Note 1. Description of Plan

The following description of the DRW Trading Group Profit Sharing and Salary Deferral Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all eligible employees of DRW Holdings, LLC and DRW Associates LLC (collectively, the Company) who are age 21 or older. Effective February 1, 2012, the Plan also covers employees of Convexity Properties LLC. Eligible employees are able to begin participating in the Plan the first day of the month following the later of their date of hire or attainment of age 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may contribute up to 75 percent of pre-tax or after-tax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company may contribute a matching contribution to active participants who are employed on June 30 or December 31 and have made salary deferral contributions during the plan year. For 2012, the Company elected to match 50 percent of the first 6 percent that a participant contributes to the Plan with that match being a maximum of $7,000. Salary deferral contributions designated as catch-up contributions are not matched. The Company may change the matching formula from year to year, and may declare a zero match for any plan year. The Company may also make discretionary profit sharing contributions to the Plan at the end of the plan year based on the Company's profitability. No profit sharing contributions were made to the Plan for the year ended December 31, 2012. The amount of the participant's pre-tax and/or after-tax contributions can be limited to ensure that the Plan satisfies the requirements of federal tax law or to honor deductions that a participant has elected (such as health insurance premiums) or that are required under law (such as wage garnishments).

Participant accounts: Each participant's account is credited with the participant's contribution, allocations of Company profit sharing and matching contributions, if any, and plan earnings, and charged with any applicable administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment: Upon enrollment in the Plan, a participant may direct the investment of their contributions in a variety of investment choices as more fully described in the Plan's literature. Participants may change their investment options at any time.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of credited service. A participant who earns at least one hour of service on or after January 1, 2011 is 25 percent vested after one year of credited service, 50 percent vested after two years of credited service, 75 percent vested after three years of credited service, and fully vested after four years of credited service. Participants who do not earn at least one hour of service on or after January 1, 2011 are 20 percent vested after two years of credited service, 40 percent vested after three years of credited service, 60 percent vested after four years of credited service, 80 percent vested after five years of credited service, and fully vested after six years of credited service. Participants who attain normal retirement age of 65, or who terminate employment due to death or disability are 100 percent vested in their account balances.

Note 1. Description of Plan (Continued)

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Participant's after-tax contribution accounts are not available for a loan. Loan terms range from 1-5 years or up to 10 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate of prime plus 1 percent, set at time of withdrawal. Participants are charged a one time fixed fee at the time the loan is originated and may be charged an annual administration fee as described in the plan document. Interest rates on participant loans outstanding at December 31, 2012 are at 4.25 percent. Principal and interest are paid ratably through semi-monthly payroll deductions.

Payment of benefits: On termination of service due to death, disability, attainment of age 59 ½, proven financial hardship or retirement, a participant may elect to receive a lump-sum cash distribution equal to the value of the participant's vested interest in their account.

Forfeited accounts: At December 31, 2012 and 2011, forfeited nonvested accounts totaled $27,652 and $25,972, respectively. These accounts may be used to reduce the Company's discretionary matching contribution in future periods and/or, at the discretion of the Plan Committee, to pay reasonable administrative expenses of the Plan. As of December 31, 2012, the employer contribution receivable of $416,500 has been reduced by the forfeited nonvested account total of $27,652. During 2012, the Company discretionary matching contributions were reduced by $78,719 from forfeited nonvested accounts. No administrative expenses were paid out of forfeited nonvested accounts for the year ended December 31, 2012.

Note 2. Summary of Accounting Policies

Basis of accounting: The financial statements of the Plan have been prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As of December 31, 2011 and during the year ended December 31, 2012, the Plan invested in investment contracts, through its investment in a common/collective trust. The statements of net assets available for benefits presents the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value, as applicable. The statement of changes in net assets available for benefits is prepared on a contract value basis. As of December 31, 2012, the Plan was no longer invested in the common/collective trust.

Accounting policies: The Plan follows Generally Accepted Accounting Principles (GAAP), as established by the Financial Accounting Standards Board (the FASB), to ensure consistent reporting of financial condition.

Use of estimates: The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2. Summary of Accounting Policies (Continued)

Investment valuation and income recognition: Investments are reported at fair value. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment custodian. See Note 5 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on trade date. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Administration expenses of the Plan are paid by the Plan as provided in the plan document. Certain other administrative expenses are paid by the Company on behalf of the Plan, without reimbursement.

