Report on the Financial Statements

We were engaged to audit the accompanying financial statements of National H.V.A.C. 401(k) RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012 AND 2011

NOTE 1 - DESCRIPTION OF PLAN

The following description of the National H.V.A.C. Service, Ltd. 401(k) Retirement Savings Plan (Plan) provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

The Plan is a defined contribution profit sharing plan covering substantially all employees of National H.V.A.C. Service, Ltd. (Company) who are not covered by a collective bargaining agreement and have reached the age of 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Participants are permitted to make contributions to the Plan by payroll deduction subject to a \$17,000 limitation in 2012 under the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Currently, the Plan offers eighteen (18) mutual funds and a fixed investment account as investment options for participants. Participants may change their investment election for future contributions or the percentage(s) invested in each of these options or transfer funds among these options on any business day.

The Company may make discretionary matching contributions as determined by the Board of Directors. The Company's discretionary matching contribution for the plan year ended December 31, 2012 was 30% of the amount that a participant contributes to the Plan, up to 5% of compensation.

Participants' Accounts - Each participant's account is credited with the participant's contributions, the Company's matching contributions, allocation of Plan earnings and certain administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Payment of Benefits - On termination of service due to death, disability or retirement, a participant or his or her beneficiary may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum amount. Participants may elect to withdraw all or a portion of their account, without terminating employment with the Company, upon attaining the age of 59-1/2. In addition, the Plan provides for withdrawals, other than distributions to terminated employees, based on financial hardship. The Plan administrator may determine that a financial hardship exists based on several events outlined in the plan document. Events that may constitute financial hardship include expenses for medical care, payment of tuition expenses, costs related to the purchase of a principal residence, payments necessary to prevent the participant from being evicted from his or her principal residence, funeral expenses and certain expenses for repair of a principal residence. In addition, the Plan administrator must also determine if the participant has any other alternative resources available to him/her before granting a hardship withdrawal. After receiving a hardship withdrawal, a participant is not permitted to make elective contributions to the Plan for a period of six months.

Notes Receivable From Participants - Participants may borrow from their fund accounts up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Repayments of the notes are made in equal installments over a period not to exceed five years (unless the loan is for the purchase of a primary residence). The notes are secured by the balance in the participant's account and bear interest at a fixed rate on the date of origination based upon the prime lending rate (3.25% at December 31, 2012). Principal and interest are paid through weekly payroll deductions.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012 AND 2011

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contributions credited to a participant's account is based on years of continuous service. Participants are 100% vested upon completion of three years of vesting service.

Forfeitures - Forfeitures of terminated participants' nonvested accounts are used to reduce subsequent Company contributions. Total forfeitures available for use by the Plan totaled approximately \$3,700 and \$1,400 as of December 31, 2012 and 2011, respectively.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of significant accounting policies consistently applied by the Plan administrator in the preparation of the accompanying financial statements follows:

Basis of Accounting - The accompanying financial statements of the Plan are prepared under the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. No allowance for credit losses has been recorded as of December 31, 2012 or 2011. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Guaranteed Investment Contracts - As described in the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC), topic Financial Services - Investment Companies, fully benefit-responsive investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount that participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by the topic, the statement of net assets available for benefits as of December 31, 2012 and 2011 presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value.

401(k) RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012 AND 2011

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Excess Contribution Payable - Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2012 excess contributions payable to the applicable participants prior to March 15, 2013.

Payment of Benefits - Benefits are recorded when paid.

Administrative Expenses - Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events - Management has evaluated subsequent events through October 10, 2013, the date on which the financial statements were available to be issued.

Recent Accounting Pronouncements - In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-04, Fair Value Measurement: Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs. This ASU provides a consistent definition of fair value to ensure that the fair value measurement and disclosure requirements are similar between U.S. GAAP and IFRS. This standard changes certain fair value measurement principles and enhances the disclosure requirements. ASU No. 2011-04 is effective for interim and annual periods beginning after December 15, 2011 and should be applied prospectively. The adoption of this ASU did not have a material impact on the Plan's financial statements.

