NOTE A BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Serimax 401(k) Plan (the Plan) was adopted effective January 1, 2007 to establish a savings and investment plan for the exclusive benefit of the employees of Serimax (the Plan Sponsor or Company) and their beneficiaries. The Plan is a defined contribution plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Basis of Presentation - The financial statements of the Serimax 401(k) Plan are prepared on the accrual basis of accounting. Interest income is recognized when earned.

Estimates - The preparation of financial statements in conformity with generally accepted accounting principles in the United States (GAAP) requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan provides for various investment options, which are exposed to certain risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.

Valuation of Investments - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In accordance with the policy of stating investments at fair value, net investment gain or loss is included in the carrying value of related investments in the statements of net assets available for plan benefits and the changes in the net investment gain or loss are reflected in the statement of changes in net assets available for plan benefits.

Notes Receivable from Participants - GAAP requires that loans to participants be reported as receivable from participants at the unpaid principal balance plus any accrued but unpaid interest.

Federal Income Tax - The Company adopted a non-standardized prototype 401(k) and profit sharing plan (the "Prototype Plan") with deferral arrangements. The Prototype Plan received a favorable opinion letter from the Internal Revenue Service on August 7, 2001, which stated that the Prototype Plan and related trust constitutes a qualified trust under Section 401(a) of the Internal Revenue Code and is therefore, exempt from federal income taxes. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Accordingly, the Plan Administrator believes the Plan was qualified and the related trust was tax-exempt as of December 31, 2012.

NOTE A BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The Plan believes that all significant tax positions utilized by the Plan will more likely than not be sustained upon examination. As of December 31, 2012, the tax years that remain subject to examination by the major tax jurisdictions under the statute of limitations are from the year 2009 forward (with limited exceptions). Tax penalties and interest, if any, would be accrued as incurred and would be classified as tax expense in the statement of changes in net assets available for plan benefits.

NOTE B PLAN DESCRIPTION

The following description of the Plan provides only general information about the Plan. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

Participation - A non-union employee is eligible to become a participant in the Plan on the first day of the month coinciding with or following completion of ninety days of service and attainment of age 21.

Contributions - Participants may elect to make pre-tax and after-tax contributions to the Plan in an annual amount ranging up to 100% of their compensation. Contributions are made through authorized payroll reductions. These contributions by individual employees were limited to $17,000 in 2012 ($22,500 for participants who have attained age 50 by the end of the calendar year). This limitation is periodically adjusted to reflect cost-of-living increases.

For the 2012 Plan year, the Company elected to contribute a safe harbor basic matching contribution equal to 100% of salary deferrals not exceeding 3% of each eligible employee's compensation plus 50% of salary deferrals between 3% and 5% of each eligible employee's compensation. The Company may make additional contributions, in an amount determined solely at the discretion of the Directors of the Company. Such additional discretionary contributions, if any, are allocated pro rata to all eligible participants employed at year end based upon the proportion of the participant's compensation to the total compensation of all eligible participants. There were no discretionary contributions for the year ended December 31, 2012.

Each participant account is credited with the participant's contribution, the Company's contribution, and a pro rata share of the earnings of each fund in which the participant has invested.

Vesting - A participant is immediately fully vested with respect to the portion of the participant's account attributable to participant contributions, the Company's safe harbor basic matching contributions, and related earnings.

A participant becomes fully vested in Company non safe harbor basic matching and discretionary contributions (profit sharing) and related earnings upon the earlier of: 1) four years of service, or 2) attainment of age 65. Vesting of 25% of Company discretionary contributions occurs upon one year of service, 50% upon two years of service, 75% upon three years of service and 100% upon four years of service.

NOTE B PLAN DESCRIPTION (CONTINUED)

Forfeitures - Forfeitures of account balances not fully vested are used to reduce future employer contributions to the Plan or to pay administrative expenses of the Plan. Forfeitures generated in 2012 amounted to $4,822.

Forms of Benefits - Benefits are recorded when paid. The form of benefit payable under this Plan is a lump sum. If the amount payable is $5,000 or less, the participant may receive a lump sum distribution as soon as feasible following the date of termination. If the amount payable is greater than $5,000, the participant must give written consent before the distribution can be made. If the amount of the distribution exceeds $1,000 and the participant does not elect to either receive or roll over the distribution, then the participant's distribution will be rolled over to an Individual Retirement Account (IRA).

Participant Loans - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer between the investment fund and participant loans receivable. Loan terms range from 1 to 5 years or longer for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with prevailing rates. Interest rate on loans outstanding at December 31, 2012 is 4.25%.

Investments - Each participant directs the investment of their account into any of the investment options designated by the Plan Administrator.

Administration - Two officers of the Company are trustees of the Plan. The Company is administrator for the Plan. The Company, as the Plan Administrator, may, at its discretion, pay the Plan's administrative expenses. Any Plan expenses not paid by the Company will be paid by the Plan. Substantially all Plan expenses were paid by the Company for 2012.

Plan Termination - Although the Company has not made a determination to terminate the Plan, the Company has the right under the Plan to terminate the Plan subject to provisions set forth in ERISA. During the year ended December 31, 2012, there was a partial plan termination due to the divestiture of employees after a major project completion and employee resignations. There was no financial statement impact, as the affected participants were 100% vested in their accounts prior to the partial plan termination.

NOTE D FAIR VALUE DISCLOSURES

GAAP provides a framework for measuring fair value using a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value based upon whether the inputs to those valuation techniques are observable or unobservable. This hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical financial instruments and the lowest priority to unobservable inputs. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. The financial instrument's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. These inputs are summarized in the three broad levels listed below:

Level 1 – Unadjusted quoted prices for identical financial instruments in active markets that the Plan has the ability to access.

