Note 1. Plan Description

The following description of the Pacific Harbor Line, Inc. Union 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering employees of Pacific Harbor Line, Inc. (the Company) who have attained age 18, completed 1,000 hours of service within seven consecutive months, and are part of a collectively bargained agreement, provided they are not excluded as defined in the plan document. Upon meeting eligibility requirements, unless a salary deferral agreement is executed, an employee will be automatically enrolled in the Plan, and be eligible for Company profit sharing contributions. Participants must enter into a salary deferral agreement to either change their contribution percentage or elect to not make contributions to the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may contribute to the Plan pretax annual compensation, as defined by the Plan, up to the maximum amount allowed by the Internal Revenue Code (IRC). Participants may also contribute amounts representing distributions from other qualified plans. In addition, participants age 50 or older may make catch-up contributions to the Plan.

The Company makes profit sharing contributions to the Plan equal to 1 percent of the participants' eligible compensation. Profit sharing contributions are made each pay period. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's contribution and Company profit sharing contribution, and allocations of plan earnings, as applicable and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment options: Upon enrollment in the Plan, a participant may direct investment contributions in a variety of investment choices as more fully described in the Plan's literature. Participants may change their investment options at any time.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Note terms range from one to five years, or longer for the purchase of a primary residence. The notes are secured by the balance in the participant's account and bear interest at a reasonable rate as determined by the Plan Administrator. As of December 31, 2012, interest rates range from 4.25 percent to 9.25 percent. Principal and interest are paid ratably through payroll deductions.

Vesting: Participants are immediately vested in their contributions, as well as Company contributions plus actual earnings thereon.

Forfeited accounts: Participants are immediately 100 percent vested in both employee and Company contributions.

Payment of benefits: Upon termination of service, disability, retirement, or death, a participant may elect to receive either a lump-sum amount equal to the value of the participant's account or in the form of installments over a selected period not to exceed assumed life expectancy. Distributions may also be made from the Plan in cases of financial hardship.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Accounting estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of plan assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Committee determines the Plan's valuation policies using information provided by the investment custodian and insurance company. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Payment of benefits: Benefits are recorded when paid.

Recent accounting pronouncement: In May 2011, the Financial Accounting Standards Board (FASB) issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs, (ASU 2011-04).* ASU 2011-04 amended ASC 820, *Fair Value Measurements*. This update changes certain fair value measurement principles and enhances the disclosure requirements particularly for Level 3 fair value measurements. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Adoption is not expected to have an impact on the financial statements.

In October 2012, the FASB issued ASU 2012-04, *Technical Corrections and Improvements*. The amendments in this Update cover a wide range of Topics in the Accounting Standards Codification, including plan accounting. These amendments include technical corrections and improvements to the Accounting Standards Codification and conforming amendments related to fair value measurements. The amendments in this update will generally be effective for fiscal periods beginning after December 15, 2013, for non public entities, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The adoption of immediately effective amendments was not significant to these financials. The impact of adopting ASU 2012-04 on subsequent periods has not yet been determined.

Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements and supplemental schedules related to the following asset and income:

Note 5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2012 and 2011.

Shares of registered investment companies: Valued at the quoted market price of shares held by the Plan at year-end.

Shares of common/collective trust: Valued at net asset value of the collective trust funds by the Plan at year-end.

Note 5. Fair Value Measurements (Continued)

(a) This category invests in investment contracts and security-backed contracts. An investment contract is a contract issued by a financial institution to provide a stated rate of return to the buyer of the contract for a specified period of time. A security-backed contract has similar characteristics as a traditional investment contract and is comprised of two parts; the first part is a fixed-income security or portfolio of fixed-income securities; the second part is a contract value guarantee (wrapper) provided by a third party. Wrappers provide contract value payments for certain participant-initiated withdrawals and transfers, a floor crediting rate, and return of fully accrued contract value at maturity.

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

We evaluate the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2012, there were no significant transfers in or out of Level 3.

Note 6. Related-Party Transactions

Certain plan investments are shares of registered investment companies managed by the trustee. EMJAY Corporation is the trustee as defined by the Plan. Total fees paid by the Plan for the recordkeeping services were $6,769 during 2012.

Certain employees of the Company provide trustee and administrative services to the Plan. These employees do not receive any compensation from the Plan for their services. Also, certain administrative expenses were paid by the Company on behalf of the Plan.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 8. Tax Status

Effective July 8, 2011, the Plan adopted a non-standardized form of a prototype plan sponsored by the EMJAY Corporation. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Note 8. Tax Status (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for periods prior to 2009.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Lost earnings on 2011 deposits were calculated and deposited to the trust in 2011 and 2012. The Form 5330 for 2012 was filed to remit the applicable excise tax to the IRS during 2011 and 2012. The applicable excise tax payment was made from the Plan Sponsor's assets and not from assets of the Plan.