Recent accounting pronouncements: In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs, (ASU 2011-04).* ASU 2011-04 amended ASC 820, *Fair Value Measurements.* This update changes certain fair value measurement principles and enhances the disclosure requirements particularly for Level 3 fair value measurements. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. See Note 5 for impact of adoption, which did not have a material impact on the financial statements.

In October 2012, the FASB issued ASU 2012-04, *Technical Corrections and Improvements*. The amendments in this update cover a wide range of Topics in the Accounting Standards Codification, including plan accounting. These amendments include technical corrections and improvements to the Accounting Standards Codification and conforming amendments related to fair value measurements. The amendments in this update will generally be effective for fiscal periods beginning after December 15, 2013, except for amendments in this update where there was no transition guidance available upon issuance. The adoption of immediately effective amendments was not significant to these financials. The adoption of ASU 2012-04 is not expected to have a material impact on subsequent periods.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through October 7, 2013, the date the financial statements were available to be issued.

Note 3. Investments

The fair values of investments that represent 5 percent or more of the Plan's net assets available for benefits as of December 31, 2012 and 2011, are as follows:

	December 31, 2012	December 31, 2011
Shares of registered investment companies:		
Vanguard 500 Index Fund Signal Shares	$ 5,324,092	$ 3,766,392

During the year ended December 31, 2012, the Plan's investments, including gains and losses on investments bought and sold, as well as held during the year, appreciated in fair value as follows:

Shares of registered investment companies	$ 3,095,810
Shares of common/collective trust	11,024
	$ 3,106,834

Note 4. Information Certified or Provided by Charles Schwab Bank

The following is a summary of the Plan's asset information as of December 31, 2012 and 2011, and for the year ended December 31, 2012, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information certified or provided by Charles Schwab Bank and furnished to the Plan Administrator. Charles Schwab Trust Company, a subsidiary of Charles Schwab Bank, is the trustee for the Plan. The Plan Administrator has obtained certifications from Charles Schwab Bank that the information provided to the Plan Administrator by Charles Schwab Bank related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

	2012	2011
Shares of registered investment companies, at fair value	$ 36,451,818	$ 26,136,426
Shares of common/collective trust, at contract value	-	1,500,021

Charles Schwab Bank also certified the completeness and accuracy of $3,106,834 of net appreciation in fair value of investments and $1,050,376 of interest and dividends related to the aforementioned investments for the year ended December 31, 2012.

Note 5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date;

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs that are unobservable for the asset or liability and include situations where there is little, if any, market activity for the asset or liability.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 as compared to 2011.

Shares of registered investment companies: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trust: Valued based on the net asset value (NAV) of shares of the common/collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Note 5. Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

Note 5. Fair Value Measurements (Continued)

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using NAV per share (or its equivalent) as of December 31, 2011:

Investment	Fair Value	Redemption Frequency	Redemption Notice Period
Shares of common/collective trust Charles Schwab Stable Value Fund, Advisor Class	$ 1,510,444	Annual *	30 days *

* At the Plan level.

The Charles Schwab Stable Value Fund invested primarily in investment contracts issued by banks, insurance companies and other financial institutions. The underlying investments of this fund could be redeemed, by participants, daily at the current NAV per share based on the fair value of the underlying assets without a redemption notice period. The fair value of such fund had been based on the fair value of the fund's underlying investments, determined based on the quoted market prices, as reported in the audited financial statements of the fund at year-end.

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2012, there were no transfers in or out of Levels 1, 2, or 3.

Note 6. Related-Party Transactions

As of December 31, 2011 and through April 23, 2012, the Plan invested in a common/collective trust managed by Charles Schwab Trust Company, the trustee of the Plan. Furthermore, the Plan invests in registered investment companies managed by Charles Schwab & Co. Inc., an affiliate of Charles Schwab Trust Company. Therefore, these transactions qualify as party-in-interest transactions.

Certain employees of the Company provide administrative services to the Plan and neither the Company nor the employees receive reimbursement from the Plan.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their accounts.

Note 8. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated August 15, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter; however, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for years before 2009.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500:
