Notes to Financial Statements
December 31, 2012 and December 31, 2011

NOTE 1 - Description of the Plan

The following description of the Modern Disposal Services, Inc. 401(k) Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Modern Disposal Services, Inc., Lewiston Trucking, Inc., Modern Landfill, Inc., Modern Recycling, Inc., Modern Environmental Group, Inc., Natural Environmental, Inc., H2GROW LLC and Buffalo Recycling Enterprises, LLC (the Participating Companies) who have completed one year of service and attained age twenty-one. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to 75% of their compensation on a pre-tax basis, as defined in the Plan. Participants who have attained age 50 before the close of the Plan year are eligible to make catch-up contributions. Participants direct the investment of their accounts into various investment options offered by the Plan.

The Participating Companies may contribute matching contributions as a percentage of the first 10% of compensation that a participant contributes to the Plan. The matching percentage was 50% for each of the years ended December 31, 2012 and 2011.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Participating Companies' matching contributions, if any, and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in all contributions withheld from employees plus actual earnings thereon. Vesting in the Participating Companies' contribution portion of their accounts is based upon years of service. A participant is 100% vested after three years of credited service. No vesting occurs during the first two years of service.

Forfeitures

Forfeitures of participants unvested employer matching contributions and earnings thereon are first applied to reduce administrative expenses of the Plan and any remaining amounts are applied against employer matching contributions. There were no forfeitures in 2012.

Operating Expenses

In the year ended December 31, 2012, none of the Plan's administrative expenses were paid by any of the Participating Companies..

NOTE 1 - Description of the Plan (Continued)

Notes Receivable from Participants

Participants may borrow from their fund accounts (subject to limited uses as described in the Plan) a minimum of $1,000 up to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at prime rate plus 1% as established by the trustee. All loans are required to be repaid within five years, unless such loan is for the purchase of a participant's primary residence, in which case the loan must be repaid within ten years from the date of the loan. Principal and interest is paid ratably through weekly payroll deductions. A loan becomes immediately due and payable upon a Participant's termination of employment, or death.

Benefit Payments

A participant undergoing certain types of financial hardship, as defined by the Plan, may request the Plan administrator to distribute all or a portion of the participant's deferral contributions.

On termination of service or retirement, lump sum payments are available under the Plan, or participant's may elect distributions under a systematic withdrawal plan (installments). If a participant's account balance is less than or equal to $5,000, distribution may be made to the participant as soon as reasonably practicable following his termination in a lump sum payment. A participant who becomes disabled, as defined in the Plan, is eligible for disability retirement.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the plan subject to the provisions of ERISA.

NOTE 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the Plan's investments including a stable value fund that contains investment contracts. There is an adjustment on this statement for this fund's investment in fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis with respect to the stable value fund transactions.

Notes Receivable from Participants

Loans to participants are reported at their unpaid principal balances plus any accrued interest.

NOTE 2 - Summary of Significant Accounting Policies (Continued)

Estimates

The preparation of financial statements in conformity with accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

NOTE 3 - Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The fair value measurements accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 3 inputs were available to the Plan and Level 2 inputs were only used when Level 1 inputs were not available.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

Level 2 Fair Value Measurements

The Morley Stable Value Fund is a stable value investment (common collective trust fund) which invests in conventional, synthetic and separate account investment contracts (collective contracts) issued by life insurance companies, banks and other financial institutions. The fund is not actively traded and significant other observable inputs are not available. The fair value of the funds investment contracts are determined using a discounted cash flow methodology where the individual contract cash flows are discounted at the prevailing interpolated yield curve rate as of year-end. The average yield earned by the Plan from the Morley Stable Value Fund was .87% and 1.37% for the years ended December 31, 2012 and 2011, respectively.

See Note 4 for the Plan's investments at fair value by level within the fair value hierarchy as of December 31, 2012 and 2011.

Certified Investments

Other than the adjustment from fair value to contract value for the Morley Stable Value Fund, investments and information related to notes receivable from participants held at December 31, 2012 and 2011, net appreciation in fair value of investments, dividends and interest for the year ended December 31, 2012, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by TD Ameritrade Trust Company, the Plan's custodian.

NOTE 5 - Related Party Transactions

The Plan receives services from a third party administrator, an asset custodian, an investment advisor and a certified public accounting firm that qualify as party-in-interest transactions. Fees paid by the Plan in 2012 for these services amounted to $70,311.

NOTE 6 - Tax Status

The Plan is an adoption agreement of a Prototype Non-Standardized Cash or Deferred Profit Sharing Plan in which Datair Mass-Submitter is the prototype sponsor. This adoption agreement is effective January 1, 2011. The prototype plan obtained its Internal Revenue Service (IRC) determination letter January 31, 2006. The Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

The Plan files an annual Federal Form 5500 which is subject to audit. The tax years that remain subject to examination are 2009 through 2012. The Plan trustees believe that there are no tax exposures.

NOTE 7 - Risks and Uncertainties

The Plan participants invest in various investment securities (mutual funds and a stable value fund). These investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 8 - Evaluation of Subsequent Events

Management has evaluated subsequent events through September 24, 2013, the date which the financial statements were available to be issued.
