Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information discussed in Note G, which was certified by ING Life Insurance and Annuity and State Street Bank and Trust Company, the custodian and trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that ING Life Insurance and Annuity holds the Plan's investment assets and executes investment transactions from January 1, 2012 through April 2, 2012, and that State Street Bank and Trust Company holds investment assets and executes investment transactions from April 2, 2012 through December 31, 2012. The Plan administrator has obtained a certification from the custodian and trustee as of December 31, 2012 and 2011, and for the year ended December 31, 2012, that the information provided to the Plan administrator by the custodian and trustee is complete and accurate.

RARITAN AMERICAS, INC. EMPLOYEE SAVINGS PLAN

Notes to Financial Statements December 31, 2012 and 2011

NOTE A - DESCRIPTION OF THE PLAN

The following description of Raritan Americas, Inc. Employee Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. The Plan is sponsored by Raritan Computer, Inc. (the "Company").

[1] General:

The Plan is a participant directed, defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

[2] Eligibility:

Employees are eligible to participate in the Plan after completing two months of service and attaining the age of 21. Once eligible, employees can enroll on the first day of each quarter following the date on which they met requirements. Beginning on July 1, 2011, the Plan instituted automatic enrollment in which, unless the employee makes an alternative salary deferral election or opts out, the employer will withhold a portion of the employee's compensation from his/her pay each payroll period and contribute that amount to the Plan as a Pre-Tax 401k deferral.

[3] Contributions:

Subject to the Internal Revenue Service ("IRS") limitations, participants may elect to make contributions to the Plan. Eligible employees may directly roll over to the Plan amounts from another qualified plan.

In April, 2010, the Plan Sponsor reinstated matching contributions. The Company's contributions are calculated as a percent of employee's compensation as defined by the Plan document. Contributions are subject to certain limitations. The Company may also make an additional discretionary contribution on behalf of all eligible employees.

[4] Participant accounts:

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution, and related plan earnings or loss thereon. The participant and Company contributions and earnings or losses thereon are invested as directed by the participant into various investment funds. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

[5] Vesting and forfeitures:

Participants are vested in their Company's contributions based on a six-year graded schedule, at the rate of 20% per year after one year of service. When an employee terminates and is less than 100% vested in the employer account, the employee forfeits the non-vested portion of such account. Forfeitures are retained in the Plan and used to reduce future employer contributions. Forfeitures of approximately \$59,900 and \$42,400 were used to reduce employer contributions during the year ended December 31, 2012 and 2011, respectively. Unused forfeitures were approximately \$3,000 and \$100 as of December 31, 2012 and 2011, respectively.

[6] Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Participants may borrow from their fund accounts a minimum of \$1,000, up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from one to five years; however, terms may exceed five years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator, ranging from 4.25% to 6.75%. Principal and interest are paid ratably through payroll deductions. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

RARITAN AMERICAS, INC. EMPLOYEE SAVINGS PLAN

Notes to Financial Statements December 31, 2012 and 2011

NOTE A - DESCRIPTION OF THE PLAN (CONTINUED)

[7] Payments of benefits:

All or a portion of a participant's balance is payable upon the participant's normal retirement, termination of employment, total and permanent disability or death, and financial hardship, subject to certain limitations. Benefits are recorded when paid.

[8] Operating expenses:

Substantially all expenses of maintaining the Plan are paid by the Company.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

[1] Basis of accounting:

The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

[2] Investment valuation and income recognition:

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note F for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net realized and unrealized appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

[3] Mutual fund fees:

Investments in mutual funds are subject to sales charges in the form of front-end loads, back-end loads or 12b-1 fees. 12b-1 fees, which are ongoing fees allowable under Section 12b-1 of the Investment Company Act of 1940, are annual fees deducted to pay for marketing and distribution costs of the funds. These fees are deducted prior to the allocation of the Plan's investment earnings activity and thus not separately identifiable as an expense.

[4] Use of estimates:

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan trustees to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities and the reported amounts of additions and deductions to net assets for the period then ended. Actual results could differ from those estimates.

[5] Accounting changes:

In 2012, the Plan adopted Financial Accounting Standards Board ("FASB") Accounting Standards Update ("ASU") No. 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs* (ASU 2011-04), effective for Plan years beginning after December 15, 2011. ASU 2011-04 amends Accounting Standards Codification ("ASC") 820 to converge the fair value measurement guidance in U.S. generally accepted accounting principles and International Financial Reporting Standards ("IFRSs"). Adoption of ASU 2011-04 had no effect on the financial statements.

RARITAN AMERICAS, INC. EMPLOYEE SAVINGS PLAN

Notes to Financial Statements December 31, 2012 and 2011

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

[6] Fully benefit responsive investments:

As required by the *Defined Contribution Pension Plan* topic of the FASB Codification, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit responsive contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

As required, the statement of net assets available for benefits presents the fair value of the investment contracts (guaranteed investment contract), as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

[7] Subsequent events:

The Plan has evaluated subsequent events through October 10, 2013, the date the financial statements were available to be issued.

NOTE C - RISKS AND UNCERTAINTIES

The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits. Users of the financial statements should be aware that the financial markets' volatility may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuation of investments at December 31, 2012 may not necessarily be indicative of amounts that could be realized in a current market exchange.

NOTE D - PLAN TERMINATION

While the Company has not expressed any intention to terminate or partially terminate the Plan, the Company reserves the right to amend or discontinue the Plan at any time subject to the provisions set forth in ERISA. Upon termination of the Plan, each member's individual account balance will be paid to such member as soon as practicable after a determination is made of the value of the participant's individual account.

NOTE E - TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the tax determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Accordingly, the accompanying financial statements do not include provision for income taxes.

RARITAN AMERICAS, INC. EMPLOYEE SAVINGS PLAN

Notes to Financial Statements December 31, 2012 and 2011

NOTE E - TAX STATUS (CONTINUED)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by a government authority. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE F - FAIR VALUE MEASUREMENTS

FASB's *Accounting Standards Codification*, (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements), and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include (1) quoted prices for similar assets or liabilities in active markets; (2) quoted prices for identical or similar assets or liabilities in inactive markets; (3) inputs other than quoted prices that are observable for the asset or liability, or (4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Guaranteed investment contract – Valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Since the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, a variety of factors are considered, including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate).

NOTE F - FAIR VALUE MEASUREMENTS (CONTINUED)

Pooled separate accounts – Valued at net asset value based on the market value of the underlying investments. The net asset value is not a publicly-quoted price in an active market. The Pooled separate account is comprised of a wide variety of underlying investments such as equities, preferred stock, bonds, real estate and mutual funds.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

NOTE F - FAIR VALUE MEASUREMENTS (CONTINUED)

The Plan administrator evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2012, there were no significant transfers in or out of Levels 1, 2 or 3. There was a sale of the level three investments when the Company switched record-keepers from ING Life Insurance and Annuity to State Street Bank and Trust Company on April 2, 2012.

Total Trust investment assets at fair value classified within Level 3 were \$0 and \$2,075,051 as of December 31, 2012 and 2011, respectively, which consists of guaranteed investment contracts. Such amounts were 0% and 20.0%, of net assets available for plan benefits at fair value as of December 31, 2012 and 2011, respectively.
