Plan Description

The following description of the Sanese Services, Inc. (the Company) Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all permanent employees of the Company who have three months of service, are age 21 or older and are not members of a collective bargaining unit, leased employees or spot labor associates. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective February 13, 2013 the Plan was terminated by the Company. See the Plan Termination and Subsequent Events footnote for additional information.

Contributions

Each year, participants may contribute up to 50% of pretax annual compensation, as defined in the Plan agreement, subject to annual limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. The Company may make a discretionary matching contribution equal to the uniform percentage of the amount of salary that the participant has elected to defer. This percentage will be determined on an annual basis. Additional amounts may be contributed at the option of the Company's Board of Directors. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, (b) Plan earnings, and (c) administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Plan Description (continued)

Vesting

Participants are immediately vested in their contributions plus earnings thereon. Vesting in the remainder of their account balance is based on continuous years of vesting service and is based on the following vesting schedule:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Exceptions to the above vesting schedule under the Plan are (a) participants who have attained the age of 59½ regardless of years of service are fully vested, (b) participants who have attained age 55 that have completed at least five years of service are fully vested and (c) participants who die or become disabled are fully vested.

Investment Options

A participant may direct contributions in any of investment funds offered by the Plan. Participants may change their investment options at any time.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 and a maximum amount equal to the lesser of \$50,000 or 50% of their vested account balance. Notes must be repaid within five years unless the note is granted to allow the participant to purchase his or her personal residence. Notes are secured by the balance in the participant's account and bear interest at a rate of 1% over the prime rate published in the Wall Street Journal on the first business day of the month before the note is originated. The interest rate on participant notes ranges from 4.25% to 6.00% as of December 31, 2012. Principal and interest are paid ratably through payroll deductions.

Plan Description (continued)

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or monthly, quarterly, semi-annual or annual installments over a period that does not exceed 15 years. Distributions may commence immediately or be deferred until age 70½. For termination of service due to other reasons, a participant may receive the value of the interest in his or her account as a lump-sum distribution.

Forfeitures

At December 31, 2012 and 2011, there was \$638 and \$373 of participant forfeitures, respectively. At December 31, 2012 and 2011, non-allocated forfeitures totaled \$4,527 and \$3,888, respectively. These accounts are used to restore previously forfeited participant's accounts or are used to pay any administrative expenses of the Plan. Any remaining forfeitures will be used to reduce the employer matching contributions or will be treated as employer discretionary contributions. During the years ended December 31, 2012 and 2011 there were no such uses of the non-allocated forfeitures accounts.

Payment of Expenses

The Plan sponsor pays the majority of the Plan's expenses. Certain custodial and investment manager fees are paid by the Plan. Expenses paid by the Plan totaled \$5,760 and \$12,356, for the years ended December 31, 2012 and 2011, respectively.

Summary of Significant Accounting Principles

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Summary of Significant Accounting Principles (continued)

Accounting Pronouncement to be Adopted

In May 2011, FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards* (IFRS) (ASU 2011-04). ASU 2011-04 amended Accounting Standard Codification (ASC) 820, *Fair Value Measurements and Disclosures*, to provide a consistent definition of fair value and improve the comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with U.S. GAAP and IFRSs. Some the amendments clarify the application of existing fair value measurement and disclosure requirements, while other amendments change a particular principle or requirement for measuring fair value or disclosing information about fair value measurements. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Fair Value Measurements footnote for discussion of fair value measurements.

Net appreciation/(depreciation) in fair value of investments is reflected in the Statement of Changes in Net Assets Available for Benefits and includes realized gains and losses on investments bought and sold and the change in appreciation/(depreciation) from one period to the next. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Notes to Financial Statements

December 31, 2012 and 2011

Fair Value Measurements

ASC 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011:

Mutual Funds: Valued at the net asset value (NAV) of shares held by the Plan at year-end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

WesBanco outsources custodial services to Great-West Life (Great-West) & Annuity Insurance Company and recordkeeping services to FASCore. Notes to Financial Statements

December 31, 2012 and 2011

Tax Status

Effective August 1, 2009, the Plan adopted a Non-Standardized 401(k) Adoption Agreement under the Retirement Plan Services Company of America Defined Contribution Prototype Plan and Trust Basic Plan Document #01, which received a favorable opinion letter from the Internal Revenue Service on March 31, 2008. The opinion letter stated that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the opinion letter. However, the Plan administrator and the Plan's tax counsel believe the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for year prior to 2008.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying Statements of Net Assets Available for Benefits.

Recent market conditions have resulted in an unusually high degree of volatility and increased the risks and short-term liquidity associated with certain investments held by the Plan, which could impact the value of investments after the date of these financial statements.

Plan Termination and Subsequent Events

Management made the decision in the fourth quarter of 2012 to sell the Company and to subsequently terminate the Plan effective February 13, 2013. Each participant's account became fully vested at that point. Participants are able to request a direct lump sum payment or the Plan can rollover the amounts to a new retirement plan. The Plan's assets have been fully liquidated or rolled over as of the date of the financial statements were issued. The Plan evaluated subsequent events through the date the financial statements were issued which was October 10, 2013.
