 1, 2, and 3 inputs are defined above):

	Fair value measurements at December 31, 2012

There were no transfers between Levels 1 and 2 during the years ended December 31, 2012 and 2011.

The table below sets forth a summary of changes in the fair value of the Master Trust's Level 3 investments for the years ended December 31, 2012 and 2011.

	Common collective trust funds – real estate	Partnership and limited liability company interests

* $1,034,157 approximates the net unrealized gains included in the net increase in net assets available for benefits for assets held as of December 31, 2012

(5) Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits is the estimated amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by participants to reflect the time value of money (through discounts or interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

At December 31, 2011, the actuarial present value of accumulated plan benefits was as follows:

Vested benefits:	
Participants currently receiving payments	$ 91,411,533
Other participants	86,879,193
Total vested benefits	178,290,726
Nonvested benefits	1,093,189
Total actuarial present value of accumulated plan benefits	$ 179,383,915

(Continued)

The changes in the actuarial present value of accumulated plan benefits for the period January 1, 2011 to December 31, 2011 were as follows:

Actuarial present value of accumulated plan benefits as of the beginning of the period	$	185,636,362
Benefits paid		(14,419,861)
Increase due to passage of time		11,873,074
Other changes		(3,705,660)
Actuarial present value of accumulated plan benefits as of the end of the period	$	179,383,915

Other changes within the above table primarily relate to changes in actuarial assumptions from the prior period to the current period presented. The more significant assumptions underlying the actuarial computations for the Plan are as follows:

Interest rate	6.80%
Assumed retirement age	Probability scale extending from age 55 (5% probability of retirement) through age 70 (100% probability of retirement)
Mortality	2012 Static Mortality Table for Annuitants and Non-Annuitants per Section 1.430(h)(3)-1(e)

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

(6) Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS), dated September 8, 2010, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (IRC), and therefore, the related trust is exempt from taxation. The Plan has been amended since receiving the determination letter. However, the plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt.

(Continued)

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

(7) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan, subject to the provisions of ERISA. In such event, all benefits become fully vested and nonforfeitable.

(8) Risks and Uncertainties

The Plan invests in various investment securities through the Master Trust. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in their near term could materially affect the amounts reported and disclosed in the financial statements.

(9) Subsequent Events

The Plan has evaluated subsequent events from the statements of net assets available for benefits date through October 10, 2013, the date at which the financial statements were available to be issued, and determined there are no other items to disclose.

Interest Rates for Minimum Funding Purposes	Based on segment rates with no lookback (as of January 2012), each adjusted as needed to fall within the 25-year average interest rate corridor under MAP-21
1st Segment Rate	5.54%
2nd Segment Rate	6.85%
3rd Segment Rate	7.52%
Interest Rates for Maximum Tax Purposes	Based on segment rates with no lookback (as of January 2012), without regard to the MAP-21 interest rate corridor
1st Segment Rate	1.98%
2nd Segment Rate	5.07%
3rd Segment Rate	6.19%
Cash Balance Interest Crediting Rate	6.00%
Cash Balance Annuity Conversion Rate	Not applicable
Optional Payment Form Election Percentage	80% elect a lump sum 20% elect a life annuity Terminated vested participants who do not elect a lump sum immediately upon termination are assumed to elect a life annuity.
Optional Payment Form Conversion Interest Rate	Same as funding interest rates above for lump sums
Optional Payment Form Conversion Mortality	Current IRC section 417(e) table for lump sums
Retirement Age	
Active Participants	See Table 1
Terminated Vested Participants	Age 60
Mortality Rates	
Healthy and Disabled	2012 static mortality table for annuitants and non-annuitants per §1.430(h)(3)-1(e)
Withdrawal Rates	See Table 2
Disability Rates	None

Decrement Timing	Middle of year decrements, with 100% retirement occurring at beginning of year
Surviving Spouse Benefit	It is assumed that 90% of males and 90% of females have an eligible spouse, and that males are three years older than their spouses.
Benefit Limits	Projected benefits are limited by the current IRC section 415 maximum benefit of $200,000.
Valuation of Plan Assets	Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.