In February 2013, the FASB issued ASU No. 2013-03, Clarifying the Scope and Applicability of a Particular Disclosure to Nonpublic Entities, which clarifies that nonpublic entities that have total assets of \$100 million or more or that have one or more derivative instruments would not qualify for exemption to disclose the fair value of financial instruments. It also clarifies that a nonpublic entity is not required to provide the level of the fair value hierarchy (Level 1, 2 or 3) for items disclosed at fair value but not measured at fair value in the statement of financial position. This guidance is effective immediately upon issuance and did not have a significant impact on the Plan's financial statements.

NOTE 3 - INVESTMENT CONTRACT WITH INSURANCE COMPANY

In 2008, the Plan entered into a benefit-responsive investment contract with ING Life Insurance and Annuity Company (ING), which maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by ING. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012 AND 2011

NOTE 3 - INVESTMENT CONTRACT WITH INSURANCE COMPANY (Continued)

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by ING, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract was \$1,213,711 and \$924,574 at December 31, 2012 and 2011, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 3%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

	<u>2012</u>	<u>2011</u>
Average yields:		
Based on actual earnings	3.0%	3.0%
Based on interest rate credited to participants	3.0%	3.0%

NOTE 4 - INVESTMENTS

The following presents investments that represent 5% or more of the Plan's net assets:

	<u>December 31</u>	
	<u>2012</u>	<u>2011</u>
ING Fixed Account (at contract value)	\$ 1,101,830	\$ 860,911

ING Solution 2035 Portfolio - Advisor Class	743,005	599,461
ING Solution 2045 Portfolio - Advisor Class	289,667	330,478

During 2012, the Plan's mutual funds (including the gains and losses on investments bought, sold and held during the year) appreciated in value by \$319,992.

NOTE 5 - FAIR VALUE MEASUREMENT

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access

Level 2 - Inputs to the valuation methodology include: (i) quoted prices for similar assets or liabilities in active markets; (ii) quoted prices for identical or similar assets or liabilities in inactive markets; (iii) inputs other than quoted prices that are observable for the asset or liability or (iv) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement. Inputs reflect management's best estimate of what market participants would use in valuing the asset or liability at the measurement date.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual Funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Investment Contract with Insurance Company - Investment contracts with insurance companies are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only.

The methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

NOTE 5 - FAIR VALUE MEASUREMENT (Continued)

A summary of changes in the fair value of the Plan's Level 3 assets for the years ended December 31, 2012 is as follows:

Balance, beginning of year	\$ 924,574
Unrealized gains	48,218
Investment income	28,911
Purchases and issuances	350,139
Sales and settlements	(138,131)

Balance, end of year	<u><u>-</u></u>

Fixed investment options, which were previously classified as Level 3, have been reclassified as Level 2 as a result of additional information becoming available with respect to the underlying pricing methodologies.

NOTE 6 - INFORMATION CERTIFIED BY THE PLAN CUSTODIAN

ING, the custodian of the Plan, has certified that certain information is complete and accurate as of December 31, 2012 and 2011 and for the year ended December 31, 2012. Such information includes the composition, cost and current value of the investments reported in the statements of net assets available for benefits and related interest and dividends and net appreciation in fair value of investments reported in the statement of changes in net assets available for benefits.

NOTE 7 - PLAN TERMINATION

Although it has not expressed the intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 8 - FEDERAL INCOME TAX STATUS

The Plan adopted a Prototype Nonstandardized Profit Sharing Plan (Prototype) with a cash or deferral arrangement. The Prototype received an opinion letter from the Internal Revenue Service on March 31, 2008 that stated the Plan and related Trust are designed in accordance with applicable sections of the Internal Revenue Code(IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

NATIONAL H.V.A.C. SERVICE, LTD.
401(k) RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012 AND 2011

NOTE 8 - FEDERAL INCOME TAX STATUS (Continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes that the Plan is no longer subject to income tax examinations for years prior to 2009.

NOTE 9 - RELATED PARTIES

Certain Plan investments in shares of mutual funds and a fixed account are managed by ING, the custodian as defined by the Plan; therefore, these transactions qualify as party-in-interest transactions.

NOTE 10 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities that are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