Level 2 – Other significant observable inputs (including quoted prices in active and inactive markets and inactive markets for similar financial instruments), or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the financial instruments.

Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the financial instruments. The fair value of Level 3 financial instruments is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

Following is a description of the valuation technique used for investments measured at fair value. There have been no changes in the technique used during 2012 and 2011.

Investments in pooled separate accounts and the common/collective trust are valued by the fund trustee based on the fair value of the underlying investments.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation technique is appropriate and consistent with other market participants, the use of different techniques or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair values of investments are categorized as follows at December 31, 2012 and 2011:

	2012			
	Level 1	Level 2	Level 3	Total
Pooled Separate Accounts				
Value Funds	$ -	$ 276,753	$ -	$ 276,753

Fixed Income Funds	-	275,646	-	275,646
Total Investments at Fair Value	$ -	$ 1,522,959	$ -	$ 1,522,959

NOTE D FAIR VALUE DISCLOSURES (CONTINUED)

	2011			
	Level 1	Level 2	Level 3	Total
Pooled Separate Accounts				
Value Funds	$ -	$ 218,187	$ -	$ 218,187

Common/collective Trust	-	66,926	-	66,926
Total Investments at Fair Value	$ -	$ 1,252,865	$ -	$ 1,252,865

There were no significant transfers in and/or out of the fair value categories during 2012 and 2011.

NOTE E PARTY-IN-INTEREST

The Plan invests in various funds trusted by Hartford Life Insurance Company. These investments are considered party-in-interest transactions because Hartford Life Insurance Company serves as asset custodian of the Plan. The Plan Sponsor has approved these investment options.

NOTE F RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500

The financial statements classify certain investments as pooled separate accounts, where as, the Form 5500 classifies these same investments as registered investments companies.

NOTE G SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through October 8, 2013, the date the financial statements were available to be issued. Significant subsequent events are as follows:

For the 2012 Plan year, the Company elected to contribute a safe harbor basic matching contribution equal to 100% of salary deferrals not exceeding 3% of each eligible employee's compensation plus 50% of salary deferrals between 3% and 5% of each eligible employee's compensation. The Company may make additional contributions, in an amount determined solely at the discretion of the Directors of the Company. Such additional discretionary contributions, if any, are allocated pro rata to all eligible participants employed at year end based upon the proportion of the participant's compensation to the total compensation of all eligible participants. There were no discretionary contributions for the year ended December 31, 2012.

Each participant account is credited with the participant's contribution, the Company's contribution, and a pro rata share of the earnings of each fund in which the participant has invested.

Vesting - A participant is immediately fully vested with respect to the portion of the participant's account attributable to participant contributions, the Company's safe harbor basic matching contributions, and related earnings.

A participant becomes fully vested in Company non safe harbor basic matching and discretionary contributions (profit sharing) and related earnings upon the earlier of: 1) four years of service, or 2) attainment of age 65. Vesting of 25% of Company discretionary contributions occurs upon one year of service, 50% upon two years of service, 75% upon three years of service and 100% upon four years of service.

NOTE B PLAN DESCRIPTION (CONTINUED)

Forfeitures - Forfeitures of account balances not fully vested are used to reduce future employer contributions to the Plan or to pay administrative expenses of the Plan. Forfeitures generated in 2012 amounted to $4,822.

Forms of Benefits - Benefits are recorded when paid. The form of benefit payable under this Plan is a lump sum. If the amount payable is $5,000 or less, the participant may receive a lump sum distribution as soon as feasible following the date of termination. If the amount payable is greater than $5,000, the participant must give written consent before the distribution can be made. If the amount of the distribution exceeds $1,000 and the participant does not elect to either receive or roll over the distribution, then the participant's distribution will be rolled over to an Individual Retirement Account (IRA).

Participant Loans - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer between the investment fund and participant loans receivable. Loan terms range from 1 to 5 years or longer for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with prevailing rates. Interest rate on loans outstanding at December 31, 2012 is 4.25%.

Investments - Each participant directs the investment of their account into any of the investment options designated by the Plan Administrator.

Administration - Two officers of the Company are trustees of the Plan. The Company is administrator for the Plan. The Company, as the Plan Administrator, may, at its discretion, pay the Plan's administrative expenses. Any Plan expenses not paid by the Company will be paid by the Plan. Substantially all Plan expenses were paid by the Company for 2012.

Plan Termination - Although the Company has not made a determination to terminate the Plan, the Company has the right under the Plan to terminate the Plan subject to provisions set forth in ERISA. During the year ended December 31, 2012, there was a partial plan termination due to the divestiture of employees after a major project completion and employee resignations. There was no financial statement impact, as the affected participants were 100% vested in their accounts prior to the partial plan termination.

NOTE D FAIR VALUE DISCLOSURES

GAAP provides a framework for measuring fair value using a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value based upon whether the inputs to those valuation techniques are observable or unobservable. This hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical financial instruments and the lowest priority to unobservable inputs. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. The financial instrument's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. These inputs are summarized in the three broad levels listed below:

Level 1 – Unadjusted quoted prices for identical financial instruments in active markets that the Plan has the ability to access.

Level 2 – Other significant observable inputs (including quoted prices in active and inactive markets and inactive markets for similar financial instruments), or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the financial instruments.

Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the financial instruments. The fair value of Level 3 financial instruments is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

Following is a description of the valuation technique used for investments measured at fair value. There have been no changes in the technique used during 2012 and 2011.

Investments in pooled separate accounts and the common/collective trust are valued by the fund trustee based on the fair value of the underlying investments.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation technique is appropriate and consistent with other market participants, the use of different techniques or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair values of investments are categorized as follows at December 31, 2012 and 2011:
